2019-2020
Graduate Catalog
www.tamuc.edu

An Equal Opportunity University

It is the policy of Texas A&M University-Commerce to recruit, hire, and promote for all university academic and non-academic staff without regard to race, color, national origin, gender, disability, age or religion.

Admission to A&M-Commerce is based upon stated academic requirements regardless of race, color, national origin, gender, disability, age or religion.

Directory Information and Its Release

In compliance with Section 438 of the General Education Provisions Act (Title IV of Public Law 90-247 as amended) and generally known as the Privacy Rights of Parents and Students, effective November 19, 1974, Texas A&M University-Commerce gives notice that the following directory information may be released upon request: student’s name, address (permanent or local), telephone listing, email address, classification, class standing, date(s) of attendance, date of graduation, degrees/honors/awards received, programs of study, previous educational agencies and sports participation, weight/height of student athletes. Any student who objects to the release of all or any part of the directory information on file in his or her name must notify the Registrar's Office, Student Access & Success, in writing, that he or she does not wish to have such information released. Information and a form are located on the Registrar's website at: http://www.tamuc.edu/admissions/registrar/FERPA/directoryInformation.aspx

This request will be honored, and all or any portion of the information which the student requests to be withheld will be held confidential by the Registrar’s Office. Any questions concerning this policy may be directed to the Registrar’s Office, Student Access & Success, Texas A&M University-Commerce, P. O. Box 3011, Commerce, Texas 75429.

University Statement of Policies

The policies, procedures, and regulations governing the conduct of students at A&M Commerce are outlined in the Student Guidebook. The Guidebook is available online at http://www.tamuc.edu/student_guidebook/Student_Guidebook.pdf. It is the responsibility of the student to make himself/herself aware of all policies. Disciplinary matters are handled by the Dean of Students Office. University policies and procedures are subject to change without prior notice.

Texas A&M University-Commerce reserves the right to change regulations, rules, procedures, and fees in this catalog at any time during the period this publication is in effect. Effective date of this Graduate Catalog is fall 2019. Graduate students are expected to be familiar with all University policies, regulations, rules, and procedures that affect admission, retention, and graduation. Official rules and procedures are maintained and updated on the University website at http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/default.aspx. (http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/default.aspx)

Overview of Campuses

Texas A&M University-Commerce is a multi-campus university with over 12,000 students in Commerce and the Metroplex Center in Mesquite that provides graduate courses to a large Dallas/Ft. Worth constituency. Courses also are offered at the Collin Higher Education Center in McKinney, Navarro Partnership in Corsicana, and the Universities Center at Dallas (downtown). This catalog serves the graduate student population of all five campuses.

In addition to classes that are taught in the traditional classroom setting on the Commerce campus and at off-campus sites, a large array of graduate courses are offered via telecommunications and by internet-based instruction.

Texas A&M University-Commerce

Hwy 50, Commerce, Texas
903-886-5163

Texas A&M University-Commerce covers 2,081 acres of land in and near Commerce. The University is located eight blocks southwest of Commerce’s business center, and has a book value in excess of $218 million. The town of Commerce has a population of 8,650 and is located 65 miles northeast of Dallas, one of the world’s leading metropolitan areas. Surrounding the Commerce campus are several recreational lake areas. Commerce is in Hunt County, and Greenville, the county seat, has a population of more than 25,000 and is located just 14 miles west of Commerce.

Texas A&M University-Commerce Metroplex Center

2600 Motley Dr., Mesquite, Texas
972-613-7591

Texas A&M University-Commerce Mesquite Metroplex is conveniently located between I-30, LBJ 635 and Hwy 80 in Mesquite, approximately 1.4 miles south of Eastfield Community College. This facility consists of 10 traditional classrooms, two interactive video (ITV) rooms, computer lab, seminar area, library, conference room and faculty/staff offices. This facility is shared by Texas A&M University-Commerce and the Mesquite Independent School District. Available at this facility are master’s degrees in curriculum & instruction, secondary education, psychology, special education, and social work. Also available are courses for the doctoral degree in Supervision, Curriculum & Instruction. Onsite security and free parking are provided.

Beginning in January 2020, the Mesquite Metroplex Center will relocate to 3819 Towne Crossing Blvd.

Navarro Partnership-Corsicana Campus

3200 W. 7th Ave., Corsicana, Texas
903-875-7617

Bachelor's degree options through the Navarro Partnership in Corsicana include Computer Information Systems, Computer Science, Criminal Justice and Environmental Science, and Interdisciplinary Studies with concentrations in EC-6, 4-8 Math, 4-8 Science, and 4-8 Math & Science for students pursuing a career in teaching. A Master's in Mathematics is also available at the Navarro Partnership located in Corsicana. Advising is available for various online bachelor's and master's degrees including business and education concentrations. Contact the Navarro Partnership location in Corsicana at 903-875-7617 or email Navarro.Corsicana@tamuc.edu

Collin Higher Education Center

3452 Spur 399, McKinney, Texas 75069
Texas A&M University-Commerce has partnered with Collin College to provide undergraduate and graduate degrees at the Collin Higher Education Center (CHEC) in McKinney. CHEC is a great alternative for students that live in the Collin County area and want an education from A&M-Commerce minutes from their home with personalized education in a small classroom environment.

Students who have already earned an Associate's degree or have a substantial number of college academic credit hours are able to complete their baccalaureate and graduate degrees offered at the CHEC in McKinney. Texas A&M-Commerce offers two undergraduate degree programs, BA/BS Interdisciplinary Studies in Elementary Education (with Teacher Certification), Special Education Certificate, and a BS in Psychology. There are three graduate degrees which include, MSW in Social Work, MS/MEd in Counseling and a PhD in Counseling. For additional information, please contact TAMUC at CHEC at 972-599-3122 or email at CHEC@tamuc.edu.

Collin College Partnership- Preston Ridge Campus
www.tamuc.edu/frisco
9700 Wade Boulevard, Frisco TX 75035

Texas A&M University-Commerce and Collin College have partnered to bring university classes to the citizens in and around the fast-growing city of Frisco at Collin’s Preston Ridge Campus. Students are able to choose from junior- and senior-level college courses that prepare them for careers in agribusiness, analytics, business, and social work. University officials plan to expand course offerings in the future which, pending approval from the Southern Association of Colleges and Schools, may lead to the offering of bachelor’s, masters and doctoral degree programs. For additional information, contact the Preston Ridge Campus at (972) 377-1665 or email frisco@tamuc.edu.

Universities Center at Dallas (UCD)
801 Main St, Dallas, TX 75202 - Administrative Office/Visual Communication Department
301 N Market St, Dallas, TX 75202 - Business, Education, and Spanish classroom
214-954-3600
www.tamuc.edu/dallas

The Universities Center at Dallas was the first multi-institutional teaching center (MITC) for higher education in Texas and was established by the Texas Higher Education Coordinating Board 20 years ago, to provide access to public higher education at the upper division and graduate levels to citizens who live, work and find it convenient to obtain their education in downtown Dallas.

The Universities Center at Dallas conveniently offers a variety of undergraduate and graduate degree programs from Texas A&M University-Commerce in Downtown Dallas. Undergraduate programs include a Bachelor of Fine Arts in Visual Communication with an emphasis in the following: Art Direction, Design Communication or New Media. Graduate programs include the MBA, MFA in Art w/emphasis in Visual Communication, MSA in Accounting, MSF in Finance, MS in Management, MEd in The Art of Teaching and courses toward a MA in Spanish. For additional information, please don't hesitate to contact our administrative offices.

International Studies Program
903-468-6034

Texas A&M University-Commerce promotes a number of international studies programs as part of its globalization strategy. Students have the opportunity to participate in the British Studies Program (London), Spanish Culture and Language in Spain (Madrid or Valladolid), and Global Business (China). Other programs are available in Australia, Austria, China, Costa Rica, Czech Republic, England, France, Germany, Ireland, Italy, Peru, Russia, South Africa, and Spain. For information on these and other international studies programs, contact the Director of International Programs at 903-886-5097.

Our History
Texas A&M University-Commerce began as East Texas Normal College in 1889 when founder William Leonidas Mayo opened the doors to a one-building campus in Cooper. After the original campus was destroyed by fire in 1894, Mayo moved the college 16 miles to Commerce, Texas to take advantage of westward railroad lines to Dallas and other parts of the state. His creed, which continues today, was “ceaseless industry, fearless investigation, unfettered thought and unselfish service to others.” The State of Texas took over the campus in 1917 and the name was changed to East Texas State Normal College. In 1923, the school was renamed East Texas State Teachers College. The graduate program was added in 1935, and in 1957 the Legislature, recognizing that the purpose of the institution had broadened from teacher education, changed the name to East Texas State College. Following the inauguration of the first doctoral program in 1962, the name was changed once more to East Texas State University in 1965. The name changed to Texas A&M University-Commerce in 1996, when the university joined the Texas A&M system. Today, the University meets the undergraduate, graduate, and professional needs of the citizens of Northeast Texas and beyond through its main campus in Commerce, various off-campus instructional sites, and state-of-the-art distance learning. Its mission is achieved through teaching, scholarship and service activities on its campuses, and in the community and region.
For the past 20 years the University has grown both in stature and student population, expanding its foundations to include agriculture, science, engineering, music, nursing, and distance education programs.

**Texas Higher Education Coordinating Board**

The Texas Higher Education Coordinating Board provides leadership and coordination for the Texas higher education system. Since being created by the Texas Legislature in 1965, the Board has worked to achieve excellence for the college education of Texas students. The Texas Higher Education Coordinating Board’s mission is to work closely with policymakers and education stakeholders to develop and implement a higher education framework focused on initiatives to:

- Dramatically increase the number of postsecondary completions;
- Keep college affordable and accessible for all Texans; and
- Align higher education outcomes with current and future workforce needs.

Source: http://www.thecb.state.tx.us

**Our Vision**

Texas A&M University-Commerce, as part of the A&M family of universities, will become the university of choice for all those seeking a higher education in the Northeast Texas region and beyond. It will provide traditional and non-traditional learning opportunities through existing and new programs that set high expectations and goals for students, faculty, and staff. The University will provide a sense of community through a nurturing environment for all individuals in order to maximize learning, career, and personal development. A&M-Commerce will become a place where students, faculty, staff, and community are engaged in the pursuit of excellence.

**Our Mission**

Texas A&M University-Commerce provides a personal, accessible, and affordable educational experience for a diverse community of learners. We engage in creative discovery and dissemination of knowledge and ideas for service, leadership, and innovation in an interconnected and dynamic world.

**Our Programs**

Texas A&M University-Commerce offers graduate programs in 25 academic departments with more than 40 major areas of study. Six departments offer six doctoral degrees.

Graduate degrees now offered by A&M-Commerce are:

- Master of Science in Accounting
- Master of Arts
- Master of Business Administration
- Master of Education
- Master of Fine Arts
- Master of Music
- Master of Science
- Master of Science in Finance
- Master of Science in Nursing
- Master of Social Work
- Specialist
- Doctor of Education
- Doctor of Philosophy

The Graduate School is a component of the Academic Affairs division of the University. The other components are the College of Science and Engineering, the College of Agricultural Sciences and Natural Resources, the College of Humanities, Social Sciences and Arts, the College of Business and the College of Education and Human Services.

The College of Agricultural Sciences and Natural Resources includes the department of Agricultural Sciences.

The College of Science and Engineering includes the departments of Biological and Environmental Sciences, Chemistry, Computer Science and Information Systems, Engineering and Technology, Mathematics, and Physics and Astronomy.

The College of Humanities, Social Sciences and Arts includes the departments of Art, History, Literature and Languages, Music, Political Science, Sociology and Criminal Justice and Theatre.

The College of Business includes the departments of Accounting and Finance, Management and Economics, and Marketing and Business Analytics.
The College of Education and Human Services includes the departments of Counseling, Curriculum and Instruction, Educational Leadership, Higher Education and Learning Technologies, Psychology and Special Education, School of Nursing and Health Sciences, and the School of Social Work.

Cooperative Alliance - Among Universities

Academic Common Market

The Academic Common Market (ACM) is an interstate agreement for sharing academic programs through an exchange of students across state lines. Students have access to selected programs not offered in their home states without having to pay nonresident tuition charges. Each of the participating states has designated a state coordinator for the program. In addition, each institution that has one or more academic programs in the ACM has named an institutional coordinator as contact person for that institution. The application can be found online at the Texas Higher Education Coordinating Board website. Contact the Graduate School for additional information.

Federation of North Texas Area Universities

The Federation of North Texas Area Universities, created by the Texas Higher Education Coordinating Board, is a consortium composed of Texas A&M University-Commerce, Texas Woman’s University, and the University of North Texas. The Federation is designed to strengthen the resources of higher education in north central Texas through inter-institutional cooperation in graduate research and instruction. To this end, the Federation universities offer joint educational opportunities to their students in numerous program areas with some universities authorized to grant degrees and others authorized to provide support services for the degree programs. The following degrees are awarded through the Federation of North Texas Area Universities:

- MFA in art
- MS in computer science
- MA, MS, MEd in reading
- MS, MEd in early childhood education

A student who wishes to enroll in one of the above programs should submit an application to the Graduate School of A&M Commerce.

The Texas A&M University System and The University of Texas System

A cooperative arrangement between The University of Texas System and The Texas A&M University System allows graduate students at one institution to use unique facilities or courses at other institutions with little paperwork. The graduate student registers and pays tuition and fees at the home institution and may retain any fellowship or financial assistance awarded by it. Space must be readily available, and the instructor or laboratory director of the proposed work must consent to the arrangement. In addition, approval must be given by the graduate dean of each institution.

Campus Facilities

Texas A&M University-Commerce Libraries

903-886-5718

The Texas A&M University-Commerce Libraries are comprised of the James G. Gee Library on the Commerce campus and the Metroplex Center Library in Mesquite. Together, they offer the University community nearly 800,000 print and electronic items. Access to e-books, e-journals, and electronic databases is available 24/7.

The main facility, James G. Gee Library, provides many facilities for study and working with technology. The Nexus lab features with 138 computers, open continuously from 10:00 am on Sunday through 9:00 pm on Friday, and from 9:00 am to 9:00 pm on Saturday during the regular semester. The Library Bistro is a popular food service and casual meeting area with Wifi and recharging outlets that seats 84 people. The Library also features an Assistive Technology lab, and a Teacher Resource Center. Additional services include secure cell phone charging bays, a multimedia studio and 30 study rooms, including three that are available to students for practicing classroom presentations. Multimedia equipment, including sound systems, cameras, recorders, tripods, etc., is available for checkout. Laptops and iPads are also available for checkout in the library as well as from kiosks located in the student center and library. Networked and wireless printing is offered in both black-and-white and in color. Two “KIC” scanners allow students to make digital copies at no charge. An ATM, photocopy machines and an account management kiosk for university Lion Cards are also located in the library.

In support of undergraduate and graduate programs, the libraries provide interlibrary loan and document delivery services. The Interlibrary Loan Department borrows books and articles from libraries around the world and provides electronic document delivery service for articles and book chapters held by the A&M Commerce libraries.

A&M-Commerce Libraries are members of the Texas A&M University System, Amigos, TexShare, and the Greater Western Library Alliance. These alliances allow A&M-Commerce students access to print collections at all state-supported academic libraries plus many of the regional private universities as supplementary resources to the Gee Library collections.

Among other research facilities at A&M-Commerce are the laboratories for arts and sciences and the University Farms.
IT Support Services
903-468-6000

The IT Support Center is located in the Business Administration Building in room number 156. The IT Support Center provides end-user support for hardware and software issues for computers, Macs and printers, telecommunications; ethernet, on-campus wireless access, myLeo portal, LEOmail, cell phones and access account management. Support Services also provides software support for personal computers including but not limited to, computer virus and spyware scanning and removal.

The mission of IT Support Services (ITSS) is to become a value-centric organization that provides the highest level of service while focusing on continuous process improvement and knowledge transfer. ITSS seeks to establish trust with customers through professionalism, high quality customer service and a commitment to partnership and collaboration. The IT Support Center may be reached via email at helpdesk@tamuc.edu and by calling the 24/7 helpdesk at 903-468-6000. The helpdesk observes University holidays.

Alumni Relations
903-886-5765

The Office of Alumni Relations is responsible for maintaining positive relationships between the University and its more than 80,000 alumni. The office plans and conducts an array of special events to maintain contacts and recognize alumni, including class and organization reunions, commencement receptions, alumni chapter activities, the Alumni Ambassador Forum, and the annual Homecoming celebration. The Alumni Relations Office is housed in the Alumni Center and serves as the headquarters for the Texas A&M University-Commerce Alumni Association and supports the operation of the Association Board of Directors. A variety of services are provided to individual alumni and groups. This office maintains addresses and other data files on the alumni constituency. Records maintained include membership in campus organizations, degrees and majors, biographical data, and employment information. All A&M-Commerce graduates are placed automatically on the mailing list of the Alumni Association. Alumni Relations also facilitates production of the Pride, the semi-annual magazine for alumni and friends. Other programs and services include discounted auto and medical insurance for graduates, legacy scholarships for children of alumni, and recognition of alumni for distinguished achievement and service.

Student Services Building

Built in 1970, the three-story D. Whitney Halladay Student Services Building houses the offices of the Assistant Vice President and Dean of Campus Life & Student Development, Assistant Dean of Campus Life & Student Development and Student Rights & Responsibilities, Counseling Center, Residential Living & Learning, International Student & Scholar Services, and TRIO Programs.

The Department Residential Living & Learning at Texas A&M University-Commerce offers a variety of living environments: traditional residence halls, suite-style residence halls, and single student apartments. The Department of Residential Living & Learning strives to create a living-learning environment in each residence hall that will enable each resident to succeed academically and developmentally. Residential Living and Learning is located in D. Whitney Halladay Students Services Building. For more information about student housing, please contact Residential Living & Learning and/or visit the departmental website at Residential Living and Learning (http://www.tamuc.edu/CampusLife/housing).

Rayburn Student Center (RSC)

As a department, the Rayburn Student Center provides premier programs and activities, service with excellence, and state-of-the-art facilities for the campus community to gather, connect, and experience. The Rayburn Student Center is one of the most popular destinations on campus and includes 120,000 square feet of modern meeting rooms, a food court, dining room, student Club, Pride Shop for graphic design needs, game room, informal lounges, patios and the Student Involvement Suite (SIS). In addition the RSC features a University Bookstore, the Mane Card student ID office, the Serving Engaged, Empowered, & Diverse Students (S.E.E.D.S.), and the Leadership Engagement and Development (L.E.A.D.) suite.

SERVICES/RESOURCES:

- First Floor: Welcome Desk, the Club, Campus Bookstore, Convenience Store, Mane Card Office, Campus Dining and Food Court and the S.E.E.D.S. office are all located here and provides students with opportunities to engage with their peers.
- Second Floor: The Student Involvement Suite (SIS) is the hub for student organizations, Fraternity & Sorority Life, Campus Activities Board, Student Government Association, & RSC Scheduling Office. The Center for Leadership Engagement and Development (L.E.A.D.) offers leadership programs and activities for students. A large Conference Room and 15 additional rooms for meetings, luncheons and presentations can be utilized by students, faculty, staff and community guests.

THE STUDENT INVOLVEMENT SUITE (SIS)

The Student Involvement Suite (SIS) provides many services and opportunities to help maximize students’ college experiences. Much of what we do is centered on providing resources, increasing involvement, and enhancing learning experiences. Students are encouraged to get involved and make the most of their college experience! Being involved helps students to connect with one another, their campus, and their community. Students have opportunities to participate in events, join organizations, access resources and develop their leadership skills through our programs and services. The SIS is home to the Campus Activities Board, Student Government, Fraternity & Sorority Life, Golden Leos, and over 300 other student organizations.

The student center is located on the corner of Neal and Stonewall streets right across from the Science Center. http://tamuc.edu/RSC
Recreational and Cultural Facilities

**Morris Recreation Center (MRC)**

903-468-3181

The Morris Recreation Center includes two multi-purpose basketball courts, a 45-foot climbing and bouldering wall, three lane jogging track, four multi-purpose racquetball courts, a three-tiered space dedicated to cardiovascular & weight equipment and functional training, fitness activity room, classroom, lounge, and men’s and women’s locker rooms. The Morris Recreation Center has two outdoor areas: The Great Out-Roars is an awesome outdoor facility that features a heated leisure pool, two-tier spa, two outdoor basketball courts, picnic tables, and a sunbathing area. Our MAC Court is a multi-activity court that features an artificial turf surface for soccer, futsal, volleyball, and special event programming.

**Cain Sports Complex**

Home to Campus Recreation's Intramural program, the Cain Sports Complex plays host to numerous outdoor intramural events, Campus Recreation sponsored special events, and informal recreation for students, faculty, staff, and community members. The Cain Sports Complex features two lighted multi-purpose softball fields, three multipurpose Intramural/Club Sports fields, multipurpose green space, and two new facilities that opened in the Spring of 2019: The Crabtree Tennis Court Complex and Sand Volleyball Complex. The Crabtree Tennis Court Complex features four tennis courts and a support building that will provide a shaded patio area, restrooms, and equipment rentals. The Sand Volleyball complex features four lighted sand courts, a small support building with a shaded patio and grass picnic area for special events. This area is great for parties, organizational events, or simply a fun weekend with family or friends with an approved reservation.

**Outdoor Adventure Center**

The Outdoor Adventure program provides adventure and educational opportunities promoting active lifestyles, appreciation for natural environments and personal development. Activities include day and weekend trips, cycling and bike rentals and a bike shop, clinics, disc golf course, and outdoor gear rental. The Outdoor Adventure center also features a challenge course which offers adventure-based learning opportunities to enhance leadership, decision-making and communication skills through an interactive process for groups to develop as a team. This hands-on approach is designed to help individuals learn from their interaction with others and then apply those principles to their life situations. The course offers 13 low challenge course elements and 18 high element challenges. The Outdoor Adventure program also offers a 5 mile bike trail comprised of four different loops. The trail has been professionally designed for both biking and pedestrian traffic.

**Other Recreational Facilities**

A&M-Commerce’s Memorial Stadium, which seats nearly 10,000, is used for football, track and field and other special events. The Field House, which seats approximately 2,500, is used for athletic and other special events, including concerts and various commencement exercises for the University and local high schools. In intercollegiate athletics, A&M-Commerce competes in football, basketball, track and field, cross country, golf, soccer, and volleyball. Softball competition began with the 2014-2015 season. Texas A&M University-Commerce is a member of the Lone Star Conference of Texas and the National Collegiate Athletic Association (NCAA) Division II.

Imagine learning in the state-of-the-art Keith D. McFarland Science & Technology Building, with one of the most technologically sophisticated planetariums in the southwest or playing in the $29 million Music Building, completed in the fall of 2010. The Music Building includes the Jack and Lou Finney Concert Hall, recital hall, four rehearsal halls, classrooms, piano and electronic music labs, studios and practice rooms. The Department of Music sponsors 21 musical groups, including the award-winning A&M-Commerce "Pride" Marching Band, Wind Ensemble, and Concert Chorale.

The Performing Arts Center has two modern theaters, a 300 seat Mainstage Theater and a variable capacity Studio Theater, a computerized lighting system, scene shop, dressing rooms, makeup rooms, and studios for KKom radio station and ManeMedia Television cable Channel 3. The University Playhouse produces several plays during the school year.

The University’s 100,000 watt public radio station, 88.9 KETR, is an NPR member station providing locally and nationally-produced programming. KETR-FM, heard within 75 miles of Commerce and online at www.ketr.org, is the radio home for A&M-Commerce Lions football and basketball broadcasts each fall and spring. The mission of the station, which operates from historic Binning Hall, is to provide Northeast Texas citizens and the A&M-Commerce community with entertaining, educational, and informative programming, and to serve as a learning environment for students to pursue excellence in broadcasting and journalism. The station is supported by listener contributions, corporate sponsorships, foundation gifts, and the Corporation for Public Broadcasting.

The 1,200-seat University Auditorium is housed in the Ferguson Social Sciences Building.

Student publications are *The East Texan*, a weekly newspaper; *A&M-Commerce Special*, a feature magazine; and *Forthcoming*, a magazine of prose and poetry.

More than 100 social, departmental, special interest, and religious organizations offer many opportunities for students.
University Police Department

Emergency—911; Non-Emergency—(903) 886-5868

This office provides police services and all security functions for the university. The University Police Department also provides many services for the faculty, staff, students, and visitors on campus. The department is responsible for investigation of criminal activity, crime prevention programs, safety awareness, public service assistance for motorists, event security, and parking enforcement. The department is responsible for the enforcement of university parking regulations as well as motor vehicle laws. All motor vehicles parking on the Commerce campus must be registered at the cashier and the parking permit properly displayed.

Officers of the department are certified by the State of Texas as commissioned peace officers, the same as other Texas municipal police officers, and have full law enforcement authority.

The department publishes a weekly crime log in order to better inform the University of current crime trends. Anyone wishing more information on crime statistics should contact the University Police or visit our website at www.tamuc.edu/crimestats.

The University Police Department is open 24 hours a day for assistance. The office is located on the first floor of Henderson Hall on Monroe Street. Emergency—911; Non-Emergency—(903) 886-5868.

Campus Concealed Carry

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 43.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to (http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf) and/or consult your even organizer. Pursuant to PC 43.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violation to the University Police Department at 903-886-5868 or 9-1-1.
Click on any of the following links for information:

- The Dean of Students (p. 18)

- Career Development (p. 20)
- Financial Aid & Scholarship Office (p. 20)
- Withdrawing of Financial Aid/Return of Title IV Aid (p. 21)
- Satisfactory Academic Progress Policy (p. 21)

Areas of student services and activities at A&M-Commerce are organized and administered by the Office of Student Access and Success. Included in the components are the following:

**The Dean of Students**

(903) 886-5153

The Dean of Students oversees the Division of Campus Life and Student Development and is responsible for providing leadership and supervision for Campus Activities, Children’s Learning Center, Counseling Center, Fraternity and Sorority Life, Student Rights & Responsibilities, Leadership Development Center, Campus Recreation, Residential Living and Learning, Rayburn Student Center, the Student Government Association, Student Disability Resources and Services, and the Student Health Center.

**Student Rights & Responsibilities**

903-886-5195

Located in the Halladay Student Services building, the Office of Student Rights & Responsibilities works to educate the campus community regarding standards for student conduct and to foster a community of civility, integrity, dignity, respect for others and appreciation for diversity. The office addresses behavioral misconduct, provides a resource for students concerning their rights and responsibilities and provides assistance to faculty, staff and students regarding student conduct matters. The Behavioral Intervention Team (BIT) is an advisory group to the Dean of Campus Life and Student Development. The focus of BIT is to focus on prevention and timely intervention before a crisis arises. The office addresses issues of both undergraduate and graduate student populations.

**Student Health Services**

(903) 886-5853

Located in Henderson Hall, the Health Services office offers affordable health care to undergraduate and graduate students of A&M-Commerce. Some of the primary Health care services include acute care and injuries, allergy injections, birth control, EKG’s, immunizations, flu shots, TB testing, labs, minor surgical procedures, physical exams, splints, STD/STI testing and treatment, stitches, women's health, wound care, x-rays, diabetic and smoking cessation classes, and health related presentations and workshops.

**Bacterial Meningitis Vaccination Requirement**

The State of Texas has passed a law (SB 62) that requires all first-time freshman and transfer students who wish to live in campus residence halls or apartments to have a vaccination against bacterial meningitis. All first-time freshmen and transfer students wishing to live on campus after October 1, 2013, must provide the following before moving into campus housing:

1. Certification from physician evidencing that the student has been vaccinated at least ten (10) days prior to moving into the residence halls; or
2. An affidavit or a certificate from a physician stating that the vaccination would be injurious to the health and well-being of the student or stating that the vaccination has been declined for reasons of conscience. Contact Residential Living and Learning for help obtaining the affidavit.
Counseling Center
(903) 886-5145
The Counseling Center provides confidential mental health services to currently enrolled university students at no additional charge. Counselors are available to listen, lend support, and help students meet the daily challenges of college life through programs and services offered that will help to maximize students' potential. The Counseling Center seeks to promote an environment of inclusion and personal development. Services include individual, couples, and group counseling, consultation and referral, crisis intervention, and educational outreach. Also available to students are legal advising, psychiatric evaluation, sand tray therapy, and biofeedback, as well as a meditation room equipped for self-guided meditation. Confidentiality is respected and counseling records are not included as part of a student's academic record. For more information about services or to schedule an appointment, come by the Counseling Center in the Halladay Student Services Building, #204, or call 903-886-5145. The phone is answered after hours and weekends by crisis counselors. We encourage all students to take advantage of the services the Counseling Center has to offer. Sometimes a little help can make a big difference.

Residential Living and Learning
(903) 886-5797
Residential Living and Learning at Texas A&M University-Commerce offers a variety of living environments: traditional residence halls, suite-style residence halls, single student apartments, and family housing apartments.

All student and family housing includes cable and utility services, central laundry facilities for each area, heat/air-conditioning, are fully furnished and have continuous maintenance service.

Residential Living and Learning strives to create a living-learning environment in each residence hall that will enable each resident to succeed academically and to find their home within the University community. Residential Living and Learning is located on the first floor of the Halladay Student Services Building, Suite 100.

For more information about student housing, please contact Residential Living and Learning at 903-886-5797 or email ResidenceLife@tamuc.edu. You may visit the department's website at Residential Living & Learning (http://www.tamuc.edu/CampusLife/housing/default.aspx).

Children’s Learning Center
(903) 886-5769
The nationally accredited, four-star designated Children's Learning Center is located on campus and serves children six weeks to five years of age. The CLC also offers an after-school and summer KID CAMP program for children ages 6-12 years of age. The Children's Learning Center provides the latest in curricula and educational play experiences and now offers a Nature Learning Environment, which allows for gardening, classes outside and learning about nature. The CLC prides itself on exceptional, quality care in an academic environment.

Student Disability Resources & Services
www.tamuc.edu/SDRS
Texas A&M University-Commerce is committed to promoting an academic, recreational, and social experience for students with disabilities that is fully inclusive and accessible. Students with disabilities at A&M-Commerce are encouraged to participate in all aspects of campus life. Student Disability Resources & Services (SDRS) offers accommodations counseling, disability-related resources, access to adaptive technology, assistive equipment, and academic/non-academic accommodations.

All students with disabilities who need accommodations must file an application for eligibility, as well as provide current documentation of disability. Applications are available http://www.tamuc.edu/CampusLife/CampusServices/studentDisabilityResourcesAndServices/default.aspx

CONTACT INFORMATION
Phone: 903-886-5150
E-mail: StudentDisabilityServices@tamuc.edu
Location: James Gee Library/Room 162

Fraternity & Sorority Life
(903) 468-3087
The mission of Fraternity & Sorority Life is to provide high quality student development programming that enhances the academic mission of the University by facilitating opportunities for scholarly success, community service, campus leadership, and fraternal friendships in a safe, nurturing environment. The Office of Fraternity & Sorority Life, which oversees 20 inter/national Greek-lettered organizations across 4 Councils, along with the National Order of Omega Greek Honor Society, is charged with the development of better men and women in preparation for the world outside of Texas A&M University-Commerce.
Members of the Fraternity & Sorority Life community often serve in multiple roles across campus as student athletes, residence assistants, orientation leaders, and members of the Student Government Association. The Office of Fraternity & Sorority Life works as a conduit to increase the co-curricular experience of its members, bridging the gap between fraternal affiliation and other campus involvement opportunities through working collectively and collaboratively with campus partners. Our 520+ fraternity and sorority members are provided the opportunity to participate in educational programs that focus on alcohol/drug awareness, risk management, leadership/community building, identity development/diversity, and academic enhancement throughout their college career.

For more information, please visit the Fraternity & Sorority Life website at: http://tamuc.edu/fsl

Office of International Programs

Phone (903) 886-5097, Fax (903) 468-3200

The Office of International Programs (OIP) offers assistance to international students and exchange visitors in regards to academic, personal, and immigration-related concerns and refers them to other services (on and off campus) as needed. Services include issuance of I-20 and DS-2019 documents, new international student orientation, and coordination of special activities for international students and scholars. Other services include liaison with the Department of Homeland Security (DHS), formerly known as the INS, regarding nonimmigrant students and exchange visitors, reentry authorization for traveling outside the United States, employment authorization, and extension of stay. The office is located in the Ferguson Building, 2nd floor, Rooms 220 & 221. E-mail (John_Jones@tamuc.edu) Intl.Stu@tamuc.edu (Intl.Stu@tamuc.edu).

Veterans & Military Services

Located in the Student Access and Success Center at 2200 Campbell Street, the Veterans and Military Services Office administers Veterans’ Administration educational benefit programs for veterans and their dependents who may be eligible to receive benefits under any one of several programs. Applications and further information are available in the Veterans and Military Services Office or by calling 903-886-5123.

Career Development

Career Development provides a number of programs and services throughout the year for students as they prepare for a successful transition into their careers. The Career Development Department develops relationships with employers resulting in career opportunities for students/alumni, while providing quality career preparation tools to develop the essential skills needed to compete in the job market. Programs include various events throughout the year including career and internship fairs, workshops, speaker panels, and networking events.

Services available to all students include:

- Résumé and cover letter consultation
- Career Exploration Series
- Job search resources
- Mock interviews
- LinkedIn consultation
- The Lion Wardrobe (professional dress for students)
- Applications and letters for professional schools or employment

Career Development also provides a career guide, “Make the Connection”, available online and in print for undergraduates, graduates and alumni. All students and alumni may register and receive access to the job and internship database, Hirealion that is powered by Handshake.

Contact Career Development at 903-468-3223 or www.hirealion.com (http://www.hirealion.com) or visit us in the One Stop Shop.

Financial Aid & Scholarship Office

(903) 886-5096

Graduate students who have full or conditional admission to a graduate degree program or a teacher certification program may be eligible for several forms of financial aid. These programs include the Texas Public Education Grant (TPEG), Graduate Tuition SetAside (GSETASIDE) or Tuition SetAside for Graduate Students (SETASIDEG) College Work-Study, the TEACH GRANT and several federal direct student loan programs. Departmental scholarships are available for admitted graduate students with a high GPA. Admitted students can apply for departmental scholarships through their myLEO (https://leo.tamuc.edu) portal. Graduate Teaching and Research Assistantship appointments are done by the individual departments and approved through the Provost Office. Graduate students should contact the department directly for Graduate Teaching and Research Assistant appointments. The Office of Financial Aid & Scholarships is located in the One-Stop Shop.

ENROLLMENT REQUIREMENT FOR FINANCIAL AID ELIGIBILITY

Financial aid recipients must be enrolled in no less than 6 credit hours for most financial aid programs to pay out. There are two exceptions to this requirement. Students who are eligible for TEACH GRANT can receive this grant for less than 6 credit hours. The amount will be prorated before the
money is released to the Office of Student Accounts. Students registered in the 3 credit hour dissertation 718 course can receive financial aid at the same level as if enrolled in 6 credit hours.

**ACADEMIC AND COMPLETION REQUIREMENTS FOR FINANCIAL AID ELIGIBILITY**

Students must maintain a minimum GPA for the semester and for the cumulative institutional GPA. Students must complete a minimum number of hours based on the attempted hours at the start of a semester. For specific information please visit our web site; Financial Aid Standard of Progress (http://www.tamuc.edu/admissions/tuitionCosts/financialaidandscholarships/satisfactory-academic-progress/default.aspx).

**Withdrawing of Financial Aid/Return of Title IV Aid**

A student who receives Title IV (Federal) financial aid and withdraws or is suspended from the University during a term in which the student began attendance, will have his or her eligibility for federal financial aid recalculated as prescribed by the 1998 amendments to the Higher Education Act of 1965. Title IV federal financial aid is earned in a prorated manner on a per diem basis through the 60% point in the term. After the 60% point, all aid is considered earned. The percentage earned is calculated by dividing the number of days completed by the total number of days in the term. It is the unearned percentage of aid that determines the amount that must be returned to the Title IV (Federal) program(s). Students who received financial aid from any source and who withdraw PRIOR to the 1st day of class of the semester will forfeit ALL of their financial aid as classes had not yet started and the student would not have been academically active in the courses.

The University, as well as the student, may be required to return to the federal government the unearned portion of the Title IV funds. When the University returns its unearned portion of the Title IV (Federal) funds, a portion of the student’s institutional charges may be left outstanding. The University will require students to pay any portion of institutional charges that are left outstanding after the University returns Title IV funds. This may cause the student to owe both the University and the Federal government.

Students considering withdrawing should contact the Office of Financial Aid & Scholarships for a thorough explanation of how this policy will affect them. Additional information on the Return of Title IV Aid policy, including examples, is available from the Office of Financial Aid & Scholarships. This policy is accessible on the A&M-Commerce Financial Aid website, Financial Aid (http://www.tamuc.edu/admissions/tuitionCosts/financialAidandScholarships).

Visit the Office of Financial Aid & Scholarships website (http://www.tamuc.edu/admissions/tuitionCosts/financialAidandScholarships) for the most up-to-date information on financial aid and scholarships.

**Satisfactory Academic Progress Policy**

The Higher Education Amendment Act of 1965, as amended, mandates institutions of higher education to establish a minimum standard of “Satisfactory Academic Progress” for students receiving financial aid.

For additional information visit the Office of Financial Aid website at Financial Aid (http://www.tamuc.edu/admissions/tuitionCosts/financialAidandScholarships). A copy of the policy is also available in the Office of Financial Aid located in the One-Stop Shop.

Commerce, TX 75428

Mission
The mission of the Graduate School is to provide leadership and direction for all aspects of graduate education and to promote graduate student research at Texas A&M University-Commerce.

Purpose and Nature of Graduate School
Graduate work offered by the University is distinguished from undergraduate work in that the graduate student is expected to show increased maturity in scholarship, seriousness of purpose, and ability to think independently. In accordance with this distinction, graduate courses are designed to develop the student’s ability to gather relevant facts, analyze them, and make reasonable generalizations and sound conclusions through independent research.

Graduate programs provide for the needs of students seeking professional employment, research opportunities, advanced degrees, (including the master’s/specialist, doctoral degrees, educator certification, graduate certificates), or personal satisfaction by increasing their depth of knowledge in their fields of specialization. Our students are prepared to be school and college teachers and administrators and advanced professionals in business, technology management, social work, the arts and various science disciplines. Some of our programs also prepare students for professional and administrative certificates.
The doctoral programs are distinct in purpose and selective in admitting candidates. The purpose of the doctoral program is to produce graduates who have developed breadth of vision, a capacity for interpretation, and the ability to carry out critical investigation.

From association with fellow scholars, the doctoral student is expected to gain new concepts, a zeal for adding to the sum of human knowledge, and the ability to conduct original research and to think clearly and independently. The student must also develop the professional competencies necessary for application of knowledge in the essential areas of human and public interest. Guidance toward extended reading and research is an integral part of graduate study.

**Major Areas of Study**

*We offer a master’s degree with the following majors:*

- Accounting
- Agricultural Sciences
- Applied Criminology
- Applied Linguistics
- Art
- Biological Sciences
- Business Administration
- Business Analytics
- Chemistry
- Computational Science
- Computer Science
- Counseling
- Curriculum & Instruction
- Early Childhood Education
- Educational Administration
- Educational Technology Leadership
- Educational Technology Library Science
- English
- Family Nurse Practitioner
- Finance
- Health, Kinesiology, and Sports Studies
- Higher Education
- History
- Management
- Marketing
- Mathematics
- Music
- Organization, Learning & Technology
- Political Science
- Physics
- Psychology
- Reading
- Secondary Education
- Social Work
- Sociology
- Spanish
- Special Education
- Technology Management
- The Art of Teaching
- Theatre

*We offer a specialist degree with the following major:*

- School Psychology
We offer doctoral degrees with the following majors:

- Counseling (PhD)
- Educational Administration (EdD)
- Educational Psychology (PhD)
- English (PhD)
- Higher Education (EdD)
- Supervision, Curriculum and Instruction (EdD)

We offer Educator Teacher Certification

We offer graduate certificates in the following areas:

- Auditing & Forensic Accounting
- Business Analytics
- Chemical Dependency Counseling
- Christianity in History
- Computational Linguistics
- Criminal Justice Management
- Criminal Justice Studies
- Economics of U.S. Healthcare
- Environmental Science
- Exercise Science
- Film Studies
- Holocaust Studies
- Homeland Security
- Operational Excellence
- Psychology of Gerontology and Positive Aging
- Public History
- Studies in Children's and Adolescent Literature and Culture
- Tax Accounting
- Teaching English to Speakers of Other Languages (TESOL)
- World History

Graduate Faculty

Since the academic reputation of any graduate program rests upon the quality of its faculty, great care is given to the awarding of Graduate Faculty Membership. The selection of Graduate Faculty rests with the Graduate Council.

Graduate Faculty Membership is only available to full-time faculty who have a terminal degree or its equivalent. There are two types of membership: Graduate Faculty or Visiting Faculty. Visiting Faculty are eligible to teach graduate courses, direct master's theses, and serve on doctoral committees, while Graduate Faculty can teach graduate courses and direct both master's theses and doctoral dissertations.

Qualifications for Graduate Faculty Membership are (a) holds academic rank of assistant professor or above, or rank of assistant professional track faculty or above; (b) holds the highest earned terminal degree in the teaching discipline; (c) competence as a scholar, including research capabilities and/or creative activities as evidenced by publications and creative endeavors. The University will recognize the graduate faculty status that the visiting member holds at his/her home institution. Anyone not affiliated with an institution of higher education will be evaluated on an individual basis.

Requests for Graduate Faculty Membership and for Visiting Faculty Membership may be initiated by the faculty member or by the head of the department in which the faculty member serves. The request is forwarded to the Graduate Dean through the Department Head and College Dean with a recommendation from both. It is then sent to the Graduate Council, which makes a recommendation to the Graduate Dean as to the type of membership to be awarded.

Each Graduate Faculty member’s scholarly research, creative activity, involvement in the discipline, and graduate education is reviewed by the Graduate Council every six years. The purpose of this review is to determine if the faculty member’s current Graduate Faculty Membership is appropriate and warranted.

The six year review process is the same as for the initial selection process; however, the options open to the Council should include one of the following:
1. Approve continued membership in the current status for six years.
2. Refuse to approve Graduate Faculty Membership.
3. Provide a three-year provisional term as Graduate Faculty. If this option is chosen, the faculty member must be reviewed again after three years and either approved for a regular six-year membership or dropped from Graduate Faculty Membership. Graduate Faculty whose status is terminated may, after one calendar year, reapply for graduate faculty status.

Under extenuating circumstances, the Dean of the Graduate School can grant a temporary exception for other faculty members who do not hold Graduate Faculty Membership to teach graduate courses and/or serve on thesis or dissertation committees. Information on such exceptions is submitted to the Graduate Council and does not require Council action except in such cases as it deems necessary. Questions relating to Graduate Faculty Membership should be directed to the Dean of the Graduate School.

Graduate Faculty Membership may be terminated at any time if the faculty member has been negligent and/or ineffective in the performance of his or her responsibilities (without warranting dismissal for Good Cause as set forth in the University Procedure 12.99.99.R0.12 Graduate Faculty Membership). In such cases termination of Graduate Faculty Membership will be initiated by the Dean of the Graduate School either independently, or upon recommendation of the faculty member's Department Head or Academic Dean.

**Texas A&M University System Graduate Faculty**

The Texas A&M University System has established a System Graduate Faculty, which enables and facilitates the collaborative research and teaching among faculty members of the nine universities and the Health Science Center within the System. By acquiring status through the System Graduate Faculty, a member of The Texas A&M University System Graduate Faculty may teach graduate courses and serve as member or co-chair, but not as chair, with a member of the Texas A&M University Graduate Faculty.

**System Graduate Faculty Guidelines**

1. **Purpose.** The Texas A&M University System Graduate Faculty has been developed for the following purposes:
   a. To facilitate participation in graduate education for The Texas A&M University System students.
   b. To provide graduate students access to the expertise of faculty members throughout the System.
   c. To increase inter-institutional faculty collaboration throughout The Texas A&M University System.
   d. To promote the development of multidisciplinary educational and research programs and the capacity to study complex scientific and social issues.

2. **Membership Background**
   a. Membership on The Texas A&M University System Graduate Faculty provides the opportunity to participate in graduate education at The Texas A&M University System universities through serving on graduate committees, advising graduate students, and teaching graduate courses.
   b. Appointment to membership on The Texas A&M University System Graduate Faculty is designed to assure rigor in the directing, counseling, and teaching of graduate students.
   c. All of The Texas A&M University System Graduate Faculty members can serve as members of any graduate committee.
   d. The chair of a graduate committee must be from the institution that is conferring the graduate degree.

3. **Membership Qualifications.** Consideration for membership on The Texas A&M University System Graduate Faculty requires meeting the following qualifications.
   a. The individual must hold the terminal degree, usually an earned doctorate. Exceptions will be considered only if justified in accordance with the Commission on Colleges of the Southern Association of Colleges and Schools.
   b. The individual must be a tenured or a tenure-track faculty member of a Texas A&M University System university and hold a professional rank.
   c. A person holding the title of instructor or lecturer may not be considered for membership on The Texas A&M University System Graduate Faculty.
   d. Individuals holding professorial rank at an agency of The Texas A&M University System are eligible for membership.
   e. The individual must be a member of the Graduate Faculty at his/her home institution.
   f. The individual must be an active participant in his/her graduate program through teaching, directing, or administering graduate work.
   g. The individual must show evidence of active research and scholarly work within the past five years. This should include publication as primary author of scholarly works in peer-reviewed journals, publication of scholarly books, presentations at professional meetings, or creative works, such as performances, work in juried exhibitions, or other creative works appropriate to the individual’s discipline.
   h. A graduate student at any Texas A&M University System institution may not be a member of The Texas A&M University System Graduate Faculty. Membership on The Texas A&M University System Graduate Faculty is forfeited upon a faculty or staff member’s admission to a graduate program at any institution in The Texas A&M University System.

4. **Nomination, Appointment and Review Process**
   a. Nomination for membership to The Texas A&M University System Graduate Faculty is made by submission of an official application by a faculty member and an accompanying letter of endorsement from the individual’s Department Head or Chair and College Dean. The application and letter of endorsement are sent to the Graduate Dean, who certifies institutional Graduate Faculty appointment status and forwards the nomination to the Texas A&M University System Council of Graduate Deans for consideration and action.
b. The application from the faculty member must identify the institutional Graduate Faculty of which he or she is a member, specify the graduate degree(s) that he or she is qualified to supervise under the conditions of the institutional appointment, and specify the graduate program(s) in which he or she wishes to participate as a System Graduate Faculty Member. The application should be accompanied by a current curriculum vitae.

c. The Council of Graduate Deans will appoint faculty from member institutions as needed to a Graduate Faculty Review Advisory Committee to consider applications and reappointments and to make recommendations to the Council of Graduate Deans.

d. A Graduate Faculty member of The Texas A&M University System is appointed for a five-year term. At the end of the five-year term, the member will be re-evaluated for reappointment by the Council of Graduate Deans. Failure to maintain membership criteria will result in removal from The Texas A&M University System Graduate Faculty. The Council of Graduate Deans will notify by letter a faculty member who is non-voluntarily removed from membership on The Texas A&M University System Graduate Faculty. The faculty member’s Department Head, Dean, Provost, and Graduate Dean will also receive notification.

5. Graduate Faculty Membership List. A list of the current membership of The Texas A&M System Graduate Faculty will be maintained in the Office of the Vice Chancellor for Academic and Student Affairs and the graduate office at each System university.

**Administrative Procedures**

Administration of the Graduate School is entrusted to the Dean of the Graduate School. A Graduate Council, consisting of elected members formulates and recommends to the President of the University procedures related to graduate education. The Dean of the Graduate School is the executive officer of the Council and has authority to act for the administration and the Council. Faculty membership on the Graduate Council is limited to members of the Graduate Faculty. Student membership is limited to graduate students.

**Class Attendance Rule**

Students are expected to be present for all class meetings of any course for which they are enrolled. Students are responsible for learning about and complying with the attendance policy stated in the catalog, *Student’s Guidebook*, and/or faculty syllabus. Faculty members will provide details on requirements and guidelines for attendance in their classes in their course syllabi. Faculty members will keep students’ attendance records.

Students are responsible for requesting makeup work when they are absent. They will be permitted to make up work for absences that are considered excused by the faculty member. The method of making up this work shall be determined by the faculty member.

The student is responsible for providing the faculty member reason(s) for his/her absence. The faculty member then determines the validity of the reason(s) for the absence and whether the student is to be excused for the absence. Faculty members may consider the following as excusable reasons for absence:

1. Participation in a required/authorized university activity.
2. Verified illness.
3. Death in a student’s immediate family.
4. Obligation of a student at legal proceedings in fulfilling responsibility as a citizen.
5. Others determined by individual faculty to be excusable (e.g., elective University activities, etc.).

Appeals can be made through normal administrative channels.

A record of excused and unexcused absences will be maintained by a faculty member since certain financial assistance and other programs may require attendance records.

When requested by the student, faculty will inform the student who has been absent whether make-up work is allowed and whether absences jeopardize the student’s standing in a class.

It is the prerogative of the faculty to drop students from courses in which they have accrued excessive absences as defined in the course syllabus. In such cases, faculty recommend through the Department Head to the appropriate College Dean, that a student be dropped from a class. The faculty member will document absences and will make a reasonable effort to communicate with the student prior to recommending the drop. If approved, the College Dean will forward the recommendation to the Registrar’s Office.

Students who wish to drop a course or withdraw from the university are responsible for initiating this action.

If a student believes a final course grade is unfairly impacted by attendance requirements, an appeal can be made. This appeal process is explained in University Procedure 13.99.99.R0.05 Student Appeal of Instructor Evaluation (http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/13students/academic/13.99.99.R0.05.pdf).

**Good Standing**

Good Standing is defined as follows for graduate students enrolled at Texas A&M University-Commerce. Entering students who have been fully admitted (without any type of conditional admission, provisional admission, or other restriction) will be considered in good standing. A student will remain in good standing if, and only if, he or she has a cumulative graduate grade point average of at least 3.00 and is free of the following holds: holds

Students who are not in good standing are not eligible to graduate until good standing has been achieved.

**Academic Honesty of Students**

Graduate students at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all their scholastic work. Faculty and staff members are expected to uphold and support student integrity and honesty by maintaining conditions that encourage and enforce academic honesty. Conduct that violates generally accepted standards of academic honesty is defined as academically dishonest. “Academic dishonesty” includes, but is not limited to:

- **CHEATING:** Intentionally using or attempting to use unauthorized materials, information, notes, study aids or other devices or materials in any academic exercise. Unauthorized materials may include anything or anyone that gives a student assistance, and has not been specifically approved in advance by the instructor.

- **COMPLICITY:** Intentionally or knowingly helping, or attempting to help, another to commit an act of academic dishonesty.

- **EXAMPLES:**
  - **ABUSE AND MISUSE OF ACCESS AND UNAUTHORIZED ACCESS:** Students may not abuse or misuse computer access or gain unauthorized access to information in any academic exercise.
  - **FABRICATION:** Making up data or results, and recording or reporting them; submitting fabricated documents.
  - **FALSIFICATION:** Manipulating research materials, equipment, or processes, or changing or omitting data or results such as that the research is not accurately represented in the research record.
  - **FORGERY:** Making a fictitious document, or altering an existing document, with the intent to deceive or gain advantage.
  - **MULTIPLE SUBMISSIONS:** Submitting substantial portions of the same work (including oral reports) for credit more than once without authorization from the instructor of the class for which the student submits the work.
  - **PLAGIARISM:** The appropriation of another person's ideas, processes, results, or words without giving appropriate credit.
  - **SPECIAL NOTE REGARDING GROUP PROJECTS:** If someone in a group commits academic misconduct the entire group could be held responsible for it as well. It is important to document clearly who contributes what parts to the joint project, to know what group members are doing, and how they are acquiring the material they provide.

- **UNIVERSITY RULES ON RESEARCH:** Students involved in conducting research and/or scholarly activities at Texas A&M University-Commerce must also adhere to standards set forth in University Procedure 15.99.03.R1 Ethics in Research, Scholarship, and Creative Work (http://www.tamuc.edu/aboutUs/policiesProcedures/StandardsStatements/rulesProcedures/15ResearchPrograms/15.99.03.R1.pdf).

- **VIOLATION OF DEPARTMENTAL OR COLLEGE RULES:** Students may not violate any departmental or college rule relating to academic matters.

If a graduate student is accused of academic dishonesty, the University Procedure 13.99.99.R0.10 Graduate Student Academic Dishonesty (http://www.tamuc.edu/aboutUs/policiesProcedures/StandardsStatements/rulesProcedures/13students/graduate/13.99.99.R0.10.pdf) will be followed.

**Academic Honesty of Faculty and Professional Staff**

Graduate faculty and professional staff at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all their scholastic work. Faculty and staff are expected to uphold and support integrity and honesty by maintaining conditions that encourage and enforce academic honesty.

If a faculty or staff member is accused of academic dishonesty, the Department Head or supervisor is responsible for initiating a timely investigation. Any necessary disciplinary actions that result from this investigation should be related to the severity of the infraction.

If a faculty or staff member disagrees with the charge or level of penalty, he/she is entitled to due process in accordance with the usual procedures available to faculty who are accused of any other infraction.

**Responsible Conduct in Research and Scholarship Training**

To ensure integrity and compliance in research, all students, faculty, and staff involved in research activities must successfully complete training in Responsible Conduct in Research and Scholarship.

Additional training is required for individuals whose research involves human/animal subjects or biological agents.
Student Conduct (Hazing)
The Texas Education Code prohibits hazing at institutions of higher education. Hazing is defined as “any intentional, knowing, or reckless act occurring on or off the campus of an educational institution, by one person or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in an organization.” Hazing is a criminal violation under Texas law. A person may be found guilty of criminal conduct for hazing, encouraging hazing, permitting hazing, or having knowledge of the planning of hazing incidents and failing to report in writing his/her knowledge to the Dean of Students.

Registration
Registration dates, times, and instructions are available on the Registrar’s website at http://www.tamuc.edu/admissions/registrar/default.aspx. MyLeo (A&M-Commerce WEB application for Students) allows eligible students to register through the Internet. Students can access MyLeo through http://leo.tamuc.edu.

The academic year is divided into two long semesters, fall and spring, and a summer semester of two terms. Additional terms and sub-terms may be available.

Courses: Definition, Value and Number
A Course: A course is one subject carrying three or four graduate semester credit hours of credit. One and two semester hour subjects may, in certain cases, be converted to course equivalents by adding the semester hours and dividing by three. Subjects carrying six semester hours of credit count as two courses. Each major or minor department has the right to refuse substitution of one hour courses or their equivalents to a graduate program when it deems such substitution inappropriate for the planned program of study.

Semester Hour: The semester hour is a unit of credit. It is defined as one hour of lecture per week, or its equivalent in laboratory work, for one semester or its equivalent, as defined by the Texas Higher Education Coordinating Board. Each course has a value of three semester hours unless otherwise specified.

Course Numbers: Graduate courses are numbered at the 500, 600, 700, 5000, and 6000 levels.

Graduate Student Course Load
During the fall or spring semester, a student taking (9) or more graduate semester credit hours is considered full-time. The maximum course load for a full-time graduate student during the fall or spring semester is fifteen (15) graduate semester credit hours. To enroll in more than (15) graduate semester credit hours, the student must have approval from the Dean of the Graduate School. A student taking (6) graduate semester credit hours is considered half-time.

The maximum course load for a full-time graduate student during each summer term is 7 graduate semester credit hours. A student taking 6 graduate semester credit hours in a summer term (summer I or II) is considered full-time for that term. A student taking 9 graduate semester credit hours (combination of summer I and II) is considered full-time for the entire summer (summer I and II).

A graduate student holding a full-time graduate assistantship enrolled in 6 graduate semester credit hours is considered a full-time student. Graduate students must be enrolled in 9 graduate hours to be considered full-time for financial aid. See the section “Graduate Assistantships” for information about course loads for graduate assistants.

The maximum course load for a mini-term is 3 graduate semester credit hours.

A master's/specialist student who has completed all other course work and is enrolled in 3 graduate semester credit hours of 518 thesis credit is considered half-time.

Only in unusual circumstances shall a doctoral student register for more than 12 graduate semester credit hours in a given semester (fall or spring), and then only if approved in advance by the Dean of the Graduate School or other comparable official.

Doctoral students admitted to candidacy and enrolled in 3 graduate semester credit hours of 718 dissertation credit are considered half-time. Doctoral students who are enrolled in 9 graduate semester credit hours of organized classes and who are performing research related to their dissertation may be required to register for an additional 3 graduate semester credit hours of dissertation for a total of 12 graduate semester credit hours.

Student Class Schedule Adjustments
Students are expected to make all necessary adjustments in their class schedules by the 4th class day of a regular semester and the 2nd class day of a summer semester. Eligible students may use MyLeo (Texas A&M University-Commerce Web Applications for Students) to process drops/adds. Students not eligible to use MyLeo may obtain a drop/add sheet at the Registrar’s Office. The student must obtain approval to add and drop courses from the department/instructor and return the drop/add sheet to the Registrar’s Office. Students may add classes until 4th class day during the fall and spring semesters and 2nd class day during the summer terms. Students may drop a class with a full refund (if remaining enrolled) until the 12th class day during the fall and spring semesters and 4th class day during the summer terms.
The student desiring to add a course(s) after the 4th class day of a regular semester or 2nd class day of a summer semester should pick up a drop/add sheet at the Registrar's Office. The student should proceed to the department(s) where he/she obtains department/instructor approval and then proceed to the appropriate dean for approval. The drop/add sheet is then returned to the Registrar's Office. Students will not be allowed to add classes after the 12th class day during fall/spring or the 4th class day during a summer semester.

No course may be added to student schedules after the last day to change schedules as stated in the university calendar, except in very special cases and then only by approval of the instructor and appropriate dean.

**Auditing Courses**

Students desiring to audit a course may do so with the consent of the instructor and Department Head. Enrollment for audit courses occurs on the first day of classes. Students auditing courses must meet the same admission requirements and pay the same tuition and fees required for credit courses. Students enrolling in a course for audit must notify the Registrar's Office prior to completing registration for the course. A student may not change from credit to audit after the 12th class day during the fall or spring semester, or after the 4th class day in a summer term.

**Withdrawal from the University**

A student wishing to withdraw from all courses before the end of a semester or summer term for which he/she is registered must clear his record by filing an application for voluntary withdrawal on a form which can be secured online at: Withdrawal Form (http://www.tamuc.edu/admissions/registrar/documents/withdrawalform2014.pdf) or from the Office of the Registrar. This is a withdrawal from the semester, not the university.

This action must be taken by the date stated in the https://calendar.tamuc.edu/ as the last day to drop a class or withdraw. Any student who withdraws from the University is subject to the conditions outlined in the section regarding Scholastic Probation or Suspension. It is the students' responsibility to withdraw from classes if they do not plan to attend during the semester in which they have enrolled. A student has one year from the first day of a semester to appeal a withdrawal refund.

**Refund of Fees**

A student officially withdrawing will receive a refund of his/her fees according to the following scale:

*Class days refer to the university Class Days, not particular class days. **For example: If a class meets MWF, the 12th class day is not the 12th day of the students' actual class; it is the 12th day of the University Class Days. See the https://calendar.tamuc.edu/ for specific dates.*

**Sixteen-Week Fall/Spring Semester:**

- 100 percent prior to the first class day of the semester
- 80 percent during the first five class days of the semester
- 70 percent during the second five class days of the semester
- 50 percent during the third five class days of the semester
- 25 percent during the fourth five class days of the semester
- No refund after the fourth five class days of the semester

**Thirteen-Week Semester:**

- 100 percent prior to the first class day of the session
- 80 percent during the first, second, third and fourth class days of the session
- 50 percent during the fifth, sixth, seventh and eighth class days of the session
- 25 percent during ninth, tenth, eleventh and twelfth class days of the session
- No refund after the twelfth class day of the semester

**Twelve-Week Semester:**

- 100 percent prior to the first class day of the session
- 80 percent during the first, second, third and fourth class days of the session
- 50 percent during the fifth, sixth, seventh and eighth class days of the session
- No refund after the eighth class day of the semester

**Ten-Week Semester:**

- 100 percent prior to the first class day of the session
- 80 percent during the first, second, third and fourth class days of the session
- 50 percent during the fifth, sixth, seventh and eighth class days of the session
- No refund after the eighth class day of the semester
Five, Six, Seven & Eight-Week Semester:

- 100 percent prior to the first class day of the session
- 80 percent during the first, second or third class day of the session
- 50 percent during the fourth, fifth, or sixth class day of the session
- No refund on the seventh day of class of the session and thereafter

Four-Week Semester:

- 100 percent prior to the first class day of the summer session
- 80 percent during the first, second or third class day of the summer session
- 50 percent during the fourth, fifth, or sixth class day of the summer session
- No refund on the seventh day of class of the summer session and thereafter

Three-Week Mini Semester:

- 100 percent prior to the first class day of the session
- 80 percent during the first and second class days of the session
- 50 percent during the third and fourth class days of the session
- No refund after the fourth day of class and the session thereafter

Thirty Two-Week Semester:

- 100 percent prior to the first class day of the semester
- 80 percent during the first five class days of the semester
- 70 percent during the second five class days of the semester
- 50 percent during the third five class days of the semester
- 25 percent during the fourth five class days of the semester
- No refund after the fourth five class days of the semester

Refund Information:

- Refunds will be the applicable percentage of the total fees due for the semester, less any amount not paid.
- If a scheduled course of instruction fails to materialize, by reason of lack of required students, all tuition for same will be refunded. Late fees and installment fees are not refunded.
- No refunds will be made unless application is made within the same school year as withdrawal.
- No refunds will be made on auditor’s fees.

Withdrawal refunds for students receiving federal funds is based on how much Title IV aid a student has received and not earned at the time of withdrawal. The amount of aid earned is calculated on a prorata basis through 60 percent of the term. Contact the Financial Aid Office before withdrawing for additional information about this new law.

A student leaving the University before the end of a semester or summer term for which he/she is registered must clear his/her record by filing an application for voluntary withdrawal on a form available in the Registrar’s Office or at Withdrawal Form (http://www.tamuc.edu/admissions/registrar/documents/withdrawalform2014.pdf). This action must be taken by the date stated in the University Academic Calendar as the last day to drop a class or withdraw.

Additional information and the withdrawal form are also available on the website at http://www.tamuc.edu/admissions/registrar/default.aspx.

Grading System

Grades—Their Meaning and Value

<table>
<thead>
<tr>
<th>Grade Marks</th>

<td>0</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory</td>
<td>0</td>
</tr>
<tr>
<td>U*</td>
<td>Unsatisfactory</td>
<td>0</td>
</tr>
</tbody>
</table>
**Satisfactory- Unsatisfactory (S-U) Grading**

In certain graduate courses, students will be evaluated on a satisfactory-unsatisfactory (S-U) grading basis rather than by the traditional letter grade system. Students in these specially designated courses will receive the grade of “S,” or “satisfactory,” for graduate level work equivalent to a regular “B” grade or better. Grades of “U,” or “unsatisfactory,” will be assigned to those students whose work falls below the “B” level. In such courses, only a grade of “S” may be counted toward fulfillment of degree requirements. Neither “S” nor “U” grades will be included in the calculation of grade point average to determine academic standing. The courses in which the satisfactory-unsatisfactory grading system will be used are indicated by their separate course descriptions in the current Graduate Catalog. All other courses not so identified will be graded on the traditional letter grade basis. Each department may prescribe further rules regulating the use of the satisfactory-unsatisfactory grade system within its specific graduate degree programs, but in no case may more than 50% of the courses presented toward fulfillment of the requirements for any graduate degree have been graded on the satisfactory-unsatisfactory basis.

**Dropped Courses**

Beginning Fall 2008 DP, DF, DS, and DU are no longer assigned to dropped courses. A grade of “Q” denotes a dropped course.

After the census date in a term (see University Academic Calendar for specific dates), a student who drops a course will receive a grade of “Q.” Students who officially withdraw from school prior to the date stated in the current University Academic Calendar will receive a grade of “W.” Courses withdrawn are counted as attempted hours and count towards the three-peat rule.

**Note:** Three-Peat Rule applies to Undergraduate courses.

Additional information and the withdrawal form are also available on the website at http://www.tamuc.edu/admissions/registrar/default.aspx.

**Incomplete Courses**

Students, who because of circumstances beyond their control are unable to attend classes will, upon approval of their instructor, receive a mark of “X” (incomplete) in all courses in which they were maintaining passing grades.

When an “X” is given for a grade in a course, the credit hours are not included for up to one year when calculating the grade point averages. A grade of “X” converts to a grade of “F” one year from the close of the semester/term in which the grade was originally recorded if the course requirements have not been satisfied. The hours are included in the number of hours attempted.

Recording a grade of “X” requires the filing of a plan for completion. The plan will be submitted with the official grade record sent to the Department Head who will forward it to the Dean's office. The plan will include: (1) why the grade was given, and (2) steps necessary for the student to receive the final grade.

Once an incomplete has been assigned, the course cannot be dropped; a grade must be assigned.

A grade of “IP” (in progress) will be used for courses that are scheduled over more than 1 semester. The grade of “IP” will not be computed in the grade point average and will be removed when the final grade is filed by the instructor.

A grade of “I” will be given for courses in thesis and dissertation (518 and 718) for all registrations prior to the semester in which the final document is completed. The time limit imposed on the grade of “X” (one year) does not apply for these courses.

**Computation of Grade Point Averages**

All grade point averages will be computed by dividing grade points accumulated by the number of hours attempted, with grades of “X”, “I”, “IP”, “Q”, “W”, being excluded. Only grades earned at Texas A&M University-Commerce are calculated into the student's GPA.

**Repeating a Course**

When a course is repeated, only the last enrollment for the course will be used in computing the grade point average. Any student who enrolls in the same course a second time must notify the Registrar’s Office during the semester in which the course is being repeated. When the semester is completed, the Registrar’s Office will then update the grade point average to reflect the duplication of the course. After a degree is awarded, courses
taken before the degree was awarded (regardless of whether the course is applied to the degree) cannot be repeated and the grade point average cannot be recalculated.

Semester Grade Reports
At the end of each semester of the regular session and the end of the summer session, grades will be updated to the student information system. Students may check the status of their grades by accessing MyLeo at https://leo.tamuc.edu/login.aspx

Student Appeal of Instructor Evaluation
The final grades awarded by instructors are their expert judgment concerning student performance. Students challenging a final grade must show that the instructor's judgment was unfair based on:

- some basis other than performance; or
- standards different from those applied to other students in the same course section; or
- substantial, unreasonable, and/or unannounced departure from previously articulated standards or the syllabus. Students may not use this process to appeal grades for individual assignments.

See University Procedure 13.99.99.R0.05 Student Appeal of Instructor Evaluation (http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/13students/academic/13.99.99.R0.05.pdf):

- Students who believe their grade to be unfair must first discuss the matter with the instructor. The student must contact the instructor within 10 business days following the beginning of the next regular semester, following the semester in which the disputed grade was earned. If the next semester is a summer term and the instructor is not available, the student may wait and contact the instructor within 10 business days following the beginning of the Fall semester.
- If the student is not satisfied with the outcome of this meeting, the student shall file a written appeal to the Department Head/Associate Director within 10 business days following the meeting with the instructor. The appeal must state the basis for the appeal based on the definition of unfair academic evaluation. The student must demonstrate through documentation (e.g. course syllabus, graded homework) that the instructor:
  1. Assessed on basis other than performance; or
  2. Used standards different from those applied to other students in the same course section; or
  3. Made a substantial, unreasonable, and/or unannounced departure from previously articulated standards or the syllabus.
- The instructor or the student may appeal the Department Head's decision (with respect to the findings and remedies) to the Dean of the College in which the course is offered within 10 days of the date on which the Department Head offered his or her judgment.
- Upon receipt of a written appeal, the Dean will appoint a three-person advisory committee of faculty to hear the case. The chair of the committee will be from a department other than the one offering the course. One of these faculty members may be suggested by the author of the appeal. The instructor and the student may file additional statements. The committee will review all written materials and may seek other information, as they deem appropriate. After reviewing all information, the committee will communicate their findings and suggested remedies, if any, to the Dean of the College.
- The Dean of the College is the final authority on issues of fairness in course evaluation. He or she will consider the recommendations of the committee but has wide latitude in resolving the matter.

Graduate Assistantships
Graduate assistant teaching (GAT), graduate assistant research (GAR), and graduate assistant non-teaching (GANT) assistantships at Texas A&M University-Commerce offer financial support for graduate education. Assistantships may be awarded to qualified graduate students who have full or conditional admission to a master's or specialist program or full admission to a doctoral program. Assistantships are available in academic and non-academic departments. In addition to funding graduate education, assistantships provide students opportunities for professional growth.

Assistantships that require teaching, laboratory instruction, and/or research (GAT, GAR, GANT) are available to masters, specialist, and doctoral students in most departments. The awarding of assistantships is a staffing function of the department making the appointment. Inquiries about applications should be addressed to the head of the department in which the applicant wishes to undertake graduate study. Applicants for such positions must satisfy requirements of both the Graduate School and the department. Additional information available online at: http://www.tamuc.edu/academics/graduateSchool/funding/assistantships/default.aspx.

Academic, creative excellence, and maturity are the primary qualifications considered in the appointments. Graduate students whose native language is not English must demonstrate a sufficient level of oral and written proficiency (TOEFL, IELTS, or PTE approved by A&M-Commerce) before they can be awarded a teaching assistantship.

Minimum requirements for holding assistantships are:
1. Graduate assistants (GA) must be admitted (full or conditional) to a graduate degree program, enrolled in graduate courses, and evaluated by the department based on student qualifications and need. Students with a provisional or non-degree admission status are not eligible to hold a graduate assistantship.

2. Graduate assistants must maintain a graduate GPA of 3.0 or higher and be in academic good standing.

3. Graduate teaching assistants are required to have a minimum of 18 graduate semester credit hours in the field to be taught.

4. Course-load requirements:
   • Full-time GAs must be registered in 6 graduate hours or more for fall/spring semester.
   • Half-time GAs must be registered in at least 3 graduate hours for fall/spring semester.
   • Full-time GAs must be registered in 3 graduate hours or more for summer I semester.
   • Half-time GAs must be registered in at least 3 graduate hours for summer I semester.
   • Full-time GAs must be registered in 3 graduate hours or more for summer II semester.
   • Half-time GAs must be registered in at least 3 graduate hours for summer II semester.

Once an assistantship is offered and the graduate student has accepted verbally or in writing, the student has an obligation to stay in that position for the duration of the semester.

Tuition Remission

A Graduate Assistant receiving tuition remission must be a full-time Graduate Assistant Teaching (GAT) or a full time Graduate Assistant Research (GAR). Payment is based on resident, designated graduate tuition. Fees are not included and only six graduate hours of enrollment (no undergraduate courses) at Texas A&M University-Commerce will be paid. A student who resigns his/her graduate assistantship or whose graduate assistantship is terminated before at least three-fourths of the academic term/semester is completed, loses a portion of the tuition remission and is responsible for the tuition payment.

Waiver for Out-of-State Tuition

Graduate Assistants who have not established residency in Texas and who hold full-time assistantships in their academic area are entitled to a waiver of out-of-state tuition. Students must be employed by the 12th class day for fall or spring semesters and by the 4th class day for summer terms to receive this waiver.

Work Load

Graduate Assistants begin work on the first class day and end work on the last class day of each semester/term.

- Full-time GANT/GAR - works 20 hours per week each semester/term of assistantship
- Full-time GAT - teaches 6 hours per week of undergraduate courses in the fall/spring semester
- Full-time GAT - teaches 3 hours per week of undergraduate courses each summer semester
- Half-time GANT/GAR - works 10 hours per week each semester/term of assistantship
- Half-time GAT - teaches 3 hours of undergraduate courses each semester/term of assistantship

Course Load for Graduate Assistants

The course load for a full-time graduate assistant is 6-12 hours for the fall or spring semester and 3-7 hours for each summer term. A doctoral student shall not be required to register for more than 9 credit hours during any semester, with the exception of a doctoral student who also is doing research related to his or her dissertation who may be required to register for an additional 3 hours of research or dissertation, for a total of 12 credit hours. A graduate student holding a full-time graduate assistantship enrolled in 6 graduate semester credit hours is considered a full-time student. Graduate students must be enrolled in 9 graduate hours to be considered full-time for financial aid.

Teaching Appointments

Graduate assistants who have primary responsibility for teaching a course for credit and/or for assigning final grades for such a course must, according to the Southern Association of Colleges and Schools Criteria for Accreditation, be under the direct supervision of a faculty member experienced in the teaching field, receive regular in-service training, be regularly evaluated, and have earned at least 18 graduate semester hours in their teaching discipline. Graduate students whose native language is not English must demonstrate a sufficient level of oral and written proficiency (TOEFL, IELTS or PTE approved by A&M-Commerce) before they can be awarded a teaching assistantship.

Time Limitations

Assistantships may be held for a maximum of four semesters (exclusive of summer sessions) for graduate students in a graduate degree program consisting of less than 60 graduate hours. Assistantships may be held for a maximum of six semesters (exclusive of summer sessions) for graduate students in a graduate degree program consisting of 60 graduate hours or more. All appointments are subject to satisfactory performance of assigned duties and progress toward the degree.
Performance and Evaluation

All appointments are subject to satisfactory performance of assigned duties, progress toward the degree or program goal, and maintenance of a 3.00 graduate grade point average and academic good standing. Appointment corrective action may be initiated by the Department Head at any time during the semester. In case of termination, the graduate assistant shall have the right to appeal through normal administrative channels.

Persons holding graduate assistantships have the right to develop to the best of their ability, both academically and professionally, and to be treated fairly and with respect. It is the responsibility of the assistant to carry out, in a professional manner, such duties as may be reasonably assigned by the Department Head or supervisor.

Individuals holding teaching assistantships will be assessed by their students every semester and evaluated annually by the Department Head or faculty supervisor. Such evaluations will be maintained in the department office. The department shall retain these evaluations for at least 3 years.

Termination

Graduate assistants may have their assistantship terminated for any of the following:

1. A student does not abide by the appointment conditions.
2. A student fails to perform tasks as assigned.
3. A student does not make adequate degree progress.
4. A student is placed on Academic Probation.
5. A student does not make satisfactory research progress.
6. A student fails to maintain minimum registration.
7. A student persistently refuses to follow reasonable advice and counsel of faculty in carrying out assistantship obligations.
8. A student fails to comply with responsibilities as an employee set forth in university procedures, department rules governing assistantships, or the terms of sponsored research agreements that fund the assistantship.
9. A student violates the standards of student conduct in accordance with University Procedure 13.02.99.R0.06 Standards of Student Conduct (http://www.tamuc.edu/aboutUs/policiesProceduresStatements/rulesProcedures/13students/studentAffairs/13.02.99.R0.06StandardsOfStudentConduct.pdf).

Tuition and Fees for the 2019-2020 Academic Year

Tuition rates (including guaranteed tuition) are subject to change by the Legislature. Current rates are available on the University webpage. http://www.tamuc.edu/admissions/tuitionCosts/default.aspx

State Residency

A student’s tuition and fees are impacted by the student’s state of residency. The Texas Legislature, the Texas Higher Education Coordinating Board, and the Texas A&M University System have established guidelines for determining residency status. Texas residency for tuition purposes is generally obtained by working in Texas for 12 months immediately prior to enrollment in any college or university, by being a dependent of a Texas resident, or by being classified as a Texas resident for the first 5 of the 6 years immediately preceding registration.

Any student who has lived outside of Texas or who has a possibility of being a nonresident is coded accordingly. Determination of eligibility to pay in-state tuition will be finalized upon receipt of a completed residency questionnaire and appropriate documents.

It is the student’s responsibility to insure that the application for admission is properly completed for tuition purposes. Any change in residency status must be reported to the Graduate School office.

Non-resident students who reside in counties or parishes that border the State of Texas may be eligible for assessment of non-resident tuition and student fees at the Texas resident rate.

Students who reside in Oklahoma in non-bordering counties are eligible to receive a reduced rate in nonresident tuition.

Doctoral students who have accumulated over 99 doctoral hours will be charged nonresident tuition and fees.

Motor vehicle operation and parking permits are issued for the academic year. They are $40 if purchased in the fall, $32 in the spring, and $24 in the summer. All permits expire August 31 of each academic year.

**Note:** All fees are subject to change.

## Room and Board

For specific room and board costs, contact the Department of Residential Living and Learning at (903-886-5797) or check online at [http://www.tamuc.edu/CampusLife/housing/default.aspx](http://www.tamuc.edu/CampusLife/housing/default.aspx).

## Overdue Financial Obligations

In the case of overdue financial obligations to Texas A&M University-Commerce by the student, future registrations, transcripts, and other benefits may be withheld.

## Admission to Graduate School

Admission to Graduate School permits the student to enroll in graduate courses, but does not guarantee admission to a program leading to a masters/ specialist or doctoral degree. Departments have the right, and many exercise that right, to have program admission requirements that are higher than those set by the Graduate School. In no case, however, can a department set criteria lower than the Graduate School minimum. Additional information regarding admission can be found online at [http://www.tamuc.edu/academics/graduateSchool/graduateAdmissions/default.aspx](http://www.tamuc.edu/academics/graduateSchool/graduateAdmissions/default.aspx).

## General Requirements for Admission to the Graduate School for Domestic Students

An applicant to the Graduate School who is seeking admission must hold a bachelor’s degree from a regionally accredited institution. The bachelor’s degree must be substantially equivalent in content to degrees granted by Texas A&M University-Commerce. Each domestic applicant will submit to the Graduate School the following:

1. An application for admission to the Graduate School, available online: [Online Application](http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx)
2. A $50.00 non-refundable application fee.
3. An official bachelor’s degree transcript from a regionally accredited institution and a transcript from any school at which the student has completed graduate courses (these transcripts should be sent directly to the Graduate School by the issuing institutions).
4. GRE/GMAT Scores. Some departments have alternative options for meeting the GRE/GMAT requirements.

To view specific departmental requirements go to: [http://www.tamuc.edu/academics/graduateSchool/programs/default.aspx](http://www.tamuc.edu/academics/graduateSchool/programs/default.aspx)

Applicants holding a master’s degree from a regionally accredited institution who are seeking a second master’s/specialist degree may be able to use their first Master’s degree as an option to meet the GRE/GMAT requirement, subject to departmental approval.

## Admission for Students Receiving Their Bachelor’s Degree from an Unaccredited Institution

Students desiring admission to the Graduate School at Texas A&M University-Commerce who have received their bachelor’s degree from an institution not recognized and accredited by one of the regional accrediting agencies must be approved for admission by the Dean of Graduate School. Materials must be submitted to the Graduate School 30 days in advance of initial enrollment. In addition to the General Requirements for Admission (covered in the previous section), students may be required to submit additional supportive documentation. Factors considered by the Dean in making the determination include, but are not limited to, GRE/GMAT scores, undergraduate grade point average, nature of undergraduate program, and educational qualifications of the undergraduate institution’s faculty.
Suspension from other Universities

Students on academic suspension from another institution are not eligible for graduate admission consideration to Texas A&M University-Commerce until their specific period of suspension expires.

Online Courses and Degrees

At A&M-Commerce, your success is our business. That includes making higher-education opportunities available to those who, because of work and/or family obligations, find it difficult to access courses that are offered on scheduled days and times.

Learn more about our degree programs offered, how to enroll, course listings, online student support by following the links on the left hand navigation.

Out-of-State Students

A&M-Commerce is authorized to offer online degree programs and courses in designated states.

As a participant in the National Council for State Authorization Reciprocity Agreements (NC-SARA), A&M-Commerce may admit out-of-state students who live in states that are members of NC-SARA. NC-SARA member states and participating institutions are listed on the NC-SARA website (http://nc-sara.org).

Professional Licensure Disclosure

Prospective and current students interested in courses, programs, certificates, or degrees that lead to professional licensure must understand their state licensing board's requirements prior to enrolling.

Depending on the status of your state of residence with regard to NC-SARA, A&M-Commerce may notify you that you are not eligible to register for a Texas A&M University-Commerce distance learning degree program or course.

Incorrect Information, or Omission of Facts

Graduate admission is invalid if granted on the basis of incorrect information or on the omission of facts which, if known, would have caused the applicant to be ineligible.

Students who submit false information and/or fraudulent documents are subject to withdrawal of any offer of acceptance and withdrawal from all enrollment (completed and incomplete). Students who are withdrawn as a result of the submission of false information and/or fraudulent documents are not eligible for any refund of tuition and fees.

International Students

An international graduate student is any degree-seeking student holding a non-immigrant visa. International students who desire to enter the university must submit all admission documents to the Graduate School a minimum of 90 days prior to the semester in which they wish to enroll. Each applicant must submit the following documents:

1. An application for admission to the Graduate School, available online: at Online Application (http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx)
2. A $75.00 USD non-refundable application fee.
3. Official transcripts and official copies of diplomas, translated into English, from each college or university attended. The bachelor's degree earned at a foreign institution must be equivalent to an accredited U.S. institution's 4 year degree or selected 3 year bachelor's degrees using the guidelines established by World Education Services. Approval requires university accreditation with an A, A+, or A++ rating from National Assessment and Accreditation Council (NAAC), and student standing of first class or first division.
4. A sponsor’s statement with a current bank statement showing a balance of at least $26,024.82 in U.S. dollars.
5. Applicants whose native language is not English are required to submit proof of English proficiency, which is satisfied by one of the following:
   a. A minimum TOEFL score of 79 for internet-based testing (IBT), or score of 550 for paper-based testing (PBT), or 213 on computer-based testing (CBT) scores must be less than 2 years old,
   b. A minimum IELTS score of 6.0 overall band, scores must be less than 2 years old, or
   c. A minimum PTE score of 53 overall band, scores must be less than two years old; or
   d. Completing all years of a Bachelor's degree or higher degree at a U.S. regionally accredited university.
6. Some departments have alternative options for meeting the GRE/GMAT requirements.

To view specific departmental requirements go to: http://www.tamuc.edu/academics/graduateSchool/programs/default.aspx

Each applicant is subject to departmental approval. Individual departments may establish additional requirements for admission. International students must be admitted to a degree program in order to enroll in graduate courses unless visa classification indicates otherwise.

International students who hold a F-1 visa are not eligible for non-degree student status or provisional admission status.
All international students are required to attend New Student Orientation conducted by the Office of International Programs. New international students must bring their immigration documents with them to orientation.

All F-1, J-1 international students, and J-2 dependents are automatically enrolled in the A&M System insurance plan every semester unless they meet one of the exemption requirements. Please contact the Office of International Programs at 903-886-5097 or email: Intl.Stu@tamuc.edu for more information, or the student may visit Academic Health Plans. Due to the mandatory coverage requirements, medical and repatriation/evacuation insurance is required the entire year (including summer).

Submitting an Application (Domestic/International)

Texas A&M University-Commerce Graduate School practices open enrollment. Most programs do not require a submission deadline. For programs that do require a submission deadline, the dates are listed on the specific program area webpages (http://www.tamuc.edu/academics/graduateSchool/programs/default.aspx). Below are the general application deadlines for international applicants:

- To be considered for spring, the deadline is October 1st
- To be considered for summer, the deadline is February 15th
- To be considered for fall, the deadline is May 15th

Applications can be submitted online at Online Application (http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx). All admission documents need to be mailed to:

Mailing Address
Texas A&M University-Commerce
Graduate School
P. O. Box 3011
Commerce, TX 75429-3011

Texas A&M University-Commerce
Graduate School
2600 S. Neal St.
Commerce, TX 75428

Non-degree Student Status

Students who hold a bachelor’s degree from a regionally accredited institution, but who are not seeking a graduate degree may apply for non-degree admission status and may enroll in graduate courses for educator certification, career enhancement, a graduate certificate, or personal development. International students are ineligible to enroll under non-degree student status. Financial Aid is not available for students in non-degree status.

Applicants for non-degree status must submit the following:

1. An application for admission to non-degree status Online Application (http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx).
2. A $50.00 nonrefundable application fee.
3. An official bachelor’s transcript from a regionally accredited institution.

Non-degree students are not subject to the academic suspension policies applicable to degree-seeking students.

Certification Status

Students holding a bachelor’s and master’s degree from a regionally accredited institution and who are not seeking a degree but are working toward a state or professionally mandated certification (School Librarian or Educational Diagnostician) may enroll in graduate courses.

Applicants must submit the following:

1. An application for admission to Graduate School for certification Online Application (http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx).
2. A $50.00 non-refundable application fee.
3. An official bachelor’s transcript from a regionally accredited institution.
4. An official master’s transcript from a regionally accredited institution.

Applicants should consult with a departmental advisor for any additional specific requirements.

Graduate Certificates

Graduate Certificates are a planned course of study designed to meet the academic and career needs of graduate students and employed professionals in a wide variety of disciplines. Students holding a bachelor's degree from a regionally accredited institution and who are not seeking a degree may
enroll in graduate Certificate programs. Graduate Certificate programs must follow a planned course of study with a minimum of twelve graduate semester hours and no more than twenty-four graduate semester hours. Course substitutions are not allowed and all courses required in a certificate program must be earned from Texas A&M University-Commerce. Graduate School requires students to have a 3.0 GPA on all courses used for the certificate; however, departments may establish more rigorous GPA requirements. Credit earned over six years prior to earning a graduate certificate will require specific written departmental justification and approval of the Dean of Graduate School in order to be counted toward a graduate certificate. The discipline in which the course(s) was taken shall be involved in the validation of an out-of-date course. In no case may courses more than ten years old be accepted toward a graduate certificate. Additional information regarding Graduate Certificates can be found online at http://www.tamuc.edu/academics/graduateSchool/programs/graduatecertificates/default.aspx.

Applicants must submit the following:

1. An application for admission to non-degree status Online Application (http://www.tamuc.edu/academics/graduateSchool/applyOnline.aspx).
2. A $50.00 non-refundable application fee.
3. An official bachelor’s transcript from a regionally accredited institution.

Applicants should consult with a departmental advisor for specific departmental requirements.

Changing from Non-Degree or Certification Status to a Degree Program

A student wishing to change status from non-degree student or certification status to a degree program must file a new application for admission to the Graduate School and satisfy all admission requirements for the specific degree program. A student must have at least an overall Texas A&M University-Commerce graduate GPA of 3.0 in order to change from non-degree or certification status to a degree program.

No more than 12 graduate semester credit hours taken in non-degree status may be applied toward a master’s/specialist or a doctoral degree. Individual departments will make the final determination on how many semester credit hours (up to 18) a student may transfer from certification status to a master's/specialist degree program. All students should consult with the degree granting program concerning specific departmental transfer criteria.

DegreeWorks

DegreeWorks (digital degree plan) is a web-based planning tool to help students and advisors monitor student's progress toward degree completion. DegreeWorks is not a substitution for consultation with an academic advisor. DegreeWorks shows the student in an easy to read format, the courses and program requirements that must be completed to achieve their chosen degree. All currently enrolled graduate students who attend Texas A&M University-Commerce should use DegreeWorks. To generate a degree audit a student must be enrolled in the catalog year beginning Fall of 2010 and forward.

Master’s/Specialist Degree Program Status

Students desiring acceptance into a graduate master’s or specialist program first must meet the general requirements for admission to Graduate School. For master’s/specialist degree students, there are three types of admission status: full, conditional, and provisional. Financial aid is available for full and conditional admission status only.

Full Admission Status

The applicant must satisfy the following requirements for full admission status:

1. Hold a bachelor’s degree from a regionally accredited institution or equivalent degree from a foreign institution. The bachelor’s degree must be substantially equivalent in content to degrees granted by Texas A&M University-Commerce.
2. Have an overall undergraduate grade point average of 2.75 on a 4.00 scale, or a 3.00 on the last 60 undergraduate hours.
3. Meet all departmental requirements.
4. GRE/GMAT Scores. Some departments have options for meeting the GRE/GMAT requirements.

Conditional Admission Status

Applicants not qualifying for full admission may be granted conditional admission status.

Conditional admission will be changed to full admission once the student has met the following requirement:

- Complete 12 semester hours of Texas A&M University-Commerce graduate coursework with a graduate GPA of at least 3.0

Failure to achieve a 3.0 GPA after completing 12 graduate hours will result in suspension of the student from further graduate study in any degree program for 3 years.

Provisional Admission Status

Some programs will allow a student to enroll for one semester under provisional status (initial semester of enrollment in Graduate School) with an application for admission and an application fee. International students are not eligible for provisional admission status.
Students admitted provisionally must be sure all outstanding admission documents are received before the end of the first semester of enrollment. Students whose files are not complete during the semester of provisional enrollment will not be permitted to enroll in future semesters until the necessary documentation is received and an admission decision is determined. Provisional admission status does not guarantee admission to a degree program. Financial aid is not available for students in provisional status.

### Academic Probation and Suspension from Master’s/Specialist Degree Programs

1. Students with **full admission status** who fail to achieve and maintain an overall graduate GPA of 3.00 after the completion of twelve semester hours of graduate enrollment will be placed on academic probation. A student who fails to achieve a 3.00 overall graduate GPA by the end of the next semester of enrollment will be placed on academic suspension for a period of two semesters (Two summer terms count as one semester). After the academic suspension is served, the student may be allowed to re-enroll only upon the recommendation of the major Department Head and with the approval of the Dean of the Graduate School. Failure to achieve an overall 3.00 graduate GPA during any subsequent semester of enrollment will result in suspension, and the student will not be allowed to pursue further graduate study in a degree program for 3 years.

2. Students with **conditional admission status** who fail to achieve a 3.00 graduate GPA after the completion of twelve semester hours will be suspended and will not be allowed to pursue further graduate study in a degree program for three years. This provision applies to all courses taken, with the exception of duplicated courses (courses with the same prefix, number, and title), in which case only the most recent grade will be used. This provision also applies to all drop/fail courses and all incomplete courses in which an “X” has changed to an “F.”

3. Students with **provisional admission status** who fail to achieve a 3.00 graduate GPA after the completion of twelve semester hours will be suspended and will not be allowed to pursue further graduate study in a degree program for 3 years.

4. All courses completed while the student is on probation and those completed upon enrollment following suspension must be appropriate to the degree sought.

5. Courses taken from other institutions will not be transferable if taken during a period of suspension from Texas A&M University-Commerce.

6. A student who fails to meet the professional expectation of the field for which he/she is preparing may be suspended from further study in that program by the department administering that program.

A graduate student who has not been enrolled for a period of at least six years may submit a graduate petition for removal of grades after six years to the Dean of the Graduate School to have previous graduate grades eliminated from the calculation of the official grade point average. No courses eliminated from such calculation could be used toward a graduate degree.

### Requirements for the Master’s/Specialist Degree

All Master’s/Specialist degrees must meet the requirements in this section. Additional degree requirements are listed in each departmental section of this catalog.

- **Prerequisite Coursework.** Admission to Graduate School does not imply that the applicant has the necessary background to earn a degree in a specific department. To major or minor in a specific discipline, the candidate must have or must obtain adequate preparation to assure successful graduate work. Background leveling courses cannot be applied toward the graduate major.

- **Course Requirements.** All master’s degrees require completion of at least 30 graduate hours. Specialist degrees require completion of at least 66 graduate hours.
  - **Major.** A minimum of 18 graduate hours is necessary to complete a major. The student should check their degree plan in DegreeWorks through MyLeo (https://leo.tamuc.edu) for specific course requirements. A student desiring to change majors, must be in academic good standing with the Graduate School, and must complete a Change of Major/Degree form (http://www.tamuc.edu/academics/graduateSchool/graduateAdmissions/changeMajor.aspx). A minimum of 24 graduate hours in three fields arranged in a 12-6-6 pattern is required for a broad-field major. Broad-field majors may be available for some MA/MED/MS degrees.
  - **Minor.** Twelve semester hours in a second subject area (designated by the course prefix) constitute a minor. Completion of a minor is not a mandatory requirement. Students receiving a minor may be required to satisfy candidacy and are required to meet the comprehensive examination requirements of the minor department.

- **Foreign Language Requirement.** The candidate for the Master of Arts degree must meet the language requirement. That requirement can be met with one of the following options:
  i. Successful completion of at least 12 semester hours (college/university level) in one foreign language.
  ii. Successful completion of 6 semester hours (college/university level) and 2 years of high school credit in one foreign language.
  iii. Successful completion of 3 semester hours (college/university level) and 3 years of high school credit in one foreign language.
  iv. Successful completion of 12 semester hours of American Sign Language (ASL).
  v. Completion of a Bachelor of Arts degree from A&M-Commerce
  vi. Successful completion of the American Council on Teaching of Foreign Languages examination with a minimum score/rating of intermediate proficiency in one of the following areas:
    • Oral Proficiency Interview (OPI) or
    • Oral Proficiency Interview - Computer (OPIc) or
    • Written Proficiency Test (WPT)
Grade Point Average. A overall grade point average of 3.00 or better on all graduate work completed at Texas A&M University-Commerce and an overall GPA of 3.00 or better on all graduate work taken toward the graduate degree program is required for graduation. If a course is retaken, the last grade will be counted in the computation of the overall GPA. A course in which an “F” is received is considered a course completed. Only grades earned at Texas A&M University-Commerce are calculated into the student’s GPA.

- No grade of “D” or below will count toward a master’s/specialist degree.
- No more than three grades of “C” will be used toward a master’s/specialist degree.

Master’s/Specialist Degree Residency. A minimum of two-thirds of the course work applied to a master’s/specialist degree must be taken from Texas A&M University-Commerce. Students should check with the department for any departmental residency requirements.

Time Limitation. All work for the master’s/specialist degree must be completed during the 6 years immediately preceding the date on which the degree is to be awarded. Credit earned over 6 years prior to graduation requires specific written departmental justification and approval by the Dean of the Graduate School to be counted toward a master’s/specialist degree. The discipline in which the course(s) was taken shall be involved in the validation of an old course. In no case may courses more than 10 years old be applied toward the master’s/specialist degree. These same limitations apply to all transfer courses. A master’s/specialist student who has not been enrolled for 1 calendar year must apply for readmission under current admission & program standards for master’s/specialist programs.

Catalog Privileges. A student is entitled to use the degree provisions of any catalog in effect between the semester the student is admitted to the master’s/specialist degree program and the semester the student’s degree is conferred, provided the catalog used is not more than 6 years old at the time the degree is conferred.

Admission to Candidacy for Master’s/Specialist Degree. In those programs requiring candidacy, the student must apply and be admitted to candidacy at least one semester prior to graduation. Not all programs require candidacy. Students should check their DegreeWorks degree plan to determine candidacy is required for their program. Minimum candidacy requirements are:

- Full admission into the master’s/specialist program and satisfactory completion of all background courses and other departmental requirements.
- Completion of at least four and not more than six Texas A&M University-Commerce graduate courses. Three of the courses must be in the major field.
- An overall grade point average (GPA) of 3.00 or better on all graduate work completed at Texas A&M University-Commerce and an overall GPA of 3.00 or better on all graduate work taken toward the graduate degree program.

When the above requirements have been met, the student should petition the major and/or (minor, if applicable) department for admission to candidacy. The major and/or minor department may require a written and/or oral qualifying examination before granting approval. It is the student’s responsibility to see that the candidacy forms are submitted to the Graduate School prior to the semester in which the student expects to graduate.

Thesis (518) and Research Literature and Techniques (595) Credit. All degree programs require the satisfactory completion of either the thesis (518) or the research literature and techniques (595) course at Texas A&M University-Commerce. These courses cannot be transferred from another institution. A student who is writing a thesis is required to register for 518 to receive guidance from a member of the faculty or while utilizing university facilities. Only 6 graduate hours of credit for 518 or 3 graduate hours of credit for 595 per degree will be given upon satisfactory completion of the requirement. Unless approved by the department and the Graduate Dean, 518 or 595 must be taken in the student’s major department. A reduced fee for 518 may be approved after all other course work for the degree is completed. Students writing a thesis must be enrolled in 518 during the semester the thesis is approved by the Graduate School. A student’s completion of the 595 course must result in a product available for reference in the department for a minimum of 3 years.

Final Comprehensive Examinations. The candidate must pass a comprehensive examination administered by the advisory committee or major department and covering all the work within the master’s/specialist degree program, including an acceptable defense of the thesis, if applicable. The student must be fully admitted to a master’s/specialist degree program and be in good academic standing with the Graduate School to be eligible to take the comprehensive examination. The Final Comprehensive Examination Report form must be submitted to the Graduate School prior to graduation according to the https://calendar.tamuc.edu/.

A candidate who fails the comprehensive examination may be required by the advisory committee or the major department to complete further courses or additional study to correct the weaknesses or deficiencies revealed by the examination. The candidate who fails the comprehensive examination on the first attempt may retake the comprehensive examination when the department head or equivalent deems it appropriate. Should the candidate fail the comprehensive examination upon the second attempt, a third and final attempt may be taken only with the recommendation of the major department head or equivalent and approval of the Dean of the Graduate School in accordance with University Procedure 11.99.99.R0.13 (http://www.tamuc.edu/aboutUs/policiesProcedures/StandardsStatements/rulesProcedures/11centersDegreesPrograms/graduate/11.99.99.R0.13.pdf).Examinations for Graduate Degrees. Successful completion of the Comprehensive Exam is required of all students to receive a master's/specialist degree. A student who attempts the comprehensive examinations for a third and final time and is unsuccessful is not eligible to receive his/her master’s/specialist degree.

Graduation and Commencement. Commencement exercises are held three times each academic year in May, August, and December. Students must file for graduation online through MyLeo (https://leo.tamuc.edu) during the semester they plan to graduate. Students will be approved for graduation and the degree after they have satisfactorily completed all degree requirements and been approved by the academic department and the Graduate School. Please check the University Academic Calendar (https://calendar.tamuc.edu/) for deadline dates for filing. Graduation information is available online at http://www.tamuc.edu/admissions/registrar/default.aspx. Students must apply for graduation online through MyLeo (https://leo.tamuc.edu). A student must be in good academic standing in order to complete graduation requirements. Participation in the commencement
ceremony does not guarantee conferring of any degree. Texas A&M University-Commerce has the right to rescind any conferred degree if the 
University becomes aware that the student did not meet all degree requirements including :
• Good Academic Standing
• No more than 3 Grades of "C" in the degree program
• Overall graduate GPA of 3.00 or better
• Overall graduate GPA of 3.00 or better on all graduate work taken toward the graduate degree program
• Departmental Course Requirements are met
• Successful Completion of Comprehensive Examination
• Successful Completion of a thesis (if applicable to the program)

Students that have applied for graduation and are concurrently enrolled at another institution during the final semester in a program will be required 
to submit an official transcript before final clearance can be completed and degree can be awarded. In addition, all courses from A&M-Commerce 
with a grade of X or IP must be completed before a degree can be awarded, even if the courses are not used in the program.

Submitting an Application for Graduation
The graduation application is available online through your myLeo (https://leo.tamuc.edu) account during the following time periods: Spring/fall first three 
weeks of the semester; summer, first two weeks of semester. Once the application period has ended, the Graduate School will begin reviewing your 
application.

A $40.00 application fee is required from the student upon submission of the graduation application each time an application is filed. Should a student 
have to reapply the next semester, a $40 reapplication fee will be required.

The Graduate School will notify the student of their official graduation status. If the student does not fulfill the degree requirements, he or she will be 
removed from the graduation list and will need to reapply for another term.

Earning Graduate Credit
Graduate Courses
Graduate courses that are applied toward a masters/specialist degree are numbered 500, 600, 700, 5000, and 6000. Course requirements for specific 
degree programs can be found in the academic department section of this catalog.

Undergraduate Courses Taken for Graduate Credit
Under some circumstances a student may take a 300 or 400 level course for graduate credit. In such cases a student will be expected to complete 
additional work beyond the normal course requirements at a level commensurate with graduate instruction. In order to obtain graduate credit for a 300 or 
400 level course, the student must, prior to enrollment, submit a Graduate Credit for a 300 or 400 Level Course form with a copy of the course syllabus 
detailing the additional requirements for graduate credit to the Graduate School for final approval by the Dean of the Graduate School. In addition, 
the syllabus must include enhanced learning outcomes for the graduate student. Up to two such courses may be applied toward a master’s/specialist 
degree, and courses are not applicable to a doctoral degree. The course must be taught by a Graduate Faculty member.

Graduate Credit for a 300 or 400 Level Course form: http://www.tamuc.edu/academics/graduateSchool/graduateForms.aspx

Transfer of Credit and Experiential Credit
Up to one-third of the credit required for a master’s/specialist degree program (excluding leveling courses) may be accepted as transfer credit from 
another regionally accredited institution in the United States. For example, a maximum of 12 graduate semester hours can be transferred for a 36-hour 
program; for a 30-hour program, a maximum of 9 graduate hours can be transferred. Transfer courses applied toward a master’s/specialist degree must 
be in a graduate academic area taught at Texas A&M University-Commerce.

• Transfer credit will be granted for only those courses in which the student received a grade of “B” or better. Courses with a grade of P or S are 
acceptable when the transcript legend on the official transcript states the P or S grade is equivalent to a B or better.
• 595 or 518 courses must be taken at Texas A&M University-Commerce and cannot be transferred from another institution.
• Only grades earned at Texas A&M University-Commerce will be calculated into the student’s grade point average.
• Time limitations on transfer courses are the same as Texas A&M University-Commerce courses.
• All work for the masters/specialist degree must be completed during the 6 years immediately preceding the date on which the degree is to 
be awarded.
• Transfer courses will only be used from a regionally accredited university.

Students desiring to use transfer courses toward their degree requirements must have full or conditional admission to a degree program. A transfer 
request must be submitted and approved by the student's Academic Advisor via the Transfer Course Request (http://www.tamuc.edu/academics/ 
graduateSchool/documents/transferSubstitution.pdf) form. An official transcript must be sent directly from the institution to the Graduate School. These
courses will be evaluated and, if approved, posted to the Texas A&M University-Commerce transcript. Approval from both the major department and the Dean of the Graduate School is required before these courses can be applied toward a master's/specialist degree.

Students that have applied for graduation and are concurrently enrolled at another institution during the final semester in a program will be required to submit an official transcript before final clearance can be completed and degree can be awarded.

Experiential credit is limited to one-third of the hours required for an A&M-Commerce master's/specialist program. The remainder of the graduate program must consist of coursework completed at A&M-Commerce. Awarding of this credit will be based solely on experiential learning that is part of an official agreement between the University and another national, state, or regionally accredited institution or certifying agency.

The combination of experiential credit, transfer credit, or credit from a previous A&M-Commerce graduate degree is limited to one-third of the hours required for an A&M-Commerce master's/specialist program.

**Correspondence Courses**
Credit earned by correspondence will not apply toward a master's/specialist or doctoral degree.

**Undergraduate Seniors Taking Graduate Courses for Credit**
Texas A&M University-Commerce seniors in their last semester of coursework, who lack no more than 12 hours to graduate and have an overall undergraduate grade point average of 2.75 or higher, may enroll for 3 to 6 hours of graduate credit. Prior written recommendation of the major department involved and approval by the Dean of the Graduate School is required. Seniors desiring to take business administration courses for graduate credit must also have permission from the Director of Graduate Programs in Business Administration.

1. Graduate courses cannot apply toward an undergraduate degree.
2. The maximum load for seniors who register for graduate and undergraduate credit is 15 credit hours per semester or 6 hours per summer term including credit for graduate courses.

**Independent Studies Courses**
The maximum number of individually arranged (589 and 689) hours permissible toward a master's/specialist degree program is 25% of the required coursework. Doctoral degree programs (excluding master's credit) - twelve. Exceptions must be initiated in writing by the department head and approved by the appropriate academic dean and the Dean of the Graduate School.

**Enrollment Limitation or Administrative Withdrawal**
Enrollment in any graduate course is subject to approval by the academic dean, the department offering the course, the instructor teaching the course, and the Dean of the Graduate School, whether or not such is specifically stated in the course description. A student may be prevented from enrolling in the course or dropped from the course if the student is not academically qualified, becomes a threat to the health and/or safety of anyone in the class (including the student), interferes with the educational process, and/or is disruptive in any way. In such cases, the Graduate Dean will confer with the faculty member, Department Head, and academic dean involved and then take appropriate action. Any tuition refund to which the student is entitled will be determined according to the University schedule for refunds and will be based on the date in which the student was dropped from the course.

**Second Master’s Degree**
Subject to the approval of the Graduate Dean and the Department Head, students holding master's degrees from a regionally accredited graduate institution in the United States may apply certain courses that were a part of a previously earned graduate degree toward a second master's degree, provided such courses are not more than 6 years old at the time the second master's degree is conferred.

The number of courses permitted will be as follows:

- For 30-semester-hour programs, no more than 9 approved hours.
- For 36-semester-hour programs, no more than 12 approved hours.
- For 60, 61 & 62-semester-hour programs, no more than 20 approved hours.
- For the 63 & 64-semester-hour programs, no more than 21 approved hours.
- For the 66-semester-hour program, no more than 22 approved hours.
- All remaining courses applied to satisfy the requirements for the second master’s degree must be Texas A&M University-Commerce courses.
  - A thesis completed for a previous degree cannot be used for a second master's degree.
  - A 595 Research Literature and Techniques course can only be used for a second master's with departmental and Graduate School approval. A 595 Research Literature and Techniques course cannot be transferred in from another institution.

The second master’s degree will be subject to the general regulations governing master’s degrees except as stated above.

Students that have applied for graduation and are concurrently enrolled at another institution during the final semester in a program will be required to submit an official transcript before final clearance can be completed and a degree can be awarded.
Thesis Process

The thesis proposal process is a major step in the academic history of a master/specialist student completing a thesis at Texas A&M University-Commerce. Below are guidelines to help the student navigate through this important time. Students are expected to uphold the highest standards of research conduct and strictly adhere to all federal, state, and local regulations involving research.

The Graduate School is responsible for the development of supportive services for graduate students writing theses and dissertations, as well as reviewing all theses and dissertations. Services provided are training and support to faculty, students, and staff including materials and approaches to fit each unique discipline. The Graduate School is located on the first floor of the McDowell Business Administration Building in room 140A.

Before work on the thesis can begin, the student must submit the Thesis Committee Selection form to the Graduate School for review and approval by the Graduate Dean. Committee forms must be submitted at least 30 days prior to the proposal defense meeting.

To ensure integrity and compliance in research, all students involved in research activities must successfully complete training in Responsible Conduct in Research and Scholarship (http://www.tamuc.edu/research/compliance/training/Responsible-Conduct-in-Research.aspx). Students conducting studies that do not require IRB, IACUC, or IBC approval may begin data collection after completing the Responsible Conduct in Research training and after receiving approval from their advisor to do so. Proof of training completion must be submitted to the Graduate School when submitting the proposal document for review and approval. Data collection prior to completion of the required training is an ethical violation and the use of those data will be disallowed.

Additional training is required for individuals (see #2 in the section below: To be able to propose the thesis) whose research involves human/animal subjects or biological agents. Graduate students whose research involves human subjects, animals, infectious biohazards and recombinant DNA must adhere to the University research compliance procedures. Students conducting studies using human participants, animal subjects, or biological agents must seek approval from the IRB, IACUC, or IBC, respectively. Data collection may begin once approval from the appropriate reviewing body is received. Proof of approval must be submitted to the Graduate School with the proposal document. Data collection prior to completion of the required trainings and receipt of the required approvals is an ethical violation and the use of those data will be disallowed. For questions or clarification about the student's responsibilities regarding research compliance, please contact the ResearchCompliance@tamuc.edu. Additional information is located online at http://www.tamuc.edu/Research/.

To be able to propose the thesis:

1. Students must complete the online training for Responsible Conduct in Research (http://www.tamuc.edu/research/compliance/training/Responsible-Conduct-in-Research.aspx). This training is required of all students and is good for three (3) years.

2. Students must complete the following if the proposed research/study involves:
   a. Human Subjects: Human Subjects research is defined as a systematic investigation designed to develop or contribute to generalized knowledge, which involves the collection of data from or about living human beings. In addition, all student research involving human subjects outside the classroom is considered to be in this category (see: http://www.tamuc.edu/research/compliance/training/protection-human-subjects-training.aspx).
      i. Students must complete the Human Subjects online training and gain approval for the inclusion of human subjects in their research / study from the Institutional Review Board (IRB) for the Protection of Human Subjects. The online training can be accessed at the following website: (http://www.tamuc.edu/research/compliance/training/protection-human-subjects-training.aspx).
      ii. Students must gain IRB approval for their study. The process to gain approval from the IRB includes protocol application completion, submission, and revisions (if required by the Departmental IRB Representative and/or IRB) of the IRB protocol form. See: (http://www.tamuc.edu/research/compliance/training/protection-human-subjects-training.aspx). IRB protocol forms must be submitted to ResearchCompliance@tamuc.edu through a student's faculty advisor. Final approval for the inclusion of human subjects in their research/study rests with the IRB.
   b. Animal Subjects: Animal subjects are defined as any live, vertebrate animal (see: http://www.tamuc.edu/research/compliance/training/AnimalCareInstructions.aspx).
      i. Students must complete the Animal Subjects online training and gain approval for the inclusion of animal subjects in their research/study from the Institutional Animal Care and Use Committee (IACUC). The online training can be accessed at the following website: (http://www.tamuc.edu/research/compliance/training/AnimalCareInstructions.aspx).
      ii. Students must gain IACUC approval for their study. The process to gain approval from the IACUC includes protocol application completion, submission, and revisions (if required by the IACUC) of the IACUC protocol form (see Research Protocols Form A at (http://www.tamuc.edu/research/animalCare.aspx). IACUC protocol forms must be submitted to ResearchCompliance@tamuc.edu. Final approval for the inclusion of animal subjects in students research/study rests with the IACUC.
   c. Biological Agents: If a student conducts research involving any of the agents/materials listed below, the student must have approval from the Texas A&M University-Commerce Institutional Biosafety Committee (IBC) prior to initiation of the research (see http://www.tamuc.edu/research/compliance/training/biosafetybiosecurity.aspx).
      - Pathogens and potential pathogens of humans, animals, or plants;
      - Materials potentially containing human pathogens (including human and non-human primate blood, tissue, and cell lines);
      - Recombinant DNA and RNA, including creation or use of transgenic plants and animals;
      - Select agents and toxins listed by CDC; and
      - Any material requiring a CDC license to import or a USDA permit.
i. Student must complete Biosafety training online and gain approval from the IBC before commencing any work. Online training can be accessed at http://www.tamuc.edu/research/compliance/training/biosafetybiosecurity.aspx.

ii. The IBC approval for a student's study includes training, self-assessments, safety concerns, required biosafety levels, risk, analysis, and emergency procedures. The detailed information can be found under Office of Sponsored Programs website. Final approval rests with the IBC, and the approval must be included in students' application package.

TO GAIN PROPOSAL APPROVAL

Submit the thesis proposal and required forms electronically to the Graduate School TDS@tamuc.edu (tds@tamuc.edu). Students must gain proposal approval from the Graduate School at least one semester prior to the semester they defend and submit their final thesis for approval. Before submitting to the Graduate School and before collecting any data a student must have received:

• Committee, Department Head, and Dean of College, Approval,
• Ethics Training (CITI trainings, i.e., RCR), and
• IRB, IACUC, or IBC approval (if applicable).

Lastly, it is the student's responsibility to submit his or her proposal and all required documents (listed below) to the Graduate School (TDS@tamuc.edu).

• Thesis proposal (Word format, unless using LaTex),
• Thesis proposal approval form (http://www.tamuc.edu/academics/graduateSchool/documents/thesis--dissertation-services/Thesis%20Proposal %20Packet%202018.pdf) with all required signatures except the Graduate Dean's,
• Proof of completion of CITI (http://www.tamuc.edu/research/compliance/training/ResponsibleConductInstructions.aspx) trainings
• IRB, IACUC, or IBC Approval letter (if applicable; see ResearchCompliance@tamuc.edu), and
• iThenticate similarity report (and score justification if the similarity score is above 12%).

Students are not permitted to run an iThenticate report for themselves. The thesis advisor or another member of the student's advisory committee must run and interpret the report for the student. Faculty experiencing difficulty accessing their iThenticate account should contact Ann Phifer (Anne.Phifer@tamuc.edu) from the Office of Academic Technology. Contact the Graduate School at TDS@tamuc.edu with questions regarding how to print or share the report with the Graduate School.

Submission of Thesis

Notification of the Thesis defense. A Notification of Thesis Defense form (http://www.tamuc.edu/academics/graduateSchool/documents/thesis--dissertation-services/Notification%20form%20for%20Thesis%20Defense.pdf) must be sent to the Graduate School (TDS@tamuc.edu) at least 7 days prior to the date the defense is to be held. Refer to University Academic Calendar (https://calendar.tamuc.edu) for the thesis defense deadline if graduating in the current semester. It is the responsibility of the student to collect all required signatures and to submit the completed form to the Graduate School. Students must be in good academic standing with the Graduate School and have a proposal approved by the Dean of the Graduate School to be eligible to defend.

Thesis Defense. The student will defend the completed thesis before his or her advisory committee. Following a successful defense and acceptance by the advisory committee, the student will submit the final thesis in Word format (unless using LaTex), the Final Thesis Submission Packet (with all required signatures except the signature of the Dean of the Graduate School), and an iThenticate report to the Graduate School (TDS@tamuc.edu). Students must be in good academic standing with the Graduate School to be eligible to defend.

Initial Submission of Final Thesis: Initial submission of a final thesis must be made by the deadline in the University Academic Calendar (https://calendar.tamuc.edu) for the semester the student wishes to graduate. All required documents listed below must accompany the final thesis. After review by TDS, the student will be contacted via LeoMail with any changes to the thesis. After making all changes, and gaining his or her advisor’s approval, the student will resubmit his or her corrected thesis for final approval. Once the Graduate School has given final approval of the thesis, the student will upload the thesis to ProQuest and pay for publishing, binding, and copyrighting (if applicable). Three copies will be bound and distributed to the student’s major department, major advisor, and the library. The student may order more copies through ProQuest.

• Initial submission. One copy of the final thesis in Word format (unless using LaTex) must be submitted electronically to the Graduate School by the deadline indicated in the University Academic Calendar (https://calendar.tamuc.edu) or the Graduate Catalog (p. 7) for that particular semester (this deadline is approximately 6 weeks prior to commencement). Accompanying this copy will be the following:
  • Final Thesis (Word format or LaTex PDF),
  • Thesis Final Defense Report (see the forms page (http://www.tamuc.edu/academics/graduateSchool/graduateForms.aspx)),
  • Advisor’s Approval to Submit Thesis (see the forms page (http://www.tamuc.edu/academics/graduateSchool/graduateForms.aspx)), and
  • iThenticate similarity report and score justification (if score is above 12%).
Students are not permitted to run an iThenticate report for themselves. The thesis advisor or another member of the student's advisory committee must run and interpret the report for the student. Faculty experiencing difficulty accessing their iThenticate account should contact Anne Phifer (Anne.Phifer@tamuc.edu) from the Office of Academic Technology. Contact TDS@tamuc.edu with questions regarding how to print and save the report or how to share the report with the Graduate School.

It is the student's responsibility to submit his or her final thesis and all required documents to the Graduate School by the deadline.

- **Final Approval.** Approval of the thesis rests with the Dean of the Graduate School. Approvals and requests for revisions are communicated to the student's LeoMail. It is the student's responsibility to check his or her LeoMail regularly.

### Doctoral Degree Programs

Texas A&M University-Commerce offers the following Doctor of Education (EdD) and Doctor of Philosophy (PhD) degree programs:

1. EdD in Educational Administration,
2. EdD in Higher Education,
3. EdD in Supervision, Curriculum, and Instruction,
4. PhD in Counseling,
5. PhD in Educational Psychology, and
6. PhD in English.

### Admission to Doctoral Degree Programs

Students desiring acceptance into a doctoral program must meet the general requirements for admission; have an overall undergraduate grade point average of 2.75 on a 4.00 scale, or a 3.00 on the last 60 undergraduate semester credit hours, or a 3.40 for a master’s degree and work beyond the master’s level; and must meet all departmental requirements, such as GRE, letter of recommendation, interviews, etc.

Individual departments may establish additional requirements for admission to a specific degree program. Applicants will be required to fulfill any additional requirements established by the major department.

Applications of students who have met the requirements listed above will be forwarded to the major department. The department will review each application and make a recommendation regarding admission status to the Dean of the Graduate School who will send written notice of the admission decision to the applicant.

A student is either granted full admission or denied admission. There is no provisional or conditional admission status.

A doctoral student who has not enrolled for 1 calendar year must gain readmission before further registration. After more than 1 year, a student must apply for readmission under the under current admission and program standards for doctoral programs.

Some departments have specific dates for the departmental review of applications. Applications submission deadlines are available online at http://www.tamuc.edu/academics/graduateSchool/graduateAdmissions/default.aspx.

### Requirements for the Doctoral Degree

#### DegreeWorks

DegreeWorks (digital degree plan) is a web-based planning tool to help students and advisors monitor student's progress toward degree completion. DegreeWorks is not a substitution for consultation with an academic advisor. DegreeWorks shows the student in an easy-to-read format, the courses and program requirements that must be completed to achieve their chosen degree. All currently enrolled doctoral students who attend Texas A&M University-Commerce should use DegreeWorks.

#### Course Requirements

- A minimum of 90 semester hours beyond the baccalaureate degree or 60 semester hours beyond the master’s degree is required for the doctoral degree.
- At least 45 hours of graduate course credit must be earned from A&M-Commerce (not including 718 hours).
- Master's level 595 research courses cannot be used toward a doctoral program.
- All courses applied toward a doctoral degree must be 500-level or higher.
- Undergraduate courses taken for graduate credit are not applicable to a doctoral degree.
- No more than 12 graduate semester credit hours (including hours completed in non-degree status) beyond the master’s degree taken prior to admission to a doctoral program can be applied toward a doctoral degree.

1. **Major.** A major requires a minimum of 36 semester hours excluding dissertation hours (718); however, a specific program may require additional semester hours for a major. (Specific program requirements are listed under each departmental section of this catalog.)
2. **Minor.** Students selecting the 60 hours beyond the master’s degree option are not required to have a minor. A minor consisting of a minimum of 30 semester hours is required in all 90-hour programs except Counseling, Educational Psychology, and English programs. The minor requirement can be fulfilled by one of the following options:
   a. A **comprehensive minor with all course work in one academic area.** A committee member will be assigned from the academic area and will determine the courses to be taken and be involved in evaluating the written and oral qualifying examinations, the dissertation, and the dissertation defense.
   b. A **split minor of two academic areas with at least 12 hours in each area (a 12-18 or 15-15 format).** Committee members will be assigned from both academic areas, and they will determine the courses to be taken and to be involved in the written and oral qualifying examinations, the dissertation, and the dissertation defense.
   c. An **interdisciplinary studies minor in three academic areas (a 12-9-9 format).** In rare cases, an interdisciplinary studies minor consisting of at least 9 hours in each of three academic areas may be approved. Committee members will be assigned from each of the academic areas, and will be involved in the written and oral qualifying examination, the dissertation proposal, and the dissertation defense.

Regardless of the option chosen the following conditions will apply: assignment of minor advisors rests with the head of the minor department or departments; all courses applied to the minor areas must be approved by the head of the appropriate minor department; at least one dissertation committee member must be from outside the student’s major department; transfer courses applied toward a minor must be in academic areas taught at Texas A&M University-Commerce.

**Other Requirements:**

Credit for no fewer than 9 semester hours and not more than 12 semester hours of dissertation (718) will be given.

Electives and other course requirements as indicated under each departmental section of this catalog.

Specific program requirements are listed under each departmental section of this catalog.

**Grade Point Average.**

- A grade point average of 3.00 or better on all graduate work completed at Texas A&M University-Commerce and an overall grade point average of 3.00 or better on all graduate courses completed, is required for graduation.
- If a course is retaken, the last grade will be counted toward graduation and computation of the overall grade point average.
- No grade of "C" (including a grade of "U") or below will count toward a doctoral degree.
- A course in which an "F" is received is considered a course completed.
- Only grades earned at Texas A&M University-Commerce will be calculated into student’s grade point average.

**Academic Probation and Suspension from Doctoral Degree Programs.**

- A student who fails to achieve and maintain an overall 3.00 graduate grade point average during any semester of enrollment will be placed on academic probation. A student who fails to achieve a 3.00 overall graduate grade point average by the end of the next semester of enrollment will be placed on academic suspension for a minimum of two semesters (two summer terms count as one semester).
- A student on academic suspension may, after the suspension period, be allowed to re-enroll only upon the recommendation of the major department and with the approval of the Dean of the Graduate School. Failure to achieve an overall 3.00 graduate grade point average during any subsequent semester of enrollment will result in dismissal, and the student will not be allowed to pursue further study toward the doctoral degree at this institution.
- All courses completed while the student is on probation and those completed upon enrollment following suspension must be appropriate to the degree sought.
- No course with a grade of “C” or lower (including a grade of “U”) will count toward a doctoral degree.
- A student receiving a grade of “C” or lower (including a grade of “U”) in a third graduate course will be withdrawn from his/her courses and will not be allowed to pursue further doctoral study at this institution. This provision applies to all courses taken, including all duplicated courses.
- Courses taken from other institutions will not be transferable if taken during a period of suspension from Texas A&M University-Commerce.
- Students on academic suspension from another institution will not be admitted to A&M Commerce until their specific period of suspension expires.
- A student who fails to meet the professional expectations of the field for which they are preparing may be suspended from further study in that program by the department administering that program.

A doctoral student who has not been enrolled for a period of at least six years may petition the Dean of the Graduate School to have previous grades eliminated from the calculation of the official grade point average. No courses eliminated from such calculation could be used toward a graduate degree. Students on academic probation or suspension are not eligible to change their degree or major.

**Doctoral Degree Residency.** After admission to a doctoral degree program, each student is required to engage in activities that fulfill departmental residency requirements. The departmental residency plan specifies requirements in the following areas:
1. Involvement in events that broaden intellectual growth.
2. Use of academic support resources.
3. Faculty-student interactions that promote scholarship, mentoring, and opportunities for evaluation.
4. Involvement with cognate disciplines and research scholars in those disciplines.
5. Engagement in meaningful peer interactions.

Please check with the major department for specific requirements. Successful completion of residency is conferred by approval of the department.

**Time Limitation.** Course work taken beyond the master’s degree that is over 10 years old at the time the doctoral degree is to be conferred cannot be used toward the doctoral degree. A doctoral student who has not enrolled for more than 1 calendar year must apply for readmission under current admission and program standards for doctoral programs.

**Catalog Privileges.** A student is entitled to use the degree provisions of any catalog in effect between the semester the student is admitted to the doctoral degree program and the semester the student’s degree is conferred, provided the catalog used is not more than 10 years old at the time the degree is conferred.

**Research Tools.** All research tools courses must be taken at Texas A&M University-Commerce. Candidates for the doctoral degree must possess proficiency in the use of the research skills necessary to successfully complete the doctoral dissertation. Research tools courses must include bibliographic research skills, so that the candidates are able to find, evaluate, use, and communicate information in all its various formats. It is desirable for students to demonstrate these proficiencies early in their program; however, if that is not possible, students should demonstrate such proficiency prior to taking the qualifying comprehensive examinations.

**Research tools requirements for doctoral degrees in the College of Education and Human Services can be met by successfully completing required coursework.**

- The Doctor of Education (Ed.D.) requires 12 hours of prescribed coursework.
- The Doctor of Philosophy (Ph.D.) requires 15 hours of prescribed coursework.
- Courses must be completed with a grade of B or better.
- Only doctoral research tools courses approved in advance of their offering, by the Graduate Council, can be used to satisfy these requirements.
- These course requirements cannot be met through individual studies courses (689 or 589).

**The research tools requirement for the Doctor of Philosophy (Ph.D.) in English can be met with any of the following options:**

1. Twelve semester hours of college-level classes in one foreign language, as verified by official transcript, or
2. Successful completion of a foreign language reading exam, as assessed by department faculty and written verification sent to the Graduate School, or
3. Verified native or near-native competence in a second language, as assessed by department faculty and written verification sent to the Graduate School, or
4. Completion of any four of the following courses, with a grade of B or above: ENG 501, ENG 520, ENG 599, ENG 613, ENG 686, ENG 710, ENG 780, PSY 612.

Research tools courses must include bibliographic research skills, so that candidates are able to find, evaluate, use and communicate information in all its various formats.

These requirements are to be viewed as minimal requirements. Consequently, a department may require additional research tools courses either for all of their students or as a requirement for an individual student based upon that student’s need.

**Students cannot be admitted to doctoral candidacy until the research tools requirement has been met.**

**Comprehensive Examinations.** Upon the completion of approximately 2 full years of study, doctoral students take written and oral comprehensive examinations. The comprehensive examinations are designed to test the student’s knowledge in the major and minor fields and are administered under the direction of an advisory committee consisting of representatives from the major and minor departments. Students must contact their major department for information regarding the comprehensive examinations. A doctoral student who does not pass the comprehensive examinations may be suspended from the doctoral program; however, upon the recommendation of the advisory committee and with the approval of the Dean of the Graduate School, the student may be permitted to repeat the examinations. A doctoral student who does not pass the comprehensive examinations on the second and final attempt will not be allowed to pursue further study at the doctoral level. This procedure also applies to the final oral examination and dissertation defense. It is the student’s responsibility to submit all documents to the Graduate School.

**Admission to Candidacy for Doctoral Degree.** After the qualifying comprehensive examinations and all research tools have been satisfactorily completed and all requirements have been verified by the Graduate School, the student will be admitted to candidacy. Notification of admission to candidacy will be made by the Dean of the Graduate School. After a student has been admitted to candidacy and all course work (except 718 Dissertation) has been completed, the student may qualify for reduced tuition for a 718. The degree can be conferred no sooner than 8 months after
To be able to schedule proposal defense. Students must have successfully passed all qualifying comprehensive exams and been granted doctoral candidacy by the Graduate School before they can schedule their proposal defense.

**Dissertation Committee.** A doctoral advisory committee will be appointed for each doctoral student to oversee the dissertation process from initial proposal to completion. After consulting with the student and the faculty member in question, the head of the major department will appoint one faculty member from the major field as the dissertation advisor. After consultation with the advisor and the student, the Department Head will approve at least one or two other department members to serve on the committee, as well as an outside member. The committee will consist of a minimum of three faculty members from the student’s major and minor areas of study with at least one committee member from outside the student’s major department. University Procedure 11.04.99.R0.23 Doctoral Advisory Committees and Dissertations. Once the committee has been formed, approved, and the form signed, the student will submit the Dissertation Committee Form to the Graduate School.

**Process to Schedule Dissertation Proposal Defense.** Scheduling of the dissertation proposal defense is a major step in the academic history of a doctoral student at Texas A&M University-Commerce. Below are guidelines to help students navigate through this important time. Students are expected to uphold the highest standards of research conduct and strictly adhere to all federal, state, and local regulations involving research.

To ensure integrity and compliance in research, all students involved in research activities must successfully complete training in Responsible Conduct in Research and Scholarship (http://www.tamuc.edu/research/compliance/training/responsible-conduct-in-research.aspx). Students conducting studies that do not require IRB, IACUC, or IBC approval may begin data collection after completing the Responsible Conduct in Research training and after receiving approval from their advisor to do so. Proof of training completion must be submitted to the Graduate School with the proposal document. Data collection prior to completion of the required training is an ethical violation and the use of those data will be disallowed.

Additional training is required for students (see #2 in below section: To be able to schedule proposal defense) whose research involves human subjects and must adhere to the University research compliance procedures. Students conducting studies using human participants, animal subjects, or biological agents must seek approval from the IRB, IACUC, or IBC, respectively. Data collection may begin once approval from the appropriate reviewing body is received. Proof of approval must be submitted to the Graduate School with the proposal document. Data collection prior to completion of the required trainings and receipt of the required approval is an ethical violation and the use of those data will be disallowed. For questions or clarification about the student’s responsibilities regarding research compliance, please contact the Office of Sponsored Programs, 903-886-5766. Additional information is located online at http://www.tamuc.edu/Research/.

**To be able to schedule proposal defense:**

1. Students must complete the online training for Responsible Conduct in Research and Scholarship (http://www.tamuc.edu/research/compliance/training/responsible-conduct-in-research.aspx) before the student can submit the schedule form. This training is required of all doctoral students and is good for three (3) years.

2. Student must complete the following if their proposed research/study involves:
   a. **Human Subjects:** Human Subjects research is defined as a systematic investigation designed to develop or contribute to generalize knowledge, which involves the collection of data from or about living human beings. In addition, all student research involving human subjects outside the classroom is considered to be in this category see http://www.tamuc.edu/research/compliance/humanSubjectsIRB.aspx.
      i. Student must complete the Human Subjects online training and gain approval for the inclusion of human subjects in their research/study from the Institutional Review Board (IRB) for the Protection of Human Subjects. The online training can be accessed at the following website: http://www.tamuc.edu/research/compliance/humanSubjectsIRB.aspx
      ii. Student must gain IRB approval for their study. The process to gain approval from the IRB includes protocol application, submission, and revisions (if required by the Departmental IRB Representative and/or IRB) of the IRB protocol form see http://www.tamuc.edu/academics/graduateSchool/graduateForms.aspx. IRB protocol forms must be submitted to the ResearchCompliance@tamuc.edu through the departmental IRB representative. Final approval for the inclusion of human subjects in students research/study rests with the IRB. Attach IRB approval email to schedule form.

3. The student will work with the members of the advisory committee in developing the dissertation proposal. The proposal will be presented to the advisory committee in a session that will be open to all Graduate Faculty Members. Submit the Schedule Form for the Proposal Defense (http://www.tamuc.edu/academics/graduateSchool/documents/thesis-dissertation-services/Doctoral%20Proposal%20Defense%20Form%202018.pdf) (fully filled out and signed) and a copy of the proposal to the Graduate School by the 20th of the month preceding the month in which the presentation of the Dissertation Proposal Defense is to be held. Should the 20th fall on Saturday or Sunday, the form must be filed on the Friday prior to the 20th. It is the responsibility of the student to collect all required signatures, and to submit the complete form to the Graduate School.

4. **Proposal.** The student must gain proposal approval at least one semester prior to graduation. After the proposal defense, students must submit their proposal to the Graduate School for approval. In order to submit a proposal to the Graduate School (TDS@tamuc.edu), a student must have committee approval and meet research compliance requirements, including IRB, approval if applicable. Proof of compliance must be included in the proposal submission to the Graduate School. Students may not begin collecting data for their study until they have received advisory committee approval, completed all required ethics training and gained University IRB approval, if applicable. It is the responsibility of the student to submit his or her proposal and all required documents to the Graduate School. The following items must be included with a proposal submission to the Graduate School:
   a. Dissertation Proposal (Word document),

d. A copy of all required training certificates and IRB approval (if applicable), and

e. iThenticate similarity report (and score justification if the score is above 12%).

Students are not permitted to run an iThenticate report for themselves. The doctoral advisor or another member of the student's advisory committee must run and interpret the report for the student. Faculty experiencing difficulty accessing their iThenticate account should contact Anne Phifer (Anne.Phifer@tamuc.edu) from the Office of Academic Technology. Contact TDS@tamuc.edu with questions regarding how to print and save the report or how to share the report with the Graduate School.

Again, before collecting any data, you must have completed and received the following:

- Ethics Training (CITI trainings, i.e., RCR), and
- IRB, approval (if applicable).

Dissertation Credit. A dissertation (718) is required for all doctoral programs, and credit will be given for no less than nine semester hours and no more than twelve semester hours of dissertation. After doctoral candidates are admitted to candidacy, they will be required to enroll in at least three hours of Dissertation 718 each fall and spring semester until the dissertation is completed and approved by the advisory committee and the Dean of the Graduate School. Doctoral candidates will not be required to enroll during the summer term, unless the student is using the counsel and advice of the major advisor and/or university facilities, such as the library. Students who fail to enroll for dissertation during a fall or spring semester after admission to candidacy will be prohibited from enrolling until the tuition has been collected for those semesters. Individual departments may impose additional course requirements beyond those required by the Graduate School. If a student does not show to their advisor successful proposal/dissertation progress in a semester of 718; they can be assigned a grade of U. A grade of U is equal to a grade below a B and will count towards academic action.

Scheduling the Dissertation Defense. A student should review his or her DegreeWorks degree plan (or contact the Graduate School) prior to filling out and submitting the Final Defense schedule form to ensure they have Graduate School proposal approval. A completed and signed: Schedule for Final Dissertation form (http://www.tamuc.edu/academics/graduateSchool/documents/finaldissertationdeaddenomenclatureform.pdf) must be filed in the Graduate School by the 20th day of the month prior to the month the defense is to be held. Refer to the University Academic Calendar (https://calendar.tamuc.edu) for the dissertation defense deadline for the semester you intend to graduate. It is the responsibility of the student to collect all required signatures and to submit the completed form to the Graduate School.

Dissertation Defense. The student will defend the completed dissertation and respond to any questions related to his/her program of study before the advisory committee in a session open to all Graduate Faculty Members. Students must be in good academic standing with the Graduate School and have a proposal approved by the Dean of the Graduate School to be eligible to defend.

Submission of Dissertation. Registration in the dissertation course (718) is required the semester that the dissertation is submitted. It is the responsibility of the student to submit his or her dissertation and all required documents to the Graduate School (TDS@tamuc.edu). A dissertation (in Word format) and all required forms must be submitted electronically to the Graduate School (TDS@tamuc.edu) by the deadline indicated in the University Academic Calendar (https://calendar.tamuc.edu) for that particular semester (this deadline is approximately 6 weeks prior to commencement). It is the student's responsibility to submit his or her dissertation and all required documents to the Graduate School (TDS@tamuc.edu). The following items should be submitted:

- Final dissertation (as a Word document),
- Final Examination/Dissertation Defense Report (with all signatures),
- Survey of Earned Doctorates (required for PhD students only, not EdD students),
- Dissertation Information Sheet, and
- iThenticate similarity report (and score justification if the score is above 12%).

Students are not permitted to run iThenticate report for themselves. The doctoral advisor or another member of the student's advisory committee must run and interpret the report for the student. Faculty experiencing difficulty accessing their iThenticate account should contact Anne Phifer (Anne.Phifer@tamuc.edu) from the Office of Academic Technology. Contact TDS@tamuc.edu with questions regarding how to print and save the report or how to share the report with the Graduate School.

The doctoral candidate will be contacted by the Graduate School (TDS) with any changes to the manuscript. After making these changes, and gaining the advisor's approval, the student will resubmit the corrected dissertation for approval. Final approval of the dissertation rests with the Dean of the Graduate School. Once the Graduate School has given final approval of the dissertation the student will upload the dissertation to ProQuest and pay for publishing, binding, and copyrighting (if applicable). Three copies will be bound and distributed to the student's major department, major advisor, and the library. Students may order additional copies through ProQuest.
Filing for Graduation. Commencement exercises are held three times each academic year in May, August, and December. Students must file for graduation online through MyLeo (https://leo.tamuc.edu) during the semester they plan to graduate. Students will be approved for graduation and the degree after they have satisfactorily completed all degree requirements, and they have been approved by the Graduate Committee of the department, and the Graduate School. Please check the University Academic Calendar (https://calendar.tamuc.edu) for deadline dates for filing for graduation. Graduation information and a graduation application are available online at http://www.tamuc.edu/admissions/registrar/default.aspx. Students may apply for graduation through MyLeo (https://leo.tamuc.edu). A student must be in good academic standing in order to complete graduation requirements. Participation in the commencement ceremony does not guarantee conferring of any degree. Texas A&M University-Commerce has the right to rescind any conferred degree if the University becomes aware that the student did not meet degree requirements.

Earning Graduate Credit

Transfer of Credit and Experiential Credit

Credit for work taken in other graduate schools is granted in accordance with an evaluation by the Graduate School and upon approval by the student's advisory committee and the Dean of Graduate School; however, under no circumstances will a course with a grade lower than "B" be transferred. Transfer course content must be in academic areas taught by A&M-Commerce. While there are no limitations on the number of hours that can be transferred, a minimum of forty-five hours of graduate credit must be earned from A&M-Commerce.

Awarding of experiential credit will be based solely on experiential learning that is part of an official agreement between the University and another national, state, or regionally accredited institution or certifying agency.

Correspondence Courses

Credit earned by correspondence will not apply toward a doctoral degree.

Independent Studies

Registration in an individual studies (589 or 689), research, or similar course shall imply an expected level of effort on the part of the student comparable to that associated with an organized class with the same credit value. The maximum number of individually arranged (589 or 689), hours permissible toward a doctoral degree program will be as follows: Doctoral degree programs (excluding master's credit) - twelve. Exceptions must be initiated in writing by the department head and approved by the appropriate academic dean and the Dean of the Graduate School.

Enrollment Limitation or Administrative Withdrawal

Enrollment in any graduate course is subject to approval by the department offering the course, the instructor teaching the course, and the Dean of the Graduate School, whether or not such is specifically stated in the course description. A student may be prevented from enrolling in the course or dropped from the course if it is already in progress if the Graduate Dean, Department Head, or a faculty member considers the student physically or mentally incapable of performing satisfactorily or safely in a course, or if the student becomes a threat to the instructor or others in the course or is disruptive in any way. In such cases, the Graduate Dean will confer with the faculty member and Department Head involved and then take appropriate action. Any tuition refund to which the student is entitled will be determined according to the University schedule for refunds and will be based on the date on which the student was dropped from the course.

College of Agricultural Sciences and Natural Resources

Location: Ag/ET, 903-886-5358

Dr. Randy Harp, Dean
Dr. Douglas LaVergne, Assistant Dean

The College of Agricultural Sciences and Natural Resources offers a thesis and non-thesis option for the Master of Science in Agricultural Sciences.

Each graduate degree program in Agricultural Sciences is uniquely tailored to meet individual student interests, with research programs in Agribusiness, Agricultural and Family Education, Animal Science, Plant and Soil Science, Natural Resource Management, Wildlife, Equine Science, and Horticulture. The College of Agricultural Sciences and Natural Resources includes state of the art laboratories and robust facilities appropriate for a wide range of experimental activities.

The College of Agricultural Sciences and Natural Resources also supports a Transition to Teaching program for degreed professionals who wish to become certified to teach Agricultural Science and Technology or Family and Consumer Sciences in secondary schools. This program consists of graduate-level courses in agricultural and family education that focus on professional development competencies required for a successful career in teaching, as well as preparation for the Texas Examination of Educator Standards (TExES). Courses may be applied to a Master of Science degree in Agricultural Sciences, provided the student is admitted to a degree program. Individuals interested in Transition to Teaching should contact the department for specific information regarding admission.

Program of Graduate Work

Master of Science in Agricultural Sciences

The College of Agricultural Sciences and Natural Resources offers a Master of Science degree program in which students may choose to emphasize course work in Agribusiness, Agricultural and Family Education, Animal Science, Plant and Soil Science, Natural Resource Management, Wildlife, Equine Science, and Horticulture. Graduate-level research is encouraged through the use of on campus laboratories and facilities, the University Instructional and Research Farm, and the Plant Science Research Farm.

The College of Agricultural Sciences and Natural Resources also coordinates the Transition to Teaching program for degreed professionals who wish to become certified to teach Agricultural Science and Technology or Family and Consumer Sciences in secondary schools. This program consists of graduate-level courses in agricultural and family education that focus on professional development competencies required for a successful career in teaching, as well as preparation for the Texas Examination of Educator Standards (TExES). Courses may be applied to a Master of Science degree in Agricultural Sciences, provided the student is admitted to a degree program. Individuals interested in Transition to Teaching should contact the department for specific information regarding admission.

The department additionally has signed agreements with other cooperating institutions to conduct research projects at off-campus locations.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Agricultural Science.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/agriculture/agriculturalScience.aspx)

Degree Requirements

Students may choose either the Option I (thesis) or Option II (non-thesis) program. Though not guaranteed assistantships are awarded preferentially to students who are conducting thesis.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Agricultural Sciences (p. 55)

Agricultural Sciences MS

To pursue a Master of Science degree, the student must be accepted by a member of the Graduate Faculty from the College of Agricultural Sciences and Natural Resources. Acceptance will be based on admission to the Graduate School, scores on the Graduate Record Examination (GRE), undergraduate grade point average, and availability of qualified advisors in the desired area. Students may choose either the Option I (thesis) or Option II (non-thesis) program.

Master of Science in Agricultural Sciences - Option I Thesis

College of Science & Engineering

Location: AG/ET Building, Room 116, 903-886-5321

Dr. Brent Donham, Dean
Dr. Haydn A. "Chip" Fox, Associate Dean

The College of Science & Engineering offers graduate degree programs in: Biological Sciences, Chemistry, Computational Science, Computer Science, Mathematics, Physics, Technology Management, and two graduate certificates in Environmental Science and Computational Linguistics.

Government and private studies project occupations requiring a Science, Technology, Engineering, and Mathematics (STEM) degree, or related skills, to continue to be in high demand and will make up a significant portion of the U.S. and global economy. The College of Science & Engineering boasts recognized and award winning faculty and state-of-the-art research facilities/equipment. As a graduate student, there are unique opportunities to work with faculty in fields such as biomedical, regenerative medicine, image processing and recognition, data mining, alternative energy, catalyst development, high performance computing, skin lesion algorithms, differential geometry spatial algorithms, nuclear astrophysics, surface physics, observational astronomy, STEM education, or other STEM research fields. We are strongly committed to professional development, STEM teacher preparation, and preparing individuals to succeed in terminal degree programs.
Biological and Environmental Sciences

DongWon Choi (Interim Department Head)
Location: Science Building, room 260, 903-886-5378
Biological and Environmental Sciences Web Site: http://www.tamuc.edu/academics/colleges/scienceEngineeringAgriculture/departments/biologicalEnvironmentalSciences/default.aspx

The Department of Biological and Environmental Sciences offers a Master of Science degree in Biological Sciences and a Graduate Certificate in Environmental Sciences. The graduate programs in biology are designed to provide opportunities for students to pursue advanced training in particular fields of biology, to advance their professional goals, or to prepare students for entry into doctoral or professional health programs. The Master of Science degree in Biological Science offers both thesis and non-thesis options. The program is available face to face or online for students completing the non thesis option. Students wanting to enroll in the thesis option are encouraged to contact faculty members with similar research interests. Faculty research interests within the department include behavioral ecology, environmental science, microbiology, neuroscience, molecular, cellular and developmental biology, as well as wildlife ecology and conservation.

Programs of Graduate Work

Master of Science in Biological Sciences (Thesis) and (Non-Thesis) (http://www.tamuc.edu/academics/colleges/scienceEngineeringAgriculture/departments/biologicalEnvironmentalSciences/graduate/BiologyMS.aspx)

Graduate Certificate in Environmental Sciences

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Biological Science.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/biologicalScienceDomestic.aspx)

Departmental Requirements

Students accepted in the graduate programs of the Department of Biological and Environmental Sciences are expected to follow all of the rules and procedures established by the Department. Students in all programs except the graduate certificate must pass a final comprehensive examination. The comprehensive exam for the MS Biology program consist of a written examination of basic concepts covering five chosen topic areas. Comprehensive exams are proctored by faculty advisors for thesis option students, and are available in the BSC 595 course shell for non-thesis/online students.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Biological Sciences MS (p. 58)

Environmental Science Graduate Certificate (p. 60)

Biological Sciences MS

Upon being accepted for admission into the Graduate School, each student will either select or be assigned an advisor from the graduate faculty within the Department of Biological and Environmental Sciences. This faculty member will chair the student's advisory committee, which will include at least two additional graduate faculty members, one of whom may be from another department. Courses may be applied to a particular master's degree program only with the approval of the student's advisory committee. Courses taken before a committee is chosen may not be approved by the committee for the student's particular degree program and, therefore, may not apply to the degree. Course selections will be based upon unique student needs as revealed by academic records and career goals. Course selections will include graduate course offerings in the Department of Biological and Environmental Sciences as well as supporting courses if deemed desirable or necessary from other departments. With committee recommendation, and approval of the Graduate Dean, a maximum of two upper level undergraduate courses may be applied to certain degree programs.

The Biological Sciences MS degree is available on campus or fully on-line.

Master of Science in Biological Sciences - Option I Thesis

The student will complete a minimum of 30 sh. The program includes: BSC 518 Thesis 6 (sh), plus 24 sh of courses (12 sh of which must be in biological sciences) selected and approved by the student's advisory committee.

Required Course (6 semester hours)

Environmental Science Graduate Certificate

The Graduate Certificate in Environmental Science is an academic certificate (rather than a professional certificate) that affirms completion of a thirteen-semester-hour program of graduate-level courses in environmental science at Texas A&M University-Commerce. The graduate certificate program is a means by which an environmental professional can fill in certain knowledge gaps not covered by previous education or experiences. Please contact Dr. Chip Fox, 903.886.5442 or haydn.fox@tamuc.edu, for more information. All of the courses are fully on-line.

Requirements to complete the Environmental Science Graduate Certificate (13 semester hours):

</tr>
</tbody>
</table>

Note: Successful completion of the Comprehensive Exam is required of all students.
ENVS 508  Environmental Remediation  3

Total Hours  13

Note:
Students must have admission to the Graduate School. Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA in all courses used for this graduate certificate. (No Substitutions)
Chemistry

Thomas P. West (Department Head)
Location: Science Building, 903-886-5392
Chemistry Web Site: http://www.tamuc.edu/academics/colleges/scienceEngineeringAgriculture/departments/chemistry/default.aspx

The Department of Chemistry (http://www.tamuc.edu/academics/colleges/scienceEngineeringAgriculture/departments/chemistry/default.aspx) provides a broad range of subjects, courses and opportunity for independent research at the master’s level. Programs are designed to provide suitable preparation for PhD programs, community college & public school teaching, governmental and industrial employment, and for research.

Chemistry laboratories are equipped for research in physical, organic, inorganic, biological, and analytical chemistry. Modern chemical instrumentation includes NMR, infrared, visible, ultraviolet, atomic absorption, and time-of-flight & ion mobility mass spectrometers; gas and liquid chromatographs; high temperature and/or pressure reactors; an ultracentrifuge; a cold room; and standard laboratory instruments.

Program of Graduate Work

Master of Science in Chemistry

The Department of Chemistry offers a thesis and non-thesis Master of Science degree including professional tracks in Chemical Education and Chemical Business.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Chemistry.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/chemistryDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Chemistry MS (p. 62)

Chemistry MS

Master of Science in Chemistry - Option I Thesis

The program requires completion of ten courses (30 semester hours) as noted below. In addition, students are required to enroll in CHEM 501 Graduate Seminar for four semesters they are in residence completing degree requirements.

Other Chemistry courses may be substituted for the four elective courses upon consent of the department head and/or a majority vote of all Chemistry faculty.

A student who does not wish to pursue a higher graduate degree in chemistry, upon consultation with department head, may substitute other courses better suited to meet their career objectives. Substitutions for electives can be made from graduate courses in physics, chemistry, biology, mathematics, etc with prior departmental approval.

Required Courses (6 semester hours)

Track II: Professional Chemical Business Track

The curriculum of the Professional Chemical Business track is similar to the curriculum of the Professional Chemistry track. However, two courses (6 sh) from the College of Business will be used to replace two core courses listed in the core curriculum of the Professional Chemistry track and two (6 sh) more replacing electives. The courses need to be approved by the Department Head before they are taken.

Track III: Professional Chemical Education Track

The curriculum of the Professional Chemical Education track is similar to the curriculum of the Professional Chemistry track. Two courses (6 sh) from the College of Education can be used to replace two core courses listed in the core curriculum of the Professional Chemistry track and two (6 sh) more replacing electives. The courses need to be approved by the Department Head before they are taken.

Note: Successful completion of the Comprehensive Exam is required of all students.
Computer Science and Information Systems

Meikang Qiu (Department Head)
Location: Computer Science Building Jour 122, 903-886-5409

To meet the diverse needs of the computing industry, the Department of Computer Science and Information Systems offers two master’s degree programs that blends applied and theoretical computer science concepts.

The computing facilities include both PC- and UNIX-based environments on an assortment of modern, general-purpose computing systems. All systems are networked for local and worldwide communications. Specialized multimedia and graphics facilities also are available within the department.

The department offers service courses for the University in the areas of introductory computer applications and applications in education.

Programs of Graduate Work

Master of Science in Computational Science

The Master of Science in Computational Science is a Professional Degree designed to create a workforce of individuals prepared to meet the challenges of the dynamic and very competitive contemporary market. For this program, pedagogy and practice are integrated to provide students with significant skills and professionalism required by the working environment. The internship experience is an integral aspect of this program, which will provide the students with practical experience and better prepare them for a wide variety of career options.

Admission

Admission Inquiries: csdept@tamuc.edu

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Computational Science.

Students entering the graduate program must satisfy the specified computer science deficiency requirements by appropriate course substitution or by passing a competency examination prior to enrollment in graduate courses.

In addition to computer science majors, we encourage applicants from diverse backgrounds such as physical sciences and/or life sciences who are interested in computing and computer applications.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/computationalscience.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Master of Science in Computer Science

The MS in Computer Science program consists of core courses, which are required of all students, course electives, and specialized courses within one of seven tracks: Database, Computer Networks, Cyber Security, Artificial Intelligence, Data Science, Image Processing, and Software Engineering. Electives and track areas of study are chosen by the student. The core courses, specialized track courses, and electives enable students to devise a degree plan that meets their individual professional interests as well as the needs of industry. In addition, each student may choose a thesis or a non-thesis option. Upon approval of the departmental graduate advisor and the Graduate School, the department will allow the transfer of up to 6 graduate hours in Computer Science.

Admission

Admission Inquiries: csdept@tamuc.edu

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Computer Science.

Students entering the graduate program must satisfy the specified computer science deficiency requirements by appropriate course substitution or by passing a competency examination prior to enrollment in graduate courses.

Successful completion of the Comprehensive Exam is required of all students.

Computational Science MS (Professional Degree) (p. 65)
Computational Science MS

Department Requirements

A comprehensive exam will be given during the semester in which a student expects to graduate.

Deficiency Requirements: CSCI 515. Students must have a 'B' or better in the deficiency course to continue in the Master's program. Undergraduate courses may be substituted with departmental approval. Students with deficiencies in mathematics will be required to complete one or more of the following: MATH 2413, MATH 2414, MATH 2305, MATH 401, and MATH 2320 or MATH 2318. In addition, ENG 341 is strongly recommended for all international students.

Students must have a 'B' average overall and not more than 3 'C's in total. At most one 'C' is allowed for Required Core Courses. At most one 'C' is allowed for courses in student's specialization track.

Note: The Department reserves the right to suspend from the program any student who in the judgment of a duly constituted departmental committee does not meet the professional expectations of the field.

This degree program requires 30 total semester hours for thesis and 36 total semester hours for non-thesis option. Common requirements for both options are 12 semester hours (sh) for core courses, 6 sh for track requirement courses. Thesis option requires 6 sh of thesis and 6 sh for an elective whereas non-thesis option requires 6 sh of internship and 12 sh of electives.

* Any regular CSCI course can be taken as electives with faculty advisor approval

**Total Hours**: 36

Track courses and electives can be taken at any time after the core courses or simultaneously with them. The internship/thesis courses are to be taken after the completion of 15 semester hours toward degree with a 'B' average. They can be taken during the last semester (6 credit hours in one semester), or can be extended over the two-semester period (3 credit hours in each of the two semesters). Students have the option to choose four electives contributed by participating colleges. The electives are organized in various interdisciplinary categories i.e., Computer Science, Math, Psychology, Linguistics and Physics and the students will be able to freely select them according to their research interest and career plan.

**Note**: Successful completion of the Comprehensive Exam is required of all students.

## Computer Science MS

### Department Requirements

A comprehensive exam will be given during the semester in which a student expects to graduate.

Deficiency Requirements: CSCI 515, CSCI 516. Students must have a 'B' or better in these deficiency courses to continue in the Master's program. Undergraduate courses may be substituted with departmental approval. Students with deficiencies in mathematics will be required to complete one or more of the following: MATH 2413, MATH 2414 Calculus II, MATH 401, and MATH 2320 Differential Equations or MATH 2318 Linear Algebra. In addition, ENG 341 Professional Writing (Technical Writing) is strongly recommended for all international students.

Students must have a 'B' average overall and not more than 3 ‘C’s in total. At most one ‘C’ is allowed for Required Core Courses. At most one ‘C’ is allowed for courses in student’s specialization track.

**Note**: The Department reserves the right to suspend from the program any student who in the judgment of a duly constituted departmental committee does not meet the professional expectations of the field.

Computational Linguistics Graduate Certificate

This graduate certificate is intended to document foundational skills and expertise in computational linguistics and natural language processing (NLP), mainly for students in computer science and students in linguistics. The coursework for the certificate aims to overcome the common lack of foundational knowledge in both pillars of this multidisciplinary field, computer science and linguistics, introducing the basic issues in these fields as they are relevant to computational linguistics. A group of 4 required courses needs to be passed, in addition to an appropriate elective from a selection of possible courses (15 credit hours total). The four courses comprise one introductory class to teach basic principles in each discipline (CSCI 549, ENG 555) and one advanced class each dedicated to applications (CSCI 509, ENG 685). Achievement of the certificate documents solid training and education in Computational Linguistics across the disciplines as an asset for students joining the workforce. Please contact Dr. Christian F. Hempelmann at c.hempelmann@tamuc.edu, or Dr. Sang Suh at Sang.Suh@tamuc.edu for more information.

Location: 903-886-5474
Engineering & Technology Web Site: http://www.tamuc.edu/academics/colleges/scienceEngineeringAgriculture/departments/engineeringTechnology/default.aspx

Program of Graduate Work

Master of Science in Technology Management

Graduate studies in Technology Management are designed to prepare graduates for career advancement and career enhancement in domestic and global technology-intensive businesses and industrial enterprises.

Graduates of the Master of Science in the Technology Management program at Texas A&M University will:

1. evaluate and defend leadership and organizational strategies associated with technology-intensive enterprises;
2. summarize and explain organizational development and strategies common to technology-intensive enterprises;
3. formulate and assemble component ideas in order to successfully execute a project plan; and
4. analyze information in order to formulate effective solutions;

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Technology Management.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/technologyManagement.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Technology Management MS (p. 70)
Technology Management Minor (p. 72)

Technology Management MS

The Master of Science in Technology Management is a 36 hour (12 Course) non-thesis graduate program. The program can be completed fully on-line. Core courses are offered in an eight-week format.

Mathematics

Tingixu Wang (Department Head)
Location: Binnion Hall, 903-886-5157

The graduate program in mathematics provides thorough training to the student in one or more areas of mathematics to stimulate independent thinking, and to provide an apprenticeship for the development of creative research. The program prepares the student for employment in a high school, junior college, or four-year college, for continued study of mathematics at the doctoral level, or in one of the many nonacademic areas in which mathematicians work. For example, our graduates are employed as actuaries, software engineers, college faculty members, school administrators, and by companies such as L3, Texas Instruments, and General Dynamics.

Graduate students in mathematics have access to powerful software packages, and many courses include computer applications.

Programs of Graduate Work

Master of Science in Mathematics

Graduate work leading to a Master of Science degree is offered in pure mathematics including analysis, biological mathematics, coding theory, combinatorics, complex analysis, differential equations, differential geometry, image analysis, and processing with learning, mathematics history and statistics (actuarial science). A new Master of Science degree with a mathematics education (p. 73) concentration is now offered. Emphases for secondary and middle school teachers are specially planned to meet their individual and particular objectives.

Students may also select courses leading to a minor (p. 76) in applied mathematics.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Mathematics.

Students entering the MS program for a career in higher education, professional work, or further advanced study in mathematics must meet the background requirements which include the calculus sequence, discrete mathematics, and at least two upper-level undergraduate mathematics courses from the areas of algebra, analysis, topology, statistics, and probability.

Secondary mathematics teachers and other students entering the master’s degree program with goals other than work as a professional mathematician or advanced study in mathematics should have Calculus I, II, and at least two upper-level undergraduate mathematics courses from the areas of algebra, analysis, topology, statistics, and probability.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/mathematicsDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Mathematics MS (p. 73)

Applied Mathematics Minor (p. 76)

Mathematics MS

Master of Science in Mathematics - Option I Thesis

The MS in Mathematics requires 8 courses and a thesis (6 credit hours), a total of 30 credit hours, as follows:

<table>
<thead>
<tr>
<th>Thesis (6 semester hours)</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 518</td>
<td>3-6</td>
</tr>
</tbody>
</table>

- Only 6 semester hours of credit for 518 per degree will be given upon satisfactory completion of the requirement.

Core Courses (12 semester hours) including one complete sequence from:

<table>

</tbody>
</table>

Total Hours: 30
MATH 563  Image Processing with Elements of Learning  3  
MATH 580  Topics in the History of Mathematics  3  
MATH 597  Special Topics (approval by the math department)  3  

**Electives (12 semester hours)**  
An additional 12 semester hours (4 graduate level electives) from any graduate courses offered by the mathematics department, or outside courses with the approval of the mathematics department.  12  

**Total Hours**  36  

**Master of Science in Mathematics w/Concentration in Mathematics Education Option II Non-Thesis**  
The MS degree in Mathematics with a concentration in mathematics education is to prepare students to teach math courses at middle/high schools and institutions of higher education at the undergraduate level. Students will take 9-15 graduate hours in Math Teacher Education (MTE) in order to learn and understand the Principles and Standards of the National Council of Teachers of Mathematics (NCTM) and high impact teaching practices.  

**Research (3 semester hours)**  
MATH 595  Research Literature & Techniques (3 semester hours required)  3  

**Math Core Courses (12 semester hours)**  
MATH 501  Mathematical Statistics I  3  
MATH 502  Mathematical Statistics II  3  
MATH 511  Introduction to Real Analysis I  3  
and (3 semester hours) from: MATH 512, MATH 522, MATH 538, MATH 543  3  

**Math Education Concentration (12 semester hours)**  
MTE 555  Research Techniques for STEM and Education  3  
Choose (6 semester hours) from: MATH 531, MATH 537, MATH 546, MATH 561  6  
Choose (3 semester hours) from: MTE 551, MTE 553, MTE 554 or MTE 556  3  

**Electives (9 semester hours)**  
3 semester hours - MTE courses (choose from any remaining graduate level MTE course, not previously taken)  3  
6 semester hours - MATH or MTE (choose from any remaining graduate level MATH and/or MTE courses, not previously taken)  6  

**Total Hours**  36  

**Note:** Successful completion of the Comprehensive Exam is required of all students.
Applied Mathematics Minor

Satisfactory completion of at least (12 semester hours) of the following courses will meet the requirements for a minor in mathematics.

<table>

Total Hours 12
The Department of Physics and Astronomy provides coursework, training, and research experience to students who wish to further their education beyond the bachelor’s level to achieve a greater degree of competence and recognition in their profession. The department offers an MS in Physics, with thesis and non-thesis options. The thesis option is taken by traditional MS students who may be interested in going on to a Ph.D program. The non-thesis option includes an Applied Physics emphasis for those planning on working in industry, and a Physics Teaching Emphasis offered completely online. The Physics Teaching Emphasis is designed to support high school physics teachers by reinforcing physics content knowledge introducing modern topics in physics and astronomy and providing inspiration for transferring modern topics into the high school classroom.

The Physics and Astronomy Department provides well-equipped instructional and research laboratories. Sophisticated equipment and faculty direction are available for experimental research in organic semiconductor physics, solid state physics, X-ray spectroscopy, and surface physics.

Faculty also conduct research in theoretical nuclear physics, nuclear astrophysics, observational and computational stellar astrophysics, computational physics and physics education research. In addition, the department has an active astronomy and planetary science research program in collaboration with staff members of the planetarium. The department is a member of the Southeastern Association for Research in Astronomy (SARA), which provides remote access for students and faculty to three 1-m class telescopes at the premiere observing sites Kitt Peak National Observatory (KPNO) in Arizona, USA, Cerro Tololo International Observatory (CTIO) in Chile, and Roque de los Muchachos Observatory (ORM) in the Canary Islands. The department also operates an observatory located 5 miles south of campus that provides hands-on and remote access to a 0.7-m telescope - the largest in northeast Texas.

Programs of Graduate Work

Master of Science in Physics - Thesis

The Master of Science in Physics with research thesis is ordinarily chosen by those students preparing for further graduate study leading to the PhD degree, industrial employment, or for college teaching. The Physics MS - Thesis degree program requires the completion of a research thesis and 30 semester hours, including 2 courses (6 semester hours) allotted to the thesis.

Master of Science in Physics - Non-Thesis

w/Applied Physics Emphasis

The applied physics emphasis is designed for students who plan to have a career in a technical industry with a scientific, engineering or programming emphasis. The coursework in this emphasis beyond the required core courses emphasize the practical hands-on aspects of physics. Applied physics differs from engineering in that the applied physicist might not be designing a specific item, but might instead be using physics to help develop new technologies or to assist in solving an engineering problem. An applied physicist is a generalist who can be called upon to contribute in several different arenas in a technology company. The Physics MS - Non Thesis degree program requires 36 semesters hours of courses.

Master of Science in Physics - Non-Thesis

w/Teaching Emphasis

The new online emphasis is designed for high-school physics teachers who may not necessarily have a degree in physics. It is based around 6 courses which introduce students to advanced physics content such as quantum physics and astrophysics. As well as the physics itself, we will examine the historical context of the subjects, and examine their pedagogy with an aim to introducing modern physics content into the high school classroom. This Master's program will reinforce teacher's physics content knowledge and allow teachers to instruct dual enrollment courses and at community college level.

The suggested minimum undergraduate courses include a year of calculus-based physics, modern physics, and mathematics up through differential equations; those students who do not have this minimum will be expected to take the "Mathematical Methods for Educators" course during their first semester. The Physics MS - Option II Non Thesis degree program requires 36 semester hours.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Physics.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/sciences/physicsDomestic.aspx)
Departmental Requirements

Physics graduate students in the Thesis program and the Non Thesis Applied Physics Emphasis must register for PHYS 501 Graduate Seminar each semester in residence. A comprehensive examination is required of all students majoring in physics.

Note: The Department reserves the right to suspend from the program any student who in the judgment of a duly constituted departmental committee does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Physics MS (p. 78)

Physics Minor (p. 79)

Physics MS

Master of Science in Physics - Option I Thesis

The Master of Science in Physics with a research thesis is ordinarily chosen by those students preparing for industrial employment, college teaching, or for further graduate study leading to the PhD degree. The degree program requires a minimum of 30 semester hours, including 2 courses allotted to the thesis.

Master of Science in Physics - Option II Non-Thesis

Physics Teaching Emphasis

This emphasis is designed for physics educators who may not have an undergraduate degree in physics but that wish to earn a MS degree in physics to allow them to teach at the community college level or dual enrollment courses. The suggested minimum undergraduate courses include a year of calculus-based physics, modern physics, and mathematics through differential equations.

**Note:** Successful completion of the Comprehensive Exam is required of all students.

### Physics Minor

A physics minor is appropriate for several majors, including mathematics, chemistry, computer science, and technology. The digital electronics, signal processing, and microprocessor hardware courses are relevant particularly for computer science and telecommunications students.

A comprehensive minor in physics is available for doctoral degree students majoring in curriculum and instruction. This program is recommended for community and senior college teachers of science and for school supervisors. (See Doctor of Education degree program, Department of Curriculum and Instruction [http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/curriculumInstruction/doctoralProgram/default.aspx].)
College of Humanities, Social Sciences and Arts

Location: AG/ET Room 222, 903-886-5175

Dr. William Kuracina, Dean  
Dr. David Scott, Associate Dean

The College of Humanities, Social Sciences, and Arts contains the departments of: Art, History, Liberal Studies, Literature and Languages, Music, Political Science, Sociology and Criminal Justice, and Theatre. The college also houses the Paralegal Studies program as well as popular minors in African American Studies, Gender Studies, Latin American and US Latino Studies and Legal Studies.

The programs in these departments provide a well-rounded education in the liberal arts traditions, in the disciplines of humanities, social sciences and creative arts. We provide a strong emphasis on discipline-based scholarship, plus challenging opportunities for professional and personal development.

Advanced degrees at the master's level are offered in each of the departments with a Ph.D. in English in through the Department of Literature and Languages and a MFA through the Department of Art. In addition, numerous certificate programs are available.

The College's core mission toward its students is trifold:

- The College provides general studies courses as a foundation for student learning in the entire university;
- The College provides Bachelor's degrees to the students enrolled as our majors;
- The College provides graduate courses, certificates and degrees, Master's and Doctoral programs.

The College strives for excellence and a global vision in its endeavors, while being accountable for our results and efficient in achieving them.

The College is committed to student success and facilitates instruction by providing services such as advising, tutoring, mentoring, and other support activities for the students.

The College's graduates achieve the capacity to communicate clearly and effectively, to understand literary, historical, sociological, and geo-political issues, and to appreciate and participate in the visual and performing arts.

The College serves students, faculty, staff, alumni, and the community at large (including the scholarly community) regionally, nationally, and internationally and strives toward diversity in all its activities. The College provides cultural and artistic activities for the community and region on a regular basis.
Art

David Scott (Interim Department Head)
Location: Art Building, Room 104, 903-886-5208
Art Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/art/default.aspx

Vaughn Wascovich, Graduate Coordinator for Studio Art 903-886-5208 (Vaughn.Wascovich (vaughn.wascovich@tamuc.edu)@tamuc.edu
(Brian.Weaver@tamuc.edu))

Virgil Scott, Graduate Coordinator for Visual Communication (UCD) 214-752-9009 (Virgil.Scott@tamuc.edu)

The Department of Art inspires and prepares students to excel in the art profession, including the fine and applied arts, art history, and art teaching fields, and also expands the educational experiences of non-majors.

The general objectives of graduate study in art include:

1. the refinement of technical skills in chosen studio areas;
2. the development of a critical understanding of one’s own art in its historical, theoretical, and conceptual context; and
3. the mastery of communication skills both in practice and in teaching.

These objectives are achieved through a close working relationship among students and faculty, wherein a student may pursue a course of study designed for his or her particular educational goals.

Programs of Graduate Work

Master of Arts in Art w/emphasis in Visual Communication

The Master of Arts in Art with an emphasis in Visual Communication Option II Non-Thesis is a 36-semester hour program offered at the Universities Center at Dallas near the Arts District. The MA-VisCom degree is open to all qualified applicants in the expanding field of Visual Communication but is especially relevant to the needs of practicing professionals who aspire to move upwards into design-centric leadership roles in their business or organization. Students explore innovative approaches to the creative process, progressive business practices and strategies, product advancement, and effective marketing techniques within the context of contemporary design. There is no thesis or foreign language requirement for this degree.

Master of Arts in Art w/emphasis in Studio Art

The Master of Arts in Art with an emphasis in Studio Art Option II Non-Thesis is a 36-semester hour program offered on the Commerce campus. Students may pursue the following areas: painting, sculpture, photography, drawing, ceramics, and mixed and multi-media art. Applicants for the degree should already possess the technical skills to work in one or more of these areas, as the graduate program concentrates on conceptual innovation in one’s work rather than technical instruction. The MA degree is suitable for students seeking to improve their portfolio, gain educational credentials, or to place themselves in a more competitive position to apply to the MFA program in art. There is no thesis or foreign language requirement for this degree.

Master of Fine Arts in Art w/emphasis in Visual Communication

The Master of Fine Arts degree with an emphasis in Visual Communication serves the practicing professional in this growing field who aspires to greater proficiency in industry-related innovation and problem-solving, business strategies, ideation and marketing, or a career in design education. The MFA is regarded as the terminal degree in the field of Visual Communication. The capstone of the degree is a design-centric research project (ARTS 545-Exhibition Topics and ARTS 548-Exhibition Development) and accompanying exhibition (ARTS 552-MFA Exhibition in Visual Communication) on a topic incorporating business practices, design education and social responsibility. In these final semesters of the degree, MFA-VisCom candidates are expected to advance a premise that significantly expands the current boundaries of knowledge and to defend it through a convincing campaign or body of art works. Students who fail to meet the expectations of the program can be suspended from the MFA track. In such cases, it may be possible for the student to complete a Master of Art with an emphasis in Visual Communication.

Master of Fine Arts in Art w/emphasis in Studio Art

The MFA program is intended for graduate students both committed to and capable of intensive, advanced study culminating in an individual and self-generated language of expression. It is a rigorous course of study as it leads to the terminal degree in the fine arts. MFA students are initially encouraged to explore a broad range of issues meaningful to their work, while simultaneously refining their technical skills. Their explorations may touch upon individual modes of expression, formal elements, experimentation with media and methods, themes and symbols, and relationships among the visual arts and other disciplines. Subsequent courses direct the student toward more mature and self-critical art, leading ultimately to a sustained and cohesive body of work that forms the Master of Fine Art Exhibition (ARTS 515).

MFA students in the Studio Art emphasis will participate in mid-term and end-of-term critiques. These critiques, together with the periodic evaluations of the student’s supervisory committee, determine whether or not the student meets the expectations of the program. Students who fail to pass a critique or fail in other ways to meet the expectations of the program can be suspended from the MFA track. Students must pass a critique for candidacy after their second semester or in the semester of their 30th hour (whichever comes first). The critique for MFA candidacy will include an exhibit supported by a written statement. Students who fail their candidacy may still pursue the Master of Arts in Art with an emphasis in Studio Art.
Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Art.

Contact the departmental Graduate Coordinator for these requirements. The graduate degrees in art are individually designed to meet the unique educational, personal and professional needs of the student.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/artDomestic.aspx)

Degree Requirements

Applicants must have a bachelor’s degree with an art major or comparable experience, nine semester hours of art history and a minimum grade point average of ‘B’ in all undergraduate studio art courses.

In addition to the requirements of the Graduate School, applicants for the MFA degree will submit an application to the Department of Art that includes a portfolio, a statement of intent, transcripts of all previous college-level work, and one letter of recommendation. Copies of transcripts are acceptable if the originals are on file at the Graduate School. All of these materials are important in considering an applicant’s suitability for graduate study, but the portfolio is of paramount importance because it represents the extent of a student’s education in art. Care should be taken in the selection and photographing of works for the portfolio (CD portfolio is acceptable). It is the Department's preference that the portfolio be posted online and that the link to the portfolio be provided to the appropriate graduate coordinator.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

**Art MFA**

Brian Weaver, Graduate Coordinator for Studio Art 903-886-5208 (Brian.Weaver@tamuc.edu)

Students entering the MFA program will select a committee of three members of the graduate art faculty, one of whom (usually the chair) will represent the student's primary area of concentration within the studio arts. In consultation with the committee, the department head and the graduate coordinator, the student will devise a degree plan based on the primary area of emphasis. The student's studio research area is complemented by required courses in art history, as well as seminars and courses in theory and multimedia. It is expected that the student will gain from this study a sound conceptual and historical understanding of the visual arts, as well as the ability to communicate this understanding in writing and speech. To successfully complete this course of study, it is essential that students acquire the ability to clearly articulate visual concepts and place their own research in a historical context.

Students will participate in critiques in mid-term and at the end of each long semester. Students who fail to pass a critique or fail to meet, in the judgment of a duly constituted departmental committee, the expectations of the program can be suspended. Students must pass a critique for candidacy after their second semester or in the semester of their 30th hour (whichever comes first). Students who fail their candidacy may still pursue The Master of Arts in Studio Art or leave the program without receiving a degree.

History

Sharon A. Kowalsky (Department Head)
Location: Ferguson Social Sciences Building 111, 903-886-5226
History Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/history/default.aspx

Graduate Studies Advisor: Andrew Baker, 903-468-8742, Andrew Baker@tamuc.edu

The graduate program in History strives to promote independent thinking and to contribute to the development of a well-educated person. Graduate training helps prepare the student for teaching in a high school, a junior college, a four-year college, for dual credit courses; for continued study of history at the doctoral level; or for one of the many non-academic areas in which historians work.

Programs of Graduate Work

Master of Arts/Master of Science in History

The Department of History offers students the choice of a Master of Arts or Master of Science degree. The MA has a foreign language requirement while the MS does not. For both the MA and the MS, students may choose a thesis or non-thesis option.

The candidate for the Master of Arts degree must meet the language requirement for the Bachelor of Arts degree at this institution. That requirement can be met with one of the following:

1. Completion of at least 12 semester hours (four courses) in one foreign language.
2. Completion of 6 semester hours (above elementary courses) if 2 years of high school credit in the language have been submitted as part of the regular university admission requirements.
3. Completion of 3 semester hours if the student presents 3 or 4 years of high school credit.
4. American Sign Language (ASL) is considered an acceptable foreign language. Students should consult with departmental Director of Graduate Studies regarding this requirement.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in History.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/historyDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the History Department's Qualifying Exam and the Comprehensive Exam is required of all students.

History MA/MS (p. 86)
History Minor (p. 90)
Public History Minor (p. 90)
Christianity In History Graduate Certificate (p. 90)
Public History Graduate Certificate (p. 91)
World History Graduate Certificate (p. 91)

History MA/MS

The purpose of the master's degree for students is to acquire advanced training in the discipline of history. This program will introduce students to the ways professional historians research and communicate the results of their research. At the completion of this program, students should be able to explain concepts in historiography and historical theory. They also should understand how to conduct historical research and present their findings sufficiently well to be able to make contributions in the field in professional, academic venues.

Master of Arts/Master of Science in History - Option I Thesis

The student completing either a Master of Arts or a Master of Science Thesis program takes 36 semester hours and must take at least 11 of the 12 required courses in the Department of History. These 11 courses include 6 hours of thesis.
**Note:** Students must have completed both HIST 590 and HIST 591, or completed one and be enrolled in the other, before attempting the Qualifying Exam.

**Note:** HIST 518 is a Pre/Co-Requisite for HIST 592.

Twelve-course program to be completed:

**Thesis (6 semester hours)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

HIST 590  Historiography and Historical Theory  3
HIST 591  Historical Research and Writing Methods  3

History Courses (9 semester hours)
9 semester hours of graduate level History courses  9

Political Science Courses (18 semester hours)
18 semester hours of graduate level Political Science courses.  18

Total Hours 36

Note: Successful completion of the Comprehensive Exam is required of all students.
History Minor

A minor in history at the master’s level consists of four courses in history as approved by the departmental graduate advisor or the head of the department.

Public History Minor

The Public History Minor is designed to meet the educational and professional needs of the surrounding communities that Texas A&M University-Commerce serves in the Northeast Texas region. The Public History Minor at Texas A&M University-Commerce is a 12 SCH program that develops specific skill sets related to public history among students who are interested in public history and practitioners who are already in the field. The goal of the minor is to prepare students for careers in fields related to public history that increase public engagement with the past. The practical, theoretical, and analytical training provided in the program enhances the ability of graduates to compete for jobs in museums, historical societies, cultural resource centers, parks, historic preservation, etc.

Students may complete a minor in Public History in conjunction with their major degree in any field of study. Students completing the Public History Minor are eligible to receive a Graduate Certificate in Public History. To receive a Public History Minor, students must satisfactorily complete 12 SCH, consisting of the following courses (no substitutions).

This 12 sh graduate minor consists of the following required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 564</td>
<td>Introduction to Public History</td>
<td>3</td>
</tr>
<tr>
<td>HIST 566</td>
<td>Oral History Theory and Methods</td>
<td>3</td>
</tr>
<tr>
<td>HIST 567</td>
<td>Internship in Public History</td>
<td>3</td>
</tr>
<tr>
<td>ALIB 564</td>
<td>Archives Administration</td>
<td>3</td>
</tr>
</tbody>
</table>

Students completing the Public History Minor are eligible to receive a Certificate in Public History.

Total Hours 12

Christianity in History Graduate Certificate

The Christianity in History Graduate Certificate is an interdisciplinary program designed to allow students pursuing an M.A./M.S. in History with A&M-Commerce, as well as students who have completed a graduate program at A&M-Commerce or elsewhere, to specialize in the subject and gain a particular depth of knowledge in it.

The Christianity in History Graduate Certificate requires the completion of 12 graduate credit hours in approved courses, with an overall G.P.A. of 3.0 in certificate courses. Thesis hours will not be counted toward the Graduate Certificate. Please contact Dr. John Smith at John.Smith@tamuc.edu or 903-886-5699 for more information.

Requirements to complete the Christianity in History Graduate Certificate (12 semester hours):

6 semester hours from:

Subject to approval by the Coordinator/Director.

The Capstone Project will be a substantial research project undertaken with the approval, and under supervision of, the Director/Coordinator. The project must be embedded in a course taken concurrently with the capstone course, with the instructor of the latter serving as an additional guide.

Total Hours 12

Note: Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA on all courses used for this graduate certificate. \(\text{(No Substitutions)}\)

**Public History Graduate Certificate**

The Graduate Certificate in Public History is designed to meet the educational and professional needs of the surrounding communities that Texas A&M University–Commerce serves in the Northeast Texas region. The Graduate Certificate in Public History at Texas A&M University–Commerce is a twelve credit hour graduate certificate that develops specific skill sets related to public history among students who are interested in public history and practitioners who are already in the field. The goal of the graduate certificate is to prepare students for careers in fields related to public history that increase public engagement with the past. The practical, theoretical, and analytical training provided in the certificate program enhances the ability of graduates to compete for jobs in museums, historical societies, cultural resource centers, parks, historic preservation, etc. Please contact Dr. Derrick McKisick at Derrick.McKisick@tamuc.edu or 903-886-5222 for more information.

**Requirements to complete the Public History Graduate Certificate (12 semester hours):**

To complete the Public History Graduate Certificate, students are required to complete twelve hours of coursework, including an internship consisting of a capstone project that requires a presentation and evaluation by a faculty committee. During the first semester, students identify their area of specialization and possible partnerships with public history organizations both on and off campus. For the capstone the student will submit a formal proposal to the coordinator of the Public History Graduate Certificate or faculty committee for approval. The completion of the coursework and approved proposal are requirements for the completion of the graduate certificate.

Literature and Languages

M. Hunter Hayes (Department Head)
Location: Hall of Languages, Room 141, 903-886-5260/5253
Literature and Languages Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/literatureLanguages/default.aspx

Dr. Hunter Hayes, Department Head - hunter.hayes@tamuc.edu
Dr. Karen Roggenkamp, Director of Graduate Studies - Doctoral (English)
Dr. Susan Stewart, Director of Graduate Studies - Master's (English)
Dr. Lucy Pickering, Director of Applied Linguistics
Dr. Jessica Pauszek, Director of First-Year Composition
Dr. Flavia Belpoliti, Director of Graduate Studies (Spanish)

Programs of Graduate Work

The Department of Literature and Languages includes graduate studies in Applied Linguistics w/emphasis in TESOL, English and Spanish.

Master of Arts and Master of Science in Applied Linguistics

The MA/MS-Applied Linguistics program incorporates cutting-edge pedagogical and research strategies for students who wish to pursue careers in Teaching English to Speakers of Other Languages as a primary or complementary discipline, including teaching at the university level and teaching English as a second language abroad. Students may complete the program online, face to face, or by using a combination of instruction modalities, which is ideal for in-service teachers and students who also teach abroad and desire credentials from a fully-accredited institution with a faculty consisting of internationally-recognized linguists who specialize in the field. Students have the option of following a 30-hour thesis path or the 36-hour non-thesis/independent research option in order to fulfill their career goals.

Master of Arts and Master of Science in English

For the preparation of college teachers of English, the Department of Literature and Languages offers Graduate Certificates in TESOL (Teaching English to Speakers of Other Languages), Film Studies and Studies in Children's and Adolescent Literature and Culture, and Computational Linguistics; a Master of Arts or Master of Science in English, and a PhD in English. Doctoral students may pursue a comprehensive minor in English recommended especially for supervisors of programs in English education.

For the PhD degree, the student may choose to concentrate in either Written Discourse: Theory and Practice (composition, rhetoric, and linguistics) or Critical Literacy (literature, film studies, literary theory, and reading). The PhD program stresses both substantive knowledge of the various divisions within the field of English and an extensive introduction to the profession, including classroom teaching, tutoring, and computer-assisted instruction.

Specific requirements and procedures for graduate work and applications for assistantships may be obtained from the Head of the department.

Master of Arts in Spanish

The Department of Literature and Languages offers a Master of Arts in Spanish. The Program mission is to prepare Spanish language professional in the field of teaching, communication and writing, and to provide a strong scholarly foundation for those interested in pursuing a doctoral degree in Spanish Literature, Pedagogy or Linguistics. The program offers a wide variety of courses related to literary, cultural and artistic production in Spanish, as well as advance coursework on different areas of Hispanic Linguistics and Language Pedagogy.

Students pursuing the Master of Arts in Spanish have the option of pursuing either a 30 semester hour thesis degree track or a 36 semester hour non-thesis degree track. Students seeking either option must perform satisfactorily on a comprehensive written and oral examination with sections devoted to prose, drama, poetry, and language.

The foreign language faculty also prepares students for the doctoral research tool proficiency in Spanish. Candidates for this examination may apply to the Department of Literature and Languages for information.

A comprehensive minor in Spanish is available for doctoral degree students majoring in supervision, curriculum, and instruction. This minor is recommended for junior and senior college teachers of foreign languages.

Admission

Applied Linguistics

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department, undergraduate grade point average, one letter of recommendation, and a statement of goals.

- Applied Linguistics Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/appliedlinguistics.aspx)
English
Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department, scores on the Graduate Record Examination (GRE), undergraduate grade point average, one letter of recommendation, a portfolio including (writing sample and a statement of goals).

- English Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/englishDomestic.aspx)
- English Doctoral Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/englishPhDDomestic.aspx)

Spanish
Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department, scores on the Graduate Record Examination (GRE), undergraduate Major/Minor in Spanish or Fluency in Spanish or Departmental interview.

- Spanish Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/spanishDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Applied Linguistics MA/MS (p. 94)
English MA/MS (p. 96)
English PhD (p. 98)
Spanish MA (p. 100)

Film Studies Graduate Certificate (p. 101)

Studies In Children's & Adolescent Literature & Culture Graduate Certificate (p. 102)

Teaching English to Speakers of Other Languages Graduate Certificate (p. 102)

Computational Linguistics Graduate Certificate (p. 103)

Applied Linguistics MA/MS

Students in the MA/MS in Applied Linguistics with an emphasis in TESOL will not be subject to the residency requirements of the department's existing graduate programs and may complete the program online.

Foreign Language Requirement for MA

A candidate for the Master of Arts degree must meet the language requirement:

1. Completion of at least 12 semester hours (four courses) of appropriate undergraduate-level classes in one foreign language, or
2. Completion of 6 semester hours (above elementary courses) if 2 years of high school credit in the language have been submitted as part of the regular university admission requirements, or completion of 3 semester hours if the student presents 3 or 4 years of high school credit, or
3. American Sign Language (ASL) is considered an acceptable foreign language. Students should consult with departmental Graduate Program Director regarding this requirement, or
4. Department - Foreign Language Proficiency Exam (FLPE), or

• Students who do not satisfy the foreign language requirement will receive an MS degree rather than an MA

Master of Arts/Master of Science in Applied Linguistics with an emphasis in TESOL - Option I Thesis

30 semester hours
Thesis (6 semester hours)

ENG 518 Thesis (6 semester hours required) 3-6

Only 6 semester hours of credit for 518 per degree will be given upon satisfactory completion of requirement

Total Hours 36

**Note:** Successful completion of the Comprehensive Exam is required of all students.

**English MA/MS**

Students seeking a master’s degree in English may choose either a 30-semester hour program that includes a thesis (ENG 518 Thesis counting for 6 semester hours) or a 36-hour program that includes an independent research project (ENG 595 Research Lit/Techniques Non-Thesis counting for 3 semester hours). Both programs of study lead to an MA degree for students who demonstrate foreign language proficiency or to an MS degree for students without a foreign language.

All master’s students should consult with the Director of English Graduate Studies about which program would be most relevant to their future plans. Most coursework for both 30 and 36 semester hour programs is elective, but students will want to select courses that reflect their interests and future needs and that will prepare them to write a final project (ENG 595 Research Lit/Techniques or ENG 518 Thesis). Final projects may be written on literature, composition, linguistics, children’s literature, or some combination thereof. With agreement of the student’s committee, the project also may focus on creative writing by the student.

- Course required for all Graduate Teaching Assistants: ENG 675 Colloquium: Teaching College Reading and Writing can be used toward Master's degree in English.

**Foreign Language Requirement for MA**

A candidate for the Master of Arts degree must meet the language requirement:

1. 12 sh of appropriate undergraduate-level classes, or
2. Department - Foreign Language Proficiency Exam (FLPE)

- Students who do not satisfy the foreign language requirement will receive an MS degree rather than an MA

**English MA/MS with an emphasis in Film and Media Studies**

Students seeking a master’s degree in English with an Emphasis in Film and Media Studies may choose either a 30-semester hour program that includes a thesis (ENG 518 counting for 6 hours) or a 36-hour program that includes an independent research project (ENG 595 counting for 3 hours).
Both programs of study lead to an MA degree for students who demonstrate foreign language proficiency or to an MS degree for students without a foreign language.

**Note:** Successful completion of the Comprehensive Exam is required of all students.

**Minor**

At least 12 semester hours may be selected in an academic field outside of English in consultation with advisor.

**English PhD**

The PhD in English requires 90 semester hours beyond the bachelor's degree or 60 semester hours beyond the master's, including 51 hours of coursework, and a minimum of 9-hours dissertation.

**Residency Requirements for the PhD**

Students may satisfy residency requirements in two ways:

1. Serve as a Graduate Teaching Assistant (GAT) or a Graduate Research Assistant (GAR) for at least one academic year. GATs will carry at least the minimum course load to maintain the assistantship and must successfully complete ENG 675. GATs will be mentored and observed in both the Writing Center and in teaching assistants’ classrooms. In addition, students will be expected to observe others as they tutor and teach. Students will be encouraged to participate in the Spanish and English Graduates for Academic Development organization and to submit papers for presentation in regional and national conferences. Students will also be expected to maintain contact with the Doctoral Coordinator for English periodically to make sure they are on track to complete their degree; or,

2. Without the one-year teaching assistantship and ENG 675, students are required to take no fewer than four classes each academic year for two years, and must do so by enrolling in both the fall and spring semesters as well as at least one summer session. At least one of those courses must focus on pedagogy.

In addition, if students do not serve as a GAT or GAR, they must maintain a portfolio of “residency activities” that contribute to professional development in their area of focus for each academic year prior to the completion of the comprehensive exam. The portfolio should document that development; in particular, the portfolio should be prefaced by a brief (2-3 pages) reflective analysis of the activities for that year.

Examples include:

- Conferences and workshops (attendance, participation, organization, etc.)
- Lectures and presentations
- Professional development activities
- Departmental academic advisement
- Development of multimedia resources
• Participation in student organizations (e.g. EGAD)
• Interaction with scholars via the Internet, email, etc.

The Doctoral Coordinator will evaluate portfolios as part of students' annual review of academic progress. If professional development activities are judged inadequate, students will be informed within two weeks of the evaluation and asked to meet with the Doctoral Coordinator to make a to meet residency requirements.

Research Tools
The research tools requirement for the Doctor of Philosophy (Ph.D.) in English can be met with any of the following options:
1. Twelve semester hours of college-level classes in one foreign language, as verified by official transcript, or
2. Successful completion of a foreign language reading exam, as assess by department faculty, or
3. Verified native or near-native competence in a second language, as assessed by department faculty and written verification sent to the Graduate School, or
4. Completion of any four of the following courses, with a grade of B or above: ENG 501, ENG 520, ENG 599, ENG 613, ENG 686, ENG 710, ENG 780, PSY 612.

Examinations
In addition to the coursework, foreign language, and residence requirements, doctoral students must take a qualifying examination under the direction of an advisor and two other committee members from the department. An examination, consisting of both written and oral portions, is required at or near the completion of coursework and before officially beginning work on the dissertations. Consult the Doctoral Coordinator for English for details about timing and structure of the PhD examination.

Dissertation
Requirements for the dissertation are as follows:
1. Student writes a dissertation in the area of concentration under the direction of an adviser and two other committee members from the department, plus one member from another department.
2. The dissertation process requires a written proposal and oral defense of the proposal before the committee. The proposal defense is open to the university community.
3. The dissertation requires a final oral defense after completion. The oral defense is open to the university community.

Doctor of Philosophy in English

Concentration (18 semester hours)
18 semester hours minimum of ENG courses. 18

Dissertation (3-12 semester hours)
No less than 9 semester hours
ENG 718 Doctoral Dissertation 3-12

Secondary Area (6 semester hours)
6 semester hours minimum in ENG courses 6

Professional Internship (21 semester hours)
21 semester hours of ENG courses 21

Research Tools (12 semester hours) included in 60 hour program.
Research tools for the Doctor of Philosophy (Ph.D.) in English can be met in one of two ways:
1. Twelve semester hours of college or graduate-level classes in one foreign language, or completion of a foreign language proficiency exam, or verified native or near-native competence in a second language.
2. Completion of any four of the following courses, with a grade of B or above: ENG 501, ENG 520, ENG 599, ENG 613, ENG 686, ENG 710, ENG 780, PSY 612

Electives (6 semester hours)
6 semester hours of ENG courses 6

Total Hours 60

NOTE: No course beyond the master's program that is over ten years old at the time the doctoral degree is conferred can be used toward the doctoral degree.

Successful completion of the Comprehensive Exam is required of all students.
## Spanish MA

Students seeking a master's degree in Spanish may choose either a 30-semester hour program that includes a thesis (SPA 518 Thesis which counts for 6 hours) or a 36-hour program that includes 3 hours of SPA 595 RESEARCH LIT TECH. Both programs of study lead to an MA degree.

**Foreign Language Requirement for MA**

Reading competency in a foreign language (other than Spanish and English) **must be met by one of the following requirements:**

1. 12 sh of appropriate undergraduate-level classes, or
2. Department - Foreign Language Proficiency Exam (FLPE)

**Film Studies Graduate Certificate**

The Graduate Certificate in Film Studies is a 15-hour program for those who want to pursue an extended investigation of major issues in cinema (directors, genres, literature and film, film theory, national cinemas, historical movements, critical approaches, and themes). Students completing the program will be equipped to contribute to scholarship in the field and to teach film courses on the college level or work in cognate disciplines. Please contact Dr. Gerald Duchovnay at 903/886-5265 or Gerald.Duchovnay@tamuc.edu for more information.

**Studies in Children’s & Adolescent Literature & Culture Graduate Certificate**

The Studies in Children’s and Adolescent Literature and Culture Certificate program consists of 15 hours of graduate study. The certificate provides students with a solid foundation for analyzing children’s and adolescent literature and will enhance their understanding and capacity to teach the cultural, ideological, and historical nature of children’s and adolescent literature in primary, secondary and post-secondary settings. Contact Susan Stewart at 903/468-8624 or susan.stewart@tamuc.edu for more information.

The Studies in Children’s & Adolescent Literature & Culture Graduate Certificate requires admission to the Graduate School and 15 semester hours of graduate courses from the following.

Computational Linguistics Graduate Certificate

This graduate certificate is intended to document foundational skills and expertise in computational linguistics and natural language processing (NLP), mainly for students in computer science and students in linguistics. The course work for the certificate aims to overcome the common lack of foundational knowledge in both pillars of this multidisciplinary field, computer science and linguistics, introducing the basic issues in these fields as they are relevant to computational linguistics. A group of 4 required courses needs to be passed, in addition to an appropriate elective from a selection of possible courses (15 credit hours total). The four courses comprise one introductory class to teach basic principles in each discipline (CSCI 549, ENG 555) and one advanced class each dedicated to applications (CSCI 509, ENG 685). Achievement of the certificate documents solid training and education in Computational Linguistics across the disciplines as an asset for students joining the workforce. Please contact Dr. Christian F. Hempelmann at C.Hempelmann@tamuc.edu for more information.

Note: Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA on all courses used for graduate certificate. (No Substitutions)
Music

David Davies (Interim Department Head)
Location: Music Building, 903-886-5303
Music Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/music/default.aspx

The Department of Music is a member of the National Association of Schools of Music and the Texas Association of Music Schools. The Department of Music offers the Master of Music degree in Music with an emphasis in: Performance, Music Education and Piano Pedagogy.

Maintained within the Music Building are ample facilities for developing the various phases of musical ability. The recording and score collection in the general university library provides a valuable supplement for music scholarship and research. Private instruction is available in voice, keyboard, winds, percussion, and conducting.

Program of Graduate Work

Master of Music in Music

Students in the Master of Music program choose either performance (applied music or conducting), music education or piano pedagogy. The M.M. in performance develops specific music skills and abilities to a high degree in the fields of instrumental and vocal performance and conducting. The M.M. in music education focuses on teacher training at the elementary and secondary levels. The M.M. in piano pedagogy combines an emphasis in performance with teacher training for private and small group settings.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Music.

• Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/musicDomestic.aspx)

Department Requirements

Diagnostic (Advisement) Examinations

Depending on the student’s intended emphasis, diagnostic or advisement examinations may be required in music education, major and/or minor applied music, piano, orchestration, conducting, and foreign language diction. The results of the diagnostic examinations are used for academic advisement and normally do not constitute a basis for actual admission. Once the student completes any diagnostic examinations, the student is assigned a committee which will determine a degree plan to address the student’s strengths, needs, and areas of interest.

Recital

Graduate students pursuing the Master of Music degree in performance must perform a fifty-minute public recital.

Final Comprehensive Examinations

The Department of Music requires the candidate to pass a written examination over the course work listed on the degree plan prior to taking an oral examination.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Music MM (p. 104)

Music Minor (p. 105)

Music MM

Degree: Performance emphasis (applied music, conducting), music education emphasis or piano pedagogy emphasis.

**Required Support Courses for Emphasis (Minimum of 16 semester hours from one of the following emphasis)**

**Emphasis in Music Education (16 semester hours)**

- Pedagogy and Literature (8-10 semester hours)
  - MUS 531 Pedagogy (2 sh: course with different topics may be repeated) 1-3
  - MUS 526 Music Literature and Repertoire (2 sh: course with different topics may be repeated for credit) 1-3
  - MUS 589 Independent Study 1-4

- Applied Study (2-6 semester hours)
  - MUS 552 Principal Applied (1-3 sh) 1-4
  - MUS 551 Minor Applied Music (1-3 sh) 1-4

- Electives or Assigned by Committee (1-3 semester hours) 1-3

**Emphasis in Music Performance (16 semester hours)**

- Principal Applied Study (12 semester hours: most likely 4 semesters of 3 sh lessons with the last semester listed as Principal Applied Recital rather the Principal Applied Study)
  - MUS 552 Principal Applied (Study 1-3 sh) 1-4
  - MUS 552 Principal Applied (Recital 1-3 sh) 1

- Pedagogy and Literature (4-6 semester hours)
  - MUS 531 Pedagogy (2 sh) 1-3
  - MUS 526 Music Literature and Repertoire (2 sh: course with different topics may be repeated for credit) 1-3

**Emphasis in Piano Pedagogy (16 semester hours)**

- Principal Applied Study (6 semester hours)
  - MUS 552 Principal Applied 1-4

- Principal Applied Recital (2 semester hours)
  - MUS 552 Principal Applied 1-4

- Pedagogy and Pedagogical Literature (8 semester hours)
  - MUS 531 Pedagogy 1-3
  - MUS 526 Music Literature and Repertoire 1-3

- MUS 535 Internship in Piano Pedagogy 1-3

- MUS 589 Independent Study 1-4

**Total Hours** 30

**Note:** Successful completion of the Comprehensive Exam is required of all students.

**Music Minor**

The music minor at the graduate level will include a minimum of 12 semester hours of graduate work in music. A comprehensive minor of 30 semester hours in music is available for doctoral degree students majoring in supervision, curriculum, and instruction. This program is recommended for junior and senior college teachers of music and for school supervisors. (See Doctor of Education in Higher Education (http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/HigherEducationLearningTechnology/default.aspx) degree plan program, Department of Educational Leadership (http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/educationalLeadership/default.aspx)). A music minor (or its equivalent) at the undergraduate level constitutes the normal prerequisite for declaring a graduate minor in music.
Political Science

Jeffrey Herndon (Department Head and Graduate Advisor)
Location: 152 Ferguson Social Sciences Building, 903-886-5317
Political Science Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/politicalScience/default.aspx

The graduate program in the Department of Political Science is designed to allow students to examine key issues in domestic and international politics as well as the theoretical foundations of political and social order. The MA/MS program is also designed to prepare students for careers in a variety of public and private sector settings in addition to providing those students who wish to continue into doctoral programs with the skills necessary to succeed. Once students have successfully completed 18 graduate semester hours they are qualified to teach government in a community college setting or dual-credit classes.

Students enrolled in the graduate program will complete a 30 semester hour program that includes 6 semester hour of thesis (PSCI 518) or a 36 semester hour program that includes a 3 semester hour non-thesis research project (PSCI 595) and a comprehensive oral exam. All students will take a comprehensive written exam. All students must complete PSCI 540 or PSCI 512, and two courses from each of the four broad concentrations: American Government, International Relations, Comparative Politics, and Political Philosophy. Students pursuing the MA must demonstrate language proficiency. Students pursuing the MS must demonstrate quantitative proficiency.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/politicalScienceDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field. Once admitted students must maintain a cumulative GPA of at least 3.0.

Successful completion of the Comprehensive Exam is required of all students.

Political Science MA/MS (p. 106)

Holocaust Studies Graduate Certificate (12 sh) (p. 109)

Political Science MA/MS

Graduate students seeking the Master of Arts degree in Political Science must demonstrate language proficiency. This can be accomplished with 12 semester hours (four courses) in one foreign language, 6 semester hours (above elementary courses) if 2 years of high school credit in the language have been submitted as part of the regular university admission requirements, 3 semester hours if the student presents 3 or 4 years of high school credit, or American Sign Language (ASL) is considered an acceptable foreign language. Students should consult with departmental Director of Graduate School regarding this requirement if the undergraduate degree is a Bachelor of Arts.

Those graduate students seeking the Master of Science degree in Political Science must demonstrate analytical, statistical, & mathematical competencies through any combination of 9 hours undergraduate and/or graduate courses beyond those required for the degree with departmental advisor approval of courses.

# Holocaust Studies Graduate Certificate

The Political Science Department offers a graduate certificate for Holocaust Studies. The graduate certificate is not exclusive to the Political Science Master's students but designed to be interdisciplinary and to meet the needs of educators in Texas who offer curriculum components on the Holocaust and other genocides.

Graduates students who want to earn this certificate must have admission to the Graduate School and take 12 out of 15 semester hours of courses developed for this certificate. Contact Dr. Jeffrey Herndon at 903/886-5312 or Jeffrey.Herndon@tamuc.edu for more information.

Sociology and Criminal Justice

Elvira White-Lewis (Department Head)
Location: Ferguson Social Sciences Building #210, 903-886-5332

The mission of the Department of Sociology and Criminal Justice is to provide quality learning experiences to equip students with social, intellectual, leadership and critical thinking skills, preparing them for a global and diverse society.

In addition to the major objective of contributing to the development of an educated person, some of the specific departmental objectives are as follows:

1. prepare students for teaching roles at all educational levels;
2. develop students’ skills and knowledge that will enable them to conduct and interpret empirical research;
3. prepare students for professional careers in the fields of sociology and criminal justice;
4. prepare students for PhD programs in sociology and criminology;
5. develop programs designed to provide community services, extending from the local to regional and national levels;
6. provide curriculum support to other departments and university programs.

Admission
Sociology
Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Sociology.

Students entering the graduate program must satisfy any deficiencies in statistical analysis by appropriate course substitution (determined by the department) or by passing a competency examination prior to enrollment in Sociology 576, Data Analysis in Social Research.

- Sociology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/sociologyDomestic.aspx)

Applied Criminology
Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Applied Criminology.

- Applied Criminology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/appliedCriminologyDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Applied Criminology MS (p. 110)

Applied Criminology MS

The Master of Science degree in Applied Criminology is an academically-based program that has an applied focus on four primary areas:

1. Management
2. General
3. Homeland Security
4. Forensic Accounting
The program is designed to meet the needs of students wishing to pursue administrative careers or other promotional opportunities in the criminal justice field or for students who wish to increase their knowledge of the criminal justice system.

**Note:** Students must have admission to the Graduate School. Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA in all courses used for this graduate certificate. *(No Substitutions)*

---

**Criminal Justice Studies Graduate Certificate**

The Criminal Justice Studies Graduate Certificate includes 12 semester hours of graduate coursework for students who want to increase their knowledge and develop competencies in the areas of criminal causality, criminal law, police management and/or correctional settings. The program will assist students in developing management skills that will be applicable in criminal justice agencies or in a graduate program at the master's level. The courses are designed in such a way as to cater to the working professional. The courses are offered completely online. Each course is Five (5) weeks in length. Please contact Mr. Louis Lufkin at Louis.Lufkin@tamuc.edu or 903.468.8226 for more information.

**Homeland Security Graduate Certificate**

The Homeland Security Graduate Certificate is for those with an interest in national defense. It is designed to attract members outside the traditional criminal justice field. The graduate certificate is designed to give students a broad understanding of homeland security issues and to enhance leadership capabilities among those who currently work in local, state, and federal government and others who are interested in gaining greater knowledge about the field of homeland security. This program would introduce the student to homeland security concepts, applicable management principles, policy analysis, and enhance critical leadership skills necessary to successfully address security challenges within the United States. Please contact Mr. Louis Lufkin at Louis.Lufkin@tamuc.edu or 903.468.8226 for more information.

Theatre

Michael Knight (Department Head)
Location: Performing Arts Center, 903-886-5346
Theatre Web Site: http://www.tamuc.edu/academics/colleges/humanitiesSocialSciencesArts/departments/massMediaCommunicationTheatre/default.aspx

The Department of Theatre offers graduate courses and graduate degrees in theatre.

The goals of the graduate program in theatre are to:

1. Develop an understanding of the relationship between dramatic theory and onstage practice;
2. Study the dramatic tradition and the history of the performing arts;
3. Prepare students for doctoral programs in theatre studies;
4. Prepare students for community college teaching;
5. Provide the skills and experience necessary for entry into professional theatre, film and television; and
6. Supplement the knowledge and skills of secondary education teachers.

Performing Arts Center laboratories are available in two theatres, shops, a complete television studio and radio station. Several graduate assistantships are available.

Programs of Graduate Work

Masters of Arts/Master of Science in Theatre

The Department of Theatre offers the following degrees in theatre: Master of Arts, Master of Science, Thesis or Non-Thesis. In addition, a comprehensive minor in theatre is available for doctoral students.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Theatre.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanitiesSocialScienceArts/theatreDomestic.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Theatre MA/MS (p. 114)

Theatre - MA/MS

Theatre General Requirements

The Theatre graduate program provides its students with the opportunity to prepare for professional careers in the Theatre Arts through a series of hands-on learning experiences and advanced research applications. Fields of study include acting, directing, production design, theatre management, box office management, play-writing, and theatre education. Students are given the skills and experience to achieve successful career goals upon graduation. Students prepare for these goals through intensive study of theatrical techniques and hands-on application of these techniques.

Master of Arts/Master of Science in Theatre - Option I Thesis

Students must meet the general theatre requirements listed above and must complete the following:

Credit Hours: Thesis - 30 semester hours

Thesis (6 semester hours)

<table>

Dr. Alma Mintu-Wimsatt, Interim Department Head, Marketing & Business Analytics
903-886-5692 - Departmental Website (http://www.tamuc.edu/academics/colleges/business/departments/businessAdministration/default.aspx)

Graduate study in the College of Business is available in: accounting, business administration, finance, management, marketing and business analytics. The graduate programs in business are accredited by AACSB.

Courses for the MBA and MS programs are offered at Texas A&M University-Commerce, main campus, and in Dallas at the El Centro Campus. Courses are also available through online instruction.

Programs of Graduate Work in Business

Graduate studies in business are designed to prepare individuals for professional careers in business organizations, government agencies, and educational institutions, or for further graduate study. Graduate degrees and programs in business include the MBA in Business Administration, the MSF in Finance, the MSA in Accounting, the MS in Management, the MS in Marketing and the MS in Business Analytics. More specifically, the goals are to:

1. insure knowledge of the functional areas of management;
2. improve each individual’s decision-making abilities;
3. develop each individual’s ability to succeed in a rapidly changing global business environment;
4. provide for increased understanding of current and future social, economic, political, and technological conditions affecting the business world; and
5. promote the desire for continuing self-education and self-development.

Admission

E-Mail: MBA@tamuc.edu

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in accounting, business administration, business analytics, finance, management and marketing.

- Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/businessEntrepreneurship/default.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.
Accounting and Finance

James R. Hamill (Department Head)
Location: 903-886-5659

Accounting MSA

The MSA Accounting degree provides students the opportunity to gain knowledge in Attestation, Forensic Accounting, Professional Accounting, or Taxation and requires 36-42 semester hours (depending on a student's background). Courses are offered online, in Dallas, or a combination of the two. Students receiving the MSA in Accounting degree obtain a foundation of knowledge in financial, auditing, forensic accounting, and professional accounting to prepare them for careers in the public and private sectors. Students interested in qualifying for the CPA examination, must be familiar with the public accounting licensing laws in their state of residency, which may involve additional courses or requirements beyond those found in the MSA in Accounting degree.

Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/businessEntrepreneurship/default.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Finance MSF

The Master of Science in Finance program prepares students for the demands of the global financial environment in all major areas of finance. In addition to traditional general finance courses, the curriculum also includes courses designed to help the student who is preparing for CFA and/or CFP certification exams. Students with applicable undergraduate business coursework can complete the program with 30 hours of graduate coursework. Students without undergraduate preparation in finance may be required to complete up to 39 hours (which includes 9 semester hours of foundation coursework) in their program.

Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/businessEntrepreneurship/default.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Management and Economics

Mario Hayek (Department Head)
Location: 903-886-5703

Business Administration - MBA

The Master of Business Administration degree offered by the College of Business of Texas A&M University-Commerce prepares the graduate student for advanced management positions that demand analytic and strategic leadership solutions to an interrelated set of economic, ethical, and environmental issues. The curriculum stresses the development and use of analytical skills for both quantitative and qualitative applications, which will assist managers in their decision-making and leadership responsibilities.

Texas A&M University-Commerce also offers a complete MBA online. Please contact the Graduate Programs in Business Advising Center (903-468-3197 or MBA@tamuc.edu) for information.

Admission Requirements

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Management - MS

The Texas A&M University-Commerce Master of Science in Management program is designed to provide students with the scientific knowledge and practical skills needed for effective leadership and management within dynamic business environments. Students may take courses on campus in Commerce or Dallas, with an option of the flexibility and convenience of online courses. (email us at Management@tamuc.edu)

Admission Requirements

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Business Administration MBA

It is not required to have a business undergraduate degree to pursue a Master in Business Administration (MBA). All candidates must take the 7 Managerial component courses, 2 Informational Analysis Component courses, and 1 elective. Those without appropriate background course credit will be required to take the pre-requisite in each non-fulfilled area. Minimum program length for the General MBA is 30 semester hours; maximum program length is 48 hours.

Master of Business Administration in Business Administration - Option II Non-Thesis

Generally, for students who have completed the following body of knowledge at the undergraduate level, the 30-hour format is appropriate.

30-Hour Format
The general MBA program includes a 7-course managerial component, a 2-course information analysis component, and 1 elective course as detailed below.

48-Hour Format
For individuals who have not completed the above listed undergraduate background requirements, the 48-hour format is appropriate. Credit will be given for previously completed courses. The program structure is similar to the 30-hour format with the same Managerial, Information Analysis, and elective components.

Background Courses
Background courses (pre-requisites) cannot be used to satisfy elective requirements for a degree in the College of Business. Courses can be waived for students with appropriate undergraduate coursework.

Recommended to be taken in student’s first semester.

Elective Component (3 semester hours)
One elective course completes the 30-hour program requirements. Graduate level electives may be taken from any combination of business fields (Acct, Eco, Fin, BA, Mgt, Busa, and Mkt).

Total Hours 30

Minor Areas of Concentration
At least 12 advanced hours must be completed in an academic field (Accounting, Agribusiness, Business Analytics, Cyber Security, Digital Marketing, Economics, Finance, Financial Planning, Economics of U.S. Healthcare, International Business, Marketing, Marketing Analytics, Corporate Management & Entrepreneurship) to meet the requirements for a minor concentration area. The details of each particular minor are shown below.

Accounting
At least 4 courses from Accounting: Includes

### Business Analytics

4 courses (12 semester hours) from BUSA includes:

- **BUSA 526**  
  Database Management  
  3 semester hours

- **BUSA 542**  
  Applied Decision Modeling  
  3 semester hours

### Electives

6 semester hours any BUSA course  
6 semester hours

### Cyber Security

4 courses (12 semester hours) from:

- **BUSA 526**  
  Database Management  
  3 semester hours

- **BUSA 533**  
  Cyber Security and IT Auditing  
  3 semester hours

- **BUSA 536**  
  Mobile Security Intelligence  
  3 semester hours

- **BUSA 539**  
  Cyber Forensics and Information Security Policy Governance  
  3 semester hours

### Digital Marketing

4 courses (12 semester hours) from:

- **MKT 568**  
  Integrated Marketing Communication (IMC) and Promotion  
  3 semester hours

- **MKT 569**  
  Interactive and Digital Marketing  
  3 semester hours

- **MKT 573**  
  Internet Marketing  
  3 semester hours

- **MKT 580**  
  Marketing - Internship  
  0-4 semester hours

### Economics

ECO 562  
Managerial Economics (Required)  
3 semester hours

ECO 576  
Macroeconomics for Managers (Required)  
3 semester hours

Choose remaining 6 semester hours of ECO courses from below or courses may be substituted with Department Approval.

- **ECO 533**  
  Applied Economic & Financial Forecasting  
  3 semester hours

- **ECO 528**  
  International Economic Problems  
  3 semester hours

Excluding ECO 595 and ECO 578

### Finance

4 courses from Finance

Includes:

- **FIN 504**  
  Financial Management  
  3 semester hours

- **FIN 510**  
  Investment Seminar  
  3 semester hours

Plus 2 courses from the following

- **FIN 512**  
  Derivatives & Risk Management  
  3 semester hours

- **FIN 515**  
  Fixed Income Analysis  
  3 semester hours

- **FIN 533**  
  Applied Financial & Economic Forecasting  
  3 semester hours

- **FIN 520**  
  Advanced Entrepreneurial Finance & Venture Capital  
  3 semester hours

- **FIN 550**  
  Advanced Financial Modeling with Excel  
  3 semester hours

- **FIN 570**  
  Fin Mkts Instits & Instru  
  3 semester hours

- **FIN 571**  
  International Business Finance  
  3 semester hours

### Financial Planning

4 courses from Finance

12 semester hours from

- **FIN 504**  
  Financial Management  
  3 semester hours

- **FIN 510**  
  Investment Seminar  
  3 semester hours

- **FIN 530**  
  Fundamentals of Financial Planning  
  3 semester hours

- **FIN 536**  
  Advanced Retirement Planning & Employee Benefits  
  3 semester hours

  or **FIN 534**  
  Advanced Risk, Insurance, and Estate Planning  
  3 semester hours

### Economics of U.S. Healthcare

4 courses (12 semester hours) from the following

- **ECO 555**  
  Health Care Services in the U.S.  
  3 semester hours

- **ECO 556**  
  Health Economics  
  3 semester hours

- **ECO 557**  
  Health Policy  
  3 semester hours

- **ECO 562**  
  Managerial Economics  
  3 semester hours
Management MS

Master of Science in Management - Option II Non-Thesis

Foundation Study in Management
This course can be waived for students with appropriate undergraduate coursework.
MGT 503 Business Concepts and Tools 3

Research Component (3 semester hours required)
MGT 595 Management Research Methods 3
Should be taken in the student’s first semester of core courses in the management orientation of the MS degree plan

Operational Excellence Graduate Certificate

The purpose of this certificate is to develop graduate-level working knowledge of important tools (e.g., SAP, Six Sigma and project management software) for successful application in supply chain and project management. Students who successfully complete the certificate will be awarded the following: 1) Operational Excellence Certificate from Texas A&M Commerce; 2) an SAP certificate; and 3) a Green Belt Six Sigma certificate. All of the courses in the Operational Excellence Certificate Program may be applied to the Master of Science (MS) in Management Degree Program and some of the courses may be applied to other graduate business degrees. Contact Dr. Mario Hayek at 903-886-5941 or email Mario.Hayek@tamuc.edu for more information.

Economics of U.S. Healthcare Graduate Certificate

The Economics of U.S. Healthcare Graduate Certificate is an academic certificate (rather than a professional certificate) designed to fill specific basic knowledge gaps for healthcare professionals or for people wishing to pursue careers in healthcare administration.

All of the courses are online, and you can sign up for any of them at any time without having to wait for a regular course rotation or for the beginning of a semester.

Business Analytics - MS

The MS in Business Analytics program is designed to prepare students entering the workforce in the rapidly emerging field of business analytics, which involves collecting, organizing, analyzing, optimizing, and interpreting "Big Data" (huge datasets collected by modern companies) for the purposes of problem solving and decision making. The program is intended to help students identify opportunities hidden in big data and apply these findings to real-world business challenges. Data analysts provide organizations with ideas for smarter strategic management, improved financial performance and better operational efficiencies. Students will prepare for specific jobs as computer systems analysts, management analysts (business analysts and process analysts), market research analysts, logisticians, and operations research analysts in a wide range of organizations and industries.

The Master of Science in Business Analytics program offers students from business and non-business backgrounds with an opportunity to develop expertise in the art and science of business analytics. Students complete 30-36 hours of graduate courses depending on their backgrounds.

Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/businessEntrepreneurship/default.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Marketing - MS

The Mission of the MS Marketing Program is to provide quality academic and practical learning experiences to equip students with the knowledge to apply the marketing concepts and theories of marketing management, business-to-business (B2B), marketing, international marketing, and marketing research in a variety of organizations (e.g., businesses and not-for-profit organizations). The MS Marketing program is designed to meet the needs of students in order to prepare them for higher level positions in marketing as well as for students who wish to pursue post-masters graduate programs.

The Master of Science in Marketing program offers students from business and non-business backgrounds with an opportunity to develop expertise in the art and science of business marketing. Students complete 30-36 hours of graduate courses depending on their backgrounds.

Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/businessEntrepreneurship/default.aspx)

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Location: Young Education North Building, 903-886-5181

Dr. Madeline Justice, Interim Dean
Dr. Mark Reid, Associate Dean

The College of Education and Human Services houses seven academic departments, including the Departments of Counseling; Curriculum and Instruction; Educational Leadership; Higher Education & Learning Technologies; School of Nursing & Health Sciences; Psychology, and Special Education; and School of Social Work. The departments offer programs of study that lead to bachelor’s, master's, and doctoral degrees.

College Mission

College of Education and Human Services provides excellence driven programs that prepare student-scholars to become scientists, teachers, administrators, and practitioners who proactively address the transformational challenges of a complex digital environment and global society. We promote instructional engagement, responsive research, quality service, and active partnerships with external constituencies.

Graduate study in the College of Education and Human Services includes, but is not limited to, programs that prepare school administrators including principals, superintendents, and counselors. Master's degrees are also available in educational technology, health, kinesiology, and sports studies, psychology, special education, and social work. Details of each program may be accessed in the departmental division of this catalog:

- Counseling, MS, MEd, PhD
- Curriculum & Instruction, MS, MEd
- Early Childhood Education, MS*, MEd*, MA
- Educational Administration, MEd, EdD
- Educational Psychology, PhD
- Educational Technology Leadership, MS, MEd
- Educational Technology Library Science, MS, MEd
- Family Nurse Practitioner, MSN
- Health, Kinesiology and Sports Studies, MS
- Higher Education, MS
- Higher Education Leadership, EdD
- Organization, Learning, & Technology, MS
- Psychology, MS
- Reading, MA*, MS*, MEd*
- Secondary Education, MS, MEd
- Special Education, MS, MEd
- Specialist in School Psychology, SSP
- Social Work, MSW
- Supervision, Curriculum & Instruction, EdD
- The Art of Teaching, MEd

* Federation Program with University of North Texas and Texas Woman's University.

The College of Education and Human Services offers master level Texas Education Agency approved programs leading to standard certification for teachers in bilingual education, early childhood education, elementary, middle level, and secondary. Additional areas of study for certification include all-level certification in art, health, music, physical education, and special education.

Professional certificates available through Texas Education Agency approved programs in the following areas: career and technology education, educational diagnostician, master mathematics teacher (8-12), master reading teacher, reading specialist, school administrator (principal and superintendent), school counselor, and school librarian.

Programs in the College of Education and Human Services are designed to allow the student to complete a master's degree while completing required coursework for teacher certification and professional certificates.

Center for Educator Certification and Academic Services

Erin Swinson, Director Center for Educator Certification and Academic Services
Young Education Building, 903-886-5182
Admission

Application to an initial teacher certification (e.g., Alternative Teacher Certification Programs) or professional certification programs should be made in the Center for Educator Certification and Academic Services. Formal admission into the graduate school and Alternative Teacher certification program (AMTRAC) and program completion is required before Texas A&M University-Commerce can recommend any initial certificate be issued. Information regarding all Teacher Education/Certification Programs may be viewed at http://www.tamuc.edu/academics/colleges/educationHumanServices/educatorCertificationAcademicServices/default.aspx.

Post-Baccalaureate/Alternative Teacher Certification Program (Standard Teacher Certification)

(Admission)
1. Passing score on TExES Pre-Admission Content Test (PACT) prior to submission of applications for admission.
2. Earn admission into the Graduate School to pursue a Master of Science degree in Curriculum and Instruction (CINS), Secondary Education (SED), Early Childhood Education (ECH), or Reading (RDG). Graduate School application can be made at ApplyTexas.org (https://www.applytexas.org/adappc/gen/c_start.WBX) which includes a $50 non-refundable application fee.
3. Applicants must have completed their Bachelor of Science or equivalent degree with a minimum 2.75 overall GPA or a completed master's degree with a minimum 3.0 overall GPA. All transcripts must be submitted to the Graduate School.
4. Earn admission to the Alternative Teacher Certification Program (AMTRAC) located at http://www.tamuc.edu/academics/colleges/educationHumanServices/educatorCertificationAcademicServices/default.aspx which includes a $50 non-refundable application fee.
5. Meet admission requirements for specific certificate and program area (see website for details).

(Program Requirements)
1. Meet admission requirements.
2. Complete 30 hours of field based experience in a Texas Education Agency recognized classroom prior to internship.
3. Complete the 6 online certification courses earning no grade lower than B, maintaining a 3.0 GPA.
4. Pay the $35 non-refundable TEA Assessment Fee.
5. Attempt the TExES Pedagogy and Professional Responsibilities (PPR) exam prior to internship.
6. Complete a successful supervised internship in a Texas Education Agency recognized school through one of two options: Option 1 - One year paid internship as the teacher of record or Option 2 - one semester as an unpaid clinical/student teacher. If at any time the student resigns or is dismissed from employment, the student will be dismissed from the program. Pay required fees based on type of internship
7. Comply with the Texas Teacher Code of Conduct, The Code of Ethics, and exhibit professional behavior at all times.
8. Complete remaining courses and any degree requirements for completion of the MS degree, including the corresponding Comprehensive Exam.
9. Comply with all practices, policies, and requirements outlined by the program.*

After completion of all certification program requirements, students must apply for their standard certificate with the Texas Education Agency in a timely manner. Filing for certification is an online process.

Professional Certificate Program (Superintendent, Principal, School Counselor, School Librarian, Educational Diagnostician)

(Admission)
1. Completion of Bachelor's Degree.
2. Completion of the Graduate School application at ApplyTexas.org. (https://www.applytexas.org/adappc/gen/c_start.WBX)
3. Payment of application fee, a $50 non-refundable Graduate School application fee.
4. Submit official copy of all graduate/undergraduate transcripts conferring master's degree (if applicable).
5. Professional recommendation from an appropriate person from the educational sector, i.e., principal, supervisor, director, superintendent.
6. A current copy of the Texas teaching certificate and service record indicating years of acceptable teaching experience or professional certificate plan leading to teacher certification.
7. Applicants must have completed their Bachelor of Science or equivalent degree with a minimum of 2.75 overall GPA or a completed master's degree with a minimum 3.0 overall GPA.
8. Earn admission to the Graduate School.
9. Completion of Application for Admission to the Professional Certification Program located on the Center for Educator Certification and Academic Services https://teachcert.tamuc.edu/teacher/forms/professional_newform.asp
10. Payment of application fee, a $50 non-refundable fee, for Professional Certification application and payment of $35 non-refundable TEA Assessment Fee.

11. Meet admission requirements for specific certificate and program (see website for details).

(Program Requirements)

In order to successfully complete the Professional Certification Program, the following are required:

1. Continued admission and retention in the Professional Certification Program.
2. Successful completion of all departmental requirements, required GPAs, and appropriate state certification exams.

After completion of all professional certification program requirements, students must apply for their certificate with the Texas Education Agency in a timely manner. Filing for certification is an online process.

Programs of Graduate Work

Master of Science in Counseling
The Master of Science (MS) in Counseling offers an emphasis in School Counseling (51 semester hours) for those students seeking certification as a professional school counselor and an emphasis in Clinical Mental Health Counseling (60 semester hours) for those students desiring licensure as a Licensed Professional Counselor (LPC). Both programs include a common core as well as courses specific to each emphasis.

Beginning Fall 2019, students who are currently in School Counseling may enroll in additional courses to fulfill the academic requirements for LPC, thus having academic eligibility for both certifications as a professional school counselor and as a Licensed Professional Counselor (LPC) in the State of Texas upon completion of the program of study.

Master of Education in Counseling
The Master of Education (MEd) in Counseling is a 36 semester hour program designed for those students who plan to work in college and university student affairs, but prefer a counseling foundation in their preparation. Graduates of the MEd program typically seek employment in student activities, career services, academic advising, Greek affairs, recruiting and admissions, residence life, and other departments and offices within the student affairs division of community colleges and four-year colleges and universities.

Doctor of Philosophy in Counseling
The PhD in Counseling includes approximately 69-72 hours of coursework beyond the equivalent of a CACREP-accredited master's degree. This total includes doctoral field experience, specified doctoral courses, cognate area, elective cluster, research tools, and dissertation.

School Counseling Certification Program
The School Counseling Certification Program is a 51 semester hour program. Admitted school counseling students, who are following the school counseling master’s degree plan, must apply also to the Professional Certification program and provide the needed information. The Educator Certification department assists students with the certification process. The counseling program requires a passing score on the Master's Comprehensive Examination before you can be recommended to take the TEEX.

The State Board for Educator Certification & Academic Services also requires a passing score on the TEEX and two years of classroom teaching experience. It is highly recommended that students have completed the teaching experience prior to applying to the program. All questions about teaching experience should be directed to the Education Certification & Academic Services.

Contact the Department of Counseling for additional information relating to School Counseling Certification at 903-886-5637.

Admission

Counseling - MS/MED
Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Those who apply to Texas A&M University-Commerce Graduate School for admission to one of the master’s degree programs in counseling must meet the general Graduate School admissions requirements as described elsewhere in this catalog as well as additional departmental requirements. Application materials collected by the Graduate School will be forwarded to the Department of Counseling for review, and applicants are required to have approval of the department before the Graduate School will grant admission to the master’s degree program in counseling.

After full admission to Graduate School is granted, the department requires students to meet its admission to candidacy requirements for the master's degree. School Counseling and Clinical Mental Health Counseling students must earn a grade of A or B in the following classes: COUN 501, COUN 510, COUN 516, and COUN 528. College Student Affairs students must achieve a grade of A or B in COUN 505, COUN 510, COUN 606, and HIED 540. School Counseling and Clinical Mental Health Counseling students may complete no more than 9 semester hours prior to meeting admission to candidacy requirements. More information regarding admission to candidacy is available in the departmental office.

- Counseling Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/counselingDomestic.aspx)

Counseling - PhD
Admission to a doctoral program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in counseling:
Master of Science in Counseling

The Master of Science in Counseling offers an emphasis in Clinical Mental Health Counseling (60 semester hours) for those students desiring licensure as a Licensed Professional Counselor (LPC), an emphasis in School Counseling (51 semester hours) for those students seeking certification as a professional school counselor only, and an emphasis in School Counseling with LPC (60 semester hours) for those students seeking both certifications as a professional school counselor AND desiring licensure as a Licensed Professional Counselor (LPC). All three programs include a common core, courses specific to the emphasis and field experience courses in which students work directly with client populations under supervision. Additionally, in all three programs, students must enroll in COUN 501 and COUN 510 during their first semester of enrollment. After successfully completing COUN 501 and COUN 510, students then enroll in COUN 516 and COUN 528 in the same (typically, second) semester. Please note that those students desiring to enroll in more than 6 hours per semester may take classes from among those listed as “Open” classes.

Program Requirements - MS

In order to graduate from degree programs of study in School Counseling and/or Clinical Mental Health Counseling, students must gain admission to candidacy and pass a comprehensive exit examination. The comprehensive exit examination is the Counselor Preparation Comprehensive Examination (CPCE), a nationally standardized examination developed and published by the Center for Credentialing in Education. The CPCE is administered on-campus once per semester. Students needing an additional attempt during a semester may be certified to test at specified professional testing centers (See Department web for centers). Details regarding examinations and examination dates are available on the Counseling web site.

Students must complete 3 field experiences, COUN 551: Practicum, COUN 552: Internship 1, and COUN 552: Internship 2. The Practicum consists of a minimum of 100 contact hours, of which 40 must be in providing direct service to clients and client populations. Each Internship experience consists of a minimum of 300 contact hours, of which 120 must be in providing direct service to clients and client populations.

Master of Education in Counseling

The Master of Education (MEd) in Counseling offers an emphasis in College Student Affairs for those students desiring employment in a wide variety of college and university student services settings. The CSA program is a 36-hour program offered entirely online. It targets the bachelor-level student affairs professional desiring a graduate degree to improve service delivery and promotability.

Program Requirements - MEd

College Student Affairs students must gain admission to candidacy and pass a locally-developed comprehensive exit examination. All examinations are administered once each fall and spring semester, and once during the summer. Details regarding examinations and examination dates are available in the departmental office. In addition, CSA students complete a field experience, COUN 555: Internship in College Student Affairs, consisting of a minimum of 300 contact hours engaging in CSA professional activities.

Master of Science in Counseling with an emphasis in School Counseling - Option II Non-Thesis

Master of Science degrees in Counseling with School Counseling emphasis require the courses listed below:

All courses carry 3 semester hours credit unless otherwise indicated.

Note: Successful completion of the Comprehensive Exam is required of all students.

Counseling PhD

Course Requirements

Doctoral students must have met the equivalent of CACREP master's program requirements, plus complete approximately 69 hours of additional coursework, as outlined below.

1. Master’s Degree—A minimum of 48 semester hours, equal/equivalent to a CACREP-accredited master’s degree, must be completed prior to finishing the doctorate.
2. Doctoral Field Experience—12 semester hours of class, which includes a combination of supervised clinical training, teaching, and clinical supervision.
3. Core Doctoral Courses—21 semester hours of required doctoral counseling courses.
4. Cognate Area—9 semester hours from one of several department-approved content areas.
5. Elective —3 semester hours selected with adviser to build competencies in an area that meets the student’s professional needs.
6. Research Tools—15 semester hours in research methodology and statistics (or documented proficiency) from the University-approved Research Tools options. One of the research tools courses must be a qualitative research course.
7. Dissertation—9 to 12 semester hours. In addition to the courses above, all general catalog requirements for the degree must be met.

Residency

Doctoral student residency in the A&M-Commerce Department of Counseling serves three purposes. First, it is designed to encourage collegial relationships between students and faculty. Second, it introduces students to typical professional expectations they will encounter as they progress through their careers. Finally, activities within the residency enhance student learning by supplementing the academic and experiential components of the program.

To fulfill the residency requirements in the Department of Counseling, doctoral students must complete the following activities.

1. Attend a minimum of six doctoral seminars.
2. Assist faculty members on two different projects intended to ultimately lead to either manuscripts submitted for publication in peer-reviewed journals or presentation proposals submitted for peer-reviewed program consideration at state, regional, or national conferences. Students must collaborate with at least two different faculty members.
3. Engage in a minimum of three departmental activities. Suggested activities include proctoring master’s comprehensive examinations, assisting with Murphy Day, assisting with the fall school counselor conference, maintaining the departmental bulletin board, maintaining the departmental job board, etc. Activities MUST include assisting with Master's-level Practicum (COUN 551). This is in addition to COUN 660 Supervision requirement.
4. Actively engage in professional service. Two components comprise this requirement:
   a. Holding elected or appointed office in a local (E.g., Chi Sigma Iota, Doctoral student Association, Branch of the Texas Counseling Association), state (e.g., Texas Counseling Association or its divisions), regional (e.g., Southern Region of the American Counseling association), or national (e.g., American Counseling association or its divisions, American College Personnel Association), professional organization or by chairing or serving as a member of a committee of one of these organizations.
   b. Serving on a university, college, or departmental committee or task force (e.g., Master's Admissions Committee, Departmental Human Subjects Protection Committee, University Library Committee).
5. Completing 24 semester hours at Texas A&M University-Commerce toward the degree.

There is no specified time limit for completing residency.

Note:

The department reserves the right to suspend from the program any student who, in the judgment of a duly constituted departmental committee, does not meet the professional expectations of the field. A copy of the department’s Retention/Dismissal Procedure may be obtained from the departmental office.

**NOTE:** No course beyond the master's program that is over ten years old at the time the doctoral degree is conferred can be used toward the doctoral degree.
Successful completion of the Comprehensive Exam is required of all students.

**Professional Counselor Licensure (LPC)**

If a School Counseling or Clinical Mental Health Counseling student is seeking to become a Licensed Professional Counselor (LPC), the student must submit a completed application packet to The Texas State Board of Examiners of Professional Counselors at http://www.dshs.state.tx.us/counselor/default.shtm, 1100 West 49th Street, Austin, TX 78756-3183, phone 512/834-6658. The state currently requires the completion of a 60 semester hour program of graduate study and 3,000 hours of supervised counseling experience after completion of the graduate program. Students who completed the School Counseling degree requirements need to meet the 60 semester hour program of graduate study. Of those 60 hours of graduate work, courses must include PSY 503 Abnormal Psychology and one course selected from one of the marriage and family courses (COUN 513, COUN 564, or COUN 611) to satisfy the LPC requirement. In addition, Texas requires a passing score on the state licensure examination (the National Counseling Examination, NCE), prior to applying for licensure.

**Chemical Dependency Counseling Graduate Certificate**

This certificate will prepare professionals with the necessary theories, assessments and modalities to counsel, prepare, and implement treatment plans for substance abuse clients, their families, and co-workers. Contact Dr. LaVelle Hendricks at LaVelle.Hendricks@tamuc.edu.

The Chemical Dependency Counseling Graduate Certificate Program requires admission to the Graduate School and includes 12 semester hours of graduate coursework.

Curriculum and Instruction

Jennifer Dryer (Department Head)
Location: Education South, 903-886-5537
Curriculum and Instruction Web Site: http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/curriculumInstruction/default.aspx

The Department of Curriculum and Instruction holds as its central mission the study of curriculum and instructional design and its implementation at all levels of education. To realize a broad range of curricular aims and goals, the department engages in rigorous study of teaching and learning to enhance teaching effectiveness. Five strands of emphasis at the graduate level include:

1. Offering master’s and doctoral degree programs.
2. Being actively involved in the public schools for mutually beneficial purposes, i.e., updating and enhancing skills of current teachers while allowing departmental faculty to remain current with public school trends and issues.
3. Offering doctoral programs that develop effective teacher educators through research and intensive study of learning paradigms and instructional strategies.
4. Promoting within faculty and students rigorous scholarship as they participate in basic and applied research, educational program development, and implementation and dissemination of knowledge in enlightening and utilitarian ways.
5. Providing courses to support teaching certification at the graduate level.

Programs of Graduate Work

The department offers the following certificates, specializations and degrees:

**Master’s and Doctoral Degree Programs**

- Master’s Degree in Early Childhood Education (MA, MEd and MS)
- Master’s Degree in Curriculum and Instruction (MEd and MS)
- Master’s Degree in Reading (MA, MEd and MS)
- Master’s Degree in Secondary Education (MEd and MS)
- Master’s Degree in The Art of Teaching (MEd)
- Doctoral Degree in Supervision, Curriculum and Instruction (EdD)

**Graduate Level Certifications**

The department offers the following certificates, specializations and/or degrees.

- The MS degrees can provide courses leading to EC-6, 4-8, 7 or 8-12, or All-Level Certification (see Post-Baccalaureate/Alternative Teacher Certification Program)
- EC-6 Bilingual Education Certificate (See Post-Baccalaureate/Alternative Teacher Certification Program)
- EC-6 English as a Second Language (ESL) Certificate (See Post-Baccalaureate/Alternative Teacher Certification Program)
- Reading Specialist Certificate
- Master Reading Teacher Certificate
- All Level Gifted and Talented Certificate

**Master of Education and Master Science in Curriculum and Instruction**

The Master’s of Education (MEd) Degree in Curriculum and Instruction is for certified teachers interested in the improvement of classroom teaching through advanced studies in the content and methodology of subjects taught in K - 12 classrooms. The major in curriculum and instruction, available primarily to experienced teachers, prepares graduates to

1. improve student engagement and teaching effectiveness and
2. qualify for leadership positions in settings for which the master’s degree is required.

A graduate with a major in curriculum and instruction should possess knowledge of the research and literature in education, curriculum and instructional design, effective teaching practices, and the teaching of diverse students.

The Master of Science (MS) Degree in Curriculum and Instruction is intended for those who do not have teacher certification but wish to include graduate certification courses as part of their master’s degree program.

- Curriculum & Instruction Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/curriculumInstructionDomestic.aspx)
Master of Education, Master of Science, and Masters of Arts in Early Childhood Education

The MEd degree in Early Childhood Education is for certified teachers interested in the human growth and development of young children, birth through age eight years, and in the improvement of teaching young children through advanced studies in the content and methodology of the subjects taught in preschools through grade three. The MS degree in Early Childhood Education is for those who do not have teacher certification but interested in studying child development leadership, learning theories, and developmentally appropriate practice. The Master of Arts in Early Childhood Education is primarily for those graduate students who would like to write a thesis in the field of early childhood. The study of a foreign language is also required. The major in early childhood education prepares graduates for careers in both public and private educational settings in which the primary focus is on the education of young children between the ages of three and eight. A graduate with a major in early childhood education should possess knowledge in these areas: cognitive, socio-emotional, and physical development of children ages birth to eight, curriculum theories and instructional design, effective instructional approaches for young children, teacher research and documentation of children's learning, and developmentally appropriate practice and authentic assessment of young children.

Professional educators who hold the provisional or standard EC-4 or EC-6 teaching certificate may earn the Master of Education degree in Early Childhood Education. Individuals who do not hold a teaching certificate may earn a Master of Science in Early Childhood Education.

- Early Childhood Education Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/earlyChildhoodEducationDomestic.aspx)

Master of Education, Master of Science, and Master of Arts in Reading

The MEd degree in Reading is primarily for certified teachers interested in advanced studies in literacy learning, with emphasis on both developmental and remedial reading and writing instruction prekindergarten through grade 12. The MEd in Reading Program can lead to an All-Level Reading Certification and Master Reading Teacher Certification. The MS in Reading is primarily for those who seek a program that focuses their coursework on content directly related to the teaching of literacy but do not have teacher certification. The Master of Arts in Reading is primarily for certified teachers interested in literacy’s role in the development of learning and would like to do a thesis in the area of literacy. The study of a foreign language is also required. The major in reading prepares graduates for careers in both public and private educational settings in which the primary focus is on teaching, supervising, or directing literacy learning in developmental, remedial, and/or enrichment settings. A graduate with a major in reading should possess knowledge of the physiological and psychological growth of children, research literature in literacy learning, and in the ability to diagnose, prescribe, instruct, and evaluate learners in the area of listening, reading, speaking, writing, and other skills related to literacy.

- Reading Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/readingDomestic.aspx)

Master of Education and Master of Science in Secondary Education

The MEd in Secondary Education is for certified teachers interested in the improvement of education through advanced studies of curriculum and instruction in secondary education. The major in Secondary Education prepares graduates to

1. improve student engagement, classroom management and teaching effectiveness and
2. qualify for leadership positions in settings for which the masters is required.

A graduate with a major in secondary education should possess knowledge of the research and literature in secondary education, curriculum and instructional design, effective teaching practices, philosophical systems in education, and excellence and equity in teaching for all students. Individualized degree plans may be developed to prepare teachers for designing classroom instruction and curriculum for curriculum for advanced and at-risk learners.

The MS is primarily for those interested in the Masters in Secondary Education who either do not have teacher certification or whose content area specialization is in an area of the sciences.

- Secondary Education Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/secondaryEducationDomestic.aspx)

Master of Education in the Art of Teaching

The MEd in The Art of Teaching is designed for graduate students who would like to obtain teacher certification and a master’s degree in education. The degree is designed to assist professionals wishing to enter the field of secondary education to obtain the necessary knowledge and skills to promote effective teaching in their respective field. The program will focus on evidenced-based learning, curriculum and instructional design, and pedagogy for teaching in K-12 schools. This 30 hour graduate program targets primarily individuals with bachelor’s degrees in content areas taught in K-12 schools such as math, sciences, English, history, etc., and who wish to become prepared for careers in teaching. It is limited to students who are completing a year-long residency with intensive mentoring from the public school mentors and university liaison. The Master of Education in the Art of Teaching program’s objective is to provide a rigorous and relative curriculum allowing the student to complete certification requirements and earn a Master’s degree.

The essay to be submitted as part of the application packet must answer the following questions:
1. What specific knowledge do you hope to acquire through the program?
2. How will this degree increase your effectiveness as an educator?

- The Art of Teaching Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/artofteaching.aspx)

**Admission**

**Master of Education, Master of Arts, Master of Science**

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in curriculum and instruction, early childhood education, reading, secondary education, and the art of teaching.

Review each Admission link above for specific requirements for each program.

- Application Procedures. Applications may be accessed on-line at www.tamuc.edu/gradschool. They are also available at our Commerce, Navarro, Mesquite Metroplex, or Collin College campuses.

**Doctor of Education in Supervision, Curriculum, and Instruction**

Admission details are listed in the section “Admission to Doctoral Degree Programs” earlier in the general section of this catalog.

Admissions to the Supervision, Curriculum, and Instruction Doctoral Program in the Department of Curriculum and Instruction will occur twice each year: once in the fall semester and once in the spring semester. First, applicants should contact the Department of Curriculum and Instruction's office to place their name on the new applicant's list. This allows applicants to receive emails for information sessions and interview times. Applicants interested in applying must have at least 3 years of K-12 teaching experience. Applicants must attend a doctoral information session to be considered for admission. During the information session, the applicants will complete a departmental writing sample. To apply, applicants should contact the Department of Curriculum and Instruction's office to place their name on the new applicant's list. Additionally, the applicant must complete the graduate office application process and complete an interview with a committee of doctoral faculty members. Applicants will be rated by the members of the doctoral faculty committee on various aspects of the application package, including the writing sample, the admissions interview, and items required to be submitted by the graduate school.

Once the applicant has been fully admitted to the Supervision, Curriculum, and Instruction (SCID) doctoral program and notified by the Graduate School, students must complete a departmental orientation session in which the applicant will receive information about requirements for completing the residency plan, learn more about courses and course schedules, and have an initial degree plan developed by a doctoral faculty member.

- Supervision, Curriculum and Instruction - Doctoral Degree (http://www.tamuc.edu/academics/graduateSchool/programs/education/supervisionCurriculumInstructionElementaryDomestic.aspx)

**Degree and Certification Requirements**

The following undergraduate prerequisites for graduate majors and minors are currently in force:

**Graduate Majors:** Only candidates holding at least a provisional or standard teaching certificate or whose graduate program includes courses for meeting requirements of an official certification plan may be admitted for an advanced degree.

**Graduate Minors:** The head of the Department of Curriculum and Instruction through his/her standing committee on admissions will determine whether the minimum number of courses required by the catalog for a minor in curriculum and instruction will enable the candidate to function effectively in the field. This will be based upon each individual’s professional preparation and experience.

**Post-Baccalaureate/Alternative Teacher Certification Program**

Students pursuing teacher certification as a graduate student should contact the Center for Educator Certification and Academic Services at 903-886-5182 for admission requirements. Some of the graduate-level courses may be counted toward a master's degree. Visit www.tamuc.edu/teacher for more information.

**Certifications in EC-6 Bilingual Education and EC-6 English as a Second Language**

For teachers who hold or qualify for the Provisional or Standard Teaching Certificate, the Department of Curriculum and Instruction offers programs leading to certifications in Bilingual Education and English as a Second Language.

Students who complete the Bilingual Education program of studies should

1. possess the competencies necessary to teach, both in English and in Spanish, students in prekindergarten and elementary grades whose dominant language is Spanish and
2. meet the qualifications required by the State of Texas for appointment to such positions.

Those who complete the English as a Second Language (ESL) program of study should
1. possess the competencies necessary to teach English to students in prekindergarten through grade 12 whose dominant language is other than English and 
2. meet the qualifications required by the State of Texas for appointment to such positions.

**Reading Specialist Certificate**

Students who complete the program of study for the Reading Specialist Certificate should possess the competencies necessary to earn the master's degree; teach reading in prekindergarten through grade 12; development, remedial or clinical settings; supervise or direct reading programs; and qualify for professional positions in the State of Texas for which the Reading Specialist Certificate is required.

Students who complete the program of study for the Master Reading Teacher Certificate should have a Texas Provisional or Standard Teaching Certificate, at least three years of teaching experience, and completed coursework required for certification.

**Master Reading Teacher Certificate**

The requirements for this certificate may be met as part of the master's degree in Reading. Graduate reading courses specifically supporting Master Reading Teacher certification include RDG 520, RDG 521, and RDG 523 in addition, 160 hours of observation/clinical experience must be completed and documented. Students who complete the program of study for the Master Reading Teacher Certificate should have a Texas Provisional or Standard teaching certificate, at least 3 year of teaching experience, and must pass the State Certification exam (TExES) for the MRT certificate. Interested students should consult a departmental advisor for more details.

**All Level Gifted & Talented Certificate**

Texas A&M University-Commerce offers an All Level Gifted and Talented certificate which prepares students for the TExES exam certification in Gifted/ Talented Education.

**Master’s Degrees**

Several master’s degree plan options are presented. In certain cases courses may be substituted for those listed but only with the permission of the major advisor. A field-based Master’s Degree in Curriculum and Instruction and Secondary Education is available to cohort groups in some school districts and many courses in the Post-Baccalaureate Teacher Certification Program can be included as coursework toward the Master’s Degree (see Program Admissions for a Degree Plan).

The Curriculum and Instruction, Early Childhood Education and Reading master’s degree are available online as well.

**Note:** The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Curriculum and Instruction MEd

The Master’s of Education (MEd) degree in Curriculum and Instruction is for Texas certified teachers interested in the improvement of classroom teaching through advanced studies in the content and methodology of subjects taught in elementary classrooms. The major in curriculum and instruction, available primarily to experienced teachers, prepares graduates to

1. improve student engagement and teaching effectiveness and
2. qualify for leadership positions in settings for which the master’s degree is required, and
3. teach at the community college or dual credit classes at the high school level.

A graduate with a major in curriculum and instruction should possess knowledge of the research and literature in curriculum and instruction, curriculum and instructional design in subjects taught in elementary schools, effective teaching practices, and the teaching of students who are culturally diverse.

Master of Education in Curriculum and Instruction - Option II Non-Thesis

Part A. Required Core Courses (9 semester hours).
- EDCI 538 Classroom Mgmt for Tchrs 3
- EDCI 559 Diversity & Equity in Edu 3
- EDCI 595 Research Lit Tech 3

Part B. Support Courses (9-27 semester hours)

- ELED 524 Lang Arts Curr Grds 1-8 3
- EDCI 529 Workshop (Limit one 529 course in part B, titles vary) 3-6
  or ELED 529 Workshop
- ELED 530 Math Curr Grades 1-8 3
- EDCI 540 Mathematics Instruction for the 21st Century#Instruction 3
- EDCI 519 Response to Intervention Applied to Exceptional Learners 3
- EDCI 535 Ldrshp & Supv in Sch 3
- EDCI 575 Differentiated Instruction 3
- ELED 545 Issues in Dev Elem Curriculum 3
- ELED 557 Soc Studies Curr Grds 1-8 3
- ELED 558 Sci Curriculum Grades 1-8 3
- EDCI 541 Science Instruction for 21st Century Learners 3
- EDCI 597 Special Topics (Limit one 597 course in part B, titles vary) 1-4
  or ELED 597 Special Topics

Part C. Electives and/or specialization courses can be used to complete 36 total hours in the degree.

Total Electives 36

* Approved electives must be sufficient to meet the 36-hour minimum program for the master's degree. Electives may be taken in studies within the Department of Curriculum and Instruction (early childhood, curriculum & instruction, reading, and secondary education) or in other departments within the College of Education or departments outside the college. Electives do not need to be concentrated in any particular discipline. However if the student desires a minor field of study in a specific discipline, at least 12 semester hours must be taken in that declared minor area. Approved disciplines for minor studies include art, early childhood education, physical sciences, English, history, mathematics, music, foreign languages, health, kinesiology and sports studies, reading, and theatre arts. Students receiving a minor may be required to satisfy candidacy and are required to meet the comprehensive examination requirements of the minor department.

Note: Successful completion of the Comprehensive Exam is required of all students.

Curriculum and Instruction MS

The Master’s Science (MS) degree in Curriculum and Instruction is designed more specifically for graduate students who are seeking their initial certification through the Post-Baccalaureate Teacher certification (PBTC) program and who wish to use those graduate courses in the PBTC program as part of their master’s degree program. The curriculum also involves a minimum of 36 semester hours of study, 18 hours minimum in the major and the remaining hours as electives to complete the 36 hour program. The suggested outline of studies is as follows.
Master of Science in Curriculum and Instruction - Option II Non-Thesis

Part A. Required Core Courses (9 semester hours)
- EDCI 538 Classroom Mgmt for Tchrs 3
- EDCI 559 Diversity & Equity in Edu 3
- EDCI 595 Research Lit Tech (3 semester hours required) 3

Part B. Required Support Courses (9-12 semester hours)
- ELED 524 Lang Arts Curr Grds 1-8 3
- ELED 530 Math Curr Grades 1-8 3
- ELED 557 Soc Studies Curr Grds 1-8 3
- ELED 558 Sci Curriculum Grades 1-8 3

Part C. Electives (15-18 semester hours)
Graduate courses taken in the Post-Baccalaureate Teacher Certification Program and/or other electives. Students may take any advisor approved electives. 15-18

Total Hours 36

Approved electives must be sufficient to meet the 36-hour minimum program for the master's degree. Electives may include graduate courses taken as part of the Post-Baccalaureate Teacher Certification (PBTC) program, in other studies within the Department of Curriculum and Instruction (early childhood, curriculum & instruction, reading, and secondary education) or in studies in other departments within the College of Education or departments outside the college. Electives do not need to be concentrated within any particular discipline. However, if the student desires a minor field of study in a specific discipline, at least 12 semester hours must be taken in that declared minor area.

Successful completion of the Comprehensive Exam is required of all students.

Early Childhood Education MEd

The curriculum for the Master of Education in Early Childhood Education (MEd) involves a minimum of 36 semester hours of study, 24 semester hours of which must be in ECE & EDCI (degree program for individuals with a Texas teaching certificate). The outline of studies is as follows:

Master of Education in Early Childhood Education - Option II Non-Thesis

Research (3 semester hours)
- EDCI 595 Research Lit Tech (3 semester hours required) 3

Required courses in the major (21 semester hours)
- ECE 535 Math Sci Social Stud Curr 3
- ECE 536 LITERACY DEV IN THE EARLY YRS 3
- ECE 537 Creative Expression in the Art 3
- ECE 538 Cisrm Management Tchrs 3
- ECE 548 Dsgn Inquiry-Based Lrng 3
- ECE 560 Early Child Curric Design 3
- ECE 561 Child Development 3

Required Support Courses (6 semester hours)
- BLED 501 GLB/Theoretical Foundations of Bilingual/ESL Education 3
- EDCI 559 Diversity & Equity in Edu 3

Electives (6 semester hours)
Approved Electives - 6 semester hours from any graduate courses in the department, college or university other than ECE courses. 6

Total Hours 36

Written Comprehensive Examination in Early Childhood Education

Courses for which students will be responsible on the master's written comprehensive examination include: ECE 535, ECE 536, ECE 537, ECE 538, ECE 548, ECE 560, ECE 561, and EDCI 559.

Successful completion of the Comprehensive Exam is required of all students.
Early Childhood Education MS

The curriculum for the Master of Science in Early Childhood Education involves a minimum of 36 semester hours of study, 24 semester hours of which must be in ECE & EDCI (degree program for individuals without a Texas teaching certificate). The outline of studies is as follows:

The remaining 15 semester hours must be approved by a Reading Advisor in the Department of Curriculum & Instruction.  

| Total Hours | 36 |

**Note:** The study of a foreign language is required to receive a Master of Arts degree. For more information please refer to requirements for the Master's/ Specialist Degree (http://coursecatalog.tamuc.edu/grad/office-of-graduate-studies/#requirements_for_the_masters_degree).

Successful completion of the Comprehensive Exam is required of all students.

**Reading MS**

The Reading Master's degree program for individuals without a teaching certificate.

**Master of Science in Reading - Option II Non-Thesis**

The curriculum for the Master of Science in Reading involves a minimum of 36 semester hours of study. The outline of study is as follows:

**Research (3 semester hours)**

| EDCI 595 | Research Lit Tech (3 semester hours required) | 3 |

**Required Reading Courses (24 semester hours)**

| RDG 520 | Literacy and Instruction I | 3 |
| RDG 521 | Literacy & Instruction II | 3 |
| RDG 523 | Promoting Literacy Through Language Acquisition and Development | 3 |
| RDG 528 | Integrating Writing | 3 |
| RDG 540 | Content Area Reading | 3 |
| RDG 560 | Literacy Assessment | 3 |
| RDG 562 | Critical Issues in Lit Edu | 3 |
| RDG 567 | Practicum in Organizing for Effective Literacy Instruction in Elementary, Middle, and High School | 3 |

**Support Courses (9 semester hours)**

9 semester hours from any content area studied by or valuable to K-12 schools  

| Total Hours | 36 |

**Note:** Successful completion of the Comprehensive Exam is required of all students.

**Reading MEd**

The Reading Master's degree program for certified teachers.

**Master of Education in Reading - Option II Non-Thesis**

The curriculum for the Master of Education in Reading involves a minimum of 36 semester hours of study. The outline of study is as follows:

**Research (3 semester hours)**

| EDCI 595 | Research Lit Tech (3 semester hours required) | 3 |

**Required Reading Courses (24 semester hours)**

| RDG 520 | Literacy and Instruction I | 3 |
| RDG 521 | Literacy & Instruction II | 3 |
| RDG 523 | Promoting Literacy Through Language Acquisition and Development | 3 |
| RDG 528 | Integrating Writing | 3 |
| RDG 540 | Content Area Reading | 3 |
| RDG 560 | Literacy Assessment | 3 |
Master Reading Teacher Certificate

The requirements for this certificate may be met as part of the master’s degree in Reading. Graduate reading courses specifically supporting Master Reading Teacher certification include RDG 520, RDG 521, and RDG 523 in addition, 160 hours of observation/clinical experience must be completed and documented. Students who complete the program of study for the Master Reading Teacher Certificate should have a Texas Provisional or Standard teaching certificate, at least 3 yrs of teaching experience, and must pass the State Certification exam (TExES) for the MRT certificate. Interested students should consult a departmental advisor for more details.

Reading Specialist Certificate

This certificate requires the core courses for a master's degree in reading, two professional development courses, two support area courses (linguistics and multicultural awareness), 3 years of teaching experience in an accredited school and a passing score on the TExES exam. This plan must be approved by an advisor in reading and should be filed as soon as possible after initiation of the program of study to ensure that the program planned meets the certification requirements. An overall grade point average of 3.25 in all certificate coursework is required. The requirements for this certificate may be met as part of the master’s degree program of studies or in addition to it. Please consult a departmental advisor for details.

Secondary Education MEd

The curriculum for the Master of Education Degree (MEd) in Secondary Education requires a minimum of 36 semester hours of study, 15 hours of which must have a SED prefix. In addition to the 15 hours of courses with the SED prefix, EDCI 595 (3 credit hours) make up the 18 hours required for the major in Secondary Education. The Secondary Education MEd is for certified teachers. The outline of courses is as follows:

Master of Education in Secondary Education - Option II Non-Thesis

The MEd in Secondary Education is for certified teachers interested in the improvement of education through advanced studies of curriculum and instruction in secondary education. The major in Secondary Education prepares graduates to

1. improve student engagement, classroom management and teaching effectiveness and
2. qualify for leadership positions in settings for which the masters is required.

A graduate with a major in secondary education should possess knowledge of the research and literature in secondary education, curriculum and instructional design, effective teaching practices, philosophical systems in education, and equity in excellence in teaching for all students. Individualized degree plans may be designed to prepare teachers for designing classroom instruction and curriculum for advanced at-risk learners.

Graduate Level Electives (18 semester hours)
Electives (6 graduate level electives) 18

Total Hours 36

Approved electives must be sufficient to meet the 36-hour minimum program for the master's degree. Electives may be taken in studies with the Department of Curriculum and Instruction (EDCI), early childhood, curriculum & instruction, reading, secondary education, gifted education, bilingual education and ESL or studies in other departments within the College of Education and Human Services (COEHS) or departments outside the College of Education and Human Services (COEHS). Students may also choose to complete a concentration of 18 hours in one of the approved disciplines. If the student desires a minor field of study in a specific discipline, at least 12 semester hours must be taken in that declared minor area. Approved disciplines for minor study include art, early childhood education, physical sciences, English, history, mathematics, music, foreign languages, health, kinesiology and sports studies, reading, and theatre arts. Students receiving a minor may be required to satisfy candidacy and are required to meet the comprehensive examination requirements of the minor department.

Note: Successful completion of the Comprehensive Exam is required of all students.

Secondary Education MS

The curriculum for the Master of Science Degree (MS) in Secondary Education requires a minimum of 36 semester hours of study, 15 hours of which must have a SED prefix. In addition to the 15 hours of courses with the SED prefix, EDCI 595 (3 credit hours) make up the 18 hours required for the major in Secondary Education. The Secondary Education MS is for individuals who do not currently have a teaching certificate. The outline of courses is as follows:

Master of Science in Secondary Education - Option II Non-Thesis

Catalog Program Description:

The MS in Secondary Education is for individuals interested in the improvement of education through advanced studies of curriculum and instruction in secondary education. The major in Secondary Education prepares graduates to

1. improve student engagement, classroom management and teaching effectiveness and

2. qualify for leadership positions in settings for which the masters is required.

A graduate with a major in secondary education should possess knowledge of the research and literature in secondary education, curriculum and instructional design, effective teaching practices, philosophical systems in education, and equity in excellence in teaching for all students. Individualized degree plans may be designed to prepare teachers for designing classroom instruction and curriculum for advanced at-risk learners.

The MS is primarily for those interested in the Masters in Secondary Education who either do not have teacher certification or whose content area specialization is in an area of the sciences.

Graduate Level Electives (6 semester hours)
6 courses (18 semester graduate level electives) 18

Total Hours 36

Electives

Approved electives must be sufficient to meet the 36-hour minimum program for the master's degree. Electives may be taken in studies with the Department of Curriculum and Instruction (EDCI), early childhood, curriculum & instruction, reading, secondary education, gifted education, bilingual education and ESL or studies in other departments, within the College of Education and Human Services (COEHS) or departments outside the College of Education and Human Services (COEHS). Electives do not need to be concentrated within any particular discipline. Students may also choose to complete a concentration of 18 hours in one of the approved disciplines which can lead to credentials for teaching dual credit courses in high schools.
If the student desires a minor field of study in a specific discipline, at least 12 semester hours must be taken in that declared minor area. Approved disciplines for minor studies include art, early childhood education, physical sciences, English, history, mathematics, music, foreign languages, health, kinesiology, and sports studies, reading, and theatre arts. Students receiving a minor may be required to satisfy candidacy and are required to meet the comprehensive examination requirements of the minor department.

**Note:** Successful completion of the Comprehensive Exam is required of all students.

### The Art of Teaching MED

The Master of Education in the Art of Teaching is designed for graduate students who would like to obtain teacher certification and a master's degree in education. The degree is designed to assist professionals wishing to enter the field of secondary education to obtain the necessary knowledge and skills to promote effective teaching in their respective field. The program will focus on evidenced-based learning, curricular and instructional design, and pedagogy for teaching in K-12 schools. This 30 hour graduate program targets primarily individuals with bachelor's degrees in content areas taught in K-12 schools such as math, sciences, English, history, etc., and who wish to become prepared for careers in teaching. It is limited to students who are completing a year-long residency with intensive mentoring from the public school mentors and university liaison. The Master of Education in the Art of Teaching program objective includes providing a rigorous and relative curriculum allowing the student to complete certification requirements and earn a Master's degree.

#### Prerequisites

The Master of Education in the Art of Teaching candidate must hold a Bachelor of Science or Bachelor of Arts degree in a STEM area and meet all Post-Baccalaureate teacher certification program admission requirements including Basic Skills and 30 hours of classroom observation.

#### Requirements

Admission to a graduate program is granted by the Dean of Graduate Studies upon the recommendation of the department. The candidate must be admitted into the A&M-Commerce graduate program and Post-Baccalaureate Teacher Certification program.

- A minimum of 30 SCH are required for the Master of Education in the Art of Teaching
- Student must complete his or her Master of Education in the Art of Teaching degree and certification within six (6) years of beginning the program.

**Note:** The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

### Master of Education in The Art of Teaching - Option II Non-Thesis

#### Coursework

A minimum of 30 semester credit hours (SCH) in professional development courses and a one-year paid internship in a Texas Education Agency approved school is required.

#### 30 SCH Minimum

**Note:** A one-year paid internship in the applicant's teaching field as approved by the graduate adviser in the Department of Curriculum and Instruction.

**Note:** Successful completion of the Comprehensive Exam is required of all students.
Bilingual Education Specialization

Students seeking bilingual education specialization must demonstrate advanced oral and written proficiency in both English and Spanish. If advanced Spanish proficiency is not demonstrated, students may be required to take additional Spanish language development courses or complete an immersion sequence.

Students majoring in related area, such as Curriculum and Instruction, Early Childhood Education, Reading or Secondary Education, may take 12-18 hours of specialization courses.

All Level Gifted and Talented Certification

The All Level Gifted and Talented Certification coursework prepares students for the TExES exam certification. These courses can be counted toward a master’s degree in Secondary Education or Curriculum and Instruction. Some of the courses may count as electives in other Masters programs such as the Early Childhood Education master or the Reading masters.

Requirements to complete certification.

Supervision, Curriculum, and Instruction — EdD

Doctoral Coursework

Candidates for the degree must complete the Supervision, Curriculum, and Instruction Core (30 semester hours), a support area (18 semester hours), and the dissertation (12 semester hours), as well as the 12 hours of research tool courses for a total minimum of 72 semester hours. Students without a master’s degree or with a master’s degree not appropriate to the selected area must complete an additional 15 semester hours of studies in a cognate area and 15 semester hours of approved electives, raising the total minimum to 90 semester hours, excluding the university research tool courses.

In addition, the candidate must demonstrate proficiency in the use of research tools to the satisfaction of the major department. The candidate also must complete a doctoral residency; detailed information on satisfying this requirement is given at the end of this section.

Written comprehensive or qualifying examinations as well as oral examinations will be conducted in the major area of studies (SCI core requirements), the support area and, when applicable, in the cognate and elective areas. A minimum of 12 semester hours of EDCI 718 Doct Dissertation is required.

Departmental Doctoral Residency Policy

Each student is required to complete residency after admission to the doctoral program and prior to completing qualifying exams. Residency provides students with more in-depth experiences than occurs when students are simply enrolled in doctoral classes. Students have opportunities to work with other doctoral students and faculty members as colleagues in research projects that provide experience and training toward independent application of skills, which are commensurate with holders of doctoral degrees.

1. 5 Areas of Residency

Below are 5 areas the residency plan should include, plus examples of activities that would fulfill each area.

1. Opportunities to become involved in events to broaden intellectual growth. For example:
   • Departmental Doctoral Email Network provides information about ongoing opportunities such as attendance at colloquiums, and opportunities for grant writing, opportunities to present at conferences, and opportunities to write for professional journals.
   • Doctoral Seminar Assignments provide springboards to activities such as: conducting research projects, writing and submitting manuscripts for publication, and proposing presentations at national or international conferences.

2. Access to a range of academic support resources required for scholarship in that discipline. For example:
   • Specific courses require spending time in the library to provide an understanding of how to access various electronic, paper, and people resources so that students understand how to conduct literature reviews.
   • Specific courses require accessing and developing web-based resources.

3. Opportunities for faculty members and student interactions that provide for the development of a mentoring-apprentice relationship and for a faculty evaluation of students. For example:
   • Doctoral faculty members and student social events provide opportunities for expressing research/writing interests, explaining current research/writing activities, and generally networking on common research/writing interests.
   • Doctoral faculty members invite students to research, write, edit, and teach as assistants, interns, or full-fledged collaborators.
   • Doctoral faculty members invite students to consult or present as assistants, interns, or full-fledged collaborators.
4. Involvement with cognate disciplines and research scholars in those disciplines. For example:
   - Students select options such as reading, mathematics education, early childhood, or other cognates and electives within The Texas A&M University System or Federation and connections with research scholars are facilitated by the doctoral coordinator, major adviser, and include doctoral faculty members.
   - Specific courses spend time on conference calls, web chats, and two-way interactive video to engage in discussion and network with a variety of scholars.
   - Doctoral faculty members consistently encourage and facilitate student membership in a variety of professional and scholarly organizations.
   - Doctoral faculty members consistently encourage/facilitate student attendance in a variety of professional and scholarly conferences.

5. Occasions for meaningful peer interactions among graduate students. For example:
   - The Doctoral List Serve provides opportunities to receive and post information and create special interest groups.
   - Chat rooms are created via the web for discussion related to particular courses and topics.
   - Students are encouraged via seminar assignments to co-research, co-present at national conferences, and co-author manuscripts for publication. Peer support systems and study groups are formally and informally created by students.

2. Activities and experiences expected of the doctoral student:

   Continuous involvement in activities like the following are expected every semester regardless of enrollment in coursework. While these vary widely, the intent of these activities is to provide the student with a more in-depth experience than occurs when students are simply enrolled in doctoral classes.

   1. Research projects
   2. Submission of manuscript to state or national journals for publication consideration
   3. Staff development consultancies as a collaborator or an independent contractor
   4. Attending professional conferences and/or study tours
   5. Conference presenter (state, regional, and/or national)
   6. Professional development presentations for schools and/or school districts
   7. Teaching or Research Internship with a doctoral faculty member
   8. Graduate assistant (GAT or GANT)
   9. Ad-interim or adjunct instructor
   10. Liaison in the field-based program
   11. Webmaster of a home page
   12. Grant writing
   13. Formal report writing
   14. Attending Federation meetings and/or guest speaker events
   15. Peer review for conference proposals, manuscripts and/or grants
   16. Other, to be determined by doctoral adviser and student

3. Determination of successful completion of residency and maintenance of documentation:

   Information about the residency plan and how to maintain portfolio documentation will be initiated by the departmental doctoral coordinator collaboratively with the student during orientation. During orientation, students learn how to complete the residency documentation form and keep track of their activities. At least two activities should be completed per semester. In addition, during the first session of each doctoral course/seminar the instructor will explain how course requirements and/or projects can be incorporated into the completion of residency activities. The residency form should be signed by each course instructor during the semester the residency activity was completed. The residency form and the portfolio which contains the written documentation must be completed prior to admission to doctoral candidacy. The student is required to present the complete file of documentation to the major advisor and his/her committee prior to taking qualifying and oral exams. The major advisor and committee will be responsible for noting successful completion of the plan on the qualifying exam documentation sheet. Documentation will continue to remain on file in the departmental office for at least 5 years after the doctoral student has completed the doctoral degree.

Residency

Each student is required to complete residency after admission to the doctoral program. Residency provides students with opportunities to work with other doctoral students and faculty as colleagues in projects that provide experience and training toward independent application of skills commensurate with holders of doctoral degrees. The student will plan the residency activities with the approval of the major advisor.

Note:

The Department reserves the right to suspend from the program any student who, in the judgment of a duly constituted departmental committee, does not meet the professional expectations of the field.

**NOTE:** No course beyond the master's program that is over ten years old at the time the doctoral degree is conferred can be used toward the doctoral degree.

Successful completion of the Comprehensive Exam is required of all students.
Educational Leadership

Mary (Pam) Winn (Department Head)
Location: Young Education Building, 903-886-5520
Educational Leadership Web Site: http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/educationalLeadership/default.aspx

The Department of Educational Leadership offers programs that develop professionalism and educational leadership skills in practicing and prospective school administrators.

Programs of Graduate Work

The following programs are offered within the Department of Educational Leadership:

**Doctoral Degree**
- Educational Administration

**Master's Degree**
- Educational Administration

**Certifications:**
- Principal
- Superintendent

The Department of Educational Leadership offers Master of Education, and Doctor of Education degrees in Educational Administration as well as professional certification programs for principals and superintendents. These differentiated programs prepare students for careers as elementary and secondary school principals, administrators of curriculum and instruction, school business administrators, school superintendents and personnel administrators. Graduates of the doctoral program typically pursue careers as college teachers of educational administration or as administrators in public schools.

**Admission**

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in educational administration.

Students wishing to seek a Master's Degree with Principal Certification must first apply to the Principal Certification Program before making application to the EDAD Master's Program.

- Educational Administration Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/educationalAdministrationDomestic.aspx)
- Educational Administration Doctoral Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/educationalAdministrationEDDDomestic.aspx)

**Professional Certification for Educational Administrators**

Principal and Superintendent certificates, may be obtained through the Department of Educational Leadership. Part of the superintendent certification courses might be included in a doctoral program, depending on circumstances of the student and his or her professional objectives.

Contact the Department of Educational Leadership for additional information relating to Principal or Superintendent Certification at 903-886-5577

**Principal Certification Program**

The Principal certification program is designed to develop principals, administrators of curriculum and instruction, and all school administrators holding a position below that of superintendent. The certificate requires a minimum of 21 specified semester hours of graduate work beyond the bachelor's degree. Students must have a Master's Degree from an accredited institution of higher education in order to be eligible to participate in our Principal Certification Program. In addition to completing the required coursework, to be eligible to receive the principal certificate, individuals must have passed the Principal TExES, be a certified (fully qualified) teacher in Texas, and have two years of creditable teaching experience as a classroom teacher. Additionally, candidates must have successfully completed the internship or practicum specified in 19 TAC: 241.20 (b). Students who do not already have a Master's Degree from an accredited institution of higher education may pursue a graduate degree while simultaneously working toward certification.

**Superintendent Certification Program**

The Superintendent Certification Program is a 15-hour program of coursework for candidates holding a Master's Degree and Standard Principal Certification. The candidate will complete courses designed to meet the learner-centered Texas State Superintendent Standards for values and ethics,
school district culture, human resources leadership and management, policy and governance, communications and community relations, organizational leadership and management, curriculum planning and development, and instructional leadership and management.

This certification program is designed to develop candidates who will meet the 10 competencies assessed by the State Board of Educator Certification TEASE examination for the Standard Superintendent Certificate 195.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Educational Administration MEd (p. 159)

Principal Certificate (p. 160)

Superintendent Certificate (p. 160)

Educational Administration EdD (p. 161)

**Educational Administration MEd**

Those who apply to the Texas A&M University-Commerce Graduate School for admission to the master’s degree program in educational administration must meet the general admission requirements. General A&M-Commerce Graduate School admissions policies are described elsewhere in this catalog. Students who apply for admission have two admissions options available:

1. regular degree seeking admission or
2. admission as a non-degree seeking student.

Beyond the university admissions requirements, the department requires the following to be screened for full admission to master’s degree programs:

Undergraduate degree from a regionally accredited institution, One of the following: official Graduate Record Examination, (GRE), a previous completed master's degree with a 3.0 gpa from a regionally accredited institution, or an undergraduate grade point average of 3.00 or higher overall, or proof of a valid Texas teaching certificate or principal certificate.

The MEd degree program includes 30 required hours in educational administration. 21 of the hours required will apply to the department’s principal certification program.

Fully admitted students will take the following courses:

**Master of Education in Educational Administration - Option II Non-Thesis**

Total Hours 30

In addition to coursework, the master’s degree program requires satisfactory performance on the department’s comprehensive examination. The Department of Educational Leadership provides degree plans for obtaining a Master's in Educational Administration and includes Texas Principal Certification as well as a Certification Only degree plan for students who already have a Master’s Degree. We do not offer Probationary Principal Certification.

Note: Successful completion of the Comprehensive Exam is required of all students.
Principal Certificate

The 21-hour Principal Certification Only option is for those students who have already earned a Master's degree from an accredited institution. Whether a student pursues the 30-hour online Master's Degree in Educational Administration with Principal Certification or the 21-hour online Principal Certification Only plan, EDAD 615 must be taken during the first semester of coursework. Principal Certification admission is a two-step process. Students must meet the Graduate Studies admission requirements as well as the Principal Certification Program admission requirements below for Certification.

The Principal Practicum shall include a minimum of 160 clock-hours of field-based practicum. The EDAD 610 Principal Practicum is a 3-credit hour course that lasts for the entire semester.

The required courses for the certification program are:

Principal Certification Admission Requirements (http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/educationalLeadership/certifications/principal.aspx)

Requirements for Approval to take the Principal TExES

The Texas Examination Educator Standards (TExES) is required of all students seeking administrator certification. Senate Bill 50 requires that persons seeking educator certification in Texas perform satisfactorily on comprehensive examinations (Principal No. 268, Superintendent No. 195).

Students wishing to be approved for the Principal TExES must meet all requirements specified in the TExES registration bulletin. All principal certification students who are also pursuing a master’s degree in educational administration must have an approved degree plan on file, successfully completed the department’s comprehensive examination for the master’s degree, be enrolled in the final semester of their certification program, and have completed the prerequisite coursework. Principal certification only students must have an approved certification plan on file and be enrolled in the final semester of their certification program, and have completed the prerequisite coursework to receive approval to take the Principal TExES. Students must complete all premeditation and remediation as determined by the EDAD department.

Timeline for Completion

All courses must be completed at Texas A&M-Commerce in a satisfactory manner within 6 years of taking the TExES Principal as Instructional Leader Certification Exam. Students who do not take the TExES Exam within the 6 year period will not receive clearance to take the 268 TExES Exam. All coursework expires within six years of completion.

Renewal of Standard Principal Certificate and Assessment Process

Individuals who are issued the Standard Principal Certificate on or after September 1, 1999, are subject to Certificate Renewal and Continuing Professional Education requirements, which are elaborated in Title 19, Texas Administrative Code, Chapter 232. All individuals holding a valid Texas professional administrator certificate prior to September 1, 1999, and who are employed as principals or assistant principals must complete the assessment described in Title 19, Texas Administrative Code, 241.35.

Superintendent Certificate

The Superintendent Certification Program requires an additional 18 semester hours of specific graduate work beyond the Principal’s Certificate as follows:

1. 15 semester hours of graduate work in areas of competency such as finance of public education, the superintendency, human resource administration, facilities planning and management and educational issues colloquium. These courses may not be used to fulfill elective requirements for the master’s degree or principal’s certification except as approved by the department’s procedures in advance.

2. Practicum program. 3 semester hours (EDAD 611).

Timeline for Completion

The program is designed for students to progress through cohort groups and be completed within 3 calendar years after initial enrollment. Students not completing the program in this time period may not be approved to take the Superintendent TExES and may be required to complete additional coursework prior to receiving approval.

Requirements for Continuing Education and the Renewal of the Standard Superintendent Certificate

Individuals who are issued the Standard Superintendent Certificate on or after September 1, 1999, and are employed as a superintendent by a Texas public school district are subject to Certificate Renewal and Continuing Professional Education requirements which are elaborated in Title 19, Texas Administrative Code, Chapter 232.

Educational Administration EdD

The Doctor of Education degree in Educational Administration is designed specifically for persons who already have a master’s degree, are certified principals, and have K-12 practical administrative experience. Building upon the master’s degree, the program requires a major course of study of 36 semester hours (not including the dissertation) 12 semester hours of research tools, and successful completion of a dissertation.

Students are assigned an advisor from the Doctoral Faculty that assists them with course selection and developing a Residency Plan. After becoming a doctoral candidate, the student will work with a dissertation committee.

The committee includes (minimally) 3 faculty members. Two faculty members will be from the department and one faculty member from outside the department. These individuals guide in the dissertation proposal and the dissertation.

The research tools develop proficiency in quantitative and qualitative research methodology.

Application packets are reviewed for admission November 1 for the spring and July 15th for fall.

Students admitted to the doctoral program begin with classes as a cohort group in the semester following admission and are required to progress as a cohort group through a sequence of doctoral-only core courses and research tools courses. The cohort program is designed to provide students with the opportunity to progress through the program in a logical and sequential manner with a group of colleagues pursuing similar professional goals.

Residency

Each student is required to complete the residency requirements after admission to the doctoral program. Residency provides students with opportunities to work with other doctoral students and faculty as colleagues in projects that provide experience and training toward independent application of skills commensurate with holders of doctoral degrees.

The student will complete a residency plan outlining proposed residency activities with the approval of their curriculum advisor.

Doctoral Residence Seminar

All candidates are required to complete EDAD 699 Resident Doctoral Seminar.

Research Proficiency

All candidates must meet Graduate School research tools requirements for the Doctor of Education degree (see Office of Graduate Studies for more information).

Dissertation

A dissertation of at least 12 semester hours must be completed to the satisfaction of the major department. Students must be registered in EDAD 718 Doctoral Dissertation continuously once assigned a dissertation chair. Student’s progress toward dissertation completion will be evaluated a minimum of once each year by doctoral faculty. Each doctoral student will receive a dissertation research and writing evaluation for EDAD 718 of “S” (satisfactory) or “U” (unsatisfactory).

Doctoral students who earn two “U” (unsatisfactory) grades in EDAD 718 courses will be placed on inactive status and prevented from registering for any further EDAD 718 courses. Doctoral students on inactive status must make special petition to the EDAD Doctoral Program to be allowed to reenter as active status doctoral students. The competitive nature of admissions and access to faculty chairs makes it imperative that students avoid being declared inactive. Due to the limited program capacity there is no guarantee that student’s will be approved to reenter.

Higher Education and Learning Technologies

David Tan (Department Head)
Location: Young Education North Building, 903-886-5609

The Department of Higher Education and Learning Technologies prepares graduates for teaching, scholarly, administrative, and leadership roles in non-profit and for-profit organizations, including colleges and universities, schools, social service and learning centers, governmental agencies, and business corporations. The Department focuses on higher education administrations and teaching, adult education, educational technologies, librarianship, and individual and organizational learning development and performance.

Programs of Graduate Work

The following programs are offered within the Department of Higher Education and Learning Technologies:

Doctoral Degrees
- Higher Education

Master's Degree
- Higher Education
- Educational Technology Leadership
- Educational Technology Library Science
- Organization, Learning and Technology

Certifications:
- School Librarian

Doctor of Education and Master of Science in Higher Education

A Doctor of Education degree in Higher Education is available as a 60-semester-hour program. The program does not include a minor and requires that the student has already completed a Master’s Degree. Master of Science degrees in Higher Education are available with an emphasis in college teaching or higher education administration. The master’s and doctoral programs in Higher Education prepare students for careers as college and university faculty and administrators.

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in higher education.

- Higher Education Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/higherEducation%20.aspx)
- Higher Education Doctoral Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/HigherEducationDoctoral.aspx)

Master of Education and Master of Science in Educational Technology

The Master of Science and Master of Education degrees are offered in Educational Technology. The degrees are in Educational Technology Leadership, and in Educational Technology Library Science. Coursework is available in one certification area to prepare educators for becoming School Librarians. Certification for school librarians (in public and private elementary and secondary schools) is available in two formats—students who already have a Master’s take only the certification courses, but students without a Master’s may take the certification courses as part of the Educational Technology Library Science Master’s degree.

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in educational technology leadership and educational technology library science.

- Educational Technology Leadership Admission Requirements (http://tamuc.edu/academics/graduateSchool/programs/education/educationalTechnologyLeadershipDomestic.aspx)
- Educational Technology Library Science Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/educationalTechnologyLibraryScienceDomestic.aspx)
Master of Science in Organization, Learning, and Technology

The MS in Organization, Learning, and Technology is a 30-semester hour program that offers 7-week modules with six starts per year. This program prepares students to improve individual and system-wide learning and performance by intertwining best practices in instruction and learning technology with organizational skills. While completing the program, students prepare a professional portfolio to assist in their career development.

Five programmatic competencies serve as the focus of the online MS in Organization, Learning and Technology:

1. Analysis and Evaluation/Assessment - Determine causes of learning and performance gaps based on analyses of data, evaluate training or learning programs, and design and critique a research study.
2. Technology Skills - Select and implement technologies to improve learning and instruction.
3. Instructional Design and Delivery - Evaluate learners, tasks, and delivery settings to design and deliver engaging presentations or self-paced learning material.
4. Cultural and Global Fluency - Study culture, workforce characteristics, and global trends to incorporate diversity into solution designs and implementation.
5. Leadership and Communication - Apply theories and principles of leadership in communication and relationships for leading change.

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in organizational, learning & technology.

- Organization, Learning & Technology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/organizationlearningtechnology.aspx)

School Librarian Certification Program

School Librarian certification in the state of Texas includes 4 components -- completion of an SBEC-approved school library certification program, a passing score on the TExES (150), a Master's degree, and 2 years classroom teaching experience. The SBEC approved certification program at Texas A&M University-Commerce offers two options - one for candidates already having a Master's degree, and the second for candidates pursuing a Masters degree w/School Librarian Certification.

This program (certification and Master's) is for the preparation of school librarians (EC-12), and does not apply to other types of librarianship.

Contact the Department of Higher Education and Learning Technologies for additional information relating to School Librarian Certification at 903-886-5618.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Higher Education EdD

The Doctor of Education degree in Higher Education is a 60-semester-hour program of study designed specifically for persons who already have a master's degree. Building upon the master's degree, the program requires a major course of study of 36 semester hours (not including the dissertation), plus 12 semester hours of research tools, 3 semester hours of proposal design, and 9 semester hours of dissertation.

Doctoral advisement committees include (minimally) 3 faculty members. Two faculty members will be from the department and one faculty member from outside the department. These individuals help determine the courses to be taken and guide in the dissertation proposal and the dissertation.

The research tools develop proficiency in quantitative and qualitative research methodology.

Research Proficiency

All candidates must meet Graduate School research tools requirements for the Doctor of Education degree (see Office of Graduate Studies for more information).

Dissertation

A dissertation of at least 9 semester hours must be completed to the satisfaction of the major department.

   Library Practicum to be taken after all other courses listed.
LIS 512  Info Ref & Mediographic  3
ETEC 579  Implementation of Educational Technology Programs  3
Total Hours  21

Educational Technology Minor

Requires 12-18 semester hours. Courses to be selected in consultation with ETEC advisor (will vary based on hours available in each program).

Organization, Learning, and Technology MS

The online Master of Science in Organization, Learning, and Technology equips specialists in instructional and technology leadership in education, business, industry, Military, and non-profit organizations. Learning, technology and leadership should be strategically aligned in order to improve learning and performance of individuals, work groups, and the organization. Effective learning and instructional solutions in organizations demand advanced knowledge in instructional design, andragogy, technologies, instructional delivery, and systematic analyses in various areas, such as culture, global trends, and workplace needs. With a blend of theory and technical skills, this program will prepare workplace learning professionals and corporate trainers alike.

Master of Science in Organization, Learning and Technology - Option II Non-Thesis

30 semester hour program

21 credit hours must be from OLT

Research (3 semester hours required)
OLT 595  Research Methodologies (3 semester hours required)  3

OLT courses choose 6 courses (18 semester hours)
OLT 510, OLT 514, OLT 515, OLT 516, OLT 528, OLT 553, OLT 554, OLT 560, OLT 563, OLT 570, OLT 575, OLT 578, OLT 590, OLT 597  18

Graduate Level Electives (9 semester hours)
Students may take 3 courses (9 semester hours) of OLT courses not previously taken  9

OR
Choose up to 2 ETEC courses (6 semester hours), plus  6
1 course (3 semester hours) from any graduate level course other than OLT or ETEC.  3

Total Hours  30

Note: Successful completion of the Comprehensive Exam is required of all students.
Psychology and Special Education

DeMarquis Hayes (Interim Department Head)
Location: Binnion Hall 201, 903-886-5200
Psychology and Special Education Web Site: http://www.tamuc.edu/academics/colleges/educationHumanServices/psychologySpecialEducation/default.aspx

DeMarquis Hayes, Interim Department Head
Curt Carlson, Educational Psychology Doctoral Program Coordinator
Steve Ball, Applied Psychology Program Coordinator
DeMarquis Hayes, Interim School Psychology Program Coordinator
Beth Jones, Special Education Program Coordinator

The Department of Psychology and Special Education offers degree programs leading to masters, specialist, and doctoral degrees. In addition, courses in Psychology and Special Education are also provided for students desiring licensure in school psychology, licensure as a psychological associate, and professional certification as an educational diagnostician. Provisional teaching certification endorsement is offered in the area of generic special education and support courses are provided for students desiring teacher, supervisor and administrator certifications. All students and faculty are expected to act in accordance with the ethical standards for the profession of psychology and will be expected to exhibit:

1. an attitude that respects the worth, uniqueness, and potential for growth and development of all individuals;
2. personal stability, ethical behavior, and respect for the confidentiality of privileged information;
3. a personal manner in which responsibilities are fulfilled in a cooperative and conscientious fashion;
4. productive and cooperative work relationships that display motivation, independence, and adaptability; and
5. a commitment to continuing personal and professional growth characterized both by participation in professional organizations and by production and presentation of scholarly papers and publications.

The department reserves the right to suspend or remove from the program any student who, in the judgment of a duly constituted departmental committee, does not meet these ethical and professional standards.

Programs of Graduate Work

Master of Science in Psychology

The Department of Psychology and Special Education offers the Master of Science degree in Psychology. This program prepares students for careers in mental health settings; psychology and training in business, government, and education; or further graduate work.

The 36-hour MS program focuses on courses in human cognition and research methodology, i.e. educational and experimental psychology. Most of the coursework completed for the master’s degree may be transferred to the PhD program. The thesis option for the MS is available and encouraged, but not required.

Psychological Associate Licensure

Licensure as a psychological associate by the Texas State Board of Examiners of Psychologists requires a minimum of 27 semester hours of appropriate psychology courses, 9 semester hours of practicum and a total of 54 semester hours of graduate work in the degree program. Contact the applied psychology advisor for further information. The applied master’s program is accredited by the Masters in Psychology Accreditation Council (MPAC).

Specialist in School Psychology

The School Psychology program at Texas A&M University-Commerce prepares students for attainment of a Specialist in School Psychology (SSP) degree. The current specialist degree program is consistent with requirements published by the Texas State Board of Examiners of Psychologists for the Licensed Specialist in School Psychology (LSSP) and has been granted national approval from the National Association of School Psychologist (NASP). Upon completion of the 66 hour degree program, graduates are eligible for licensure in the state of Texas as a LSSP and certification at the national level as a NCSP. The 66 hour degree program includes 6 hours of practicum and 6 hours of internship. The remaining 54 academic course hours are in the content areas of psychological foundations, research and statistics, educational foundations, assessment, intervention, and professional and legal issues.

Doctor of Philosophy in Educational Psychology

The Department of Psychology and Special Education offers a Doctor of Philosophy (PhD) in Educational Psychology. This program has an interdisciplinary perspective, with a strong foundation in methodology. Students will acquire an in-depth knowledge of human learning and cognition, instructional strategies, research, and evaluation. This emphasis will prepare students to integrate knowledge of human cognition and instructional practice across a variety of occupational, educational, and content matter domains, with emphasis on applications of learning technologies.
Career opportunities for psychologists exist with federal and state educational agencies, national and state legislative groups, regional educational laboratories and research centers, higher education, public and private schools, professional organizations, high technology companies, military, publishers, private funding agencies, medical organizations, and private consulting. Increasing opportunities for psychologists are expected in all settings where job training and retraining is required and where technology-assisted learning (including distance education) is employed.

Currently, the Department of Psychology and Special Education offers a limited number of courses online, although the PhD program is not available as distance education. Still, the combination of online and summer courses available may make the doctoral program a viable option for nontraditional students.

Time to complete the degree program depends upon many factors, including:

1. how many courses a student completes per semester,
2. whether courses are offered during the semester that they are needed by the student,
3. successful completion of comprehensive exams, and
4. how persistent a student is in completing the thesis and dissertation requirements.

Some full-time students have completed the degree program within four years, but, of course, part-time students require more time. Coursework used towards the doctoral degree cannot be older than 10 years at the time the degree is conferred.

Graduate Minors in Psychology

Minors in psychology are available for students in all other master’s and doctoral degree programs.

Master of Science and Master of Education in Special Education

The Department of Psychology and Special Education offers two graduate degrees in Special Education: the Master of Science in Special Education, and Master of Education in Special Education. Programs of graduate work may be planned according to the interests of the student (i.e. thesis vs. non-thesis; focus on instructional design and delivery or educational diagnostician certification) and to meet the degree requirements.

Graduate Minor in Special Education

Minors in special education on the master’s degree are available. A minor consists of a minimum of 12 hours in the area of special education and requires successful completion of the Special Education Comprehensive Exam. Minors in special education are also available for doctoral degree students majoring in supervision, curriculum and instruction, educational administration, counseling, psychology, and related areas.

Admission

Psychology - MS

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in Psychology:

- Psychology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/psychologyDomestic.aspx)

School Psychology - SSP

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in School Psychology:

- Specialist in School Psychology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/schoolPsychologyDomestic.aspx)

Psychological Associate Licensure

For students pursuing licensure as a psychological associate, modifications to the master’s program requirements include that the bachelor’s degree either be in psychology or include a course in statistics.

Educational Psychology - PhD

Before being admitted to the doctoral program, the prospective student must first meet the general requirements for admission to the Graduate School. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in educational psychology:

- Doctoral Educational Psychology Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/educationalPsychologyPhDDomestic.aspx)

The department reserves the right to deny entrance to an applicant who, in the judgment of a duly constituted departmental committee, appears unlikely to succeed professionally, or whose goals are inconsistent with the orientation of the degree program, regardless of any other qualifications.
Special Education - MS/MED

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in special education:

- Special Education Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/education/specialEducationDomestic.aspx)

In addition, applicants may submit for departmental review additional materials or a portfolio to support their application, including items such as awards, certificates of merit, examples of innovative program/curriculum development, publications, and a resume. Students seeking admission will be required to have approval of the department’s graduate faculty.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

<tr>
<td>PSY 545</td>
<td>Developmental Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 620</td>
<td>Intro to Human Cognition</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours  12

Once these courses have been completed, the student is required to take a comprehensive exam from the Department of Psychology & Special Education. The department can be contacted for further information on scheduling this exam.
Psychological Associate Licensure

Licensure as a psychological associate by the Texas State Board of Examiners of Psychologists requires a minimum of 27 semester hours of appropriate psychology courses, 9 semester hours of practicum and a total of 54 semester hours of graduate work in the degree program. Contact the applied psychology adviser for further information. The applied master’s program is accredited by the Masters in Psychology accreditation Council (MPAC).

Specialist in School Psychology SSP

The School Psychology program at Texas A&M University-Commerce prepares students for attainment of a Specialist in School Psychology (SSP) degree. The current specialist degree program is consistent with the requirements published by the Texas State Board of Examiners of Psychologists for the Licensed Specialist in School Psychology (LSSP) and has been granted national approval from the National Association of School Psychologist (NASP).

Note: Successful completion of the Comprehensive Exam is required of all students.

**Educational Psychology PhD**

Before being admitted to the doctoral program, the prospective student must first meet the general requirements for admission to the Graduate School. Applicants to the doctoral program must hold at least a bachelor’s degree.

In all cases, admission to graduate degree programs in psychology is competitive, since available facilities and faculty do not permit admission of all qualified applicants. The components of an application to the doctoral program are as follows:

1. Graduate Record Examination. Applicants must submit scores for the quantitative, verbal, and analytical/written sections of the GRE.
2. Transcript(s) showing academic prerequisites.
   - Applicants holding the master’s degree must have an overall grade point average of at least 3.40 on graduate work, exclusive of practicum and thesis grades.
   - For students applying with a completed non-thesis master’s degree, completion of the thesis will be required prior to admission to doctoral candidacy.
3. Recommendations/references. The doctoral applicant is required to submit four satisfactory recommendations on forms provided by the Graduate School, including one from the last employer, if it was a professional experience, and one from the last institution attended. Two of the individuals must hold doctorates.
4. Statement of goals. All prospective students must submit a brief statement to the graduate admissions committee stating their goals in psychology and how the Department of Psychology and Special Education at Texas A&M University-Commerce can help them attain those goals.

The department reserves the right to deny entrance to an applicant who, in the judgment of a duly constituted departmental committee, appears unlikely to succeed professionally, or whose goals are inconsistent with the orientation of the degree program, regardless of any other qualifications.

Prior to entering the program, each student should select which of **two curriculum tracks** to take. Each of the tracks (Educational and Experimental) includes its own set of courses (with some overlap) but all students, regardless of track, will need to complete a larger set of core courses. These are described below.

**Note:** For those entering the program without a Masters degree and thesis accepted by the Department of Psychology, & Special Education, at least 90 semester hours are required overall Cognate area - 18 sh, Thesis - 6 sh, & Electives - 6 sh. For those with an accepted Masters thesis, at least 60 semester hours are required overall. At least 45 semester hours must be from TAMU-C. At least 51% of TAMU-C courses (excluding 718) must be taken face-to-face in Commerce. No course beyond the master’s program that is over ten years old at the time the doctoral degree is conferred can be used toward the doctoral degree.

### Master of Education/Master of Science in Special Education - Option II Non-Thesis w/ Initial Certification

*Note: Certification courses (noted with a * below) are set up in a cohort schedule. There will be a one year admission window in July every year to begin certification courses in the Fall semester. The content exam must be passed prior to starting the certification section. Students must also complete the identified five of six courses and 30 hours of Early Field Experience (EFE) prior to student teaching. Students will take the PPR (pedagogy) exam during the second semester of certification courses. The final capstone course will be taken when the student enters student teaching (EDCI 515) and it must be taken in the Fall semester.*

Psychology of Gerontology and Positive Aging Graduate Certificate

This certificate will enhance skills for persons working with older adults in business, medical or social settings. The student will have a better understanding of physical, psychological and developmental impacts of aging and an enhanced understanding of ethical principles of dealing with potentially vulnerable population. Contact Sean Lauderdale at Sean.Lauderdale@tamuc.edu.

The Psychology of Gerontology and Positive Aging Graduate Certificate requires admission to the Graduate School and 15 semester hours of graduate courses from the following.

Note: Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA on all courses used for graduate certificate. (No Substitutions) Students may earn the certificate while enrolled in a separate Master (e.g., Counseling; Applied/Clinical-Psychology) or Doctoral Program (e.g., Educational Psychology).
School of Nursing and Health Sciences

Currently, the School of Nursing and Health Sciences is part of the College of Education and Human Services. This school is comprised of two departments – Department of Nursing and Department of Health and Human Performance. The role of the School of Nursing and Health Sciences is to provide an organizational structure that promotes personal educational experiences for students in nursing and other health sciences by providing high levels of focused programming and opportunities for students to collaboratively engage with each other and the wider society.

Partnerships between area hospitals, corporate and community agencies, as well as area schools and the SNHS will nurture the intellectual, cultural, social, and economic vitality of Texans through health and wellness related projects and services. Existing community and global health initiatives in the Department of Nursing and the Department of Health and Human Performance are expected to grow and develop within the nurturing environment of the School of Nursing and Health Sciences.
Health and Human Performance

Tara Tietjen-Smith (Department Head)
Location: Field House, 903-886-5549
Health and Human Performance Web Site: http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/healthHumanPerformance/default.aspx

Sarah Mitchell, Interim Coordinator of Graduate Studies

Graduate programs offered in the Department of Health and Human Performance are designed to provide students with specialized training to enhance current job opportunities as well as prepare students for positions with public and private agencies in the areas of health and human performance. These graduate degree programs are designed to provide graduate students with:

1. Knowledge and skills necessary to organize and administer programs of health and human performance;
2. The ability to interpret, analyze, critique, and produce research within health and human performance that is current and relevant to communities of learners in our academic, professional, and global environments;
3. Knowledge related to the current challenges and trends underlying programs of health and human performance;
4. Tools to excel as a leader in the fields of health, kinesiology, and sport in a dynamic and digital society; and
5. Applied knowledge and real world experience in diverse community and global settings.

Programs of Graduate Work

Master of Science in Health, Kinesiology, and Sports Studies

The Department of Health and Human Performance offers the following graduate degree: Master of Science (M.S.) in Health, Kinesiology, and Sports Studies with four different concentrations: Athletic Administration, Exercise Science, Health Promotion, and International Sport Management. For each of these concentrations, a minimum of 18 to 24 hours must be completed in the major field.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in health, kinesiology, and sports studies.

Each applicant will be evaluated on his/her successful completion of an undergraduate degree in health, kinesiology, human performance or a closely related field. The applicant will also be evaluated on undergraduate or graduate GPA, two recommendation forms or letters of reference from sources acquainted with the applicants academic capabilities (one preferably from a former professor), personal statement of goals and background, and one of the following: official GRE scores or an awarded bachelor’s degree from a regionally accredited university with an overall GPA of 3.00, or an awarded master’s degree from a regionally accredited university with an overall GPA of at least 3.25 on the degree. With the consensus of departmental graduate faculty, deficient students may be granted probationary status. Deficiencies must be removed by the completion of foundation courses specific to the selected graduate program by the end of the second semester of enrollment.

• Admission Requirements (http://www.tamuc.edu/academics/graduateSchool/programs/humanServices/healthKinesiologySportsStudiesDomestic.aspx)

Degree Requirements

All students must complete a departmental advisement guide before attaining 12 semester hours of graduate credit. To complete the advisement guide, the student must consult with the department’s Coordinator of Graduate Studies. Students must maintain a grade point average of 3.00 on all graduate courses taken in the Department of Health and Human Performance. In addition, all students must have a passing score on the departmental comprehensive exams. In order to take the comprehensive exam, a departmental advisement guide must be on file; and all courses must be completed, or the student must be enrolled in final semester of courses.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Exercise Science Graduate Certificate

The Exercise Science Graduate Certificate is 15 hours of health, kinesiology, and sports studies coursework for students who want to increase their knowledge and develop competencies in the area of exercise science. Students may complete the certificate independently or as part of their graduate degree.

Coursework must be completed at A&M-Commerce with a 3.0 GPA on all courses used for the certificate. Students, in consultation with the graduate coordinator, must develop a plan of study that details specific courses the students will use to satisfy the certificate requirements. Students must complete a minimum of 15 hours from the list of courses below.

Contact Sarah Mitchell at Sarah.Mitchell@tamuc.edu for more information.

Total Hours 15

Note: Students must have admission to the Graduate School. Coursework must be completed at Texas A&M University-Commerce with a 3.0 GPA in all courses used for this graduate certificate. (No Substitutions)
Family Nurse Practitioners (FNPs) are the providers of choice for millions of Americans due to their track record of providing quality care to persons of all ages and walks of life. FNPs bring a unique perspective to health care with an emphasis on both caring and curing. FNPs diagnose and manage acute, episodic, and chronic illness. FNPs also focus on health promotion, disease prevention and healthier education and counseling, helping guide patients and their families to make smarter health and lifestyle choices.

Nurse practitioners are needed to meet the growing demand for primary health care. As a nurse practitioner you will blend your nursing and communication skills with advanced practice skills in taking patient histories, performing physical exams, ordering labs, interpreting lab results, prescribing medications and educating patients and families about health care issues.

The MSN Family Nurse Practitioner program can be completed in less than 2 years with full time study or 3 years with part-time study. The program is offered in a hybrid format. Online courses are combined with web-enhanced on campus courses. Students work with faculty and preceptors who have extensive nurse practitioner experience.

The Master of Science in Nursing program prepare Family Nurse Practitioners needed to meet the demand for primary care. Both full and part-time options are available in this 46 semester credit hour program which prepares graduates to sit for national certification as a Family Nurse Practitioner.

Courses are delivered using a combination of traditional face-to-face instruction, online courses, and web-enhanced or hybrid courses. Clinical instruction is conducted as traditional hands-on practice in a variety of Northeast Texas clinical settings. The program is designed to build and expand on baccalaureate nursing practice. Students must have a Bachelor of Science in Nursing from a nationally accredited nursing program as well as a current license to practice as a Registered Nurse in order to be eligible for admission. A basic course in statistics is also required.

Nurses in advanced practice utilize theory and research based nursing process to deliver and/or manage client care. Graduate nursing education promotes the development of advanced critical thinking skills through its focus on creative and intellectual processes and facilitates change as evidenced by intellectual and professional growth. The graduate learning environment incorporates the principles of adult learning to promote critical thinking and inter-collaborative skills which may be used in conceptualizing, synthesizing, and evaluating management of nursing and health care problems. Nurses in advanced practice embrace the scholarly and systematic paradigm of evidence-based practice as necessary for the delivery of high-quality cost-efficient health care. They recognize the dynamic nature of health care and health care delivery, and are committed to life-long learning. As members of the profession, nurses in advanced practice respond to the changing needs of society while practicing within the established ethical, legal and competency standard of practice frameworks.

Program Philosophy
The Master of Science in Nursing (MSN) program assumes and undergraduate base in nursing, physiology, pharmacology, and health assessment. The curriculum is designed to prepare graduates at a high level of competency to function in leadership positions in diverse health care settings promoting, restoring, and maintaining health. The MSN philosophy builds on the BSN nursing program philosophy, advancing the concepts of critical thinking, life-long learning, and professionalism.

Nurses in advanced practice use theory and research based nursing process to deliver and/or manage client care. Graduate nursing education promotes the development of advanced critical thinking skills through its focus on creative and intellectual processes and facilitates change as evidenced by intellectual and professional growth. The graduate learning environment incorporates the principles of adult learning to promote critical thinking and inter-collaborative skills which may be used in conceptualizing, synthesizing, and evaluating management of nursing and health care problems. Nurses in advanced practice embrace the scholarly and systematic paradigm of evidence-based practice as necessary for the delivery of high-quality cost-efficient health care. They recognize the dynamic nature of health care and health care delivery, committing them to be life-long learners. As members of the profession, nurses in advanced practice respond to the changing needs of society while practicing within the established ethical, legal, and competency standards of practice frameworks.

MSN Student Learning Outcomes
Upon completion of the MSN program, students have been provided the opportunity to enable themselves to:
1. Function as a scholar clinician with critical thinking skills to promote, restore, and maintain health.
2. Synthesize the theories from natural, behavioral, and social sciences to support advanced clinical nursing and role development.
3. Use patient-care and communication technologies to deliver, enhance, integrate and coordinate high quality health care.
4. Collaboratively plan for the delivery of culturally consistent health care within the context of client social structure and world views.
5. Participate in, evaluate and use research to promote the body of nursing knowledge.
6. Develop competence and accountability in an advanced practice nursing role, recognizing established standards and principles for quality improvement and safety.
7. Develop the knowledge and skills to function as a nursing leader in professional association activities, health policy formation, and legislative and regulatory issues to foster change and improvement in health care.

8. Demonstrate a commitment to continuing education in formal and informal programs of study.

**Admission**

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in family nurse practitioner.

Admission Requirements [Link](http://www.tamuc.edu/academics/graduateSchool/programs/humanServices/Nursepractitioner.aspx)

**Note:** The Department reserves the right to suspend from the program any student who in the judgment of the departmental graduate committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Family Nurse Practitioner MSN (p. 188)

**Master of Science in Nursing in Family Nurse Practitioner**

The Master of Science in Nursing (MSN) program prepares graduates with a fuller understanding of the discipline of nursing, enabling a higher level of practice and leadership in a variety of settings. MSN education has a foundation encompassing advanced health assessment, advanced pathophysiology, advanced pharmacology, and health promotion/population health as well as a core promoting the advancement of the nursing profession through research and theory. This MSN program role focus is the Family Nurse Practitioner who is prepared to meet the increasing demand for primary care. Students complete courses in their role as well as courses in the advanced specialty area. The program uses a combination of traditional face-to-face instruction and web-enhanced courses with both full-time and part-time options available. Focused clinical experiences are conducted as traditional, hands-on practice in a variety of Northeast Texas clinical settings, enabling the student to acquire competence with new knowledge and skills. Degree completion requires a Practice Intervention Project paper and presentation. Prospective students must have a Bachelor of Science in Nursing from a nationally accredited nursing program as well as a current license to practice as a Registered Nurse in order to be admitted. Graduates will be prepared to sit for national certification as a Family Nurse Practitioner. Master’s nursing education equips Registered Nurses with a mastery of their chosen specialty area as well as the graduate foundation for doctoral education.

School of Social Work

Rebecca Judd (Department Head)
Location: Henderson Hall, 903-468-8100

Dr. Marcella Smith, MSW Program Director

Program of Graduate Work

Master of Social Work

The Master of Social Work program at Texas A&M University-Commerce is designed to meet the educational needs of advanced level social workers. The program is fully accredited by the Council on Social Work Education (CSWE). All MSW graduates are eligible to sit for the State of Texas LMSW licensure testing. The program follows an advanced generalist practice model. Courses in the MSW program are offered evenings and weekends to accommodate working students.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following requirements for admission in addition to meeting the general university requirements in social work.

In addition to the general requirements for admission to the Graduate School, those seeking admission to the MSW Program must submit a packet of admissions materials, available either by contacting the School of Social Work at 903-886-5029 or by going to the School's website at http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/socialWork/documents/MSWAdmissionPacket.pdf to download it directly. The completed documents must be submitted to the School of Social Work at P.O. Box 3011, Commerce, TX 75429-3011. Components of the admissions materials include:

1. A professional narrative statement. A description of what would be contained in such a statement is included in the admissions packet.
2. A resume or vita of educational and occupational experiences.
3. Three references using the forms included in the admissions packet, preferably including one reference from an undergraduate professor or a former supervisor from a paid or volunteer social services agency.
4. Official bachelor's degree transcript if other than A&M-Commerce graduate.

The MSW program will admit students who show the greatest capacity to complete graduate-level work and become effective social work practitioners. To be admitted to the program, students must meet school criteria such as undergraduate grade point average, GRE scores, and writing ability. Other criteria include evidence of effective interpersonal skills, professional work experience, and values, ethics, and a fit with the social work profession and our program. The program is committed to recruiting and instructing students who represent a diverse population.

Depending on their undergraduate degree, students who are admitted to the MSW program will receive either Foundation Admission or Advanced Standing Admission. Advanced Standing is reserved for those who hold a Bachelor of Social Work (BSW) undergraduate degree from a CSWE-accredited institution. Fewer hours are required of students who receive advanced standing admission.

All students are expected to act in accordance with the National Association of Social Workers (NASW) Code of Ethics, the Texas State Board of Social Work Examiners Code of Conduct and the School's Student Code of Conduct.

If students do not conduct themselves in a manner befitting a professional social worker (as defined in the NASW Code of Ethics and the Code of Conduct), whether in the classroom, in the field setting, or in their interactions with other students, faculty, and staff they may be dismissed from the program. Such conduct is regarded as an academic expectation for the social work profession, regardless of classroom grades.

Note: The Department reserves the right to suspend from the program any student who in the judgment of the departmental Academic and Professional Issues (API) committee, does not meet the professional expectations of the field.

Successful completion of the Comprehensive Exam is required of all students.

Social Work MSW (p. 189)

Social Work MSW

The Master of Social Work program at Texas A&M University-Commerce is designed to meet the educational needs of advanced level social workers. The program is fully accredited by the Council on Social Work education (CSWE). All MSW graduates are eligible to sit for the State of Texas LMSW
licensure testing. The program follows an advanced generalist practice model. Courses in the MSW program are offered days and evenings at the Main Campus in Commerce; Mesquite Metroplex Campus and Collin Higher Education Center.

## Degree Requirements

1. A 3.0 graduate GPA (including a B or better in field courses).
3. Submission of a Graduation Application to the Registrar’s Office by the deadline published each semester in the Schedule of Classes.

## Program Scope and Sequence

### Master of Social Work in Social Work - Option II Non-Thesis

#### Foundation Courses (24 semester hours)

Students who enter the program without a CSWE-accredited BSW must complete all foundation courses prior to enrolling in concentration courses. The social work elective can be taken at anytime.

At this time, Foundation courses are only offered at the Mesquite Metroplex Center.

**ALIB Course**

**ALIB 564 - Archives Administration**  
Hours: 3  
This course provides students with an introduction and hands-on instruction to the theories, methods, and processes used to manage archives, manuscripts, and digital resources related to libraries. Prerequisites: HIST. 562: Introduction to Public History.

**Accounting Courses**

**ACCT 501 - Accounting for Managers**  
Hours: 3  
Accounting for Managers. Three semester hours. Study of the accounting concepts and procedures used by managers in making decisions. The focus in the course will be on users, not preparers, of accounting and management information. This course satisfies the accounting background requirement for MBA candidates and may be utilized as part of a graduate program in a field other than business administration. Prerequisite: Math 141 or 175.

**ACCT 502 - Financial Accounting**  
Hours: 3  
A study of accounting principles and procedures essential to the preparation of financial statements with particular emphasis on the corporate form. Topics of coverage include assets and liabilities, property, plant and equipment, and investments, stockholders’ equity, income recognition, leases, accounting changes and errors, and financial reporting and analysis. Prerequisites: ACCT 501 or Act 222.

**ACCT 521 - Advanced Accounting**  
Hours: 3  
A continuation of the financial accounting sequence. The primary emphasis is on accounting for business combinations and consolidations. Other contemporary issues in financial accounting will also be covered with an emphasis on reading and interpreting professional accounting literature. Prerequisite: ACCT 322.

**ACCT 522 - Government & Not for Profit Accounting**  
Hours: 3  
This course is a graduate level course designed to cover financial reporting, managerial, auditing, taxation, and information systems issues in governmental and nonprofit entities. Ethics and professional standards, as well as communication and analytical skills, are developed. Students will apply dual-track accounting to help develop skills at analyzing transactions in a governmental entity and follow their effect on the financial statements.

**ACCT 525 - Advanced Managerial Accounting**  
Hours: 3  
A study of accounting as related to making decisions. Readings, cases, and problems dealing with managerial accounting issues, accounting concepts, budgeting and cost control, using accounting information in planning and control. Prerequisite: Consent of the instructor.

**ACCT 527 - Auditing**  
Hours: 3  
This course is a study of the professional auditing standards followed by public accountants in performing the attest function for financial statements and supporting data. Prerequisites: ACCT 322, 433.

**ACCT 528 - Advanced Auditing**  
Hours: 3  
The primary emphasis in this course will be on understanding and applying the concepts of, and approaches to, audits, investigations and assurance services, and on developing skills to apply the underlying concepts and approaches to professional services. This course will review changes in the audit environment and new approaches to auditing and examine the concepts related to auditing in computerized environments.

**ACCT 529 - Accounting Information Systems**  
Hours: 3  
This course is designed to present an understanding of accounting information systems and their role in the accounting environment. Particular attention is paid to transaction cycles and internal control structure. Topics to be covered include the software development life cycle, contemporary technology and applications, control concepts and procedures, auditing of information systems, internets, intranets, electronic commerce, and the role of information systems in a business enterprise. This course will cover accounting information systems—both computerized and non-computerized—with particular emphasis on internal controls.

**ACCT 530 - Business Ethics for Accountants**  
Hours: 3  
The course will provide a background in the process of ethical reasoning, the ethical environment, application of ethical rules and guidelines to case problems, and a framework for ethical decision-making. The focus will be on the ethical environment within which professional accountants and businesses operate. The objective is to provide the student with an educational background in what constitutes ethical conduct in businesses and accounting.
ACCT 531 - GLB/International Accounting
Hours: 3
The course exposes students to international financial reporting standards (IFRS) and related issues. Topics include comparative accounting, internationalization of capital markets, cross-border mergers and acquisitions, foreign currency translation, transfer pricing, and other issues.

ACCT 537 - International Taxes
Hours: 3
The course exposes students to international taxes, credits, planning, and transfer pricing concepts.

ACCT 538 - Individual Income Tax Accounting
Hours: 3
A study of income tax laws. Emphasis is given to the impact of the federal income tax on the individual taxpayer. Various research software and tools are utilized to solve practical tax problems.

ACCT 540 - Advanced Income Tax Accounting
Hours: 3
A study of taxation of partnerships, corporations, estates, and trusts under current federal income tax law. An emphasis will be on solving practical problems using tax research tools and software. Prerequisite: ACCT 440.

ACCT 541 - Accounting Theory
Hours: 3
Selected contemporary and international issues in financial accounting will be covered with an emphasis on reading and interpreting professional accounting literature to prepare financial statements according to generally accepted accounting principles. This course is designed as a capstone overview of professional literature on financial accounting for majors in professional accountancy. However, the content is also appropriate for controllers and others interested in the application of generally accepted accounting principles. Prerequisites: ACCT 322, 521.

ACCT 550 - Sales, Franchise & Other Taxes
Hours: 3
This course explores taxes imposed by state and local governments. Taxes include sales, income, real estate, franchise, use, and other types of taxes. Students are exposed to different taxing bodies that impose taxes and the justifications and amounts subject to taxation. Students will use online tax research services.

ACCT 551 - Advanced Issues in Taxes
Hours: 3
This course examines advanced issues in taxes. Topics include multistate corporate taxation, individual taxes, international taxes, fiduciary responsibility and returns, and current topics. Students will use online tax research services.

ACCT 561 - Fraud Examination
Hours: 3
This course covers the principles and methodologies of detecting and deterring fraud using accounting, auditing, and investigative skills. Topics include skimming, larceny, misappropriations, fraudulent financial statements, interviewing witness and support for litigation.

ACCT 562 - Forensic and Investigative Accounting
Hours: 3
This course covers important topics associated with modern forensic accounting. Topics include fraud auditing, litigation support, valuation, cybercrime, and other key forensic topics.

ACCT 563 - Advanced Forensic Accounting
Hours: 3
This course builds on topics covered in Forensic and Investigative Accounting. Topics include fraud auditing, litigation support, valuation, cybercrime, and other key forensic topics. The objectives include understanding the practices used by public accountants, internal auditors, prosecutors, special agents, investigators, and others used to examine and prosecute civil and criminal financial violations.

ACCT 564 - Practicum in Forensics
Hours: 3
Students must solve possible or alleged financial improprieties in both civil and criminal environments using structured cases. Students will respond to situations presented by the instructor. Students will simulate evidence and discovery gathering, obtaining and serving subpoenas, data analysis, interviewing, prosecution, and related activities.
ACCT 568 - Business Law for Accountants
Hours: 3
Business Law and Regulation is the study of professional and legal responsibilities and legal implications of business transactions, particularly as they relate to accounting and auditing, and the application of that knowledge to common business transactions. This course provides knowledge of general business environment and business concepts needed to understand the underlying business reasons for and accounting implications of transactions. Our primary objective in this class is to transfer the body of knowledge needed to answer questions likely to appear on the CPA, CMA, CIA, or other professional examinations and to provide a foundation of knowledge of business law for accountants.

ACCT 569 - International Business Law
Hours: 3
The course is designed for accountants and others to study international business law. Students are exposed to international treaties, rules and, laws in a global environment.

ACCT 575 - Financial Statement Analysis
Hours: 3
This course presents a framework for business analysis and valuation using financial statements. Topics include accounting analysis, valuation theory and concepts, forecasting, equity security and credit analysis.

ACCT 576 - Fundamentals of Financial Planning
Hours: 3
This course exposes students to personal financial planning utilizing basic financial planning skills and tools. Topics include insurance, investment, income tax, business, retirement, and estate planning to some degree within this course. It is through some exposure to all of these sub-fields and discussion of how the planner facilitates effective planning in each of them that students will gain a more complete perspective of the field of financial planning and the requirements of being an effective financial planner.

ACCT 577 - Investment Planning
Hours: 3
This course focuses on the theory and practice of investment planning. Emphasizing the tools and techniques necessary to build a portfolio using both financial planning techniques and theories employed by the financial planning industry. Topics covered include but are not limited to: basics of investment planning and financial markets, investment portfolio risk-return relationship, portfolio management, investment theories, modern portfolio theory, fundamentals of portfolio design, diversification and allocation, fundamental analysis, mutual fund selection, and financial planning issues in asset management.

ACCT 580 - Internship in Accounting
Hours: 0-4
The goal of this course is to gain relevant accounting knowledge equal to or greater than the knowledge gained in a traditional accounting classroom setting. The student will gain work experience in the student's field of study by developing specific work related skills to improve marketability upon graduation. The student will also build a network of professional contacts. Prerequisites: 12 hours of upper level accounting must be complete and Departmental approval.

ACCT 588 - Independent Accounting Research
Hours: 3
This course challenges students to explore emerging and often controversial issues in accounting by using qualitative and/or quantitative research methodology. Students learn how to publish accounting research in peer reviewed publications using topics of interest.

ACCT 589 - Independent Study
Hours: 0-3
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

ACCT 595 - Accounting Research and Communication
Hours: 3
This applied course challenges students to research, analyze and communicate topics in accounting and/or tax by using qualitative and/or quantitative research methodology. Students also learn various effective methods accountants must use to communicate.

ACCT 597 - Special Topics
Hours: 1-4
Organized class. May be repeated when topics vary.
Agricultural Economics Courses

AEC 520 - AgriBusiness Analysis and Forecasting
Hours: 3

AEC 530 - Agricultural Production Economics
Hours: 3
Agricultural production theory for optimization of resources under certainty and uncertainty. Economic theory, analytical methodology, and agribusiness firm behavior.

AEC 540 - Advanced Theory of Demand and Price Analysis
Hours: 3
The development and use of economic models for price analysis and forecasting with emphasis on the interpretation of economic relationship in agriculture. Analysis of the effects of consumer behavior upon marketing firms and upon the demand for agricultural products.

AEC 550 - Market Organization and Structure
Hours: 3
Analysis of the conduct and performance of agricultural firms under imperfect market conditions. Sources of imperfections, managerial strategies, and welfare considerations under imperfect market conditions.

AEC 560 - International Agricultural Trade
Hours: 3
Trade theory dealing with the production, marketing, and distribution of goods and services. Comparative advantage, gains from specialization, trade models, trade policy analysis, partial equilibrium analysis of free trade, welfare aspects of trade, preferential agreements, and policy issues.

AEC 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

AEC 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Agricultural Mech Courses

AMC 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

AMC 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Agricultural and Family Education Courses

AFE 518 - Thesis
Hours: 3-6
Development and reporting of a research project under the supervision of a graduate faculty member. Note: Granting of credit for this course is dependent upon completion and approval of a thesis.

AFE 570 - Instructional Management
Hours: 3
Instructional Management. Three semester hours. Provides students with a review of the ethical and pedagogical principles and practices needed to organize and deliver instructional programs in Agricultural Sciences and Family and Consumer Sciences.
AFE 571 - Program Development
Hours: 3
Program Development. Three semester hours. This course addresses the theoretical and practical principles of planning, funding, and conducting effective educational programs in Agricultural Sciences and Family and Consumer Sciences.

AFE 572 - Special Populations
Hours: 3
Special Populations. Three semester hours. Principles, procedures, and policies associated with teaching students who are representative of special populations as defined by federal career-technical education guidelines.

AFE 573 - Practicum in Teaching
Hours: 3
Practicum in Teaching. Three semester hours. Supervised teaching practicum in Agricultural Science or Family and Consumer Sciences at the secondary level. Course includes field-based teaching component and monthly seminars on strategies and issues related to the teaching profession.

AFE 574 - Assessment & Evaluation
Hours: 3
Theories and techniques used in assessing student learning and skill development and evaluating educational programs in Agricultural Science and Family and Consumer Sciences.

AFE 575 - Community Leadership & Development
Hours: 3
Theories and practices associated with organizing and implementing social and economic change within the community context. Prerequisites: None.

AFE 576 - Models Experiential Learning
Hours: 3
Application of experiential learning theories and techniques to instructional programs in secondary, postsecondary, and community-based settings. Prerequisites: Admission to graduate school.

AFE 577 - Coordinating Extension Program
Hours: 3
Techniques and practical field experience in organizing, delivering, and evaluating community-based programs through the cooperative extension model. Prerequisites: Admission to graduate school.

AFE 579 - Field Experience in Teaching
Hours: 3
Fifteen week supervised teaching internship in agriculture or family and consumer sciences at the secondary or postsecondary level.

AFE 589 - Independent Study
Hours: 1-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

AFE 595 - Research Literature and Techniques
Hours: 3
This course provides a review of significant research studies produced by investigators in the student's major field with emphasis on the investigative and verification techniques that were used.

AFE 597 - Special Topics
Hours: 0-4
Special Topics. One to four semester hours. Organized class addressing topics relevant to teaching Agricultural Science. May be repeated when topics vary.

Agriculture Courses

AG 503 - Adult Education
Hours: 3
The purpose of this course is to advance the understanding of the basic principles behind motivating adults to learn. Procedures in implementing these principles to bring about change in adult behavior will be explored.
AG 504 - Qualitative Research
Hours: 3
Qualitative Research - Three semester hours This course investigates the different strategies/methods of conducting qualitative research such as conducting effective interviews, participant observation, and document analysis (data mining). Students will learn about the different research designs associated with qualitative research and explore data analysis and establishing validity/reliability for qualitative research.

AG 505 - Statistical Methods in Agriculture
Hours: 3
Introductory statistics course for graduate students in agricultural sciences. Topics include descriptive statistics, measures of dispersion, hypothesis testing, confidence intervals, analysis of variance, pairwise comparisons, and linear regression. Prerequisites: Admission to graduate school.

AG 506 - Advanced Statistical Methods in Agriculture
Hours: 3
Advanced statistics course for students pursuing the Master of Science in Agricultural Sciences with a thesis option. Includes Chi-square, t-distribution, normal distribution, repeated measures, advanced regression analysis and non-parametric statistics. Prerequisites: AG 505.

AG 507 - Water Issues and Ethics
Hours: 3
This course will explore critical issues and ethical considerations related to existing and proposed water management policies and conservation promotion. Perspectives from rural and urban consumers, agricultural producers, and industry will be examined in context to these issues at the local, state, national, and global levels. Prerequisites: Admission to graduate school.

AG 508 - Gardening Across the Curriculum
Hours: 3
This course provides a review of research and resources related to school and university-based gardening programs for academic enrichment, nature awareness, nutrition improvement, and other aspects of garden-based learning. Prerequisites: Admission to graduate school.

AG 512 - Methods of Technol Change
Hours: 3
Methods of Technological Change - Three semester hours This course will focus on the processes by which professional change agents (for example, extension agents) influence the introduction, adoption, and diffusion of technological change. The interlocking relationships of technology, culture, and society and the role of the change agent in affecting those relationships will be covered. Students will learn how to predict and minimize the undesirable consequences of change and how to enhance the development of communication skills required when working with people.

AG 518 - Thesis
Hours: 3-6
Thesis. Three to six semester hours. Development of a research project under the supervision of a staff member. Granting of credit for this project is dependent upon the completion and approval of the thesis.

AG 532 - Sci Meth Ag Research
Hours: 3
The course is for graduate students in an option 1 (thesis) graduate program and introduces students to the processes of scientific investigation, research methodologies and techniques, data interpretation, experimental design options, and scientific methodologies involved with planning, executing, interpreting and the scientific writing of research projects.

AG 589 - Independent Study
Hours: 1-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites: Consent of department head. Note May be repeated when the topic varies.

AG 595 - Research Lit Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. A careful study of the latest research literature and techniques available in different fields of agriculture. A research paper will be required according to the interests of the individual student.

AG 597 - Special Topics
Hours: 1-5
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

AG 597W - Special Topics
Hours: 1-5
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.
AG 599 - Grad Seminar in the Ag Science
Hours: 1
Topics on the latest research and techniques in the agricultural sciences. Note Must be taken two times for credit.

Animal Science Courses

ANS 510 - Advanced Ultrasound Techniques for Body Composition in Livestock
Hours: 3
This course is designed to provide students with basic knowledge and techniques of real-time ultrasound to measure body composition in Livestock. Students will compose and present a research paper to class members and Professor.

ANS 511 - Adv Reproductive Physiology
Hours: 3
Recent advances in mammalian reproductive physiology. Special emphasis on endocrine chemistry and cellular action. Prerequisites: ANS 311.

ANS 512 - Endocrinology of Domestic Animals
Hours: 3
Study of the anatomy and physiology of the endocrine system, hormone-producing cells, synthesis of hormones, mechanisms of hormone action, and effects of hormones on physiological processes in domestic animals. Study of hormone-related diseases and disorders.

ANS 513 - Environmental Physiology of Domestic Animals
Hours: 3
Principles of environmental physiology and animal adaptation with emphasis on mechanisms of temperature regulation and related nutritional and metabolic-hormonal functions.

ANS 515 - Advanced Animal Nutrition
Hours: 3
Principles of animal nutrition; anatomy and physiology of the digestive system; biochemistry of digestion, absorption, and metabolism; and animal nutrition research methodology with emphasis on domestic animal species.

ANS 522 - Animal Breeding
Hours: 3
Animal Breeding. Three semester hours. An advanced course dealing with problems in population genetics as applied to domestic animals. Heredity and environmental interaction, methods of selection, mating systems, and biometrics of animal improvements. Prerequisite: ANS 310.

ANS 535 - Advanced Principles of Livestock Management
Hours: 3
Course presents the latest technologies in animal management of various livestock species. Topics include nutrition, reproductive physiology, waste management for protecting the environment and ground water reserves, along with integrated management practices for complimentary animal species.

ANS 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

ANS 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Art Courses

ART 589 - Independent Study
Hours: 1-8
Independent Study - Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

Art History Courses

ARTH 507 - History of Graphic Design
Hours: 3
History of Graphic Design - Three semester hours This course focuses on the evolution of Graphic Design from the invention of writing and alphabets to the computer revolution. Topics include: Medieval manuscripts, the origins of printing and typography, the Arts and Crafts movement, Victorian & Art Nouveau Graphics, the influence of Modern Art on design and visual identity and conceptual imagery.
ARTH 508 - The Hist of Adv & Consumerism
Hours: 3
History of Advertising and Consumerism - Three semester hours. This course is designed to give a broad overview of the nature of a consumerist society and how it drives and is driven by advertising. Lectures will explore the types and causes of consumerism, commodities consumed by the public, and the promise of the "good life." Advertising's impact will be discussed from the aspect of target markets and positioning of goods and services, and the pros and cons of consumerism.

Astronomy Courses

ASTR 503 - Galactic Astronomy
Hours: 3
This course covers numerous topics related to the structure and evolution of galaxies. Modern astrophysical observational techniques, stellar properties, and dust extinction are introduced in a galactic astronomy context. The physical structure and evolution of star clusters and galaxies, components of the Milky Way, and properties of the interstellar medium are also discussed. Finally, students analyze theories and observations of stellar dynamics and the cosmological distance scale.

ASTR 589 - Independent Study
Hours: 1-4
Independent Study 1-4 semester hours.

ASTR 597 - Special Topics
Hours: 1-4
Special Topics. One to Four semester hours. Organized class. May be repeated when topics vary. Some sections are graded on a Satisfactory (S) or Unsatisfactory (U) basis.

Bilingual Education Courses

BLED 501 - GLB/Theoretical Foundations of Bilingual/ESL Education
Hours: 3
A critical analysis of the rationale for bilingual, multicultural education focusing on history, philosophy, and theory. The study and analysis of educational programs designed for English Language Learners including the native language and the ESL (English as a Second Language) components as well as a critical review of research on the effective implementation of bilingual/ESL programs.

BLED 502 - Social and Academic Language Development for Bilingual Learners
Hours: 3
The course focuses on analysis and application of research-based approaches to the development of oral and written language in English Language Learners that result in biliteracy and high academic achievement. Preparation and adaptation of holistic, thematically based materials and activities and critical evaluation of existing materials in Spanish. Cross listed with: BLED 512.

BLED 503 - GLB/Bilingual Content Area Instruction
Hours: 3
The course focuses on analysis and application of methods, materials, and assessment instruments used in the teaching of language arts, math, science and social studies to bilingual students. Creation, formal presentation, and evaluation of thematic units delivered primarily in Spanish and others using sheltered ESL techniques delivered primarily in English. Crosslisted with: BLED 513.

BLED 504 - Technology Tools for Teaching English Language Learners
Hours: 3
Students will apply knowledge of current educational technology to the teaching of English Language Learners. They will incorporate videos, podcasts and other instructional technologies into websites in linguistically and culturally appropriate ways to meet the needs and address the strengths of ELLs. Prerequisites: None.

BLED 505 - Project-Based Learning for English Language Learners
Hours: 3
Project Based Learning (PBL) taps into student strengths and interests in a manner that is cross disciplinary as it builds academic language and the ability to think deeply and well. Students will identify and evaluate PBL models and create project plans for linguistically and culturally diverse learners.

BLED 506 - The Languaging and Literacies of Multilingual Students
Hours: 3
This course explores the languaging and literacies of multilingual students in k-12 education and in the larger society. Specifically, the ideas of critical language awareness, translanguaging, and holistic bilingualism are discussed in relation to how educational practice, policy, and research might respond. This course is for those who educate bilingual children and youth, especially minoritized bilinguals. You do not need to be bilingual to take this course.
BLED 507 - Engaging ELL Families
Hours: 3
This course will help graduate students understand the numerous benefits of involving ELLs’ families in their children’s education. Based on best practices, this course will explore specific, meaningful ways in which teachers can form a partnership with families to help ELLs be successful inside and outside of the classroom. Opportunities will be provided for graduate students to learn about the ELLs in their own communities and create practical resources to share with the families of students. You do not need to be bilingual to take this course.

BLED 510 - Dual Language Assessment
Hours: 3
The course focuses on the selection, evaluation, and design of means for assessing the oral and written language proficiency and academic achievement of bilingual and ESL students. Critical review of standardized tests as well as alternative and informal assessment techniques and instruments, consideration of relationships between first and second language proficiency, and academic achievement and sociocultural dimensions of testing and assessment. Prerequisites: Admission to the MED program or consent of the instructor. Crosslisted with: BLED 610.

BLED 512 - Social and Academic Language Development in English for Bilingual Learners
Hours: 3
The course focuses on analysis and application of current approaches to oral and written language development in English that result in higher academic achievement for K-12 English Language Learners (ELLs). Students will assess the oral languages and literacy skills of ELLs and design, evaluate, and modify/adapt commercial and research-based instructional materials to build on student strengths and meet identified needs. Crosslisted with: BLED 502.

BLED 513 - GLB/Advanced Sheltered Content Area Instruction
Hours: 3
The course focuses on analysis and application of second language acquisition research, theory, and pedagogical approaches to the teaching of math, science, social studies, and language arts in English to ESL students in K-12. Content-based ESL and sheltered instructional approaches, methods, and materials that meet state and local standards will be among those explored and experienced. Crosslisted with: BLED 503.

BLED 529 - GLB/Workshop:Bilingual/ESL Education
Hours: 3
Six semester hours may be applied to a graduate degree when topics vary. May be graded on a Satisfactory (S) or Unsatisfactory (U) basis.

BLED 589 - Independent Study
Hours: 0-4
Independent Study

BLED 597 - Special Topics
Hours: 0-4
Special Topics

BLED 602 - Advanced English & Spanish Academic Language Development for Emergent Bilinguals
Hours: 3
This course is designed for bilingual educators who work with bilingual education programs as teachers, instructional specialists, or administrators. Analysis and application of research-based approaches to oral and written language (English and Spanish) development for K-12 students who are becoming bilingual and biliterate. Creation, formal presentation, and evaluation of Spanish language arts instruction to native speakers of Spanish and of English language instruction to students not yet proficient in English. Advanced Spanish proficiency required. Prerequisites: Doctoral level standing or consent of the instructor. Advanced Spanish proficiency. Crosslisted with: BLED 612.

BLED 603 - Advanced Content Area Instruction for Emergent Bilinguals
Hours: 3
This course is designed for bilingual educators who work with bilingual education programs as teachers, instructional specialists, or administrators. Analysis and application of second language acquisition research, theory, and pedagogical approaches to the teaching of language arts, math, science and social studies in English and Spanish to K-12 students who are becoming bilingual and biliterate. Creation, formal presentation, and evaluation of culturally responsive content area instruction delivered in Spanish and in English using sheltered instruction approaches. Advanced Spanish proficiency required. Prerequisites: Doctoral level standing or consent of the instructor. Advanced Spanish proficiency. Crosslisted with: BLED 613.

BLED 604 - Effective Instructional Technologies for English Learners
Hours: 3
Application of knowledge of current educational technologies that meet the linguistic, cultural and informational needs of English learners. Students will incorporate videos, podcasts and more into websites designed to fit their needs and address their strengths and interests. Prerequisites: Doctoral level standing or consent of the instructor. Crosslisted with: BLED 504.
BLED 605 - Project/Problem-Based Learning for Accelerating ELL Achievement  
Hours: 3  
Both Project-Based and Problem-Based Learning build on student strengths and interests as they stimulate curiosity and motivate students to find  
answers for complex issues. Problem-Based Learning is aligned with Critical Pedagogy approaches as students to identify significant real world  
problems and seek multiple solutions. Students will identify and evaluate PBL models and create long-term, cross-disciplinary PBL plans that work for  
linguistically and culturally diverse learners in bilingual, ESL, and general education classrooms. Prerequisites: Doctoral level standing or consent of the  
instructor. Crosslisted with: BLED 505.

BLED 610 - Valid Assessment & Accountability for English Learners  
Hours: 3  
This course is designed for bilingual and ESL educators who work with bilingual and ESL programs as teachers, instructional specialists or  
administrators. Selection, evaluation and design of means for assessing the oral and written language proficiencies and academic achievement of  
English Learners (ELs). Critical review of standardized tests and their usage in state-mandated accountability systems and authentic assessment  
techniques and instruments, consideration of relationships between L1 and L2 proficiencies and academic achievement, and sociocultural dimensions of  
testing and assessment. Prerequisites: Doctoral level standing or consent of the instructor. Crosslisted with: BLED 510.

BLED 612 - Advanced English Academic Language Development for English Language Learners  
Hours: 3  
This course is designed for ESL educators who work with ESL programs as teachers, instructional specialists, or administrators. Analysis and  
application of research-based approaches to oral and written English language development for K-12 ESL students. Creation, formal presentation,  
and evaluation of English language instruction to students not yet proficient in English. No Spanish proficiency required. Prerequisites: Doctoral level  
standing or consent of the instructor. Crosslisted with: BLED 602.

BLED 613 - Advanced Sheltered Content Area Instruction for English Language Learners  
Hours: 3  
This course is designed for ESL educators who work with ESL programs as teachers, instructional specialists or administrators. Analysis and application  
of second language acquisition research, theory, and pedagogical approaches to the teaching of language arts, math, science and social studies in  
English to K-12 students who are native speakers of multiple languages other than English. Creation, formal presentation, and evaluation of culturally  
responsive content area instruction delivered in English using sheltered instruction approaches. No Spanish proficiency required. Prerequisites: Doctoral  
level standing or consent of the instructor. Crosslisted with: BLED 603.

BLED 690 - Seminar in Bilingual/ESL Education  
Hours: 3  
Seminar in Bilingual/ESL (English as a Second Language) Education In depth analysis of major topics of critical concern to the profession. Nine  
semester hours may be applied to a doctoral degree when topics vary. Prerequisite: Doctoral level standing or consent of the instructor.

Biological Sciences Courses

BSC 500 - Graduate Seminar  
Hours: 1  
Graduate Seminar. One semester hour. Discussions and presentations of issues of current interest in the biological sciences and of related career  
opportunities. Prerequisite: Graduate standing.

BSC 504 - Quantitative Biology  
Hours: 3  
Advanced Quantitative Biology - Three semester hours The objective of this course is to provide students with the knowledge and understanding of the  
methods of statistical analysis applicable to biological research. Emphasis will be placed on the concepts and application of statistical thinking. Basic  
probability theory, parametric and non-parametric statistics including t-test, analysis of variance, correlation, simple linear regression will be reviewed.  
Advanced statistical methods including multiple regression, logistic regression, model selection and other quantitative methods will be introduced.  
Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor.

BSC 505 - Methods in Field Ecology  
Hours: 3  
Methods in Field Ecology. Three semester hours. A study of advanced contemporary knowledge in field ecology. Prerequisite: An undergraduate degree  
in Biology, Wildlife, or related discipline or permission from instructor

BSC 509 - Microbial Ecology  
Hours: 3  
Microbial Ecology. Three Semester Hours. This course is designed to provide in-depth understanding of the interrelationship between microorganisms  
and their living (biotic) and nonliving (abiotic) environments. The comprehensive understanding will help students evaluating and creating a holistic  
approach to sustainable environmental quality as all living organisms interplay to maintain ecological balance. The term “microbial ecology” came into  
frequent use only in the early 1960s. The current popularity of microbial ecology and the rapid development of this field are reflective of public interest in  
ecology and the scientific recognition of the essential roles of microorganisms in ecosystems.
BSC 510 - Community Ecology  
Hours: 3  
Community Ecology - Three semester hours Community ecology is the study of biotic interactions in plant and animal assemblages. This course begins with a description of community types. More detailed material follows: competition and ecological niche, predator-prey interactions, food webs, habitat selection, and diversity. The material is supported by numerous examples from models and experimental studies.

BSC 511 - Advanced Ornithology  
Hours: 3  
Advanced Ornithology - Three semester hours This course looks at current research in the areas of avian evolution, systematics, foraging ecology, mate choice, mating systems, and reproductive behavior and ecology. Prerequisites: undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor

BSC 512 - Ecological Genetics  
Hours: 3  
Ecological Genetics. Three semester hours. Ecological genetics is a study of the genetic processes that occur within and among populations and which contribute to population differentiation and microevolution. Topics covered include measures of genetic variation, genetic drift, natural selection and adaptation, phenotypic evolution, the evolution of life histories, sex and reproductive success. Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor

BSC 513 - Molecular Genetics  
Hours: 3  
This course is designed for students with a thorough background in biology and cell biology. This course provides students with an in-depth investigation into the development of gene concepts and practical application of genetic study and hereditary disease. Following a brief review of DNA structure, function, nature of genes and mendelian genetics, an extension of mendelian analysis is explored. Emphasis will be placed on eukaryotic gene mapping, recombinant DNA technology and practical applications. Next, comprehension of genetic mutations at the nucleotide, and chromosomal level is sought in the context of aging and human disease. Students are expected to gain an in-depth understanding of basic principles and concepts. Prerequisites: An undergraduate degree in Biology or related discipline or permission from instructor.

BSC 514 - Pharmacology  
Hours: 3  
Pharmacology - Principles and Practice - Three semester hours This course is designed for graduate students with a thorough background in biology and cell biology. Therefore, this course provides students with a greater understanding of general concepts of pharmacology. Specific drugs and sites of drug action are examined beginning with the peripheral, followed by the central nervous system. We then will focus on the pharmacology of the endocrine system and conclude with drugs affecting the immune system. Emphasis will be distribution, metabolism and transport as well excretion of drugs. In each system pharmacological effects, cautions and contraindications are discussed. Clinical indications and hypothetical scenarios are discussed. Students are expected to gain an in-depth understanding of basic principles and concepts of drugs at the molecular levels, to learn to reason scientifically, and to understand and describe the cooperative function of pharmacology in body systems. Prerequisites: An undergraduate degree in Biology or related discipline or permission from instructor

BSC 515 - Adv Cell Biology  
Hours: 3  
Advanced Cell Biology - Three semester hours This course is designed for graduate students with a thorough background in biology and cell biology. Therefore, this course provides students with a greater understanding of molecular mechanisms of cellular function. Emphasis will be placed on internal organization of the cell. Students are expected to gain an in-depth understand of basic principles and concepts of eukaryotic cells at the molecular levels, to learn to reason scientifically, and to understand and describe the cooperative function of organelles in the specialized cells. Prerequisite: An undergraduate degree in Biology or related discipline or permission from instructor

BSC 516 - Medical Microbiology  
Hours: 3  
Medical Microbiology. Three semester hours. This is a course for biology graduate students designed to provide knowledge of pathogenic microorganisms and infections and to help students develop a means of analyzing the nature of infectious diseases. Specific topics covered during this class include pathogenic microorganisms, diagnostic procedures, infection control & treatment, and emerging diseases. This course will focus on the pathogenic mechanisms of microorganisms aided with corresponding individual case studies of diseases in order to foster critical thinking and problem solving techniques. Prerequisite: Graduate standing. An undergraduate degree in Biology or related discipline or permission from instructor. Prerequisites: Graduate standing, An undergraduate degree in Biology or related discipline or permission from instructor

BSC 517 - GLB/Stem Cell Biology  
Hours: 3  
This course will provide students with an in-depth account of stem cell biology, various forms of stem cells and their application to regenerative medicine. Special reference will be made to molecular, epigenetic, and genetic control of stem cell differentiation and specializations. Existing and potential clinical use of stem cells, its derivatives, and induced pluripotent stem cells also will be discussed. Since this is rapidly developing field with sweeping social implications, strong emphasis will be placed on understanding the current controversies surrounding stem cell research.
BSC 518 - Thesis
Hours: 3-6
Thesis. Six semester hours. A problem is chosen in the student's major field of interest with approval of the major professor. No credit is given until an acceptable thesis is completed. Prerequisite: Graduate standing.

BSC 519 - Advanced Gene Regulation
Hours: 3
Advanced Gene Regulation - Three semester hours This course will provide a rigorous and advanced knowledge in regulation of gene expression so that students will be ready for Ph.D. level courses. This course will emphasize the molecular biology gene expression in eukaryotes. Based on the review of the seminal works in gene regulation, presentations and discussions, this course will familiarize the student with current technology and driving principles of the field of gene regulation.

BSC 520 - Advanced Immunology
Hours: 3
Advanced Immunology - Three semester hours This course is designed for graduate students with a thorough background in biology and cell biology. Therefore, this course provides students with a review of basic immunological principles and the generation of immune responses. Emphasis will be placed on human physiology and the cooperative interplay between innate and acquired immunity. An in-depth view of the immune system will be sought in the context of immune effector mechanisms as well as the immune system in health and disease. Principles and applications of antibody-antigen interactions will also be discussed. Students are expected to learn the principles and concepts of immunology both at the molecular and cellular levels, to learn to reason scientifically, and to understand and describe the function of immune systems in the human body. Prerequisites: An undergraduate degree in Biology or related discipline or permission from instructor.

BSC 521 - Epigenetics
Hours: 3
Epigenetics - Three semester hours This course will provide students with a rigorous foundation in epigenetics and epigenomics. This course will emphasize the epigenetic process of gene regulation, its involvement in disease processes, therapies and recent advances in assessing epigenetic changes. Based on the review of the seminal works in epigenetics course will familiarize the student with current technology and driving principles of the field of epigenetics.

BSC 522 - Reproductive Physiology
Hours: 3
Students will acquire familiarity with the vocabulary of reproductive physiology. Gain a fundamental understanding of the basic biological aspects of animal reproductive anatomy, physiology and endocrinology. Understand sexual determination and differentiation. Understand the cellular and molecular mechanisms controlling Reproduction. Understand the comparative differences and similarities among several mammalian species.

BSC 523 - Vertebrate Endocrinology
Hours: 3
Introduces graduate students to programming business applications in the large enterprise system environment. Programming logic and design, documentation, debugging and testing.

BSC 524 - Endocrine Toxicology
Hours: 3
The course incorporates the study of basic endocrine functions and how these functions may be impaired or altered by environmental chemicals. It considers endocrine organs, including the pituitary, thyroid, parathyroids, adrenals, testes, ovaries and the pancreas as toxicological targets of environmental endocrine disruptors as well as the consequences of target organ changes on other body systems. In addition, the course reviews evidence of environmental endocrine disruption in fish and wildlife, and its relevance to human health. Prerequisites: Graduate Standing. Prerequisite: An undergraduate degree in Biology or related discipline or permission from instructor.

BSC 525 - Advance Neuroscience
Hours: 3
Advanced Neuroscience - Three semester hours This course is designed for graduate students with a thorough background in biology and cell biology. Therefore, this course provides students with a greater understanding of molecular, developmental, and network mechanisms of neuronal function. Emphasis will be placed on molecular and cellular components of neurons at their most basic level as well as cognitive development & aging. Students are expected to gain an in-depth understand of basic principles and concepts of neurons at the molecular levels, to learn to reason scientifically, and to understand and describe the cooperative function of organelles in the specialized cells. Prerequisite: An undergraduate degree in Biology or related discipline or permission from instructor.
BSC 526 - Developmental Biology
Hours: 3
This course is intended for master’s level students who understand genetics and cell biology/biochemistry. This course examines the molecular mechanisms of development covering fertilization through senescence. It is organized around an in depth analysis and careful reading of primary research papers taken from the current literature. Topics vary but include events in early embryogenesis such as fertilization, embryonic stem cells, gastrulation and layer determination, and axis formation. Later events in embryogenesis covered include tissue specific stem cells, digit formation, cell differentiation, muscle formation, neural development, and synapse formation. Postembryonic development includes studies on hormonal regulation, aging, and senescence. A variety of organisms are introduced, with common mechanisms of development emphasized. Prerequisite: An undergraduate degree in Biology or related discipline or permission from instructor.

BSC 527 - Human Physiology
Hours: 3
Human Physiology - Three semester hours. This advanced course focuses on human physiology. It provides a comprehensive understanding of how each organ/tissue works down to the cellular level and what role(s) each organ system plays in maintaining homeostasis. This information is then used to solve case studies involving human physiology.

BSC 528 - Case Studies in Endocrinology
Hours: 3
Case Studies in Endocrinology (Three semester hours). This advanced course in physiology focuses on the human endocrine (hormonal) system. Students will learn how to differentiate between endocrine, paracrine, and autocrine systems and they will understand the major mechanisms of action of peptides, steroid, and thyroid hormones. The course materials will allow students to compare and contrast hormone actions exerted via plasma membrane receptors with those mediated via intracellular receptors. Other topics include the role of hormone-binding proteins, feedback control mechanisms of hormone secretion, the effects of secretion, degradation, and excretion on plasma hormone concentrations and hormone measurements (eg, radioimmunounassay, immunometric assay) and their interpretation.

BSC 529 - Workshop
Hours: 3
Workshop - Three semester hours Topics may vary

BSC 530 - Virology
Hours: 3
Virology - Three semester hours An advanced detailed study of contemporary knowledge of virology. Prerequisite: An undergraduate degree in Biology or related discipline or permission from instructor.

BSC 531 - Biogeography
Hours: 3
Biogeography - Three semester hours Biogeography is the study of the geological, evolutionary, and ecological processes that have resulted in the geographic patterns of biodiversity that we see today. This course provides a comprehensive overview of this most fascinating subject. The material begins with an overview of ecological communities and the geographic patterns of biodiversity. It then follows with coverage of the interactions of geological and evolutionary histories and ends with a brief discussion of on-going human impacts.

Hours: 3
Advanced Behavioral Ecology - Three semester hours Behavioral ecology is the study of the adaptive value of behavior in its ecological context. This course looks at current research in the areas of foraging ecology, mate choice, mating systems, reproductive behavior and ecology, decision making, game theory and optimality in animals. Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor.

BSC 533 - Invertebrate Zoology
Hours: 3
Invertebrate Zoology. Three semester hours. A study of advanced contemporary knowledge in invertebrate zoology. Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor.

BSC 534 - Vertebrate Zoology
Hours: 3
Vertebrate Zoology. Three semester hours. A study of advanced contemporary knowledge in vertebrate zoology. Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor.

BSC 535 - Evolution
Hours: 3
Evolution. Three semester hours. This course deals primarily with macroevolution. Topics include models of gene flow, agents of evolution, natural selection, isolating mechanisms, geographic variation, phylogenetics, the fossil record, the species concept and speciation, adaptation and the evolution of morphological traits. Prerequisite: An undergraduate degree in Biology, Wildlife, or related discipline or permission from instructor.
BSC 536 - Plant Diversity & Conservation
Hours: 3
Plant Diversity and Conservation. Three semester hours. An advanced study of plant diversity and conservation strategies at the species, population and landscape levels. Prerequisites: BSC 307.

BSC 537 - Behavior and Conservation
Hours: 3
The Role of Animal Behavior in Conservation Biology - Three semester hours This course begins with a brief description of the principles of animal behavior and behavioral ecology. It then focuses on how a consideration of animal behavior affects the design and effectiveness of conservation programs.

BSC 538 - Respiratory Physiology
Hours: 3
Respiratory Physiology (Three Semester Hours). This is an advanced course in respiratory physiology. Courses topics include detailed examinations of pulmonary ventilation, alveolar ventilation, pulmonary circulation, pulmonary gas exchange, oxygen and carbon dioxide transport, respiratory control, and non-respiratory lung functions.

BSC 539 - Herpetology
Hours: 3
An investigation of the study of amphibians and reptiles, with emphasis on diversity, evolution, and natural history of extant groups. Current controversies, conservation, and behavior will be topics of note.

BSC 540 - Animal Behavior
Hours: 3
An investigation of the principles of animal behavior with an emphasis on evolution and the proximate and ultimate causes of behavior. Aspects of methods of observations, physiology and development of behavior, instinct and learning, and modern cognitive ethology will be addressed.

BSC 541 - Genetic Engineering
Hours: 3
This course will provide graduate students with basics and applied aspects of genetic engineering. The course is organized into three parts. Part I of the course will introduce the field of genetic engineering and provide basics of cell and molecular biology, the scientific driver of genetic engineering. Part II discusses the methodologies and principles of recombinant DNA technology and strategies for gene manipulation. In Part III, applications and use of genetic engineering. Since this is rapidly developing field with sweeping social implications, ethics surrounding recombinant DNA technology will be discussed. Prerequisites: An undergraduate level course in Cell Biology, Genetics, Biochemistry, or Molecular Biology.

BSC 542 - Reproductive Physiology
Hours: 3
This graduate level course is designed for students interested in advancing their contemporary knowledge in reproductive physiology. In addition to exploring basic human reproductive physiology, the course includes current topics such as reproductive aging, hormone therapies, fertility studies and treatments, sexual behavior, and the latest issues related to pregnancy as well as contraception. The study of human reproductive physiology is supplemented by review of primary research literature in alternative vertebrate models. Prerequisites: Graduate student status.

BSC 550 - Microbial Physiology
Hours: 3
Microbial Physiology. Three Semester Hours. This is an advanced microbiology course designed for graduate students majoring in biology. Microbial physiology is a study of the cell structure, growth factors, metabolism and genetic composition of microorganisms and the interrelatedness of microbiology, biochemistry, and genetics in the context of a functional bacterial cell. This course provides a survey of microbial physiology with emphasis on metabolism, regulation, cell walls, membranes, ecology, and adaptation to extreme environments.

BSC 551 - Ecophysiology
Hours: 3
Ecophysiology. Three Semester Hours. A study of physiological adjustments made by animals to changes in their external environment. The topics include fundamental mechanisms of adaptation, central issues in comparative physiology such as water balance, osmoregulation, metabolism and energy supply, respiration and circulation, temperature and its effects, excitable tissues as well as hormonal and chemical controls that allow adjustments in the changing aquatic and terrestrial environments.

BSC 552 - Comparative Animal Physiology
Hours: 3
Comparative Animal Physiology. Three Semester Hours. A comparative study of the general principles of organismal function in terms of similarities that exist between very different animals and the exceptions to the general rules. The focus will be on understanding how whole animals, both invertebrates and vertebrates, solve particular challenges of living in different habitats.
BSC 560 - Landscape Ecology
Hours: 3
Students will study the relationships between ecological processes in the environment and particular ecosystems using a variety of landscape scales, development of spatial patterns, and organizational levels of research and policy.

BSC 561 - Bioremediation
Hours: 3
Students will study the use of either naturally occurring or deliberately introduced microorganisms or other forms of life to consume and break down environmental pollutants, in order to clean up a polluted site.

BSC 562 - Ecotoxicology
Hours: 3
Students will study the effects of toxic chemicals on biological organisms, especially at the population, community, ecosystem level. Ecotoxicology is a multidisciplinary field, which integrates toxicology and ecology.

BSC 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

BSC 595 - Research Literature and Techniques
Hours: 3
Research Literature and Techniques.

BSC 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Business Administration Courses

BA 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

BA 597 - Special Topics
Hours: 3
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Business Analytics Courses

BUSA 501 - Intro to Business Analytics
Hours: 3
This course is designed to provide students with a general understanding of the role of big data and business analytics in today’s dynamic organizational environment. Graduate students will learn the process of analyzing big data and discovering new information to support management decision making. Students will learn how business analytics can be leveraged by organizations to gain competitive advantage.

BUSA 511 - Business Analytics for Managers
Hours: 3
This course provides students an opportunity to understand the underlying framework of business analytics, the role of big data in today’s dynamic organizational environment and using analytical models in business operations and decision making. Through a combination of lectures and business case studies (using SAP®), graduate students will learn how big data can support manager’s decision making and how business analytics can be leveraged by organizations to gain a competitive advantage. The case studies explored will illustrate how companies take advantage of different sources of data with different analytical techniques to improve performance, gain an understanding of optimizing results for better decisions, and employing analytical methods to translate data into key insights.

BUSA 516 - Mobile Business
Hours: 3
This course covers mobile apps development, the management of mobile solutions and mobile analytics for decision makers.
BUSA 521 - Project Management
Hours: 3
This course addresses problem-solving of complex projects where the use of data driven analytical skills yields real-world experience. As a team, students will be given the context of a business situation, and then asked to identify relevant tools and analytic frameworks to gain both insights into past and present operations, as well as predictions of future performance. Topics include but are not limited to resource management (time, money, and people), change management, quality control, risk management, leadership, and communication. Prerequisites: Must be taken in last semester. All core courses must be completed, ECO 595, ECO 578, MKT 572, BUSA 542, BUSA 526, BUSA 532, BUSA 537.

BUSA 523 - Business Analytics Programming
Hours: 3
Introduces graduate students to programming business applications in the large enterprise system environment. Programming logic and design, documentation, debugging and testing. Prerequisites: BUSA 501 and BUSA 526.

BUSA 526 - Database Management
Hours: 3
This course provides a foundation for the design, implementation, and management of database systems. Students will study both design and implementation issues with an emphasis on database management issues.

BUSA 530 - Informatics in Health Care
Hours: 3
This course focuses on the application of computer technology to healthcare management of individuals and groups, with recognition of the social, ethical, and legal issues involved. Available resources useful in patient care and educational settings are emphasized. The opportunity for application of specific concepts is provided. Prerequisites: BUSA 501, BUSA 526. Crosslisted with: NURS 5308.

BUSA 532 - Data Warehousing
Hours: 3
This course covers the fundamentals of data warehousing architecture and the issues involved in how IT tools and techniques can allow managers to extract analytics and patterns from numeric data. Specific topics covered include the logical design of a data warehouse, the data staging area and extract-transform-load processing, the use of multi-dimensional analysis using OLAP techniques, and other techniques. The course will explore how to support informed decision making and extract predictive analytics and patterns from nonnumeric data by leveraging tools and techniques to analyze unstructured data. Prerequisites: BUSA 526.

BUSA 533 - Cyber Security and IT Auditing
Hours: 3
An examination of the technical and managerial aspects of Cyber Security and IT Auditing nature of the course. An IT audit is the examination and evaluation of an organization's information technology infrastructure, policies and operations which is critical to understanding cyber security and assurance. This course provides the foundation for understanding the key issues associated with protecting information assets, identifying threats to information assets and planning responses to threats. Addresses the use of analytics tools and techniques to enhance the ability of quality management approaches to improve information and security processes. Prerequisites: BUSA 526.

BUSA 536 - Mobile Security Intelligence
Hours: 3
This course provides an in-depth technical overview of the security features and limitations of modern mobile operating systems. Special emphasis will be placed on implementing security measures against the top mobile device risks and vulnerabilities. Prerequisites: BUSA 501, BUSA 526.

BUSA 537 - Advanced Analytics
Hours: 3
This course covers the application of advanced predictive analytical techniques to analyze and map non-traditional data such as text and graphics. This course exposes students to model situations where uncertainty is a major factor. Models include decision trees, queuing theory, Monte Carlo simulation, discrete event simulation, and stochastic optimization, and other techniques such as linear, nonlinear, and integer programming, network models, and an introduction to metaheuristics. Prerequisites: ECO 578, MKT 572, BUSA 542.

BUSA 539 - Cyber Forensics and Information Security Policy Governance
Hours: 3
This course provides a foundation in the use of cyber forensic tools and procedures necessary to collect and analyze digital information that might be used in administrative, civil or criminal cases. Special emphasis will be placed upon ensuring that organizational information security policies meet all applicable laws and regulation requirements. Prerequisites: BUSA 501, BUSA 526.

BUSA 541 - Global Network Design
Hours: 3
This course teaches students the core modules such as logistics and customer relationship management in enterprise resources planning activities. The course introduces modern quality management approaches including Six Sigma. Students learn global supply chain system design and implementation techniques and practices through class discussions and case analyses.
BUSA 542 - Applied Decision Modeling
Hours: 3
This course covers the development, implementation, and utilization of business models for managerial decision making. Discovered patterns, relationships and statistical findings from Data Mining efforts are often used as input in these mathematical models which are implemented in decision support systems. Students will learn techniques for analytical modeling including decision analysis, optimization and simulation. Examples are introduced that cover applications in strategic planning, financial management, operations, project management, and marketing research. Prerequisites: BUSA 526. Crosslisted with: BUSA 424.

BUSA 580 - Internship in Business Analytics - BUSA
Hours: 0-4
The goal of this course is to gain relevant work experience in the student's field of study by developing specific work related skills to improve marketability upon graduation. Students will also build a "network" of professional contacts. Prerequisites: Departmental approval.

BUSA 589 - Independent Study
Hours: 0-4
One to four individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites: Consent of department head.

BUSA 597 - Special Topic
Hours: 3
Special Topics. One to three semester hours. Organized class. May be repeated when topics vary.

Chemistry Courses

CHEM 501 - Graduate Seminar
Hours: 1
Graduate Seminar. One semester hour. Students' presentations of research articles from recent chemical journals and guest speakers' lectures on their research, with discussion. Students meet with guest speakers to learn about employment and other professional opportunities. Crosslisted with: CHEM 401.

CHEM 502 - Safety in the Chemical Laboratory
Hours: 1-3
An introduction to the safety problems encountered in the operation of the chemical laboratory. Topics include types of hazardous materials, proper storage procedures, causes of accidents, identification and minimization of laboratory hazards, proper utilization of safety devices, emergency procedures and review of safety codes.

CHEM 503 - Advanced Chemistry Survey I
Hours: 4
This is the first part of two course series to increase the knowledge of students pursuing a masters in chemistry who lack training in traditional upper level chemistry courses.

CHEM 504 - Advanced Chemistry Survey II
Hours: 4
This is the second part of a two course series to increase the knowledge of students pursuing a masters in chemistry who lack training in traditional upper level chemistry courses.

CHEM 513 - Organic Mechanisms & Structure
Hours: 3
A study of the fundamental mechanisms of organic reactions with emphasis on the effects of structural and stereochemical changes on the course of reactions. Prerequisites: Consent of instructor.

CHEM 514 - Biochemistry
Hours: 3
This is a one-semester graduate-level course in biochemistry that will develop mastery in the nomenclature and function of the major classes of molecules associated with living organisms. The subject matter is appropriate to prepare students for doctoral programs in chemistry or biochemistry. Prerequisites: Consent of instructor.

CHEM 515 - Synthetic Organic Transformations
Hours: 3
Synthetic Organic Transformations. Three semester hours. Chemical and biochemical methods for transforming and synthesizing organic chemical compounds, including bioactive agents and pharmaceuticals. As the subject changes, the course may be taken twice, with department head and instructor's approval. Prerequisites: consent of the instructor.
CHEM 518 - Thesis
Hours: 1-6
Thesis. Three to six semester hours. Graded on a (S) satisfactory or (U) unsatisfactory basis.

CHEM 521 - Chemical Thermodynamics
Hours: 3
An advanced study of the theories and applications of classical thermodynamic functions.

CHEM 522 - Quantum Chemistry
Hours: 3
Quantum Chemistry. Three semester hours. A study of the mathematical aspects of quantum mechanics including blackbody radiation, fundamental postulates, rotation, vibration, hydrogen atom, variational calculation, pertubational calculation, electron spin, chemical bonding, and spectroscopy.

CHEM 523 - Mathematical Methods in Chemistry
Hours: 3
Mathematical Methods in Chemistry. Three semester hours. Mathematical methods and their utility in the various fields of chemistry will be covered. As the subject matter changes, the course may be repeated up to two times with department head approval. Prerequisites: Consent of the department head.

CHEM 527 - Chemical and Biochemical Characterization Methods I
Hours: 3
Chemical and Biochemical Characterization Methods I. Three semester hours. Methods for purifying, identifying and characterizing chemical and biochemical compounds. Use of spectroscopic, diffraction, and chromatographic methods, especially those utilized in research. As the subject changes, the course may be repeated for credit.

CHEM 528 - Chem Biochem Charact II
Hours: 3
The course focuses on the instrumentation methods covered by CHEM 527. It includes the method development of the software and detailed understanding of the hardware components and their modifications to meet various application needs.

CHEM 529 - Workshop in Chemistry
Hours: 3-6
For current and future teachers of chemistry and other sciences. Depending on the subject and students' needs, this course consists of lectures or lectures and laboratory. As the subject changes, the course may be taken repeatedly, but the maximum total credit is six semester hours. Prerequisites: department head's consent.

CHEM 531 - Advanced Inorganic Chem
Hours: 3
A study of the application of modern concepts of bonding and energetics to problems of the structure and reactions of inorganic compounds.

CHEM 533 - Kinetics and Mechanism
Hours: 3
Chemical Kinetics and Mechanism. Three semester hours. Principles and methods of chemical kinetics and study of reaction mechanisms in organic, inorganic, and biological chemistry. As the subject changes, the course may be taken twice, with department head's permission.

CHEM 536 - Organometallic Chemistry
Hours: 3
Organometallic Chemistry. Three semester hours. Synthesis, structure, reactivity, and other properties of compounds containing metal-carbon bonds. Application of organometallics in synthesis, catalysis, and industrial processes. As the subject changes, the course may be taken twice, with department head's approval.

CHEM 541 - Adv Analytical Chemistry
Hours: 3
Advanced Analytical Chemistry. Three semester hours. Theoretical principles of analytical chemistry and their applications.

CHEM 547 - Advanced Instrumental Analysis I
Hours: 3
Principles and techniques of analytical chemistry will be covered. As the subject matter changes, the course may be repeated up to two times with department head approval.
CHEM 548 - Advanced Instrumental Analysis II
Hours: 3
Advanced Instrumental Analysis II. Three semester hours. The course extends the coverage of instruments not covered by CHEM 547. It includes methods of development of the software and detailed understanding of the hardware components and their modifications to meet various application needs.

CHEM 581 - Nuclear Science
Hours: 3
Nuclear Science. Three semester hours. Principles of nuclear reactions, nuclear decay laws, nuclear structure, and radiochemical techniques will be covered. This course is designed for advanced study in nuclear science. Prerequisite: Consent of the instructor.

CHEM 589 - Independent Studies
Hours: 1-4
Independent Studies. Assigned reading or assigned original research project, which the student does under the guidance of a faculty member. Students in option I may take this course in addition to CHEM 518. Students in option II may take this course to improve their qualifications and career prospects. May be repeated once, for work on the same project. Prerequisites: More than two complete semesters of graduate study, instructor's approval, and department head's consent.

CHEM 595 - Research Lit & Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. Option-II students learn about current research by studying assigned articles in primary literature and preparing a scholarly review of primary literature or doing a smaller research project. Option-I students take CHEM 518 instead. Prerequisites: more than two semesters of graduate study, approval by the students advising professor, and consent of the department head.

CHEM 597 - Special Topics
Hours: 1-4

College of Ed & Human Services Courses

CED 589 - Independent Study
Hours: 1-4
Independent Study - Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

CED 597 - Special Topics
Hours: 1-4
Hours: One to four - Organized class Note May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary

CED 610 - Intro to Grad Statistics
Hours: 3
Introduction to Graduate Statistics Course provides an introduction to statistical methods. It will include a basic introduction to research design, The use of SPSS will be integrated into the course. Content will include populations and samples, organizing and displaying data, probability, normal distribution, tests of significance, correlation and simple regression, Z and T test and Chi Square test. The course meets the requirements for a Level II research tool course

CED 611 - Intermediate Grad Stat
Hours: 3
Intermediate Graduate Statistics - Three semester hours This course is a 3 hour lecture class. The prerequisite is CED 610 or an equivalent introductory graduate course in statistics. This course provides additional training in statistics. It will cover basic statistical concepts of validity and reliability. It will include instruction in using and interpreting tests of statistical tests including: advanced correlational methods, multiple regression, t-tests, ANOVA, two-way factorial ANOVA, and selected nonparametric tests. The use of SPSS will be integrated into the course. Prerequisites : CED 610

CED 697 - Special Topics
Hours: 1-4
Special Topics

Communication Studies

COMS 589 - Independent Study
Hours: 1-6
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies.
COMS 597 - Special Topics
Hours: 3
Organized class. May be repeated when topics vary

Computer Science and Information Systems Courses

CSCI 505 - Internship
Hours: 3
This course gives students the opportunity to earn credit while obtaining valuable working experience. This course is offered to students who have obtained an internship with a company or organization that employs personnel with computer science and information technology skills. Students are supervised by the employer and by Computer Science faculty.

CSCI 507 - Computational Science Internship Practicum
Hours: 3
This course is mandatory for non-thesis students. Students learn how to analyze an interdisciplinary scientific problem, how to identify and define the computing requirements, and how to apply appropriate tools of computing toward its solution. Students earn course credit while obtaining valuable working experience by working for a company, or a faculty member performing tasks that require computational science skills. Students are aimed to have hands on experience on interdisciplinary scientific problems and develop mathematical models. The structured plan of the course prepares student for work-readiness. The focus of CSCI 507 is to develop initial knowledge, theory, models, and foundation to be used in CSCI 508. Student will submit a written internship report. Prerequisites: CSCI 509, CSCI 502, CSCI 515, CSCI 530, CSCI 532, CSCI 549, and departmental approval.

CSCI 508 - Computational Science Internship
Hours: 3
This course is mandatory for non-thesis students. The Computational Science Internship course is designed to provide students with advanced instruction and professional experience. The internship rules for CSCI 507 also apply to CSCI 508. The focus of CSCI 508 is the applications and practical results based on initial knowledge, theory, models, and foundation developed in CSCI 507. Student will submit a written internship report demonstrating how they practiced scientific methods for project outcome. Prerequisites: CSCI 509, CSCI 502, CSCI 515, CSCI 530, CSCI 532, CSCI 549, and departmental approval.

CSCI 509 - Introduction to Computational Science and Statistics
Hours: 3
This course provides an introduction to computational programming and thinking for research and data scientists. This course uses assignments and simulations in the Python programming language. Concepts such as vectorized and functional programming, issues affecting the creation and use of numerical results for research, the limits of numerical accuracy and an introduction to the Taylor Series will be presented. Reviews of probability and statistics as well as linear algebra are covered in preparation for discussing computational modeling and mathematical simulation techniques: solutions of ordinary differential equations, numerical integration, nonlinear equations, random numbers and Monte Carlo method. Prerequisites: CSCI 515.

CSCI 515 - Fundamentals Of Programming C/C++
Hours: 4
Three hours of lecture and two hours of lab. This is an advanced programming course using a high level programming language. Specific objectives are to introduce the development of algorithms as a disciplined approach to problem solving; to present programming practices in design, decoding, debugging, testing and documentation of computer programs; to provide the student with the basic knowledge necessary for further study in the field of computer science.

CSCI 516 - Fundamental Concepts in Computing and Machine Organization
Hours: 3
Concepts of assembly language programming and machine organization of a modern digital computer are presented. Students will have the opportunity to study machine addressing, stack operations, subroutines, programmed and interrupt driven I/O, machine organization and computer architecture at the register level. Students will utilize the 80x86 instruction set and will perform programming exercises.

CSCI 518 - Thesis
Hours: 3-6
Thesis. Six semester hours.

CSCI 520 - Data Structures and Algorithm Analysis
Hours: 4
Three hours of lecture and two hours of lab. The concept of abstract data structures forms the basis for the study of the data structures introduced in this course. Well known, basic data structures and the algorithms associated with them form the primary subject matter. Knowledge of these basic data structures will allow the student to create large scale programs which process meaningful amounts of data. Comparative efficiency analysis of the algorithms studied in the course will be introduced. The student will also become acquainted with formal methods for specifying abstract data types as well as algorithms. Prerequisites: CSCI 515.
CSCI 524 - Analysis & Design Softwr Sys
Hours: 3
This course will provide the student with the opportunity to experience the several phases of conventional software development. Established software engineering practices will be presented. Various software architectures will be introduced. Each student is expected to fully participate in a team project over the course of the semester. Prerequisites: CSCI 515.

CSCI 525 - Networking I
Hours: 3
This course provides a self-contained overview of computer networking by introducing many key concepts and terminology. In particular, we will study the concepts of computer networks and communication including layered architecture, network application services and domain name resolution, transport layer services and TCP/UDP protocols, network layer forwarding and routing functions and subnet/NAT configurations, and link layer functions with the focus of Ethernet standards.

CSCI 526 - Database Systems
Hours: 3
Basic database concepts, organization, and definitions; data and management systems; data description languages; logical and physical differences of database; indexed and multiple-key organization; relational database concepts and examples; and comparison of database systems.

CSCI 527 - Advanced Databases
Hours: 3
Advanced Databases. Three semester hours. General theory, concept, and techniques related to allow students the design of intelligent databases will be discussed. Other topics to be covered include expert systems, neural networks, hypermedia, and text retrieval. A moderate-size semester project will be assigned to practice the design of an intelligent database. Prerequisite: CSCI 526.

CSCI 528 - Advanced Object-Oriented Programming
Hours: 3
This course investigates object-oriented methods including object-oriented programming, analysis and design. Current methodology is emphasized. The use of object-oriented features such as encapsulation, information hiding, inheritance and polymorphism is reinforced by class assignments and programming exercises. Prerequisites: CSCI 526.

CSCI 530 - Operating Systems
Hours: 3
The course objectives are two-fold: (1) to learn general theory, concept, and techniques related to the design of operating systems; (2) to practice the design of an operating system by performing a design project. The course is basically divided into four sections: Introduction to Operating Systems, Process Management, Storage Management, and UNIX (Shell and Interpreter). Prerequisites: CSCI 515 and CSCI 516.

CSCI 531 - Java Language Programming
Hours: 3
This is a computer programming course designed to teach the use of the Java Programming Language. The course will emphasize Java applets and their use in HTML files as applied to Internet web pages. Students will learn how to write Java applets, how to utilize pre-existing Java controls, and how to write new Java controls. Students will be expected to complete numerous programming assignments and programming projects. Experience with C++ programming language and object oriented methods are required. Prerequisites: CSCI 515.

CSCI 532 - Algorithm Design
Hours: 3
Algorithms, being the foundation of computing, allow us to create well-defined sequences of computational steps in order to solve computational problems – with stipulation on input/output relation, correctly and efficiently within a definite time frame. This course provides a comprehensive introduction to the modern study of computer algorithms. In particular, we will study the design and analysis of algorithms with special emphasis on correctness of algorithms, asymptotic notations, divide-and-conquer, dynamic programming, greedy algorithms, graph algorithms, shortest paths, and selected special topics. Prerequisites: CSCI 515.

CSCI 533 - Applied Computer Algorithms
Hours: 3
This course provides an introduction to the application of design and analysis of algorithms to real-world practical problems. Topics include correctness of algorithms, asymptotic notation, time complexity of algorithms, and NP-completeness. Several algorithm design techniques will be discussed in detail including divide and conquer algorithms, dynamic programming algorithms and greedy algorithms. Algorithms based on these techniques will be studied for solving a wide variety of problems in networks, graph theory, optimization, sorting, string processing, mathematical applications, and other areas. Prerequisites: CSCI 515.
CSCI 534 - Networking II - Routers and Switches  
Hours: 3  
This course instructs students in the detailed operation and configuration of network routers and data communication switches. Topics include the use of routers and switches in a modern digital network, router configuration, switch configuration, and common network security techniques such as Virtual Local Area Networks (VLANs) and Access Control Lists (ACLs). Students will have the opportunity to gain experience in configuring these network devices as they work with routers and switch equipment in the laboratory. Note About 50% of class time will be spent in the CCNA Networking Laboratory. Prerequisites: CSCI 525.

CSCI 538 - Artificial Intelligence  
Hours: 3  
The course will introduce related concepts and techniques to build intelligent systems that aim at acting rationally given perceived and represented knowledge. An overview of artificial intelligence techniques include knowledge representation, problem solving, reasoning, deduction, searching, planning, learning, etc. Advanced topics in application areas, such as natural language processing, computer vision, pattern recognition, and robotics will also be examined. Prerequisites: CSCI 515.

CSCI 540 - Computer Architecture  
Hours: 3  
Computer Architecture. Three semester hours. Introduction to current high level computing machines in both hardware and software design. Topics include the design decisions involved in the development of computer architectures, hardware organizations needed to implement various instructions sets, and future trends in computer architectures. Prerequisites: CSCI 516.

CSCI 543 - UNIX NETWORK ADMINISTRATION  
Hours: 3  
An examination of wide area computer networks (WAN) utilizing current technology. TCP/IP; transmission media; Ethernet; Internetworking (bridges, routers, hubs); WAN network operating systems (UNIX); standard services (FTP, Telnet, etc.); network security, reliability, stability, and design. Prerequisites: CSCI 525.

CSCI 544 - Evolutionary Computation & Genetic Programming  
Hours: 3  
Evolutionary Computation and Genetic Programming - Three semester hours Evolutionary computing is the collective name for a range of problem solving techniques based on principles of biological evolution, such as natural selection and genetic inheritance. These techniques have proven to be particularly successful in many diverse problem domains, ranging from economics and finance, to design and automatic programming. Specific topics addressed include theoretical models of evolutionary computation; search, optimization, and machine learning; evolution of programs; population dynamics; and emergent behavior. Prerequisites: CSCI 525.

CSCI 546 - Numerical Analysis  
Hours: 3  
The course will include numerical methods for derivatives approximation; will teach data approximation and interpolation by Fourier series; Euler’s and Runge-Kutta methods for solving ordinary differential equations (ODE) and systems of ODE. Also, the students will study methods for approximate solution of partial differential equations (PDE), including parabolic PDE. Further, the students will learn how to generalize methods for their computer implementation, and will program the basic methods in MatLab. Prerequisites: CSCI 515 and MATH 2414.

CSCI 548 - Software Testing  
Hours: 3  
This course presents an overview of the principles and practices of software testing. It covers different concepts and techniques on how to test and debug software. Topics include various testing methods such as structural and functional testing; various testing approaches such as unit, integration, regression and system testing. Students will also be introduced to manual and automatic techniques for generating test cases. Prerequisites: CSCI 515.

CSCI 549 - Automata Theory  
Hours: 3  
This course teaches the general theory, concept, and techniques related to the theory of automata. Practical examples related to programming languages are emphasized. Students will have the opportunity to utilize theoretical aspects of automata theory by performing a medium-scale design project. Topics include: Finite Automata, Transition Graphs, Nondeterminism, Finite Automata with Output, Context-Free Grammars, Regular Grammars, Chomsky Normal Form, Pushdown Automata, Context-Free Languages, Non-Context-Free Languages, Parsing, and Turing Machines. Prerequisites: CSCI 515.

CSCI 551 - Compiler Design  
Hours: 3  
This class introduces the fundamental concepts in the design and implementation of a compiler, a computer program that converts one programming language into another. The goal is to familiarize students with the basic structure of a typical modern compiler. A variety of tools such as JFLex, JavaCUP and Jasmin will be introduced and used. Prerequisites: CSCI 515.
CSCI 553 - Networking III-Unix Based Ntwk
Hours: 3
This course is designed to introduce advanced concepts of networking applications of UNIX-based mini and micro based computing environments. The UNIX-model of networking, interprocess communication, and TCP/IP sockets are the major topics to be discussed. A moderate-sized course project involving intensive coding will be implemented to exercise and demonstrate TCP/IP aspects and other networking concepts introduced in class. Prerequisites: CSCI 525.

CSCI 554 - Digital Forensics
Hours: 3
This course presents an overview of the principles and practices of digital investigation. The objective of this class is to emphasize the fundamentals and importance of digital forensics. Students will learn different techniques and procedures that enable them to perform a digital investigation. This course focuses mainly on the analysis of physical storage media and volume analysis. It covers the major phases of digital investigation such as preservation, analysis and acquisition of artifacts that reside in hard disks and random access memory. Prerequisites: CSCI 515.

CSCI 556 - Data Analysis & Visualization
Hours: 3
Big scientific data sets are growing exponentially both in size and complexity. Extracting meaningful information from these data requires not only programming skills, but also understanding the analysis work-flows, mathematical models and visualization tools that help to condense large amounts of information into a comprehensible story. We will introduce standard statistical data analysis and modeling methods such as correlation functions, linear regression, clustering, pattern extraction, classification, data mining, as well as Monte Carlo methods which are commonly used in creating simulations in the computational sciences. Different analysis and visualization packages popular in scientific modeling, analysis, and visualization will be introduced. Prerequisite: CSCI 515.

CSCI 558 - Applied Computational Science
Hours: 3
Applied Computational Science - Three semester hours This course provides an introduction and framework for the Master’s degree in Computational Science program. The course emphasizes the multidisciplinary nature of computational science and provides students with basic tools and concepts needed for the degree program. Three main areas are covered: 1) basic software development, software design and programming skills and high level scientific tools and environments 2) introduction to advanced programming techniques and 3) basic computational modeling and mathematical simulation techniques for industry-oriented solving. Prerequisites: CSCI 509.

CSCI 559 - Software Development for Mobile Devices
Hours: 3
This course introduces development of software applications for network enabled mobile devices including smart phones. Topics include components for graphical user interface, memory management, custom user interface development, touch-based or timer-based event handling, file I/O, animation using 2-D/3-D graphics, audio and video application programming interfaces, Bluetooth applications, client-server models, database access, data storage, marketing research. Object Oriented Programming will be introduced with the Objective–C, Java, or Swift. Prerequisites: CSCI 515.

CSCI 560 - Neural Networks and Deep Learning
Hours: 3
In this course the theory and practice of neural computation for machine learning are introduced. Artificial neural networks are used for many real-world problems: classification, time-series prediction, regression, pattern recognition. The class starts with an introduction to feed forward neural networks. More complicated multi-layered "deep" networks are then covered. Basic backpropagation, gradient descent and modern regularization techniques are implemented in assignments. The class will look at modern deep learning techniques: convolutional neural networks, deep belief networks and deep recurrent neural models such as LSTM nets. Readings and current results from the literature on neural network research will be discussed. Prerequisites: CSCI 574.

CSCI 563 - Information Security
Hours: 3
This course provides an introduction to the study of information security and covers the most important features of computer security. Topics include basic concepts and principles in information security, authentication and access control, operating systems security, software vulnerabilities and threats, database security, and basic cryptography including encryption and key establishment.

CSCI 567 - Image Processing with Elements of Learning
Hours: 3
This class will provide the students with an introduction to image processing, with applications to medical, urban agricultural and satellite images. Students will learn methods for 2D image enhancement, sharpening, blurring, noise detection, modeling and cleaning, as well as edge detection in gray level images. The methods students will be able to implement include local statistics, Laplacian and Gradient operators, Fourier transforms and the Fast Fourier Transform. Further, the class will introduce basic elements of convolutional neural networks to learn noise and its cleaning. At the end of the class the students will know which gray level image methods apply to color images. The students will develop skills in programming, reporting and presenting advanced method from the field. Prerequisites: CSCI 515.
CSCI 568 - Cryptography
Hours: 3
The course begins with some classical cryptanalysis (Vigenere ciphers, etc.). The remainder of the course deals primarily with number-theoretic and/or algebraic public and private key cryptosystems and authentication, including RSA, DES, AES and other block ciphers. Some cryptographic protocols are described as well. Prerequisites: CSCI 515.

CSCI 569 - Image Analysis and Recognition with Learning
Hours: 3
This class will start with a study of the basic color image models. Next, the students will learn how to decompose a function to Wavelets. In the following stage the students will learn the basic methods for image segmentation to objects and background. The students will have a knowledge on image segmentation with active contours using deep learning. Further they will learn about images and objects representation and description. The students will know methods from two major approaches: boundary and regions description. The following methods will be taught from the field of Recognition: Decision making; structural methods; features extraction and classification with convolutional neural networks. The students will develop skills in programming, reporting and presenting advanced method from Prerequisites: CSCI 515.

CSCI 570 - Bioinformatics Algorithms
Hours: 3
DNA and RNA carry the information to regulate processes in living organisms. Bioinformatics is the study of these processes in the view of information processing. The focus of this course is to understand these processes and make use of them with the help of algorithms. This course will include the following topics: Sequencing DNA, finding genes, sequence alignment, identifying proteins, repeat analysis, DNA arrays, genome rearrangements, building phylogenetic trees, RNA structure analysis. Some of the practical questions we address are the following: How do we assemble genomes? How do we compare biological sequences? How do we locate disease-causing mutations? Prerequisites: CSCI 515.

CSCI 571 - Statistics for Scientific Computation and Analysis
Hours: 3
This course provides an introductory framework for the statistical background required for scientific computation and data analysis. The course introduces fundamental statistical concepts such as probability, random variables, probability distributions, statistical expectation, sampling distributions, hypothesis testing, linear regression, correlation, and visualization/plotting of data, with emphasis on applications to scientific computing and computational science problems. Concepts will be reinforced by having students use a statistical/scientific computing & visualization software in order to apply the concepts that they learn by solving problems from various disciplines.

CSCI 572 - Parallel Computing
Hours: 3
(Same as PHYS 572) Computer topologies and networks, programming techniques, and parallel algorithms for multiprocessor and multi-computer systems including microprocessor clusters. Prerequisites: CSCI 515.

CSCI 573 - Big Data Computing and Analytics
Hours: 3
Big Data computing is a new computing paradigm, involving analysis of large quantities of data in industry and science communities. It has led to the development of large distributed systems with thousands of computing servers and disks connected over a high-speed network. For such distributed systems, there are several challenges of performance, scalability, and reliability as well as data storage. The goal of this course is to study modern technologies that are used to construct big-data computing systems and methods and tools for big-data analytics. Topics of interest include big-data computing paradigms, big-data storage, and big-data analytics. Prerequisites: CSCI 515.

CSCI 574 - Machine Learning
Hours: 3
Study of computer algorithms that automatically acquire new knowledge and improve their own performance through experience. Theory and practical implementation of algorithms for machine learning. Topics include linear and logistic regression, artificial neural networks, Bayesian networks and learning, decision trees, kernel / support-vector machines, statistical learning methods, unsupervised learning, reinforcement learning, and other modern, emerging algorithms. Short programming assignments and/or projects with hands-on experiments with various learning algorithms will be given. Prerequisites: CSCI 515.

CSCI 575 - Cyber-physical Systems and Industrial IOT
Hours: 3
This course introduces general and/or advanced topics in Cyber-Physical Systems (CPS) which can be defined as engineered systems that are built from, and depend upon, the seamless integration of computational algorithms and physical components. Topics discussed in the course will include CPS capability, adaptability, scalability, resiliency, safety, security, and usability considerations that will far exceed the simple embedded systems of today. Trustworthy embedded systems connected to the Internet will be introduced in context of Industrial Internet of Things (IIoT). A case study team project provides an opportunity for students to demonstrate their practical CPS and IIoT knowledge using platform software covered in the course. Students will be able to develop a career path upon gradua
CSCI 577 - Computer System Performance Evaluation
Hours: 3
Computer System Performance Evaluation - Three semester hours Operations research is the discipline of applying advanced analytical methods to help make better decisions. It uses mathematical modeling, analysis and optimization to improve our knowledge and efficiency of system and model design. This course introduces methods of analysis of computer system performance. It covers predictive performance models with emphasis on queuing models; exact and appropriate solution methods, discrete-event simulation, and numeric iterative approaches; analytical solutions and their computation; separable queuing networks, decomposition approaches; examples of practical application; and performance measurement, model validation, robustness of models, and operational analysis. Prerequisites: CSCI 515.

CSCI 581 - Network Security
Hours: 3
This course provides key concepts in network security. Topics include overview of TCP/IP networks; cryptography including symmetric/asymmetric ciphers, cryptographic hash functions, message authentication codes, and digital signatures; mutual trust including key distribution and user authentication protocols; network and Internet security; and network system security including firewalls. Prerequisites: CSCI 525.

CSCI 587 - SECURE PROTOCOLS
Hours: 3
Secure Protocols. Three semester hours. This course introduces students to advanced protocols that provide information and communications security. Basic protocol building blocks are discussed. Advanced protocols will be analyzed to determine if they satisfy specific security requirements, to discover security loopholes, and to discuss modifications to remove the loopholes. Prerequisites: CSCI 525.

CSCI 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. No more than three hours of independent study may be counted towards the degree. Prerequisite: Consent of department head and supervising faculty member.

CSCI 595 - Research Lit & Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. A course designed to acquaint the student with the role of research in the initiation, development and modification of concepts and theories in computer science. A final written report and presentation and/or demonstration of results obtained during the course will be made to interested faculty members and students. Prerequisite: Completion of the required core courses.

CSCI 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class in a specialized area of current interest. May be repeated when topics vary.

Counseling Courses

COUN 501 - Introduction to the Counseling Profession
Hours: 3
Recommended as initial course in a student's program to serve as an introduction to the counseling profession. Roles of counselors and related professionals in various settings are presented. Professional goals and objectives, trends, professional associations, ethical and legal issues, history, credentials, and preparation standards for counselors are explored. Corequisites: COUN 510.

COUN 505 - Introduction to College Student Affairs
Hours: 3
Recommended as initial course in a student's program to serve as an introduction to college student development from a Counseling perspective. Roles of related professionals, including counselors, in various settings are presented. Professional goals and objectives; trends; professional associations; ethical and legal issues; history; credentialing; preparation standards; and characteristics, and behaviors that influence helping processes are explored.

COUN 510 - Counseling Theories and Techniques
Hours: 3
A study of the philosophical and theoretical bases of the helping process. Includes study of major counseling theories, basic helping skills, and applications to diverse populations. Also includes professional issues related specifically to the counseling process. Corequisites: COUN 501.

COUN 512 - Career Development
Hours: 3
Career Development. Three semester hours. Interrelationships among lifestyle, work place, and career planning are explored. Career development theories; occupational, educational, and personal/social information sources and delivery systems; and organization of career development programs are studied.
COUN 513 - Communication In Marriage
Hours: 3
Theories and techniques of verbal, and nonverbal communication in the marriage relationship are studied. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 514 - School Counseling and Development
Hours: 3
As the foundation course for those planning to enter school counseling, this course covers organization, planning, management, and evaluation of comprehensive school counseling programs. Appropriate roles and functions of school counselors at various school levels, coordination of professional services; and professional issues such as ethics and associations as they specifically relate to school counseling are included. Recommended for non-counselor educational professionals as well as counselors. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 516 - Basic Counseling Skills
Hours: 3
Provides the foundation for all practicum and internship experiences. Students learn communication and interpersonal skills under faculty supervision. Demonstration of these skills is a prerequisite for enrollment in practicum (COUN 551). Students will examine their intrapersonal issues and interpersonal styles and will follow ACA Ethical Standards. Prerequisites: Application form returned to department during semester before actual enrollment in this course (check department for availability and due dates), COUN 501 and COUN 510 completed with minimum grade of B in each. Corequisites: COUN 528.

COUN 517 - Assessment in Counseling
Hours: 3
Assessment in Counseling. Three semester hours. Includes group and individual appraisal techniques to be used to support career, educational, and personal planning and development. Standardized and non-standardized data information gathering methods, validity, reliability, psychometric statistics, factors influencing appraisals, and use and interpretation of appraisal results with a variety of populations are explored.

COUN 520 - Advanced School Counseling
Hours: 3
This course is designed to support further understanding of how to implement a comprehensive developmental school counseling program. Furthermore, this course thoroughly examines specialized topics related to school counseling. Through the course, students are taught models that can be applied in real life situations. They are also encouraged to develop their own models for practical application. This course is a required course for all professional school counseling graduate students and students pursuing a career as a professional school counselors in a pre-K-12 school setting. This course is intended to support the development of students’ professional school counseling competencies (dispositions, knowledge, skills, and attitudes) as stipulated by the CACREP. Prerequisites: COUN 514, COUN 516, and COUN 528 or consent of instructor.

COUN 522 - Counseling Diverse Populations
Hours: 3
Counseling Diverse Populations. Three semester hours. Emphasis on developing knowledge, skills and attitudes for more effective counseling with persons different from the counselor regarding characteristics such as culture, race, gender, sexual orientation, physical disability, and religious preference. Substantial attention is given to developing awareness of one’s own values, attitudes and beliefs as they relate to counseling in a diverse society. Provides an understanding of how diverse values and mores, interaction patterns, social conditions, and trends related to diversity affect counseling.

COUN 526 - Cultural Enhancement
Hours: 3
Students develop an understanding of historical and cultural impact of the civil rights movement in the United States. Via an interstate travel/study experience, students will develop an understanding of: Multicultural and pluralistic trends, including characteristics and concerns between and within diverse groups nationally and internationally; attitudes, beliefs, understandings, and acculturation; ethical and legal considerations related to social and cultural diversity; the role of civil rights pioneers; and the historical, intercultural, and intracultural significance of the U.S. civil rights movement This course involves domestic travel and may involve expenses beyond usual course tuition and fees. Cross listed with COUN 426, it is differentiated via assignments and their evaluation. Crosslisted with: COUN 426.

COUN 528 - Introduction to Group Dynamics and Procedures
Hours: 3
A study of group development, dynamics, and theories in relation to group counseling. Leadership styles, techniques and roles are explored, and ethical issues related to group interventions are discussed. Prerequisites: Admitted to MS program. COUN 501 and COUN 510 completed with minimum grade of B in each. Corequisites: COUN 516.
COUN 530 - Clinical Mental Health Counseling
Hours: 3
As the foundation course for those planning to be counselors in mental health settings, this course includes theoretical and applied information regarding mental health counseling services in the context of the larger social services system. A variety of delivery systems, staffing procedures, case management procedures, emergency services, treatment paradigms, and the need for consultation and collaboration among mental health professionals are discussed. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 534 - Counseling Children and Adolescents
Hours: 3
Prepares counselors to address the specific needs of children and adolescents, with emphasis on developmental needs, specific therapeutic interventions, and common emotional issues. Group and individual counseling techniques and treatment planning are included. Prerequisite: COUN 516 and COUN 528 or consent of instructor.

COUN 539 - Introduction to Play Therapy
Hours: 3
Students will develop an effective philosophy of and approach to play therapy and an increased understanding of children and of children’s world views. Through an experiential component, the student will learn to communicate with children at an affective level, to promote children’s self-exploration and understanding, and to increase children’s sensitivity to and acceptance of others. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 545 - Dev Issues/Strategy in Counseling
Hours: 3
This course provides an overview of theory and research related to human growth and development over the lifespan. In addition to meeting the core curricula objectives required for accreditation, the course provides specific developmentally appropriate interventions supported by research that are designed to enhance the growth and development of clients who seek counseling services. Crosslisted with: PSY 545.

COUN 548 - Advanced Counseling Skills
Hours: 3
A laboratory-based, experiential course, Advanced Counseling Skills will merge the continued development of basic skills with theoretically based conceptualization skills and techniques. Students will examine their intrapersonal alignments with chosen theoretical orientations. Students will practice theoretically consistent conceptualization skills and techniques. Students will be expected to adhere to ACA Ethical Standards. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 549 - Ethics in Prof Coun
Hours: 1
Ethics in Professional Counseling. One semester hours Examines ethical and legal issues in counseling and the behavioral sciences. Includes theories of moral philosophy and the development and application of professional codes.

COUN 551 - Practicum
Hours: 3
Provides for continued development and practice of skills learned in COUN 516. Students develop conceptual and professional skills related to their practice at a field site and practice various specified counseling and related activities during a minimum of 100 hours at an agency or educational setting. Graded as Satisfactory or Unsatisfactory. Prerequisites: Application form returned to department semester before actual enrollment in this course (check with department for availability and due dates), a grade of “B” or better in COUN 548, Level 1 Exam passed, Degree plan on file.

COUN 552 - Internship
Hours: 3
Primary interest is on integration of process, conceptual, professional, and personal skills. Provides extensive supervised experience in a setting closely aligned with student’s chosen program. Graded as Satisfactory or Unsatisfactory. Prerequisites: Application form returned to department semester before actual enrollment in this course (check for availability and due dates); COUN 551. Students must pass the Level 2 Exam prior to enrolling in the 2nd COUN 552: Internship.

COUN 555 - Internship in College Student Affairs
Hours: 3
Primary interest is on integration of knowledge and skills in a professional college student affairs setting. Provides supervised experience in a setting closely aligned with student’s chosen program. Students must complete a minimum of 300 clock hours at an approved college student affairs site. Students typically enroll in Internship during the semester in which they plan to graduate. This course IS NOT offered during summer terms. Prerequisites: Admission to Candidacy.
COUN 560 - Crisis Intervention
Hours: 3
An overview of crisis intervention. Major theoretical models of situational crises are described and operationalized across a variety of service delivery systems. Students will develop conceptual competency necessary for professionals engaged in crisis intervention. Special emphasis is given to contemporary research in suicidology, disaster psychology, and crisis management for schools. Prerequisites: Pass Level 1 Examination or admission to Student Affairs program or consent of instructor.

COUN 564 - Family Crisis & Resources
Hours: 3
Crises and special problems encountered in family living with individual and community resources pertinent to them. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 580 - Cou Substance Abuser: Drugs
Hours: 3
Covers a broad range of topics related to chemical dependency with regards to school counseling, clinical mental health counseling, marriage and family counseling, career counseling, child and adolescent counseling, college counseling, and addictions counseling, along with other counseling specialties. Topics include prevention, abused substances and their effects, symptoms of chemical dependency, chemical dependency treatment models, applications in a multicultural society, 12-step and other support group models, employee assistance programs, and relapse prevention, along with emerging issues.

COUN 581 - Assessment and Treatment of Chemical Dependency
Hours: 3
Provides in-depth information regarding the assessment and treatment of chemical dependency. Topics include coping skills; motivation for change; management of stress, anxiety, and anger; screening for chemical dependency in health care settings; various chemical dependency interventions; and planning specific treatments to match individual clients. Prerequisites: Pass Level 1 Examination or consent of instructor.

COUN 589 - Independent Study
Hours: 1-3
Independent Study. One to three semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

COUN 590 - Legal Issues Stu Affairs
Hours: 3
Legal Issues in College Student Affairs. Three semester hours. Provides information about the legal issues common to college student affairs administrators. Includes student-university relationship, risk management techniques, civil rights, contracts and federal regulations.

COUN 595 - Research Literature and Techniques
Hours: 3
Emphasizes research in the student's major field, basic statistics, literature review, proposal and report development, research implementation, needs assessment, program development, and ethical and legal considerations regarding research through the presentation of a formal research proposal and/or completion of presentation of a research report. Prerequisites: COUN 516 and COUN 528 or Admission to the MEd in College Student Affairs emphasis or consent of the instructor. Crosslisted with: PSY 595, SPED 595.

COUN 597 - Special Topics
Hours: 1-3
Special Topics. One to three semester hours. Organized class. May be repeated when topics vary.

COUN 606 - Stu Affairs Services Hi Ed
Hours: 3
Student Affairs Services in Higher Education. Three semester hours. As the foundation course for those planning to enter students affairs work in higher education, this course offers students opportunities to examine the historical and contemporary role and scope of college students personnel services. Provides students with in-depth understanding of major theories of students development and the application of these theories to student development practice.

COUN 607 - Contemp College Student
Hours: 3
The Contemporary College Student. Three semester hours. Examines various aspects of contemporary college student life and characteristics of present and future college students. Presented as a seminar to identify and examine salient issues facing college students including, but not limited to, sources of motivation, learning styles, development of values, relationship development, mental-health/psychosocial development and issues related to gender, health, and intercultural concerns.
COUN 609 - Introduction to Statistics for Counseling and Human Services Research

Hours: 3

A doctoral-level introductory statistics course, emphasizing applications to counseling and human service research. The major focus will involve an examination of basic statistical procedures: descriptive statistics, hypothesis testing, and univariate inferential statistics. Usage of a computer-based statistical software tool (Statistical Package for the Social Sciences) will be emphasized. Meets requirements for a Level II research tool course. Prerequisites: Admission to a PhD or EdD program in the College of Education and Human Services or consent of the instructor.

COUN 610 - Adv Counsel Theories & Techniq

Hours: 3

Advanced Counseling Theories and Techniques. Three semester hours. In-depth study of various counseling approaches with opportunities for demonstration and evaluation of each student’s counseling skills. Prerequisite: Doctoral status or consent of the instructor.

COUN 611 - Introduction to Marriage and Family Counseling/Therapy

Hours: 3

A survey of the historical development and principal conceptualizations of marital and family counseling/therapy. Goals include an initial examination and comparison of various theories currently employed in the field with an emphasis on interview techniques. Subject areas to be covered include the various schools of family counseling/therapy, along with current trends and issues in marriage and family counseling/therapy. Prerequisites: COUN 516 and COUN 528 or consent of instructor.

COUN 612 - Adv Sem M&F Coun/Therapy

Hours: 3

Advanced Seminar in Marriage and Family Counseling/Therapy. Three semester hours. A didactic and experiential seminar course in marital and family counseling/therapy for advanced students. Emphasis is on the development of the student’s therapeutic expertise in structural and strategic family intervention techniques. Prerequisites: COUN 611 and doctoral status or consent of the instructor.

COUN 613 - Adv Statistical Technique

Hours: 3

Includes a review of introductory statistics, presentation of basic concepts of analyses of variance, advanced correlational methods, and multiple regression, as well as other advanced statistical methods. Focuses on use of the computer for data. This is an approved Level III doctoral research tools course. Prerequisite: Level I and Level II research tools or equivalent or permission of the instructor. Crosslisted with: PSY 681.

COUN 614 - Counseling Strategies for Parent-Child Relationships

Hours: 3

A didactic and experiential course dealing with counseling techniques applied to the improvement of parent-child relationships. The course focuses on intervention skills of transgenerational family therapy, play therapy, and parenting education based on an understanding of the family life cycle and family structure. Prerequisites: Doctoral standing or consent of instructor.

COUN 615 - Marital Counseling/Therapy

Hours: 3

A study of counseling theories applied to marital and other dyadic relationships. Emphasis will be placed on the assimilation, integration, and application of information pertaining to such topics as marital/divorce developmental tasks theory, object relations theory, systemic family of origin theory, interaction patterns in marriage, divorce process, and post-divorce adjustment. Techniques and historical development of marriage enrichment, marital counseling/therapy, and divorce counseling/therapy interventions will be included. Prerequisites: COUN 611, COUN 513, and doctoral status or consent of the instructor.

COUN 620 - Superv Cou Human Develop

Hours: 3

Supervision in Counseling and Human Development. Three semester hours. A didactic and experiential course for post-graduate and doctoral students who wish to assume the role of supervisor. Goals include the assimilation and application of major theoretical/conceptual models and supervision approaches in counseling and human development. Prerequisite: Doctoral status or consent of the instructor.

COUN 621 - Psychoeducational Consulting and Program Evaluation

Hours: 3

Psychological, educational, and sociological theories, models, and processes applied to human and organizational systems of change. Special attention is directed to applying theory to practice and to differentiating between human and structural problems and interventions. Prerequisites: Doctoral standing or consent of instructor. Crosslisted with: PSY 679.

COUN 622 - Advanced Seminar in Counseling Diverse Populations

Hours: 3

This course provides students with a variety of opportunities to increase their level of personal (self-reflective) awareness, and clinical awareness, knowledge, and skills in working with diverse populations. This increased level of cultural competence better prepares students to teach supervise, and mentor counseling trainees and novice practitioners, to conduct culturally sensitive research, and to provide direct services to culturally diverse clients. Prerequisites: Doctoral standing or consent of instructor.
COUN 623 - Race, Class and Gender
Hours: 3
Race, Class, and Gender Issues in Counseling - Three semester hours The multicultural counseling competencies (Arredondo et al., 1996) specify that culturally skilled counselors are expected to understand how factors such as gender, social class, age, sexual orientation, religion, and educational background intersect and interrelate with ethnicity, race, and culture in the lives of their clients, as well as their own lives. The primary purpose of this course is to explore the interconnections of race, class, and gender; including how they shape the structure of U.S. society, and in turn, the experiences of client and counselor. A conceptual framework for understanding race, class, and gender, and their intersection provides students with increased understanding of contemporary issues that Prerequisites: COUN 522: Counseling Diverse Populations or equivalent graduate level multicultural counseling course.

COUN 625 - Research Application
Hours: 3
A doctoral course which focuses on the development of research skills and inquiry methods. The student is exposed to various quantitative and qualitative approaches. In addition, the course provides students with an understanding of scientific inquiry, purpose and benefits of research, research-related ethical and legal issues, and sampling procedures. Prerequisites: Doctoral status and completion of 30 semester hours of doctoral level coursework or consent of instructor.

COUN 650 - Inst Th & Meth in Coun Ed
Hours: 3
This course is designed to develop/improve counselor educator skills including planning units or courses, delivering instruction, and assessing learner outcomes. The course also addresses ethical standards for counselor educators. Although the primary focus is on teaching counselors-in-preparation, students will acquire knowledge and develop skills that are applicable to other situations such as presenting at professional conferences and conducting staff development. Prerequisite: doctoral standing or consent of instructor. Crosslisted with: PSY 680.

COUN 660 - Doctoral Field Experience
Hours: 1-6
The doctoral field experience includes a minimum of twelve semester hours, during which time students are involved in various supervised experiences. The first three semester hours include 300 clock hours of supervised clinical work in the department based training facility where students provide direct counseling to individuals, families, couples, and groups, and refine advanced counseling skills. Six semester hours (600 clock hours) include 300 clock hours of clinical experience in an approved site, plus 300 clock hours of supervised teaching and clinical supervision. During this time students are expected to expand their counseling, teaching, and supervision skills. Prerequisites: COUN 610 and 620; consent of Doctoral Internship Coordinator.

COUN 689 - Independent Study
Hours: 1-3
Independent Study. One to three semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

COUN 690 - Qualitative Research
Hours: 3
This practicum experience is designed to complement and build upon knowledge gained in HIED 696 or EDAD 698. This course is an approved Level IV doctoral research tools course. Prerequisites: HIED 696 or EDAD 698 Note: The course is intended for advanced doctoral students who plan to do a qualitative study for their dissertations and/or seek in-depth practical experience in the use of qualitative research methods used in educational research (e.g., interview strategies, participant observation, and case studies). Students will engage in practice and skill development in analyzing and interpreting qualitative data, communicating results, and evaluating qualitative research. Each student will complete a qualitative research project and write a journal length article based on the research.

COUN 695 - Research Methodology
Hours: 3
An overview of research methodology including basic concepts employed in quantitative and qualitative research methods. Includes computer applications for research. This is an approved Level I doctoral research tools course. Prerequisites: Doctoral status or consent of the instructor.

COUN 697 - Special Topics
Hours: 3
Organized class Prerequisites Doctoral status Note May be repeated when topics vary

COUN 717 - Ethics & Prof Development
Hours: 3
Ethics and Professional Development. Three semester hours. Examines ethical and professional development issues in counseling and the behavioral sciences. Prerequisite: Doctoral status.
COUN 718 - Dissertation
Hours: 3-9
Doctoral Dissertation. Three to nine semester hours. A candidate must present a dissertation acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of his specialization. To be acceptable, the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competence and significant contribution to knowledge. Graded on a (S) satisfactory or (U) unsatisfactory basis.

Criminal Justice Courses

CJ 501 - Seminar in Police and Law Enf
Hours: 3
Seminar in Policing and Law Enforcement This course is an advanced approach to policing and law enforcement. The focus of the class will be on the operations and functioning of policing and law enforcement departments at the local, state and federal levels. The course will examine related areas such as personnel, practices, procedures and issues in policing and law enforcement. This course will investigate additional areas such as use of technology in policing, police subculture and community policing.

CJ 505 - Terrorism
Hours: 3
Terrorism - Three semester hours This course will provide a theoretical and empirical explanation of terrorism. It will identify various forms and typologies of terrorist activities, their consequences and preventive measures, particularly those that are relevant to the criminal justice system in the United States.

CJ 514 - Family Violence
Hours: 3
Family Violence. Three semester hours. (Same as SOC 514) A thorough and critical examination of family violence from a sociological perspective. Topics include the meaning, nature, and types of family violence; biological, psychological, anthropological, and sociological theories which attempt to explain hostility, aggression, and violence among intimate people; the philosophy of non-violence; the consequences of violence; and preventive measures and strategies for dealing with violence in the family. Although the course focuses on the American family, illustrations of family violence from other cultures are provided.

CJ 515 - Homeland Security
Hours: 3
Homeland Security - An introduction to various aspects of terrorism and homeland security as both affect the United States today. Much of the focus will be the problems and challenges stemming from 9/11 that create today's world situation. To understand what is going on currently we will examine the historical context of terrorism, national security, emergency management and civil liberties.

CJ 516 - Counterintelligence
Hours: 3
This course will introduce the students to the concept of counterintelligence (CI) and its importance in the U.S. today. This course will examine various aspects of CI including what is CI, CI operations (both offensive and defensive), case studies, and CI in the age of the internet.

CJ 520 - CJ Admin and Mgmt
Hours: 3
Criminal Justice Administration and Management This course will provide students with a conceptual and theoretical foundation upon which to study criminal justice administration and management through critical evaluation and application of the research literature to present-day criminal justice challenges and concerns.

CJ 525 - Red Teaming
Hours: 3
Red teaming is the process of viewing a problem from the perspective of an adversary or competitor in order to serve as a complement to security, vulnerability, risk and strategy assessments. This course will provide students with experience in thinking like an adversary, while also examining the principals, goals, challenges and constraints of red teaming.

CJ 530 - Seminar in Criminology
Hours: 3
Seminar in Criminology - Three semester hours This course examines crime and delinquency in America from several theoretical perspectives. The course provides an in-depth investigation into major criminological theories that explain the causation, occurrence and development of criminal behavior. A wide spectrum of criminological theories are introduced, applied and critiqued in this course.
CJ 531 - Issues in Crim Law and Courts
Hours: 3
Issues in Criminal Law and Courts - Three semester hours. The course will focus on critical thinking related to issues concerning principles of criminal law and court procedures as well as selected practices particularly relevant to the United States. Issues will include: justice for all, freedom and privacy of the individual, cruel and unusual punishment, use of deadly force in law enforcement, trial by jury, election of judges and morality and the law.

CJ 532 - Juvenile Delinquency
Hours: 3
The class will consider the subject of juvenile delinquency from various perspectives including psychological, physiological and sociological. Particular attention will be paid to the role of family, the school, and the peer group in promoting delinquency. This course will provide students with the tools to analyze and evaluate juvenile justice policies and programs. The course will explore various topics such as the nature and extent of delinquency, theories of delinquency, research on the causes of delinquency, and strategies for controlling and preventing juvenile delinquency.

CJ 533 - Gender and Crime
Hours: 3
This course is designed to explore the important and under-studied intersection between gender/women and crime. We will explore the nature and extent of women as victims, offenders, and workers in the criminal justice system. This course will also allow students to become familiar with criminological theories as they relate to women.

CJ 534 - Drugs and Society
Hours: 3
Our focus in the course will be on the social reality of drug use and drug users within contemporary society. It will include a historical analysis of the social construction of drug use, drug users, abuse, and addiction. We will be investigating the complex relationships between individual and group behavior, and social structure. Central concepts such as social learning, labeling, power, and inequality, as well as socio-cultural definitions of drugs, behavior, and the people who use drugs will be the tools of our analysis. Special attention will be given to the complex legal history surrounding drug use, the link between drugs and crime, the impact of the medicalization of human behavior, and varying perspectives on doing something about drugs.

CJ 565 - Offender Reentry
Hours: 3
Offender Reentry - Three semester hours. Offender reentry is the process of transition of offenders from prisons/jail to the community. The class will provide students with an in-depth analysis of issues impacting offender reentry, including employment, access to various forms of treatment, family reunification, housing issues as well as barriers and impediments to offender reentry.

CJ 568 - Seminar in Corrections
Hours: 3
Seminar in Corrections. Three semester hours. A study of popular issues in community-based and institutional corrections with emphasis on organizational goal setting and achievement, program evaluation, client supervision, agency administration, and problem solving. An analysis of current research and its applicability to the criminal justice system and society will be performed.

CJ 575 - Research Methods in CJ
Hours: 3
This course will provide students with the fundamentals of conducting and evaluating research in criminal justice. Topics include: defining research problems, ethics in criminal justice research, selecting and measuring variables, stating hypotheses, sampling, and developing experimental research design.

CJ 576 - Data Analysis and Interpretation
Hours: 3
This course continues students’ exploration of research in criminal justice. In this course, students are exposed to different methods of data collection and the principles of data analysis. Emphasis will also be placed on teaching students how to interpret data as presented in published reports, articles, and books. Prerequisites: CJ 575.

CJ 577 - CJ Planning and Eval
Hours: 3
Criminal Justice Planning and Evaluation - Three semester hours. The class will acquaint students with scientific techniques used for analyzing criminal justice problems and developing solutions. This course will provide students with the tools to analyze and evaluate criminal justice policies and programs.

CJ 583 - Criminal Justice Policy
Hours: 3
Criminal Justice Policy - Three semester hours. This course will evaluate various policy dimensions of crime and criminal justice. Students will learn the process through which policy is made, will critically evaluate current criminal justice policies and will study the impact of policy decisions on criminal justice practice.
CJ 589 - Independent Studies
Hours: 1-4
Independent Study - Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

CJ 595 - Research Literature and Techniques
Hours: 3
Students will write a formal research paper designed to broaden students’ perspectives and to provide an opportunity for the integration of course concepts. Emphasis will be placed on methods of interpretation, writing, and critical thinking related to criminal justice topics/issues. Prerequisites: include permission of Department Head/Director/Advisor of Masters Program.

CJ 597 - Special Topics
Hours: 1-4
Hours: One to four - Organized class Note May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary

Early Childhood Education Courses

ECE 529 - Wkshp Early Childhood Ed
Hours: 1-6
Workshop in Early Childhood Education. Three to six semester hours. (Same as ELED 529) Content and credit hours vary. May be graded on a satisfactory (S) and unsatisfactory (U) basis.

ECE 535 - Math Sci Social Stud Curr
Hours: 0-3
Math Science and Social Studies Curriculum. Three semester hours. A study of the content, methods, and theory appropriate for extending learnings in math, science and social studies. Emphasis is placed upon formulating programs which extend and integrate the learning experiences of young children. Pre- Kindergarten, Kindergarten, Grades 1, 2, and 3.

ECE 536 - LITERACY DEV IN THE EARLY YRS
Hours: 3
Communication Skills: Listening, Speaking, Reading, and Writing. Three semester hours. Study of the acquisition and development of language in the early childhood years with emphasis on the content, methods and theory, appropriate for extending learnings in listening, speaking, reading and writing. Pre-Kindergarten, Kindergarten, Grades 1, 2, and 3.

ECE 537 - Creative Expression in the Art
Hours: 3
Creative Expression in the Arts. Three semester hours. Study of the theory, content, and practice of integrating the performing arts into the curriculum design and the learning environments. Emphasis is placed on aesthetic development of young children through play, movement, music, visual art and creative dramatics.

ECE 538 - Clsrm Management Tchrs
Hours: 3
Classroom Management for Teachers. Three semester hours. A study of current theories and practices of classroom management and discipline in early childhood, elementary, and middle school settings.

ECE 548 - Dsgn Inquiry-Based Lrng
Hours: 3
The focus of this class is to investigate the inquiry approach to learning with emphasis of designing instruction in which specific explorations and activities of children arise from their own questions and lead to true engagement in the learning process. The curriculum and practices of the schools of Reggio Emilia, Itlay will be examined as an exemplary model.

ECE 560 - Early Child Curric Design
Hours: 3
Early Childhood Curriculum Design. Three semester hours. Overview of curriculum development in all subject matter areas in early childhood education. Emphasis is placed upon the investigation of theoretical influences on early childhood education- Pre-Kindergarten, Kindergarten, Grades 1,2,3.

ECE 561 - Child Development
Hours: 3
Child Development - Three semester hours This course is a study of the principles and theories of child growth and development in early childhood education. Course content centers on the physical, cognitive, affective, and social development domains. Students will be required to observe the development of a young child outside of the classroom in order to complete a comprehensive child study project.
ECE 566 - ECE: Learning Environments and Instructional Design
Hours: 3
This course provides knowledge and practice in designing developmentally appropriate learning environments and instructional design with the use of technological and other tools/materials to advance learning for children in prekindergarten through the primary grades. Students will investigate the relationship between the classroom environment and instructional planning for young children.

ECE 567 - Prof Dev Prac in ECE
Hours: 3
Professional Development Practicum in early Childhood Education - Three semester hours. Students develop professional skills related to a specialty practice in the field of early childhood education. This practicum provides field based experiences to develop and demonstrate competence in the professional development certificate sought. May be repeated when topics vary. Graded on a satisfactory (S) or unsatisfactory (U) basis. Prerequisites: approval by an advisor to complete a professional development certificate program.

ECE 575 - Advocacy & Collaboration
Hours: 3
Advocacy, Family, & Community Collaboration - Three semester hours An emphasis on helping early childhood professionals develops skills and insights to work effectively with parents and the community. To provide opportunities for professionals, families and the community to build effective communication systems and a supportive infrastructure. Early childhood professionals will become knowledgeable of social issues, educational reform and public policy that influence families and their young children. 3 semester hours credit. Prerequisite: Graduate Standing.

ECE 589 - Independent Study
Hours: 1-4
Independent Study in Early Childhood Education. One to four semester hours. (Same as ELED 589) Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

ECE 597 - Special Topics
Hours: 1-4
Special Topic: Early Childhood Education. One to four semester hours. (Same as ELED 597) Organized Class. May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when the topic varies.

ECE 634 - HIST & PHIL OF ECE
Hours: 3
History and Philosophy of Early Childhood Education Hours: Three This course is the study of the history and philosophy of early childhood education and related movements. The focus will be on the impact of past and present early childhood educational philosophies on programs for young children. This course will examine the major theories of early childhood education and the writings of historical contributors whose works have influenced modern early childhood educational thought. Prerequisite: Doctoral Standing

ECE 648 - LEADERSHIP IN EARLY CHILDHOOD
Hours: 3
Leadership in Early Childhood Education - Three semester hours This seminar in organizational theory for professionals who work in early childhood education will focus on program administration, child advocacy, and public policy. This is a study of the policy making processes and procedure that impact children, families, and communities. The course provides for the development of skills needed to be effective leaders in early childhood education. Prerequisite: Doctoral Standing.

ECE 659 - TRENDS & ISSUES IN ECE
Hours: 3
Trends and Issues in Early Childhood Education Hours: Three This course provides an opportunity to explore the critical trends and issues being debated within the field of early childhood education. Topics will be examined through historical and contemporary theory and practices with emphases on themes linked to policy and advocacy. This study will offer a better understanding of current trends and develop the skills needed to critique ideas and issues surrounding early education. Prerequisite: Doctoral Standing

ECE 663 - SEM IN RESEARCH IN EARLY CHI E
Hours: 3
Seminar in Research in Early Childhood Education Hours: Three This course provides students with an opportunity for an in-depth examination of research in early childhood education. They will review theoretical and empirical early childhood research literature. Students will critically examine a variety of relevant research. Topics in the field and share their finding in the seminar. Prerequisite: Doctoral Standing
ECE 675 - PARENT PARTNERSHIPS & FAMILY L
Hours: 3
Parent Partnerships and Family Literacy Hours: Three An emphasis on the needs, values and avenues for partnerships with families and an analysis of varied definitions of family literacy and research on family literacy including: examination of the ways literacy is used within families, programs that are designed to involve and inform parents about activities that will promote their children's literacy, and intergenerational literacy initiatives. Programs designed to improve the literacy development of both adults and children will be connected to implications for reading instruction and the creation of reciprocal partnerships with parents. Prerequisite: Doctoral Standing

ECE 682 - ASSESS IN EARLY CHILDHOOD EDU
Hours: 3
Assessment in Early Childhood Education Hours: Three This course provides a comprehensive and critical review of early childhood assessment practices and the research that supports these practices. Participants will determine the uses, characteristics, interpretation, and limitation of a variety of formal and informal measures. Participants will engage in a variety of activities to help them become knowledgeable consumers of assessment and screening measures used in early childhood programs to assist teachers in making sound instructional decisions. Prerequisite: Doctoral Standing

ECE 689 - Independent Study
Hours: 1-4
Independent Study in Early Childhood Education Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisite: Consent of department head. Note: May be repeated when the topic varies

ECE 697 - SPECIAL TOPICS
Hours: 1-4
Special Topics Seminar in Early Childhood Education Hours: One to four An organized class delivered with a seminar format around a specialized topic or content area within the field of Early Childhood Education Prerequisite: Doctoral level standing or consent of the instructor Note: May be repeated when topics vary

Economics Courses

ECO 501 - Economics for Decision Makers
Hours: 3
An introduction to the primary concepts and methods of micro and macroeconomics as they apply to decision makers within the business unit- all within the context of expanding global markets. This course satisfies the economics background requirement for MBA candidates.

ECO 502 - Quantitative Analysis for Managers
Hours: 3
This course satisfies the background requirements for quantitative analysis and techniques. The course will cover descriptive statistics, inferential statistics and models with business applications to analyze business problems. Specific topics include: measures of central tendency and variation, probability distributions, estimation, hypothesis testing, regression and correlation.

ECO 518 - Thesis
Hours: 3-6
Graded on a (S) satisfactory or (U) unsatisfactory basis.

ECO 528 - International Economic Problems
Hours: 3
An analysis of current global issues and their impacts on the United States. Emphasis is on gains from trade, balance of payments and adjustment to national international equilibria, determination of exchange rates under various monetary standards, international capital flows, and trade policy considerations in a changing world economy. Crosslisted with: ECO 428.

ECO 533 - Applied Economic & Financial Forecasting
Hours: 3
Introduces students to the tools, techniques and computer software used to create a structural process by which future economic, finance, and business variables are forecasted. Prerequisites: Eco 231 and 232, or ECO 501. Cross-listed with FIN 533. Crosslisted with: FIN 533.

ECO 552 - Economics for Public Policy
Hours: 3
Business, government, and culture provide the three interacting subsystems of society within which markets must operate. This course analyzes each side of that relationship, covering the different ways that public policy affects the activities of the modern global corporation and the key responses on the part of market participants. Prerequisites: ECO 2301, 2302, or ECO 501.
ECO 555 - Health Care Services in the U.S.
Hours: 3
This course provides (1) a historical perspective on the development of health care services in the United States, (2) a description of the key factors and issues which influence the development of the current health care delivery systems and (3) a description of the current health care delivery systems.

ECO 556 - Health Economics
Hours: 3
This course examines the application of economic principles to the allocation of scarce resources in health care; the use of economic theory to understand problems of organization, delivery, and financing of health services; and the choices available to society regarding these issues. Prerequisites: ECO 555.

ECO 557 - Health Policy
Hours: 3
Provides an overview of health policy in the United States and introduces both qualitative and quantitative methods for analyzing health policy with attention given to the political and economic perspectives on health policy questions Prerequisites: ECO 555 and ECO 556.

ECO 562 - Managerial Economics
Hours: 3
The study and application of concepts and models, primarily microeconomic, to various types of management problems. While analysis is primarily in terms of cost, demand, revenues, and market structure, the process combines ideas and methods from other functional fields of business administration. The case method is used to provide illustration and application of concepts. Prerequisites: ECO 2301, 2302, or ECO 501.

ECO 572 - Monetary Theory
Hours: 3
A study of contemporary monetary theory and the role of the banking system in the economy. Special emphasis is given to the development of central banking and the international aspects of monetary policy. Prerequisites: ECO 2301, 2302 or equivalent, or ECO 501.

ECO 576 - Macroeconomics for Managers
Hours: 3
This course provides a broad overview of macroeconomic theory and policy. The major focus is on understanding fluctuations in the levels of income, employment, prices, and production in a global environment. While individual managers and firms have no control over aggregate economic performance, they are very much impacted by macro forces. The effective manager recognizes and understands these forces and is thus better able to operate efficiently in the ever changing market environment. Prerequisites: Eco 231, 232, or ECO 501.

ECO 578 - Statistical Methods
Hours: 3
A course dealing with the study and applications of sampling, estimation, hypothesis testing, analysis of variance, correlation, regression analysis, time series decision theory and nonparametric statistical methods.

ECO 580 - Internship in Economics
Hours: 0-4
The goal of this course is to gain relevant work experience in the student's field of study by developing specific work related skills to improve marketability upon graduation. Students will also build a "network" of professional contacts. Prerequisites: FIN 504 and departmental approval.

ECO 589 - Independent Study
Hours: 3
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

ECO 595 - Applied Business Research
Hours: 3
A course to investigate the techniques of the research process as applied to business and economics. Experience is gained in defining research problems and in collecting, analyzing, recording and interpreting data. Also, an analysis of pertinent research literature in business and economics. Required of all graduate majors in business administration under Option II.

ECO 597 - Special Topics
Hours: 1-4
Organized class. May be repeated when topics vary.
Education Curr & Inst Courses

EDCI 500 - Issues in Education
Hours: 3
Issues in Education. Three semester hours This course focuses on major philosophical and ideological beliefs and their impact on the organization and structure of American education. Specific issues may include the nature of learning, human development, current brain research, multiple intelligences, learning styles, curriculum design and evaluation, teaching strategies, alternative assessment, legal issues, educational technology, and conflict management. May be repeated when topics vary.

EDCI 502 - Strat Tchng at Risk Stud
Hours: 3
Strategies For Teaching the At-Risk Student. Three semester hours Designed to provided specific strategies for enhancing learning for the at-risk student, to develop an increased awareness of students who may be potentially at risk, and to enable teachers to design workable plans for addressing the needs of this student.

EDCI 506 - Nature & Needs Gifted St
Hours: 3
The Nature and Needs of Gifted Students. Three semester hours A survey of the major facets of gifted education with particular emphasis placed on the nature and needs of gifted students. The historical development of gifted education, characteristics fo the gifted students identification of gifted students, the socio-emotional needs of gifted students and curricular and instructional strategies appropriate for the gifted are examined.

EDCI 507 - Tchng Strat Gifted/TAL
Hours: 3
Teaching Strategies and the Gifted/Talented. Three semester hours. Strategies, methods, and techniques of teaching the gifted student are explored. Opportunities are provided for development of strategies based on principles of gifted education. Special emphasis will be devoted to selection of strategies for the development of creativity.

EDCI 508 - Curric Dev for the Gifted
Hours: 3
Curriculum Development for the Gifted Student. Three semester hours. An exploration of theory, research, and practices related to the selection and organization of curriculum for the gifted student. Emphasis will be placed on curricular models and selecting materials used in gifted education. Opportunities will be provided for the development of curriculum for the gifted student.

EDCI 509 - Trends Gifted Educ
Hours: 3
Trends and Issues in Gifted Education. Three semester hours Current problems, trends, and issues in gifted education are researched Emphasis is placed on current research and literature relating to definition of giftedness, identification, programming, and counseling and guidance for the gifted student.

EDCI 510 - Nature and Needs of the Gifted Learner in STEM
Hours: 3
This course will explore the nature of the gifted and talented student the needs of this student and how defined needs must be addressed in science, technology, engineering, art, and mathematics. Particular emphasis will be placed on the instructional, curricular, social and emotional needs of the gifted learner. Prerequisites: No prerequisites are required for this course.

EDCI 514 - Mgmt & Curr Dev for Div Lrnrs
Hours: 3
Management and Curriculum Development for Diverse Learners This course contains introductory content for the professional body of knowledge necessary for effective teaching in a K-12 classroom. Competency in instructional design as well as organizing and managing a classroom in diverse environments will be developed. The content of this course will include classroom procedures and management, knowledge of research-based teaching strategies, curriculum analysis/development and lesson design, teaching models, formative and summative assessment, and certification issues. Students will exhibit an understanding of the domains and competences Texas teachers are expected to demonstrate on the Pedagogy and Professional Development ТExES certification examination. Prerequisites: EDCI 514 & ETEC 524 or ECE 566. Enrollment is limited to teacher candidates fully admitted into the Alternative Certification Program & completing an internship or student teaching with Advisor approval.
EDCI 516 - Literacy for Special Populations
Hours: 3
An introduction of effective teaching practices to develop literacy (reading, writing, speaking, listening, media viewing). Topics include the developmental process of literacy, assessment, writing, and technological applications that can contribute to proficiency in literacy. An emphasis will be placed on assisting English Language Learners and students with disabilities to become competent readers and writers.

EDCI 517 - Rdg & Lrng in K-12 Cont Area
Hours: 3
READING & LEARNING IN K-12 CONTENT AREAS This course is designed for graduate students in the alternative certification program seeking initial teacher certification. The focus is on reading comprehension, conceptual development, and strategies for interacting with expository text and medias. The role of the teacher, the structure of text, text analysis methods, and content area reading strategies are examined in relation to the student and the learning process. Research-based reading strategies are discussed as appropriate for all elementary and secondary grade levels.

EDCI 518 - Thesis
Hours: 6
Thesis. Six hours This conference course introduces the candidate for the Master of Arts degree to the theories and techniques of educational research and leads to the completion and acceptance of the thesis.

EDCI 519 - Response to Intervention Applied to Exceptional Learners
Hours: 3
This course will build capacity among preservice and inservice teachers to implement the Response to Intervention (RTI) framework with k-12 students who represent high incidence special education populations. Participants will describe ways to identify k-12 students with exceptional learning needs. In addition, preservice and inservice teachers will examine the RTI components of screening of students, monitoring student progress, providing evidence-based interventions.

EDCI 523 - Internship in Schools
Hours: 3
This course will provide experiences in various environments that will be supervised by mentors and university liaisons. Regular seminars may be held which will focus on concerns related to education and/or the workplace.

EDCI 529 - Workshop
Hours: 3-6
EDCI 535 - Ldrshp & Supv in Sch
Hours: 3
Leadership and Supervision in Schools. Three semester hours A study of the meaning and fundamental principles of leadership and supervision. Consideration is given to the development of teacher leaders and to the solution of administrative and pedagogical problems that supervisors and teachers leaders encounter in schools.

EDCI 538 - Classroom Mgmt for Tchrs
Hours: 3
Classroom Management for Teachers. Three semester hours (Same as ECE 538) A study of current theories and practices of classroom management and discipline in schools.

EDCI 540 - Mathematics Instruction for the 21st Century
Hours: 3
This course prepares students for success with the Texas Essential Knowledge and Skills for Math. This course takes a closer look at how children learn mathematics, and how we can foster a mindset for doing mathematics. It includes: NCTM's principles for mathematics education; ways children develop mathematical understanding, problem solving skills, and processes used to get there; analyzing student's error patterns; and resources for teaching mathematics.

EDCI 541 - Science Instruction for 21st Century Learners
Hours: 3
This course will focus on effective elementary science classroom instructional practices supporting mastery of the Texas Essential Knowledge and Skills and the Next Generation science standards. The course content and activities address the inquiry process in instruction, resources for teaching science, strategies that support student-centered and constructivist-based pedagogical design and technology applications.
EDCI 550 - Leadership in Gifted and Talented Education  
Hours: 3  
This course is one in a series of courses in gifted education designed to prepare educators to lead programs in gifted and talented education. Opportunities to analyze, create and evaluate instructional and curricular experiences in an school setting while working as a GT Coordinator or working cooperatively and collaboratively with a school leader/mentor in gifted education characterize this course. Students are involved in participation, collection and evaluation of artifacts related to GT curriculum development, instructional design, identification, assessment, professional development, parent-community relations. Outcomes of these experiences will be tangible products illustrating preparation for and enhancement of GT program leadership. Prerequisites: EDCI 506, 507, 508, 509, 510.

EDCI 559 - Diversity & Equity in Edu  
Hours: 3  
Multicultural Ed in School. Three semester hours. This course focuses on factors of diversity that impact decisions educator must make regarding design and implementation of curriculum, teaching strategies, and materials in order to provide equity and excellence for all learners.

EDCI 560 - Designing Curriculum and Instruction for the Culturally Diverse Learner  
Hours: 3  
This course will explore the characteristics of diversity in today's global environment and provide concrete examples of how curriculum and instruction can be differentiated to address the cognitive, socio emotional and socio-cultural needs of the culturally diverse learner. The course will emphasized the relationship between culture and learning and how modifications in curriculum, instruction, and assessment impact the learning environment.

EDCI 566 - Practicum  
Hours: 1-6  
Practicum. Six semester hours. Students develop conceptual and professional skills related to their practice in the field. For each semester hour of credit, five hours are spent in lecture/staff development and 10 hours are spent applying what was learned in a field-based setting. May be repeated. Graded on a satisfactory (S) or unsatisfactory (U) basis. Prerequisite: Consent of instructor.

EDCI 575 - Differentiated Instruction  
Hours: 3  
An exploration of the literature and current practices in differentiating instruction in elementary classrooms (K-8). The primary objective of this class is for students to advance their professional knowledge, skills and practice for more effective teaching through differentiated instruction.

EDCI 589 - Independent Study  
Hours: 1-6  
Independent Study. variable credit Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

EDCI 595 - Research Lit Tech  
Hours: 3  
Research Literature and Techniques. Three semester credits. This course provides a review of significant research studies produced by investigators in the student's major field with emphasis on the investigative and verification techniques employed. The student is required to demonstrate competence in using systematic research techniques through the investigation and formal reporting of a research problem.

EDCI 597 - Special Topics  
Hours: 1-4  
Special Topic. variable credit Organized class. May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics

EDCI 651 - Curr & Instr Desgn  
Hours: 3  
Curricula and Instructional Design. Three semester hours. This course provides an examination of research literature relative to the process of designing, implementing, and evaluating curricula and instructional strategies. Prerequisite: Doctoral level standing or consent of instructor.

EDCI 652 - Research on Learner  
Hours: 3  
Research on the Learner. Three semester hours. A study of significant research in the cognitive and metacognitive learning process of young children and implications for instructional strategies. Prerequisite: Doctoral level standing or consent of instructor.

EDCI 655 - Assessment Lrng & Lrnr  
Hours: 3  
Assessment of Learning and the Learner. Three semester hours. A study in evaluating the total elementary school program. Attention is given to available evaluation tools, including measurement devices of all types. Particular attention is given to construction of appropriate classroom tests to insure accountability according to Texas' Essential Knowledge and Skills, and to the development of plans for school improvement.
EDCI 657 - Content Area Literacy
Hours: 3
Content Area Literacy. Three semester hours. Examination of research on learning in the content curriculum areas of science, math, social studies and music; emphasis on strategies content area teachers may use to foster content area learning. Prerequisite: Doctoral level standing or consent of the instructor.

EDCI 658 - Process Writing in the Elementary School
Hours: 3
An examination of process writing research, with an emphasis on implementation in public school programs. Prerequisites: Doctoral level standing or consent of the instructor.

EDCI 659 - Professional Writing
Hours: 3
This course focuses on issues related to research, publication, and grant writing, especially at a level of higher education. Prerequisites: Doctoral level standing or consent of instructor.

EDCI 687 - Sociocult Inquiry in C&I
Hours: 3
The course content centers on qualitative research in the sociocultural environments of public schools. The methodology (research design, data collection, data analysis) associated with this form of inquiry shall be delineated, and students shall experience inquiry from participation in the process. Accordingly, the course focuses on the philosophical and methodological differences between varying approaches (narrative, phenomenology, case studies, grounded theory, and ethnography) to research including mixed methods. Academic writing and critical reading of qualitative research shall also be addressed. This is an approved Level III doctoral research tools course. Pre-requisites: EDCI 695

EDCI 689 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

EDCI 690 - Seminar in Education
Hours: 3
Three 690 courses are required. Each course provides an in-depth analysis of major topics and is designed for the advanced student in education. Topics vary. Prerequisites Doctoral level standing or consent of the instructor.

EDCI 695 - Research Methodology
Hours: 3
(Same as Coun/EdAd/Psy/695) An overview of research methodology including basic concepts employed in quantitative and qualitative research methods. Includes computer applications for research. This is an approved Level I research tools course. Prerequisite: Doctoral level standing or consent of the instructor.

EDCI 696 - App of Rsch Methods
Hours: 3
This is an approved Level III doctoral research tools course that provides application of research methodology in curriculum and instruction including basic concepts employed in quantitative and qualitative research methods. Students will carry out the research study designed in EDCI 695, data collection, data analysis, and use of computer applications for research. Prerequisites: EDCI 695, a Level 2 Doctoral Research Tool (EDCI 699 or HIED 617 or PSY 612), and Doctoral level standing. Note: Meets requirements for a Level 3 research tool course

EDCI 697 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. (Same as RDG 697) Organized class. May be repeated when topics vary. Prerequisite: Doctoral level standing or consent of the instructor.

EDCI 698 - Research: Design and Replication
Hours: 3
Examination of research designs related to curriculum and instruction including: survey research, quantitative content analysis, correlational research, true experimental research, quasi-experimental research, pre-experimental research, single-subject research/behavior analysis, causal-comparative research, program evaluation, qualitative research, combined qualitative/quantitative research, and meta-analysis. Includes creation of a sophisticated research design appropriate for a doctoral dissertation. In order to enroll in this course, tools courses 1-4 must have been successfully completed. Prerequisites: Doctoral level standing, and all Tools 1-4 classes must be completed.
EDCI 699 - Statistics: Cont Proc App  
Hours: 3  
This is an approved Level II doctoral research tools course that focuses on the content, process, application, & reporting of statistical analyses in research. Computer applications will be integrated with the following content: populations, samples, frequency distributions, scaling & coding data, the structure of a data file, measures of central tendency, variance, standard deviations, z scores, normal curves, hypothesis testing, t tests for dependent & independent means, effect size & power, correlation, regression, ANOVA, Chi-square, post hoc tests, & probability. Students will investigate the uses & limitation of statistical software while exploring the reasoning & assumptions underlying the inferential statistical process. Students learn & apply stat concepts Prerequisite: Doctoral Standing and EDCI 695.

EDCI 718 - Doct Dissertation  
Hours: 3-12  
Doctoral Dissertation Hours: Three to Six A candidate must present a dissertation acceptable to the student’s advisory committee and the Dean of Graduate Studies and Research on a problem in the area of his/ her specialization. To be acceptable the dissertation must give evidence that the candidate has pursued a program of research, the result of which reveals superior academic competence and a significant contribution to knowledge. Note Graded on a (S) satisfactory or (U) unsatisfactory basis

Educational Administration Courses

EDAD 508 - Facilitating Learning for Diverse Students  
Hours: 3  
This course prepares educational leaders to administer various school programs for diverse student populations. Included among course topics are: special education, gifted education, bilingual education/English Language Learners, early childhood, school safety, career and technology education, counseling, and alternative education. Prerequisites: EDAD 615.

EDAD 518 - Thesis  
Hours: 3-6

EDAD 524 - LAW AND POLICY IN INSTRUCTION  
Hours: 3

EDAD 554 - GLB/Leading the Learning Community  
Hours: 3  
This capstone course is designed to provide a comprehensive overview of program objectives. The student will review Principal Standards in preparation for the Masters Comprehensive Examination. Concurrent enrollment in EDAD 610. Prerequisites: EDAD 615, EDAD 595, EDAD 619, EDAD 607, EDAD 508, EDAD 561, EDAD 626 and EDAD 656. Corequisites: EDAD 610.

EDAD 561 - GLB/Multicultural Education  
Hours: 3  
The purpose of this course will be to critically examine variables of race, power, legitimacy, cultural competence, poverty, disability, ethnicity, gender, age, language, and other factors impacting learning in Texas, the United States and globally in public education systems (PK-12). Emphasis will be placed on the varied leadership styles and skills needed to provide effective leadership for 21st century schools and 21st century students. Prerequisites: EDAD 615.

EDAD 563 - Practicum in ELL  
Hours: 3  
Special Programs Practicum in Administering ELL Programs - Three semester hours This course develops candidates for program leadership by providing opportunities to synthesize, practice, and apply knowledge from coursework in real settings. Practice-based coursework assignments related program leadership are synthesized in a theory-based, reflective research paper that serves as a comprehensive program examination of preparedness for administering programs that serve English Language Learners.

EDAD 564 - Univ. Interschol. League  
Hours: 3  
University Interscholastic League - Three semester hours The purpose of this course is to prepare students to administer programs that are governed by UIL rules and policies. Emphasis will be given to basic concepts, issues, regulations, problems and procedures in the management of programs that are governed through UIL. Also included will be state and federal legislation and court decisions pertaining to these programs. The course will concentrate on best practices in leading these programs.

EDAD 566 - Special Programs Prac.  
Hours: 3  
Special Programs Practicum - Three semester hours This course develops candidates for program leadership by providing opportunities to synthesize, practice, and apply knowledge from coursework in real settings. Practice-based coursework assignments related to program leadership are synthesized in a theory-based, reflective research paper that serves as a comprehensive program examination of preparedness for program coordinators or directors. Pre-requisites: EDAD 595 and EDAD 564-University Interscholastic League OR EDAD 652.
EDAD 567 - Admin. Positive Behavior
Hours: 3
Administering the Campus Culture to Promote Positive Student Behaviors - Three semester hours Emphasizes practical approaches and strategies to enable school leaders to build capacity in faculty and staff to manage student behavior in educational settings.

EDAD 569 - Instructional Leadership
Hours: 3
The scope of this course is designed to equip highly effective school leaders through a comprehensive analysis of improving teaching and learning through the intentional focus on instructional supervision and evaluation. Conceptual frameworks align with research-driven practices that prepare the novice principal to assess, plan, supervise and evaluate high leverage instructional practices that advance student learning and build educator capacity. Prerequisites: EDAD 615 and EDAD 619.

EDAD 574 - Developing Quality Instructional Programs
Hours: 3
 Developing Quality Instructional Programs. Three semester hours. The course explores the principles of administering instructional programs through development of a continuous improvement process utilizing a learning community. These principles are inclusive of the Instructional Leadership Development Model required for administrative certification in Texas. Prerequisites: EDAD 615, EDAD 626 and EDAD 656.

EDAD 589 - Independent Study
Hours: 1-4
Independent Study - Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

EDAD 594 - Navigating the Pol Dyna of ED
Hours: 3
Navigating the Political Dynamics of Education. Three semester hours. (Same as PSci 594). This is an elective educational leadership course to develop candidates who have the knowledge and ability to promote the success of all students by understanding, responding to, and influencing the larger political context of education. Emphasis will be placed on leading a learning community by navigating the political dynamics determining educational policy at the school and district levels of organization.

EDAD 595 - Using Research for Best Practice
Hours: 3
This course provides an overview of quantitative and qualitative research designs used in the field of education in order to implement instructional best practices. Emphasis is placed on the process and consumption of research. The student is required to demonstrate competence in developing and refining research techniques for best practices through the creation of a research proposal. Prerequisites: (or co-requisite) EDAD 615.

EDAD 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

EDAD 601 - Foundations of Educ Administra
Hours: 3
Foundations of Educational Administration. Three semester hours. This course will provide students an opportunity to study the philosophical, psychological and sociological dimensions of educational administration in a historical, as well as, contemporary contest. Prerequisites: Doctoral status.

EDAD 602 - Comm for Effect Learning
Hours: 3
Communicating for Effective Learning. Three semester hours. This course is designed to provide prospective school leaders with the opportunity to assess and improve verbal, written, and oral communication skills. The course focuses on group dynamics, conflict management, team building and overcoming communication obstacles to impact improved student learning. Prerequisites: EDAD 574, 595, 615, 626.

EDAD 603 - Introduction to Graduate Statistics
Hours: 3
Introduction to Graduate Statistics Course provides an introduction to statistical methods. It will include a basic introduction to research design, The use of SPSS will be integrated into the course. Content will include populations and samples, organizing and displaying data, probability, normal distribution, tests of significance, correlation and simple regression, Z and T test and Chi Square test. The course meets the requirements for a Level II research tool course
EDAD 604 - Intermediate Graduate Statistics
Hours: 3
This course is a 3 hour lecture class. The prerequisite is EDAD 603 or an equivalent introductory graduate course in statistics. This course provides additional training in statistics. It will cover basic statistical concepts of validity and reliability. It will include instruction in using and interpreting tests of statistical tests including: advanced correlational methods, multiple regression, t-tests, ANOVA, two-way factorial ANOVA, and selected nonparametric tests. The use of SPSS will be integrated into the course. This course meets the requirements for a Level III research tool course. Prerequisites: EDAD 603.

EDAD 607 - Using Evaluation and Data to Improve Learning
Hours: 3
Using Evaluation and Data to Improve Learning. Three semester hours. This course provides school leaders with the skills and knowledge necessary to analyze state, district, and local data for use in planning systemic improvement of instructional delivery, program effectiveness, and administrative processes. Acquisition, analysis, and interpretation of data are applied in educational settings to facilitate research based decisions in planning for instructional and organizational improvement. Prerequisites: EDAD 615.

EDAD 610 - Leading Learning Communities Reflective Practicum
Hours: 3
One of two culminating courses that develops candidates for school leadership by providing opportunities to synthesize, practice, and apply knowledge from principal preparation coursework in a campus based setting. Students will complete specific activities to meet TEA certification guidelines. Prerequisites: EDAD 615, EDAD 595, EDAD 619, EDAD 607, EDAD 508, EDAD 561, EDAD 626 and EDAD 656. Corequisite: EDAD 554.

EDAD 611 - Sch Dist CEO Lead: The Intern
Hours: 3
School District CEO Leadership: The Internship. Three semester hours. The internship is the process and product that results from applying the knowledge and skills defined by the six National Standards for School District Leadership and the State Competencies for the Standard Superintendent Certificate. Candidates for School District Leadership will participate in planned internship activities during the entire course of the Superintendent Program. Application of standards based knowledge and skills and research in real settings over time is the critical aspect of the internship. Prerequisite: Principal certification and admission into the superintendent certification program. Co-requisite: Concurrent enrollment in EDAD 628.

EDAD 612 - Exam Iss Trends in Sch Leader
Hours: 0-3
Examining Issues and Trends in School Leadership. Three semester hours. The purpose of this elective course is to provide an opportunity to study a current and identified administrative or leadership issue in a specific school district or combination of districts. With departmental approval this course may be repeated when the issues of topics differ. Pre-requisite: EDAD 615

EDAD 614 - Leading Learning Communities Internship
Hours: 3
Leading Learning Communities Practicum. Three semester hours over two semesters. One of four culminating courses that develop candidates for school leadership by providing opportunities to synthesize, practice, and apply knowledge in actual school settings while collaboratively planning and being guided by a practicing school leader/mentor. Over two semesters of internship activities, students collect artifacts that are used to create a professional portfolio to demonstrate preparedness for leading learning communities. Prerequisites: EDAD 615, EDAD 626, EDAD 656, EDAD 619 and EDAD 574.

EDAD 615 - Leading Effective Schools
Hours: 3
This introductory course provides an overview of school administration in Texas, which includes roles, functions, and duties of those who are charged with supervising schools in Texas. Critical review and analysis of principles of effective school leadership and organizational theories aligned to SBEC Principal Standards are examined and applied to the current challenges of leading 21st century schools in Texas. The course is the first course in the Masters Of Educational Administration Program and is the prerequisite course for all other courses in the program.

EDAD 618 - Exploring Educational Issues Colloquium
Hours: 0-3
In this elective course, students participate in seminars to explore current educational leadership issues and participate in group and self-study opportunities. Students explore literature centering on conference topics and study current educational research findings to expand their knowledge to seminar themes.

EDAD 619 - GLB/Designing Curriculum
Hours: 3
This Course focuses on the development of and designing of curriculum for facilitating continuous improvement in the instructional program. Sound research-based practices related to planning, supervision, curriculum development and delivery, program evaluation, and change management for diverse learners in multicultural settings are incorporated. Prerequisites: EDAD 615.
EDAD 620 - School District Instructional Leadership: Human Resources

Hours: 3

School District Instructional Leadership: Human Resources. Three semester hours. This is an integrated School District Instructional Leadership course to develop candidates who have the knowledge and ability to promote the success of all students by promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff and developing competencies for the Standard Superintendent Certificate in school district instructional leadership of human resources. Prerequisites: Principal certification and admission into the superintendent certification program or doctoral status.

EDAD 622 - Lead/Man Org Chge for Improv

Hours: 0-3

Leading and Managing Organizational Change for Improvements. Three semester hours. This course examines the processes for successfully initiating and implementing improvements in organizations. Issues related to commitment, strategic development, dealing with resistance, creating new organizational cultures, and evaluating and predicting intended results are included. Application of theories and models of improving and changing individual and organizational behavior will be studied. Not eligible for doctoral credit. Prerequisites: EDAD 574, 595, 626.

EDAD 626 - Law in Educational Practice

Hours: 3

The scope of this course is designed to equip highly effective school leaders though an in-depth and comprehensive analysis of state and federal laws. The novice principal will learn to assess and apply legal issues and rulings that advance the operation of public schools, while gaining an understanding of the legal impact on education. Prerequisites: EDAD 615.

EDAD 627 - School District Organizational Leadership: Finance

Hours: 3

School District Organizational Leadership: Finance. Three semester hours. This is an integrated course to develop candidates who have the knowledge and ability to promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment and develop competencies for the Standard Superintendent Certificate in school district organizational leadership in finance. Prerequisites: Principal certification and admission into the superintendent certification program or doctoral status.

EDAD 628 - Sch Dist CEO Lead: The Supt

Hours: 3

School District CEO leadership: The Superintendency. Three semester hours. This is a School District CEO Leadership course for the superintendency to develop candidates who have the knowledge and ability to promote the success of all students through visionary leadership, collaborative leadership, ethical leadership and political leadership; and develop the competencies for the Standard Superintendent Certificate in school district CEO leadership of the superintendency. Prerequisite: Principal certification and admission into the superintendent certification program. Co-requisite: Concurrent enrollment in EDAD 611.

EDAD 634 - Examining the Dynamics of Change and Conflict Resolution in Educational Systems

Hours: 3

Examining the Dynamics of Change and Conflict Resolution in Educational Systems. Three semester hours. This course is an in-depth, advanced examination of the emerging body of contemporary literature in change theory and conflict management within education organizational systems. The course includes a culminating experience with students developing their own scholarly driven change model as it applies to their education organizational context. Prerequisites: Doctoral Status. EDAD 695, EDAD 671, EDAD 601 and EDAD 637.

EDAD 636 - Economics of Education

Hours: 3

Economics in Education. Three semester hours. An advanced study course is the exploration into the economics associated with public education. Each student will utilize a critical analysis of educational policies, reforms and educational markets from an economic perspective by examining historical, contemporary and post-modern literature in human capital theory, demographics and societal trends and the economic impact of schools and schooling on the local, state, federal and international economic and societal systems. Prerequisite: Doctoral status.

EDAD 637 - Advanced Organizational Behavior in Education

Hours: 3

The application of theories of organizational behavior to the problems of educational institutions. Through the examination and application of theories including but not limited to leadership, decision-making, communication, motivation, power and influence, group dynamics, and change, this course is designed to develop diagnostic and problem-solving skills necessary for successful leadership of educational organizations. EDAD 695 and EDAD 671.

EDAD 639 - Educational Program Evaluation for School Leaders

Hours: 3

Educational Program Evaluation for School Leaders. Three semester hours. Theory and practice of evaluation including research methods and design strategies to measure program outcomes; skills to evaluate personnel and projects included as components of evaluation models and management of educational evaluation functions; skills in preparing and communicating evaluation findings. Prerequisites: Doctoral Status. EDAD 695 and EDAD 671.
EDAD 641 - School District Instructional Leadership: Curriculum
Hours: 3
School District Instructional Leadership: Curriculum. Three semester hours. This integrated School District Instructional Leadership course will develop candidates who have the knowledge and ability to promote the success of all students by promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff and develop the competencies for the Standard Superintendent Certificate in school district instructional leadership of curriculum. Prerequisites: Doctoral Status. EDAD 695 and EDAD 671.

EDAD 647 - Ethics & Philosophy of Educational Administration
Hours: 3
This course will provide students an opportunity to apply the concepts of ethics and philosophy to the personal and professional aspects of school organization, operation, and leadership. Students will apply these concepts in fashioning reasoned decisions, thoughtful analyses, and problem solving events. Prerequisites: Doctoral status. EDAD 695 and EDAD 671.

EDAD 651 - School District Organizational Leadership: Facilities
Hours: 3
School District Organizational Leadership: Facilities. Three semester hours. This is an integrated course to develop candidates who have the knowledge and ability to promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment and develop competencies for the Standard Superintendent Certificate in school district organizational leadership of facilities. Prerequisites: Principal certification and admission into the superintendent certification program or doctoral status.

EDAD 652 - Enh Sch Perf Eff Public/Comm
Hours: 0-3
Enhancing School Performance Through Effective Public and Community Relations. Three semester hours. This course focuses on assisting district and campus leaders in creating and using effective public relations to achieve organizational goals and enhance professional success. Educational leaders plan and apply strategic ongoing internal and external communications to build and maintain key relationships that form meaningful partnerships to enhance school performance and student achievement.

EDAD 654 - Multicultural Education for Administrators
Hours: 3
This course prepares prospective educational leaders to administer various school programs for diverse student populations. Programs addressed include special education, gifted education, bilingual education, early childhood, school safety, career and technology education, English language learners, counseling, and alternative education. The course emphasizes the leadership that will insure all students receive quality, flexible instructional services that meet individual student needs.

EDAD 655 - Executive Communications
Hours: 3
The goal of this course is for students to develop the knowledge and skills necessary for a communication plan that will effectively articulate the district’s vision, mission, and priorities to all educational stakeholders and the mass media. Additionally, this course expands one’s understanding how to effectively communicate to a diverse community of learners, build consensus, mediate conflicts, and implement an internal and external communication plan. The course is practical in nature and is designed to introduce students to many aspects of communication.

EDAD 656 - Building Capacity for Powerful Learning
Hours: 3
This school leadership course is designed to develop the candidate’s knowledge and skills of human resources, the budgetary process, and the financial accounting system. The human resources section will focus on personnel management and instructional supervision skills needed to create an effective learning environment for all students. The budgeting and finance sections will focus on performance-based projects related to budget planning and development, resource acquisition and allocation, the accounting code system, and the school finance system. Prerequisites: EDAD 615.

EDAD 658 - School Crisis Leadership
Hours: 3
School Crisis Leadership. Three semester hours. This course will provide students with tools, communication techniques, and research-based methods to assist in the prevention of and recovery from school crisis. Students will gain skills to establish safe learning environments and lead students, faculty, and other school stakeholders through potential crisis. Prerequisites: Doctoral Status. EDAD 695 and EDAD 671.

EDAD 663 - Doc Writing Auth Diss
Hours: 3
Doctoral Writing-Authoring the Doctoral Dissertation - Three semester hours Description : This course serves as an introductory class in the dissertation writing process. The focus of the course is the development of advanced academic writing. Course topics include topic statements, significance statements, of their proposed research and development, and reviews of literature.
EDAD 664 - Doctoral Writing - Prospectus Development  
Hours: 3  
Doctoral Writing - Prospectus Development. Three semester hours. This course serves as an intermediate class in the dissertation writing process. The focus of the course is the development of advanced academic writing. Course topics include theoretical frameworks, advanced reviews of literature, and alignment of research questions and research methodologies. Prerequisites: Doctoral Status. EDAD 695 and EDAD 671.

EDAD 671 - Gov and Pol of Edu Organ  
Hours: 3  
Governance and Politics of Educational Organizations. Three semester hours. This doctoral student only seminar is designed to provide students with the opportunity to create and/or refine their understanding of educational governance and politics of the environment. This understanding will be built as students acquire knowledge and skills from theories, research, and current practices related to governance and policy development in education. In addition, the course is structured to provide students with the opportunity to explore and understand current issues in school governance, policy formulation, and related legal issues. Students should be able to utilize this understanding of educational governance and policy in their formal and informal studies in the field of educational leadership. Prerequisite: Doctoral status.

EDAD 689 - Independent Study  
Hours: 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Doctoral status.

EDAD 695 - Research Methodology  
Hours: 3  
(Same as Coun/EDCI/Psy) An overview of research methodology including basic concepts employed in quantitative and qualitative research methods. Includes computer applications for research. This is an approved Level I doctoral research tools course. Prerequisite: Doctoral status or consent of the instructor.

EDAD 697 - Special Topics  
Hours: 3  
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary. Prerequisite: Doctoral status.

EDAD 698 - Qualitative Research Methods  
Hours: 3  
Qualitative Research Methods. Three semester hours. This is an approved Level IV research tools course. Using the foundation of the following qualitative research approaches: critical ethnography, phenomenology, case studies, grounded theory, and defining cultural themes and patterns, as a basis of all thick description, this course moves into the sociological/anthropological roots of qualitative research. It assists the student in understanding how the problem statement must be related to the methodology and the outcome of the research, assists students in selecting proper qualitative methods, and allows students to pursue those methods within the general framework of the class. Students are urged to develop solid conceptual framework from the social sciences and to formulate reason Prerequisites: Levels I, II, and III research tool courses. Doctoral Status.

EDAD 699 - Resident Doctoral Seminar  
Hours: 3  
Resident Doctoral Seminar. Three semester hours. Only doctoral students fulfilling their residency requirement may register for this course. Students will be guided and assisted in the development of dissertation proposals, writing dissertation chapters, design, data analysis, preparing articles for publication, proposing of papers for conferences and professional meetings, etc. Emphasis will be placed on the student working with their chairs and committee members in these activities. Prerequisites: Doctoral Status. EDAD 695 and EDAD 671.

EDAD 718 - Doctoral Dissertation  
Hours: 3-12  
Doctoral Dissertation. Three to 12 semester hours. A candidate must present a dissertation acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of specialization. To be acceptable the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competence and a significant contribution to knowledge. Graded on a (S) satisfactory or (U) unsatisfactory basis. Prerequisites: Doctoral Status.

---

**Educational Technology Courses**

ETEC 518 - Thesis  
Hours: 3-6  

ETEC 522 - Internship/Practicum  
Hours: 3  
Internship/Practicum. Three semester hours. Varied on-the-job experiences, on or off campus, applicable to student's professional preparation and goals are provided. Supervision by a member of the Graduate Faculty is required. Prerequisite: Permission from the instructor.
ETEC 524 - Intro to Educational Technology  
Hours: 3  
Introduction to Educational Technology. Three semester hours. This course will introduce the student to educational technology and current research on critical issues, trends, diffusion and adoption of technology and history and theoretical foundations of the field. Students will identify, develop and apply a variety of technological skills congruent to their educational technology philosophy. Prerequisite: None

ETEC 526 - Games & Simulations for Learning  
Hours: 3  
Games and Simulations for Learning - Three semester hours. This course examines games and simulations as learning technologies, including defining qualities and characteristics, as well as theories of learning and play. Emphasis is placed on processes for designing and selecting appropriate games and simulations based on analysis of instructional needs.

ETEC 527 - Web 2.0 Technologies for Instruction  
Hours: 3  
Three semester hours. This course explores the current and emerging Web 2.0 technologies used in education and other instructional settings. Students will explore, analyze, and design uses of these technologies to enhance instruction. Emphasis will be on the appropriate selection of technologies for various instructional goals and settings.

ETEC 528 - Digital Storytelling Across the Curriculum  
Hours: 3  
This course will explore the power of capturing and sharing a personal narrative through various approaches using different forms of technology. Students will have the opportunity to learn various techniques for capturing and telling stories, a brief understanding of storytelling, and a chance to create and share autobiographical, interview biographical and global stories shared through different media.

ETEC 557 - Integr Tech throughout the Cur  
Hours: 3  
Integrating Technology and Computer Applications into Content Areas. Three semester hours. Includes an in-depth study of methods for integrating the emerging technologies into specific content areas. Research, as well as current and future implementation issues, will be investigated, and a program for action will be developed.

ETEC 561 - Supporting Learning with Technology  
Hours: 3  
This course focuses on learning theory and principles underlying learning-centered uses of technology to support the learning process. Students will explore and analyze communication technologies applicable to teaching and learning, and will design a unit of instruction using a learning-centered approach supported with technology.

ETEC 562 - Applying Instructional Media & Technology  
Hours: 3  
Applying Instructional Media and Technology. Three semester hours. Introduces students to the selection and use of computer-based media, multimedia, and conventional media, in the preparation of materials for instructional purposes. Special attention is given to computer hardware and software involved in computer based media production, digital formatting technology, and multimedia processes.

ETEC 568 - Makerspaces  
Hours: 3  
This course will explore a movement that has emerged in the last decade on several levels. Through reading and research students will begin to understand the culture and structure of the maker movement and how it can be implemented in existing schools. Students will also have a chance to participate in several aspects of making through prototyping with electronics, microcontrollers and some simple computer programming in C++ on the Arduino. This class is designed to serve as an introduction to making.

ETEC 578 - Instructional Design & Development  
Hours: 3  
Same as OLT 578. Students will utilize a systems approach to design and develop instruction. The five phases of instructional design: analysis, design, development, implementation, and evaluation, are examined.

ETEC 579 - Implementation of Educational Technology Programs  
Hours: 3  
Three semester hours. An examination of the theories, practices, and competencies required for effective implementation of educational technology programs. Examines historical trends in technology integration and explores key factors and considerations for the implementation of instructional technology programs. Prerequisites: ETEC 524 or permission of instructor.
ETEC 588 - Issues In Ed Tech & Tech Chg
Hours: 3
Issues in Educational Technology and Technological Change. Three semester hours. This course focuses on the processes by which professional change agents (for example, educational technologists) influence the introduction, adoption, and diffusion of technological change. The interlocking relationships of technology, culture, and society and the role of the change agent in affecting those relationships are covered. Students learn how to predict and minimize the undesirable consequences of change and how to enhance the development of communication skills required when working with people. areas to the addressed, but not limited to include mentoring for and with technology, assistive technology solutions, and applications of emerging technologies.

ETEC 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

ETEC 591 - Online, Virtual, and Distributed Learning Systems
Hours: 3
Three semester hours. Examines theories and practice of online, virtual, or distributed learning systems, such as flipped classrooms, hybrid or blended learning environments, and distance education. Emphasis is on the design and implementation of effective instructional strategies for online, virtual, or distributed learning environments. Prerequisites: ETEC 524 or permission of the instructor.

ETEC 593 - Strategic Planning for Technology Integration
Hours: 3
This course examines the process for developing and implementing a strategic plan for technology integration in educational settings. Emphasis is placed on developing a mission, vision, and priority goals for technology integration that align with school/institution strategic plans, as well as state technology and readiness standards.

ETEC 594 - Technology and Inquiry-based Instructional Methods
Hours: 3
Technology and Inquiry-based Instructional Methods - Three semester hours. This course examines the role of technology in the inquiry-based instructional methods vital to fostering critical thinking and complex problem solving skills and abilities. Emphasis is placed on social constructivist learning theories and inquiry-based instructional methods, such as case study approaches and problem- or project- based learning.

ETEC 596 - ETEC Capstone: Eportfolios & Program Evaluation
Hours: 3
This course is intended for students in the last semester of the ETLD or ETLS masters degree program. The course will explore eportfolios as a means to support metacognitive reflection (a key to lifelong learning), make thinking visible, assess learning, and evaluate learning programs. Students will also develop a learning technology program evaluation plan and submit their ETEC eportfolios for peer review and revise for final submission for graduation. Prerequisites: ETEC 524, ETEC 527, ETEC 562, ETEC 579.

ETEC 597 - Special Topics
Hours: 3
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Elementary Education Courses

ELED 501 - Lang Acq Dev E Ch
Hours: 3
Language Acquisition and Development in Early Childhood. Three semester hours. A study of the acquisition and development of language in young children with a comprehensive examination of the major areas of language experiences.

ELED 512 - EFF TCHNG & PROFESSIONAL GROW
Hours: 3
Effective Teaching and Professional Growth Hours: Three This course contains the professional body of knowledge necessary for effective teaching. This course emphasizes theories and issues of education that are directly related to teacher professional growth. The content of the course will include site-based management, professional ethics, school environment issues, communication issues, educational research, and political influences. Students will exhibit an understanding of the Texas teacher competencies as outlined on the Pedagogy and Professional Responsibility portion of the TExES test. Note: Enrollment is limited to teachers on emergency certification.
ELED 514 - Management/Curr Dvlp Diverse L
Hours: 3
Management and Curriculum Development for Diverse Learners. Three semester hours. This course contains the professional body of knowledge necessary for effective teaching. This course emphasizes methods of organizing and managing a classroom based on an understanding of diverse environments. Teacher skills which have been proven to be effective in supporting diversity in the classroom will be developed. The content of this course will include classroom management strategies, curriculum and lesson planning, teaching models, assessment models, and certification issues. Students will exhibit an understanding of the Texas teacher competencies as outlined on the Pedagogy and Professional Responsibility portion of the TEExES test.

ELED 515 - Effective Teaching Diverse Env
Hours: 3
Effective Teaching in a Diverse Environment. Three semester hours. This course contains the professional body of knowledge necessary for effective teaching. This course focuses on understanding theories and strategies that address the needs of a diverse population. Included in this course will be diversity issues, refinement of classroom management and planning techniques, teaching strategies, and informal and formal assessment practices. Students will exhibit an understanding of the Texas Teacher competencies as outlined on the Pedagogy and Professional Responsibility portion of the TEExES test. Enrollment is limited to teachers on an emergency permit. Co-requisite ELED 523. Prerequisites: ELED 514.

ELED 522 - Induction Seminar
Hours: 3-6
Induction Year Seminar for Elementary/Middle School Teachers. Three to six semester hours. This course is designed to support the transition of new teachers during their induction year. Students actively work with instructor to develop the content of the course through analysis of needs assessment conducted during first class meeting. Weekly support group discussions enable students to become reflective practitioners while exploration, modeling, and implementation of effective teaching strategies encourages professional growth. Co-requisite ELED 523.

ELED 523 - Internship in Elementary/Middle School
Hours: 3
This course will provide experiences in various environments that will be supervised by mentors and university liaisons. Regular seminar sessions may be held which will focus on concerns related to education and/or the workplace.

ELED 524 - Lang Arts Curr Grds 1-8
Hours: 3
Language Arts Curriculum for Grade One Through Eight. Three semester hours. A consideration of techniques of teaching the communication skills and the role of linguistics in the language arts program.

ELED 529 - Workshop
Hours: 3
Workshop in Elementary Education. Three to six semester hours. May be graded on a satisfactory (S) and unsatisfactory (U) basis.

ELED 530 - Math Curr Grades 1-8
Hours: 3
Mathematics Curriculum for Grades One Through Eight. Three semester hours. This course identifies numerous movements toward a modernization of both content and method and relates these innovations to good teaching practices already in use. It includes the language of sets, number system, means for improving pupil performance in solving problems, and techniques for identifying areas of pupil accomplishment or of pupil difficulty.

ELED 545 - Issues in Dev Elem Curriculum
Hours: 3
Issues in the Development of the Elementary Curriculum. Three semester hours. The purpose of this course is to note how various philosophies have influenced the development of the elementary curriculum in order to meet the changing social and economic trends. Research articles will be studied in order to evaluate selection of procedures and materials. Practical experiences will be provided in the construction of course of study units for the elementary grades.

ELED 557 - Soc Studies Curr Grds 1-8
Hours: 3
Social Studies Curriculum for Grades One Through Eight. Three semester hours. This course is designed to give inservice personnel an opportunity to work cooperatively in attacking classroom problems. In addition to the development of teaching units for use in the classroom, students will become acquainted with the most recent trends in the social studies including an acquaintance with the wide range of materials now available to the social studies teacher. The social studies as an integrating core for experience units will be evaluated.

ELED 558 - Sci Curriculum Grades 1-8
Hours: 3
Science Curriculum for Grades One Through Eight. Three semester hours. An examination of current issues and trends in content and pedagogy with an emphasis on inquiry instruction and learning. Development and evaluation of curriculum will ascertain how changing needs in education are being addressed.
ELED 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

ELED 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary.

English Courses

ENG 501 - Structure Eng Language
Hours: 3
Structure of the English Language. Three semester hours. A thorough analysis of the grammatical structure of English employing contemporary as well as more traditional methodologies. Emphasis varies among phonology, morphology, syntax, text/discourse analysis and historical developments in the language.

ENG 503 - Marginalized Literatures
Hours: 3
Marginalized Literatures - Three semester hours A study of emergent or historically marginalized literatures that considers the relationship between important social categories such as class, race, nationality or sexuality and imaginative works that represent these categories in a range of historical, cultural, and national contexts. The course may focus on contemporary or historical literatures from any world culture, and the primary focus will be on considering the limits of modernity, group identity, and national consciousness as objects of literary and cultural analysis. May be repeated for credit when the emphasis changes.

ENG 504 - Pic Bks Graph Nar Art Img
Hours: 3
Picture Books, Graphic Narrative, and the Art of Images. Three semester hours. An Examination of the historical, cultural ideological, aesthetic, material and critical contexts that influence and produce picture books and graphic narratives written for young readers, including a study of how words, images, and institutions shape our response to those texts.

ENG 505 - Inven Chil Lit & Chldhood
Hours: 3
The Invention of Children's Literature and Childhood. Three semester hours. A survey of the historical development of children's literature in relation to its cultural, intellectual, and political contexts. Could include how British and American writers changed paradigms for and perceptions about "childhood" and "children's literature" by developing literature that entertained and instructed young readers as well as how conditions of print culture, political change, and social status influenced the delivery and reception of the genre.

ENG 506 - Prob Adolescent Literatur
Hours: 3
Problems in Adolescent Literature. Three semester hours. An overview of the various problems associated with adolescent literature including the problem novel and new realism, how adolescent literature is defined issues associated with censorship and the problems adolescents experience in the texts.

ENG 507 - Narr Trans Lit Ch Adol
Hours: 3
Narrative Transformations in Literature for Children and Adolescents. Three semester hours. A study in the adaptation or appropriation of familiar or traditional story forms such as folk and fairy tales into more contemporary narrative forms including novels and film.

ENG 508 - Constr Real Ch Adol Lit
Hours: 3
Constructing Reality and Reconstructing History in Children's and Adolescent Literature. Three semester hours. An overview of historical fiction and realistic literature that emphasizes the cultural and social milieu that produced the texts as represented by the genres. Particular attention will be paid to the construction of history and the social realities addressed in the texts, including ethnic, racial and global considerations

ENG 509 - Literary Genres
Hours: 3
Literary Genres. Three semester hours. An examination of one or more literary genres. Topics and approaches may vary, but might include a focus on a particular historical period, theme, or critical approach to selected poetry, drama, non-fiction prose, fiction, or film. May be repeated for credit when the emphasis changes.
ENG 510 - Introduction to Film Studies  
Hours: 3  
Introduction to Film Studies - Three semester hours Designed for graduate students who have had no formal training in film study, this course will introduce basic skills and approaches to understanding and interpreting film through the “rhetoric” of film as it relates to the critical analysis of film (e.g., cultural criticism, genre, history, ideology).

ENG 513 - Learning Thru Composing  
Hours: 3  
Learning Through Composing. Three semester hours. Examines to what extent and how composing influences learning and knowledge, how the nature of knowledge is affected by composing and the kinds of knowledge transformations that occur through composing. Includes attention to uses of writing for learning across the curriculum.

ENG 515 - History & Theory Rhetoric  
Hours: 3  
History and Theory of Rhetoric. Three semester hours. A study of the major theories and theorists of rhetoric from classical times to the twentieth century. Emphasis varies from semester to semester. Attention is given to such theorists as Aristotle, Sophists, Plato, Cicero, Quintilian, Perelman, Richards, Weaver, and Moffett. May be repeated for credit when the emphasis changes.

ENG 516 - Early American Literature  
Hours: 3  
Early American Literature. Three semester hours. This course examines the rise of American narrative through the nation's colonial and early national periods, especially in British North America between 1620 and 1820. Topics for consideration could include exploration of how such narratives as the memoir, captivity narrative, sermon, and novel fostered the invention and formation of Americanness and American literature, examination of the fundamental ideas, myths, and intellectual concepts that still influence the ways in which Americans think about themselves and their societies and consideration of how anxieties about race, class, gender, and religion informed the creation of literary texts in early America.

ENG 518 - Thesis  
Hours: 3-6  
Thesis. Three to six semester hours. Required of candidates seeking the 30-hour Masters. Graded on a satisfactory (S) or unsatisfactory (U) basis.

ENG 519 - American Lit in Transition  
Hours: 3  
American Literature in Transition: From Civil to World Wars. Three semester hours. This course investigates the ways in which the literature of the United States reflected the country’s rapid political, industrial, economic, and social transformations between 1865 and 1914. Topics for discussion could include the rise of literary realism, the significance of American regional writing, a growing emphasis on vernacular traditions, the impact of immigration the phenomenon of the New Woman and the uses of naturalistic writing to capture America’s ever-changing urban landscape.

ENG 520 - Contemporary Critical Practices in English Studies  
Hours: 3  
A study of major trends in critical theory informing scholarly work in English studies, including rhetoric and composition, literature, and film. Primary focus is theoretical approaches to analyzing literature, film, and studies in rhetoric and composition. Course focus may change but might include one or more of the following bodies of theory and method: the Frankfurt School, cultural marxism, psychoanalysis, critical race studies, postcolonialism, queer studies, deconstruction, feminist theory, and narrative theory.

ENG 521 - American Modernities  
Hours: 3  
American Modernities. Three semester hours. Studies in various aspects of the period in American writing from the turn of the century to the Second World War. Special emphasis will be placed on the multifaceted and experimental nature of American literary modernism and the ways in which it was informed by the various social and art movements during this period. Subjects for analysis could include writings of the Lost Generation, the war novel, the influence of the visual arts on written texts, proletarian writing, the growing hybridity of generic form and literary representations of the Jazz Age as well as the Great Depression.

ENG 522 - Maj Figures in Amer Lit  
Hours: 3  
Major Figures in American Literature. Three semester hours. A focused analysis on a significant figure in American literature, or a treatment of two or more important writers who bear some kind of close personal or thematic relationship. May be repeated for credit when the emphasis.
ENG 525 - Contemporary Literature  
Hours: 3  
Contemporary Literature. Three semester hours. A study of post-1945 and recent literature in the United States and/or the United Kingdom and Ireland. Special emphasis will be placed on the ways in which national and international phenomena both social as well as aesthetic, have informed an increasingly diverse understanding of literary texts. Topics for analysis could include late Modernism and its links to postmodern thought, Cold War writing, literatures of nationhood, post colonialism, the institutionalization of theory, multiculturalism and its literary impact, and the ever-growing emphasis placed on generic hybridity, especially as it concerns visual and electronic media. May be repeated for credit when the emphasis changes.

ENG 526 - Studies in Shakespeare  
Hours: 3  

ENG 527 - Antebellum American Lit  
Hours: 3  
Antebellum American Literature. Three semester hours. Studies in various aspects of American literature from around 1820 to the closing day of the Civil War. Topics covered may include the transition from republicanism to Jacksonian democracy, the influences of romanticism, the canonization of the American Renaissance, sentimental narrative and the literary marketplace transcendentalism the rise of literary journalism and debates surrounding the romance and the novel as generic distinctions.

ENG 530 - History of Narrative Film  
Hours: 3  
History of Narrative Film - Three semester hours An examination of the development of film from the silent era to the present. Focus may be on American film, or other national cinemas (e.g., English, Italian, French, Soviet, Japanese, Brazilian, Chinese, Mexican). May be repeated as topics vary to a maximum of 6 hours.

ENG 531 - Maj Fig & Mov Brit Lit  
Hours: 3  
Major Figures and Movements in British Literature. Three semester hours. A thorough study of the age, the work, and the influence of a major British literary figure; or, treatment of two or three important figures who have some close relationship to one another; or, a thorough study of a specific literary movement or theoretical approach to an author or group of authors. May be repeated for credit when the emphasis changes.

ENG 534 - Med Renaiss Brit Lit  
Hours: 3  
Medieval and Renaissance British Literature. Three semester hours. Individual investigation and group discussion of selected topic. May focus on major figures, critical or historical approaches, themes, or genres in British literature before 1660. May be repeated for credit when the emphasis changes.

ENG 536 - The Age of Reason  
Hours: 3  
The Age of Reason. Three semester hours. Individual investigation and group discussion of selected topic. May focus on major figures, critical or historical approaches, themes, or genres in British literature from 1660-1830. May be repeated for credit when the emphasis changes.

ENG 537 - Mod Transf Brit Irish Lit  
Hours: 3  
Modern Transformations: British and Irish Literature. Three semester hours. Individual investigation and group discussion of selected topic. May focus on major figures, critical or historical approaches, themes, or genres in British literature from 1830-1945. May be repeated for credit when the emphasis changes.

ENG 540 - Development British Novel  
Hours: 3  
Development of the British Novel. Three semester hours. A study of the origin and development of the novel in Great Britain from the eighteenth century to the present. Novels by authors such as Fielding, Austen, Dickens, Hardy, Woolf, and Joyce may be included.

ENG 543 - Writing with Digital Media  
Hours: 3  
A practicum on composing original essays with digital media, including video, sound, and images. This course is designed for advanced students and those new to writing with digital tools. Introduces students to a range of tools, concepts, and models for composing with digital media, as well as ethical considerations associated with the creation and sharing of multimodal texts, including the role to be played by the Digital Humanities. Course will focus on elements of effective storytelling, digital media, and creative rights. Objectives include understanding the fundamentals of digital storytelling. Students will demonstrate that understanding by assembling and sharing their own original examples of digital storytelling in video, sound, images, or other modalities.
ENG 555 - General Linguistics
Hours: 3
An advanced survey of linguistics covering phonology, morphology, syntax, semantics, and pragmatics.

ENG 557 - Teaching English as a Second/Other Language Methods I
Hours: 3
This course focuses on the linguistic, psychological, and socio-cultural foundations for teaching English to native speakers of other languages. It surveys historical as well as current trends in the methods and materials of ESL, of language testing, and of language-program evaluation.

ENG 558 - Sociolinguistics
Hours: 3
This course focuses on the various aspects of human behavior and sociocultural interaction that affect language structure, use, learning, and acquisition. Topics discussed include sociolinguistic methodology, interactional sociolinguistics, variationist sociolinguistics, language and gender and language and ethnicity.

ENG 559 - Lang & Culture in Class
Hours: 3
Language and Culture in the Classroom. Three semester hours. This course will focus on language diversity in education. Of particular interest will be societal factors that influence education- racism, ethnicity, sexism, bilingualism and bidialectalism and how these dynamics often affect the decisions educators make in designing and implementing language curriculum in the classroom.

ENG 562 - Psycholinguistics
Hours: 3
Psycholinguistics. Three semester hours. A survey of the cognitive, affective and developmental constraints on language acquisition and use. Topics include multilingualism; language, mind and brain; language processing and comprehension; first and second language acquisition; and research tools.

ENG 563 - Publishing
Hours: 3
Creative and Scholarly Publishing - Three semester hours This class is a practicum for students interested in publishing their creative or academic work. Students will work on preparing their work for publication, researching potential markets, and study how to submit work for publication. Extensive research on publishing and peer critiques. Pre-requisite: ENG 578

ENG 570 - Cultural Rhetorics
Hours: 3
This course will explore connections among rhetoric, literacy, language, and identity, including the rhetorical nature of embodiment and what identities, populations of people, labor, backgrounds, and abilities are in/excluded from such discussions. Course focus may change to emphasize specific identity markers (such as working class, gender, African American, Latinx, dis/ability, sexuality) but will also encourage students to explore the intersections amongst other identities.

ENG 572 - Colloquim Interns
Hours: 1

ENG 578 - Workshop on Writing
Hours: 3
Workshop on Writing. Three semester hours. A workshop in writing poetry, fiction, non-fiction prose, or screenplays. Extensive writing and peer critiques. May be repeated for credit when the emphasis changes.

ENG 579 - Style and Stylistics
Hours: 3
This course may cover any of the following areas of stylistic analysis: applied linguistics to a specific genre or genres; rhetorical and stylistic approaches to writing in various styles; teaching English as a second language; areas of literary criticism that employ stylistic analysis; a digital humanities approach using corpus stylistics. May be repeated up to 6 semester hours.

ENG 585 - Workshop on Writing: Forms and Genres
Hours: 3
Workshop on Writing: Forms and Genres. This class is an advanced, intensive, reading and writing course that focuses on a specific genre of poetry or prose based on instructor specialization. Students will read and write in the assigned genre. Extensive writing and peer critiques. May be repeated for credit when the genre changes.

ENG 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.
ENG 595 - Research Lit/Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. Required of students who opt for the 36-hour Masters. This course requires an extensive investigation into a topic agreed upon by the student and the advisory committee. Graded on a satisfactory (S) or unsatisfactory (U) basis.

ENG 596 - Practicum in TESOL
Hours: 1-3
Practicum in TESOL. One to three semester hours. Hands-on application of TESOL methods and techniques. In coordination with an Applied Linguistics adviser, candidates will teach in a mutually-agreed upon ESL setting. Graded on a satisfactory (S) and unsatisfactory (U) basis.

ENG 597 - SPECIAL TOPICS
Hours: 0-3

ENG 599 - Bib & Methods of Research
Hours: 3
Bibliography and Methods of Research. Three semester hours. For beginning literature and languages graduate students who have not had an equivalent graduate-level course, this course covers manuscript preparation, format; research techniques for literary, linguistics, and composition/rhetoric studies.

ENG 610 - Studies in Film Genres
Hours: 3
Studies in Film Genres - Three semester hours An examination of film genres, either by surveying the various genres or examining a particular genre (such as westerns, film noir, or French New Wave), through the eyes of a particular director or culture. May be repeated as topics vary to a maximum of 6 hours.

ENG 611 - Writing with Digital Media
Hours: 3
A practicum on composing original essays with digital media, including video, sound, and images. This course is designed for advanced students and those new to writing with digital tools. Introduces students to a range of tools, concepts, and models for composing with digital media, as well as ethical considerations associated with the creation and sharing of multimodal texts, including the role to be played by the Digital Humanities. Objectives include understanding the fundamentals of digital storytelling. Students will demonstrate that understanding by assembling and sharing their own original examples of digital storytelling in video, sound, images, or other modalities. Course may be repeated for credit as topics change.

ENG 613 - Digital Humanities
Hours: 3
Digital Humanities: A study of theories and methods relating to the use of computational and digital tools to pursue questions of research and teaching in the humanities. The course will explore the ways in which technologies are complex, socially situated, and political tools through which humans act and make meaning. The course may focus on specific disciplinary questions relating to research or pedagogy, or may take an interdisciplinary or transdisciplinary approach. May be repeated for credit when the emphasis changes. General familiarity with the Internet is suggested, but no prior knowledge of digital humanities or programming knowledge is required.

ENG 615 - Professing English
Hours: 3
Professing English - Three semester hours Primarily for English doctoral students, English 615 is an introduction to the profession of English—that is, the process by which one becomes a professional. Issues covered will include the curriculum vita, abstracts, dissertation proposals, dissertations, the job search, the research process beyond graduate school. The course will also include history of English as a part of the college curriculum. This course is required of all doctoral students. Graded on a satisfactory (S) and unsatisfactory (U) basis

ENG 620 - Adaptations to Film
Hours: 3
Adaptations to Film - Three semester hours Examines the relationship between film, literature and other sources and the unique qualities of each medium. Special emphasis on film adaptations of literary works from western and non-western cultures.

ENG 657 - Teaching English as a Second/Other Language Methods II
Hours: 3
This is the second course in a two course sequence designed to prepare individuals to become teachers of ESOL. It complements the theoretical and historical perspective of TESOL Methods I with a focus on classroom practices (e.g. micro-teaching, classroom management, lesson planning, content development, and building intercultural awareness). Prerequisites: ENG 557 or instructor approval.

ENG 658 - Sound Systems of English: Pedagogical Applications of Phonology & Phonetics
Hours: 3
This course focuses on the application of phonological principles and practices to TESOL teaching. Within a framework of communicative competence, we will examine different approaches to pronunciation teaching in the ESL/EFL classroom and investigate a variety of techniques and activities. Prerequisites: ENG 555 or instructor approval.
ENG 670 - Pragmatics & Language Tchg
Hours: 3
Pragmatics and Language Teaching - Three semester hours Pragmatics and Language Teaching is an introduction to the role of pragmatics in the second language classroom. With an underlying focus in our readings and discussions on cross-cultural pragmatics, it investigates the following questions: What is pragmatics? How can it help classroom language teaching? How can we integrate pragmatics in the classroom? How can pragmatics help us to understand student development? This is an introductory level graduate course on pragmatics and language teaching, and no background in this area is required. Pre-requisites: ENG 555

ENG 671 - Discourse Analysis
Hours: 3
Discourse Analysis - Three semester hours The course focuses on the nature of spoken and written discourse and the applications of discourse analysis to TESOL. It examines written and spoken macro- and micro-level discourse practices inside and outside of the classroom including investigation of transactional and interactional discourse events and multiple genres. With a focus on both approaches to analysis and teaching, the course is designed to bridge the gap between researcher and practitioner and to encourage teachers to use similar techniques in their classroom teaching. Pre-requisites: ENG 555

ENG 672 - Second Language Acquisition
Hours: 3
Second Language Acquisition - Three semester hours This initial-level seminar focuses on “perennial” issues that arise in the study of second language acquisition and our current understanding, re-evaluation and discussion of these issues within the field. It covers both the historical development of the field and current areas of growth such as neurocognitive models of second language acquisition. With a focus on both approaches to second language data analysis and developing theoretical frameworks, the course is designed for graduate students who are primarily research-oriented or primarily practitioners. Pre-requisites: Instructor Approval

ENG 675 - Colloq: Teach Coll Rdg & Wtg
Hours: 3
Colloquium: Teaching College Reading and Writing, Three semester hours. A practicum in formulating syllabi in rhetoric that integrate selected textbooks and the theory of composition, and in the daily problems inherent in teaching expository writing. The class is required of all English assistant instructors in either the first or second semester they hold an assistantship. Graded on a satisfactory (S) and unsatisfactory (U) basis. Not applicable to hours for MA/MS degree. Prerequisite: Permission of the department Head.

ENG 677 - Issues in Literacy
Hours: 3
A study of the problems and issues concerning literacy, literacy teaching, and literacy research. The course examines the social, political, educational, and cultural influences on literacy. May include emphasis on particular populations or problems.

ENG 680 - Rdg Theory Coll Eng Tchrs
Hours: 3
Reading Theory for College English Teachers. Three semester hours. An examination of the relationship between reading and writing developments and applications to instruction. Approaches reading and writing as cultural and cognitive activities. Integrates theoretical readings with classroom practices. Crossover course: May count for either area.

ENG 681 - Academic Discourse
Hours: 3
A workshop-based course designed to introduce graduate students to the nature of academic writing. Students will analyze their own texts and published scholarship with the goals of refining or producing texts that reflect the conventions associated with academic discourse and identifying strategies that will assist in developing a unique but professional voice/style.

ENG 685 - Computational Linguistics
Hours: 3
Computational Linguistics Description : This course provides a general introduction to Computational Linguistics, the study of computational systems that understand and generate human language. This class will cover fundamental concepts and techniques in Computational Linguistics, such as lexical and ontological semantics, word sense disambiguation, syntactic and semantic parsing, discourse (including coreference resolution), dialogue, summarization, and generation. Throughout the class, students will be exposed to recent research that connects the concepts learned to exciting research questions that are practically motivated and application-oriented. Additional emphasis will be on the different traditions and theoretical frameworks that informed the theories and algorithms used for these solutions, namely, linguistics, statistics, and computer science, and the history of their struggle from the 1950s until today. Instructor's approval required
ENG 686 - Quantitative Methods for Linguists
Hours: 3
This course is designed to help graduate students with a background in linguistics, but no active knowledge of statistical methods, appreciate the basic concepts in descriptive and analytical statistics as relevant for work in the humanities, in particular linguistics. In the field of linguistics a working knowledge of statistics is crucial to both understanding the professional literature and to conducting experiments, analyzing results, and writing reports that are considered publishable. Students will be empowered to calculate general tendencies and dispersions in their own data, determine the statistical significance of their results, and report those results in a manner that accurately and professionally communicates them to the scientific community.

ENG 687 - Qualitative Methods
Hours: 3
This initial level seminar is an introduction to Qualitative Research Methods in Applied Linguistics. A variety of qualitative research methods from different areas of Applied Linguistics are surveyed. The course combines readings and critical analysis of research articles with experience in collection, analysis and reporting of data.

ENG 689 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

ENG 697 - Special Topic
Hours: 3
Special Topics. Three semester hours. Organized class. May be repeated when topics vary.

ENG 697A - Special Topic
Hours: 3
Special Topics. Three semester hours. Organized class. May be repeated when topics vary.

ENG 710 - Film Theory & Criticism
Hours: 3
Film Theory & Criticism - Three semester hours A survey of theoretical and critical approaches to analysis of film and video with an emphasis on the historical and cultural context in which these approaches emerge, examining selections from western and non-western film theory and criticism.

ENG 718 - Doctoral Dissertation
Hours: 3-12
Doctoral Dissertation. Three to nine semester hours. Credit not to exceed nine semester hours. Graded on a satisfactory (S) and unsatisfactory (U) basis.

ENG 720 - Sptc: in Film Studies
Hours: 3
Special Topics in Film Studies - Three semester hours Extended investigation of major subjects and issues in cinema and other media; topics vary but may include studies of author/directors, historical movements, critical approaches, and themes. May be repeated as topics vary to a maximum of 6 hours.

ENG 771 - Theory/Practice of Tchng
Hours: 3
Theory and Practice of Teaching Reading and Writing in College Study of the objectives of college English; methods and materials for the teaching of college English, including technology; curriculum planning; administration of English writing programs. This course is recommended for doctoral students planning to teach on the college level and may be used toward the 21-hour Professional Internship requirement. 3 SCH.

ENG 775 - Teaching Literature in College
Hours: 3
Teaching of Literature in College. Three semester hours. Methods and theories of teaching the interpretation of literary and nonliterary texts to college students.

ENG 776 - Methods and Methodologies in Writing Studies
Hours: 3
This course will provide an introduction to research methods and methodologies commonly used in rhetoric, composition, writing studies, and literacy studies. Topics include the following: histories of research methods and methodologies; connections among (and understandings of) methods; practical guidance for student-selected, original research; and methodologies as theories that guide our use of methods. Students will learn how to create and sustain a research project by drawing attention to how methods and methodologies can enable, constrain, and complicate our work. Students will have the chance to learn about various methods (such as interviewing, archival work, grounded theory, ethnography) as well methodologies (such as feminist, transnational, racial).
ENG 780 - Text and Genders  
Hours: 3  
A critical examination of theories of how gender categories and concepts are constructed across cultures and time and how they intersect with race, class, and sexual orientations. Depending on instructor specialization, the course focus may be literary, focusing on gender in fiction, non-fiction, poetry, or film; or on gender in rhetoric and composition studies; or gender in linguistics. This course is recommended for doctoral students planning to teach and/or produce scholarship on the college level. May be repeated once for credit when course focus changes.

ENG 781 - Major Figures World Lit  
Hours: 3  
Major Figures in World Literature A study of major literary works from both classical and contemporary literature in diverse genres outside the English language tradition. This course is required for doctoral students specializing in Critical Literacy (the study of literature and film). 3 SCH.

Environmental Science Courses

ENVS 502 - Phase I Site Assessment  
Hours: 3  
Phase I Environmental Site Assessment - Three semester hours Phase I Environmental Site Assessments (often known as “due diligence) are the bread and butter of most environmental consulting firms. In this course, you will learn why these are important and the proper protocols involved. In this course, you will be required to conduct three phase I’s on abandoned industrial or commercial properties.

ENVS 503 - Env. Law, Reg., Ethic  
Hours: 3  
Environmental Law, Regulation, and Ethics. Three semester hours Internet-Course This Course is designed familiarize students with an overview of environmental law and regulation, to provide them with the skills required to navigate through the regulations, and to provide them with the tools to stay current with regulatory changes as they occur. In addition, this course will acquaint students with numerous environmental ethical issues that influence the development of environmental policy and regulations. Pre-requisites: None

ENVS 505 - Hydrology  
Hours: 3  
Hydrology - Three semester hours Internet-Course This Course is designed to familiarize students with all aspects of the hydrologic cycle, but the bulk of the course is devoted to hydrogeology, the study of groundwater. Characteristics of groundwater flow and practical methods of aquifer characterization will be discussed particularly as it relates to the evaluation of groundwater supplies and groundwater contamination and remediation. Pre-requisites: None

ENVS 506 - Renewable Energy  
Hours: 1  
Renewable Energy Resources - One semester hour A brief survey of the state of non-renewable energy resources, and a then detailed survey of types, advantages and disadvantages, recent advances, and the commercial availability of products related to our renewable energy resources.

ENVS 508 - Environmental Remediation  
Hours: 3  
Environmental Remediation - Three semester hours A detailed survey of the various methods used in the remediation of contaminated soil and groundwater. Includes numerous case studies

ENVS 589 - INDEPENDENT STUDY  
Hours: 1-4  
Independent Study - Hours: One to four Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

ENVS 597 - Special Topic  
Hours: 1-3  
Special Topic in Environmental Science 1 to 3 semester hours. Organized class maybe repeated when topics vary.

Equine Science Courses

EQSC 589 - Independent Study  
Hours: 0-4  
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies

EQSC 597 - Special Topics  
Hours: 1-4  
Organized class. May be repeated when topics vary.
Finance Courses

FIN 501 - Finance for Decision Makers
Hours: 3
This course is designed for nonbusiness undergraduate degree holders to prepare for making financial decisions. Basic concepts of finance are applied in both the public and private sectors. Graduate students will learn about financial analysis, financial forecasting, asset management, financial markets and security valuation (including state and local bonds). This course satisfies the finance background requirement for the MBA candidates and may be appropriate for graduate programs in a field other than business administration.

FIN 504 - Financial Management
Hours: 3
A study of business finance within the economic environment including financial reporting, analysis, markets and regulations, with emphasis on global and ethical issues. Risk, valuation, planning and analysis including working capital management and capital budgeting, and other decision rules help maximize the value of the firm. Focus on total quality management and financial considerations in the production of goods and services. Prerequisite: FIN 304 or FIN 501, or consent of instructor.

FIN 510 - Investment Seminar
Hours: 3
A comprehensive study of security selection and analysis techniques and of security markets and how they are affected by the domestic and international economic, political, and tax structures. Group discussion, individual and group research, and the computer are utilized. Prerequisite: FIN 504 or consent of instructor.

FIN 512 - Derivatives & Risk Management
Hours: 3
This course provides a broad introduction to the derivatives markets including options, futures, and swaps. Derivative securities play an integral part in managing risk for multinational corporations, portfolio managers, and institutional investors, as well as provide opportunities for speculators around the world. The main goal of the course is to leave the student with an understanding of various derivatives strategies and implications for portfolio management. Prerequisites: FIN 510.

FIN 515 - Fixed Income Analysis
Hours: 3
This course focuses on securities that promise a fixed income stream (mainly bonds) whose valuation are influenced by interest rates. Students examine the market for and the price/yield determinants of various fixed income securities, including Treasury debt, corporate bonds, agency debt, municipal bonds, mortgage- and asset-backed securities. The concepts and tools taught in this course are those that are useful to managers and investors who want to use these securities in investing, hedging, market-making, or speculating activities. Even though the cash flow streams are fairly predictable and easy to quantify, the ever changing interest rate and credit environment makes the valuation of bonds particularly challenging. Prerequisites: FIN 510.

FIN 520 - Advanced Entrepreneurial Finance & Venture Capital
Hours: 3
The goal of this course is to help students understand the dynamics of the capital food chain within the context of the entrepreneurial ecosystem affecting the global economy. To this end, we explore various stages of venture capital investing such as seed, start-up, early, mid and later. Next, we introduce the venture capital model and the valuation aspects of entrepreneurial finance. There is a strong emphasis on modeling cash flows as the most critical component of venture capital decision making. The mechanics of venture capital financing in the form of term sheets, business plans and due diligence process are discussed with respect to deal structuring (the entrepreneur perspective) and deal evaluation (the venture capitalist perspective). Prerequisites: FIN 504. Crosslisted with: FIN 420.

FIN 530 - Fundamentals of Financial Planning
Hours: 3
This course exposes students to personal financial planning utilizing basic financial planning skills and tools. Topics include insurance, investment, income tax, business, retirement, and estate planning to some degree within this course. It is through some exposure to all of these sub-fields and discussion of how the planner facilitates effective planning in each of them that students will gain a more complete perspective of the field of financial planning and the requirements of being an effective financial planner. Prerequisites: FIN 304 or FIN 501. Crosslisted with: FIN 430.

FIN 533 - Applied Financial & Economic Forecasting
Hours: 3
Introduces students to the tools, techniques and computer software used to create a structural process by which future economic, finance, and business variables are forecasted. Prerequisites: Eco 231 and 232, or ECO 501 and ECO 502. Crosslisted with: ECO 533.
FIN 534 - Advanced Risk, Insurance, and Estate Planning  
Hours: 3  
An advanced assessment of risk management, the risk management process, the insurance industry, insurance company operations, and insurance products for individuals, families, and small businesses. An in depth and comprehensive evaluation of insurance products including homeowners, auto, business life, health, disability, and long term care insurance. An advanced analysis of the estate planning process, asset titling, transferring of assets, and the estate and gift tax system. Both basic and advanced estate planning strategies and implications are also explored. Prerequisites: FIN 530. Crosslisted with: FIN 434.

FIN 536 - Advanced Retirement Planning & Employee Benefits  
Hours: 3  
This course provides an introduction to retirement plans and employee benefits. The emphasis is on the decision making process of the individual in consultation with the financial planner. After a thorough review of retirement funding, this course discusses qualified pension plans, profit sharing plans and stock bonus plans as well as distributions from and administration of these plans. Other topics include IRAs, SEPs, 401(k)-, 403(b)-, and 457 Plans, Social Security, Deferred Compensation and Non-qualified Plans. Employee benefits are explored in two as both fringe and group benefits. Prerequisites: FIN 530. Crosslisted with: FIN 436.

FIN 538 - Financial Planning Capstone  
Hours: 3  
This is a comprehensive course that will require students to synthesize and apply all the elements of comprehensive financial planning. This course will integrate education planning, investment planning, retirement planning, estate planning, insurance planning, and tax planning with plan presentation. The final product should be a written financial plan and oral presentation that reflects graduate level understanding and application of all topics involved. Prerequisites: FIN 534, FIN 510, FIN 530. Crosslisted with: FIN 438.

FIN 540 - Advanced Financial Statement Analysis and Valuation  
Hours: 3  
The goal of this course is to provide the analytical framework students need to scrutinize financial statements, whether they are (i) evaluating a company's stock price, (ii) determining valuations for a merger or acquisition, or (iii) calculating the value of a start-up company from the perspective of a venture capitalist. By understanding the dynamic nature of financial ratios and evaluating the trends in historical series, students will be able to interpret financial statements in today's volatile markets and uncertain economy, and allow them to get past the sometimes biased portrait of a company's performance. Crosslisted with: FIN 440.

FIN 545 - Financial Econometrics  
Hours: 3  
This course is designed for a first course in graduate financial econometrics. The objective of the course is to equip students with necessary methods and techniques that allow them to analyze finance-related studies. The focus of the lecture is modelling financial time series such as prices, returns, interest rates, and exchange rates. Accordingly, the emphasis of the course is on empirical applications. Prerequisites: FIN 504 and ECO 502.

FIN 550 - Advanced Financial Modeling with Excel  
Hours: 3  
A review of principles of portfolio management using Excel. There will be an emphasis on (1) Modern Portfolio Theory including the Black-Litterman Approach, and (2) Risk Management Strategies such as Portfolio Insurance, Immunization and Hedging. BLOOMBERG PROFESSIONAL® will be incorporated as much as possible. Prerequisites: FIN 510.

FIN 560 - Behavioral Finance  
Hours: 3  
This course aims to investigate psychology's contribution to finance and economics. The standard approach in finance theory is based on the assumption of rational and unemotional economic agents. However, the anomalies in the financial markets have evidenced the decisions of investors may not be in line with this assumption, leading to inexplicable events such as bubbles. This course discusses psychological explanations for irrational financial decisions. The analysis of deviations from rationality will lead us to the predictability of financial asset price movements by employing psychological principles and explanation of real world market anomalies. Upon successful course completion, students will better understand the decision behavior of an individual investor within a market context. Prerequisites: FIN 504.

FIN 570 - Financial Markets, Institutions & Instruments  
Hours: 3  
A study of structure and functions of financial markets and institutions focusing on political, social, regulatory and legal effects, as well as demographic diversity, ethical considerations and changing global financial conditions, in finance decision making. Prerequisite: FIN 304 or FIN 501.

FIN 571 - International Business Finance  
Hours: 3  
A study of international corporate finance within the global economic environment, including relationships between exchange rates and economic variables, risks, global working capital management, direct foreign investment, multinational capital budgeting and international financial markets. Prerequisites: FIN 504. Crosslisted with: FIN 471.
FIN 575 - Principles of Real Estate
Hours: 3
This course is designed for introductory graduate-level students to introduce them to the basic concepts of real estate and to prepare them for higher level courses in real estate. The course is a survey of real estate topics that includes fundamental principles of real estate investment, appraisal, mortgage finance, and development. This course presents a variety of concepts and vocabulary that are useful for real estate consumers, investors, and professionals. Prerequisites: FIN 501. Crosslisted with: FIN 340.

FIN 576 - Real Estate Appraisal and Investment
Hours: 3
This course is a study of the major aspects of real estate finance and investment. Commercial properties will be emphasized. The course begins with an overview of the fundamentals of income producing real estate and builds on these concepts as we consider the forces that influence the cyclical, fragmented, and inherently local business of real estate investment. The course will expose students to current “real world” real estate finance and investment situations and people who shape them. Prerequisites: FIN 575. Crosslisted with: FIN 476.

FIN 577 - Real Estate Finance
Hours: 3
In this course, the student is introduced to the principles and methods of financing real estate. The sources of funds, types and contents of financing instruments, and the role of various financing institutions, both private and governmental, are covered in this course. The latest electronic technology is incorporated wherever possible. Prerequisites: FIN 575. Crosslisted with: FIN 477.

FIN 580 - Internship in Finance
Hours: 0-4
The goal of this course is to gain relevant work experience in the student’s field of study by developing specific work related skills to improve marketability upon graduation. Students will also build a “network” of professional contacts. Prerequisites: FIN 504 and department approval.

FIN 589 - Independent Study
Hours: 0-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

FIN 590 - Energy Markets
Hours: 3
This course is designed as an introduction to the Energy Commodity, Equity, Bond and derivatives markets. Students will learn the impacts of energy related assets on the overall commodity and financial markets. Specific topics covered include an overview of domestic and international energy investments, their impacts on portfolio concepts and general market analysis. The pre-requisite to take this class is FIN 510 Investments. Prerequisites: FIN 510.

FIN 591 - Energy Economics
Hours: 3
This seminar-type class concentrates on the macro/micro economic implications of the energy markets. In particular, it ties relevant empirical research with current market dynamics. Students will be exposed to topics including advanced energy market analysis, energy policy and governance. Prerequisites: FIN 590.

FIN 592 - Energy Finance
Hours: 3
This seminar-type class highlights the corporate side of energy markets and investments. Students will be exposed to the financial implications of energy markets on diversified as well as sub-sector energy companies. Topics include financing, hedging and project evaluations for energy producers, sellers and users. Prerequisites: FIN 590.

FIN 595 - Applied Financial Research
Hours: 3
Different techniques of financial research is investigated and applied to financial data. Experience is gained in research problem definition to literature review, collecting and analyzing the data and plotting and interpreting the results.

FIN 597 - Special Topics
Hours: 1-4
Organized class. May be repeated when topics vary.
Food Science Courses

FDSC 510 - Grape & Wine Chemistry
Hours: 4
Mechanistic basis for the chemistry and biochemistry of vines, grapes, yeast, and bacteria used in winemaking, wine spoilage, and health issues of alcohol and wine. Critical evaluation of the literature pertaining to the above subjects.

FDSC 511 - Food in Social Context
Hours: 3
This course will examine cultural, sociological, economic, geographic, and political factors affecting food production, processing, distribution, and consumption. Prerequisites: Graduate standing.

FDSC 519 - Natural Products of Wine
Hours: 4
Structure, occurrence, and changes due to wine production to the natural products found in wine. Chemicals with a sensory impact will be emphasized, including flavonoids and other phenolics, terpenes and norisoprenoids, pyrazines, oak volatiles and other wine constituents.

FDSC 523 - Inst. Anal. Must & Wine
Hours: 4
Theory and practice of instrumental analysis of wines and musts. Emphasis on the principles of analytical techniques (e.g., EC, GC, HPLC, Mass Spectrometry) and key factors determining correct choice of instrumental method.

FDSC 525 - Advanced Wine Microbiology
Hours: 4
Identification, physiology, and biochemistry of bacteria and yeasts involved in wine making and spoilage of wines. Vinous and malolactic fermentations. Sherry organisms and other film yeasts.

FDSC 535 - Winery Management
Hours: 4
Physical properties of a winery; administrative organizational set-up; personnel; purchasing, packaging and shipping; local, state, and federal regulatory statutes.

FDSC 563 - Grape Development and Composition
Hours: 4
The anatomy, physiology, and biochemistry of grape development, with emphasis on the development of grape composition relevant to winemaking.

FDSC 589 - Independent Study
Hours: 1-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies

FDSC 597 - Special Topics
Hours: 0-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Global E-Lrng Trng & Dev Courses

EDUC 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

EDUC 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.
Gender Studies Courses

**GDRS 500 - Gender Theory**
Hours: 3
This course is an interdisciplinary introduction to a variety of theoretical approaches to gender and sexuality studies, including feminist theories and queer theories. It explores feminist ideas and debates concerning the intersection of race, class, gender, and sexuality. This course provides the methodological framework for further work in Gender Studies by introducing students to the ways in which gender scholars utilize theory to systematically analyze how the world works and how gender and sexuality impact and are impacted by political, social, and economic social structures in the United States and globally.

**GDRS 597 - Special Topics**
Hours: 3
Special topics in Gender Studies, topics and disciplines may vary. May be repeated once for credit as topic changes.

Health & Human Performance Courses

**HHPK 510 - Designing Curricula**
Hours: 3
A study of trends and current practices in curriculum construction and revision in programs of health and kinesiology in secondary and collegiate settings. The total program, as well as grade placement and units of instruction, is studied. Provision is made for the inclusion of knowledge and skills necessary for educating exceptional learners.

**HHPK 516 - Current Topics in Health & Human Performance**
Hours: 3
A study of current problems and trends in health and physical education. Local, regional, state, national, and global issues will be included in this course.

**HHPK 517 - Interdisciplinary Topics in Human Performance**
Hours: 3
An in-depth study of the fundamentals of interdisciplinary physical education programs with a focus on teaching models that guide in collaboration and integration of physical education content in other subject areas, organizing content, and creating meaningful activities that impact student learning.

**HHPK 518 - Thesis**
Hours: 3-6
Thesis. Six semester hours.

**HHPK 519 - Research Methods in Human Performance**
Hours: 3
A study of research methods and designs appropriate for proposing, conducting, reading, reporting and critiquing research in health, kinesiology, and sports studies. A major emphasis will be on conducting meta-analysis of research literature. Each student is required to demonstrate systematic research techniques through the investigation and formal reporting of an independent research project using meta-analysis, descriptive or experimental research design. For non-thesis options, this course meets 595 research requirements.

**HHPK 522 - Teaching Health Related Fitness for K-12**
Hours: 3
This course focuses on how to implement a lifetime, health-related physical fitness program in school and community settings. Students will improve their knowledge of fitness concepts, design learning activities, review the research on physical activity, and develop strategies to teach lifetime fitness to children and adolescents.

**HHPK 523 - Teaching Games Content for K-12**
Hours: 3
The purpose of the course is to learn to design appropriate experiences to assist children and adolescents in becoming skillful game players. The course will specifically focus on two games curriculum models: the Sport Education Model and the Tactical Games Approach. Games in the four primary areas of invasion, target, fielding, and net & wall games will be emphasized.

**HHPK 528 - Sport Psychology**
Hours: 3
A study of the relationship of psychology to sport: topics include history of sport psychology, application of learning principles, social psychology, personality variables, psychological assessment, youth sport, women in sport, the psychology of coaching, and performance enhancement.

**HHPK 529 - WORKSHOP**
Hours: 3-6
Workshop. Three or six semester hours. (Same as HHPH 529). A workshop in kinesiology, health education, recreation, or sports studies.
HHPK 530 - Sports Conditioning  
Hours: 3  
Sports Conditioning. Three semester hours. A study of the scientific basis of conditioning athletes. Focus will be on cardiovascular and resistance conditioning in the off-season, pre-season, and in-season. An introduction and utilization of appropriate equipment for cardiovascular conditioning and resistance training will be examined.

HHPK 532 - Cardiopulmonary Physiology  
Hours: 3  
A study of normal physiological mechanisms during rest and during physical work and exercise. The focus of this course is on the mechanisms that affect the heart.

HHPK 533 - Stress Testing & Electrocardio  
Hours: 3  
Theoretical and practical experiences will be examined to assist in analysis and recognition of normal and abnormal electrocardiography at rest and exercise (ECG). Students will learn how to understanding and interpret ECG tracings, exercise prescription, and understand the mechanisms of cardiac activation in health and exercise.

HHPK 534 - Exercise in Health and Disease  
Hours: 3  
The analysis of mechanisms responsible for reduction of functional capacity as result of biological aging and/or loss of health. Use of preventive exercise program to diminish reduction and/or deterioration of physiological mechanisms as a function of age, health and disease.

HHPK 536 - Adapted Kinesiology  
Hours: 3  
Adapted Kinesiology. Three semester hours. Principles of adapting physical activities to individual needs. Instructional strategies, screening and testing procedures, and modification of equipment will be emphasized. Patterns of organization and administration of programs will also be addressed.

HHPK 537 - Internship in Human Performance  
Hours: 3  
Practical experience in a health and/or human performance worksite. Prerequisites: Instructor approval required in final semester.

HHPK 538 - EXERCISE METABOLISM  
Hours: 3  
An investigation of metabolic processes, metabolic responses to exercise, regulatory mechanisms, sources, role, and regulation of carbohydrate, lipid, and protein metabolism and potential metabolic bases of central and peripheral fatigue. Prerequisite: HHPK 532 and 535.

HHPK 540 - SUPERVISION IN H/KINE  
Hours: 3  
Supervision in Health and Kinesiology. Three semester hours. (Same as HIED 540). A study of philosophy, history, principles, organization, and techniques of supervision and their application to the supervision of health and kinesiology.

HHPK 545 - Advanced Exercise Physiology  
Hours: 3  
Application of basic physiological concepts to the programs of kinesiology, emphasis upon the physiological effects and adjustments occurring from participation in physical activity. Major factors in conditioning, fatigue, diet, and physical fitness are considered.

HHPK 546 - ETHICS, GOVERN, & LEGAL IN SPO  
Hours: 3  
Ethics, Governance, and Legalities in Sports. Three semester hours. A study focusing on ethical problems in the contemporary sport industry and the theoretical models available for analyzing these problems. Various governing agencies, primarily the UIL and NCAA, in sport will also be studied emphasizing investigation of the legal ramifications, organizational structure, authority, membership, and influence of these sport governing bodies. Legal aspects of teaching, coaching, and administering athletic programs in secondary and post-secondary education and community settings will also be included.

HHPK 547 - ECO/MKT/PUB RELATIONS IN SPORT  
Hours: 3  
Economics, Marketing and Public Relations in Sports. Three semester hours. A study of revenue sources available to sport organizations such as tax support, municipal and corporate bonds, ticket sales, concessions, fund raising, sponsorship, licensing and PSL’s. Further study will include sport-marketing plans utilizing the concepts of product, price, promotion, sales and advertising. The course will further examine aspects of external and internal communication in sport pertaining to community, customer, employee and media relations.
### HHPK 560 - MOTOR DEVELOPMENT ISSUES
**Hours:** 3  
Motor Development Issues. Three semester hours. Study of the influences of heredity and environment upon motor skill development. Theories of motor learning and motor control will be explored as they affect motor skill acquisition, retention, and transfer of motor skills. Techniques for appraising motor development are also studied.

### HHPK 570 - Psy of Motor Learning
**Hours:** 3  
Psychology of Motor Learning. Three semester hours. An investigation of psychological principles involved in motor performance. Particular attention will be given to the application of these principles in teaching game and sport skills and in the coaching of athletics.

### HHPK 572 - Reflective Teaching
**Hours:** 3  
The purpose of this course is to explore the implementation of a reflective cycle in which goals, assessments, and new directions are identified. Through reading and discussing relevant research literature students will be introduced to several reflective teaching models and will practice the use of multiple reflective strategies, including observational learning, reflective teaching, reflective journals, case studies, mental models, and action research. Specific focus will be placed on the process for gaining national board certification through the National Board for Professional Teaching Standards.

### HHPK 589 - INDEPENDENT STUDY
**Hours:** 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

### HHPK 590 - H & KINE: TCH DSGN/STRAT/ASSMT
**Hours:** 3  
Health and Kinesiology: Teaching Design, Strategies, and Assessment. Three semester hours (Same as HHPH 590). A analysis, comparison, and contrast of various teaching strategies and designs appropriate for the health and kinesiology teaching environment. Additional study will include pedagogical assessment techniques for health and kinesiology.

### HHPK 591 - Seminar
**Hours:** 1-3  
Reports and discussions of topics of current interest in health and human performance.

### HHPK 593 - Biomechanics
**Hours:** 3  
Mechanical Analysis of Motor Skills. Three semester hours. A study of the basic mechanical principles and physical laws which govern human movement. Intensive study will be devoted to analysis of fundamental motor skills and to the use of these skills in dance and sports activities.

### HHPK 595 - Critiquing & Conducting Research
**Hours:** 3  
Critiquing and Conducting Research. Three semester hours. (Same as HHPH 595) A study of research methods and designs appropriate for proposing, conducting, reading, reporting and critiquing research in health, kinesiology, and sports studies. A major emphasis will be on conducting meta-analysis of research literature. Each student is required to demonstrate systematic research techniques through the investigation and formal reporting of an independent research project using meta-analysis, descriptive or experimental research design.

### HHPK 597 - Special Topics
**Hours:** 0-4  
Special Topic

### HHPK 617 - Stat Proc Hlth/Hum Perf
**Hours:** 3  
An introductory study of statistical methods and their implications for education and research. Populations and samples; organizing, displaying, and summarizing data; probability; normal distribution; tests of significance; correlation and simple regression; Z and T tests; and the chi square test will be the focus of this course. Appropriate computer applications will be integrated into the course. This is an approved Level II doctoral research tools course.

### HHPK 664 - Fitness Testing and Exercise Prescriptions
**Hours:** 3  
Health-Related Fitness Testing and Exercise Prescriptions. Three semester hours. A study of field-based fitness testing and exercise prescriptions. The course will focus on the American College of Sports Medicine guidelines for fitness testing and exercise prescriptions. The health-related fitness parameters of cardio respiratory endurance, joint flexibility, muscular strength, muscular endurance and body composition will be studied in the course. Students will be given opportunity to participate in both classroom and laboratory experiences related to health-related physical fitness.

### HHPK 718 - DISSERTATION
**Hours:** 3-12
Health & Human Perfor Courses

HHPS 518 - Thesis
Hours: 3-6
Thesis

HHPS 520 - Governance and Ethics in Sport
Hours: 3
The study of ethical problems in the contemporary sport industry & the theoretical models for analyzing these problems. Various governing agencies in sport will be studied, & may include those at the high school, collegiate, & professional levels, emphasizing investigation of the organizational structure, authority, membership & influence of these sport governing bodies. Topics for discussion will include: governance practices in international sport, with a particular focus on organizations such as FIFA, UCI, IAAF & the ICC; how governance in sport can facilitate corruption in sport; cheating in sport; values and morals in the international sport industry; ethical decision making in athletic administration; the sport ethic; & the role of NCAA, UIL, & NFHS in leveling the playing field.

HHPS 521 - Fin & Econ in Sport
Hours: 3
The study of financial theories and practical application as they impact sport revenues and expenditures as well as the familiarization with current issues and trends in financing sport organizations. Potential areas for discussion include: international exchange and inflation rates; taxation; variance in revenue sources for sport around the world; demand for and supply of international sport; funding for high school, college, and professional mega stadiums; funding issues in college athletics (Title IX compliance, the "arms race" in intercollegiate athletics, coaching salaries, etc.); and pay for play issues.

HHPS 525 - Marketing and Public Relations in Sports
Hours: 3
The course involves an investigation of revenue source available to sport organizations and sport-marketing plans utilizing the concepts of product, price, promotion, sales and advertising. It will further examine aspects of external and internal communication in sport pertaining to community, customer, employee and media relations. Areas of focus include: the marketing of domestic, league and international sporting competitions; sports branding; event sponsorship and marketing; media involvement; the value and ROI of investing in sport; athlete endorsements; sponsorship in international sport; social media policies in high school and collegiate sport; and aligning marketing goals with that of the educational institution.

HHPS 535 - Soc of Sport & Phys Activity
Hours: 3
Sociology of Sport and Physical Activity - Three semester hours A study of the social institution of sport and physical activity and consequences for American society, including social organization from play to professional sport; violence, discrimination, and special populations; and socialization implications from participation in sports and physical activity.

HHPS 537 - Internship in Sport Studies
Hours: 3
Supervised internship with corporate fitness centers, rehabilitation centers, hospitals, recreation centers and similar agencies and organizations. Prerequisites: Instructor approval required in final semester.

HHPS 539 - Sport Law
Hours: 3
A study of the legal aspects of the professional sports industry, including the ways in which contract, labor, tort and antitrust law influence, impact and direct the development of relationships between leagues, athletes, agents, television, internet, advertisers and fans, and may also include international relations; EU law; and the role of the Court of Arbitration for Sport (CAS) in alternative dispute resolution.

HHPS 541 - OUTDOOR ED TCHRS
Hours: 3
Outdoor Education for Teachers in Secondary Schools. Three semester hours. A study of the organization for school camping and outdoor education. Topics include water safety, scouting, gunmanship, crafts, campfire activities, and other camp recreational activities.

HHPS 552 - Public Relations & Media in International Sport
Hours: 3
This class is intended to provide students with a working knowledge of the theories, techniques, and processes of public relations in the sport industry around the world and the importance thereof. Working with the media will also be a focus of the class. Topics to be discussed include: influencing methods of building good will; analysis of media; obtaining publicity; the implementation of public relations programs; writing press releases and holding press conferences; the importance of social media in the sport industry today; and dealing with the media in times of crisis.
**HHPS 554 - Sport Event Management**  
Hours: 3  
Millions of dollars are invested in the planning and hosting of sport events, from small, local, charity events, to mega-events, including the Olympics and the FIFA World Cup. This class will break down and analyze the processes in place to plan and host such events, underpinned by sport management and organizational leadership theory. Students will then utilize their learning in running a sport event. Topics that will be discussed in this context include: ticket sales, crowd control, security, customer satisfaction, human resources management, revenue generation, and marketing and sponsorship.

**HHPS 556 - Sport Analytics**  
Hours: 3  
The focus of this class will be to provide the basics for understanding and applying analytical techniques to professional teams both on the sport side (predicting player performance and outcomes) and the business side (establishing business models) of a sporting organization. A survey into basic statistical techniques (multiple regression, discriminant analysis, etc.) will be the foundation from which this class will work.

**HHPS 558 - Managing People in International Sport**  
Hours: 3  
This class focuses on Human Resource Management theory and its practical application in the context of international sport. By examining HR activities from around the world, students will be exposed to similarities and differences in culture and business practices in the global sport industry. Topics of focus will include: motivation; HRM law; the role of the volunteer in sport; managing athletes and other employees; global HR issues in sport governing bodies; and issues facing ethnic minorities, women and people with disabilities when working in the sport industry.

**HHPS 564 - Facilities & Equipment in Kinesiology & Sport**  
Hours: 3  
This course is designed to provide students with information, practical knowledge, and skill competencies needed for facility and event management within the context of sport activities. Among the topics to be explored will be: sport facility and venue trends; planning and designing sport facilities; stadium development for different sports around the world; design and construction regulations; facility and event operations; risk assessment; and legal issues related to sport facility and event management.

**HHPS 566 - Issues in International Sport**  
Hours: 3  
The purpose of this class is to introduce some of the contemporary issues facing sport managers around the world and will begin to examine mechanisms that could be utilized in order to address the potential impacts of such issues. Topics to be discussed may include: racism, sexism and LGBTQ issues; corruption in international sport; sport for development, reconciliation, and peace; the implications and impact of the commercialization of sport; globalization of sport; and the power and influence of the media.

**HHPS 584 - Administration in Sport and Recreation Programs**  
Hours: 3  
This course is an overview of the nature and scope of administrative issues in the sport industry and recreational agencies and will expand the students’ understanding of management theories and their application to sport and recreation administration.

**HHPS 589 - INDEPENDENT STUDY**  
Hours: 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

**HHPS 594 - Ldshp in Sport and Recreation**  
Hours: 3  
A study of the leadership theories and practices in recreational, collegiate, and professional sport and in recreational programs for youth organizations, institutions, industry, and public agencies.

**HHPS 597 - Special Topics**  
Hours: 1-4  
Special Topics

---

**Health & Human Perfor Courses**

**HHPH 510 - Designing Curricula**  
Hours: 3  
A study of trends and current practices in curriculum construction and revision in programs of health and kinesiology in secondary and collegiate settings. The total program, as well as grade placement and units of instruction is studied. Provision is made for the inclusion of knowledge and skills necessary for educating exceptional learners.
HHPH 512 - Critic Issue in Envrmtal Hlth
Hours: 3
Critical Issues in Environmental Health. Three semester hours. An introduction to key environmental health issues and challenges in resource limited settings which are characteristic of many developing nations. Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment.

HHPH 514 - Global Perspective of Nutrition
Hours: 3
This course examines malnutrition and how it occurs by analyzing several situations from around the world. Covers how nutrition can affect society and community and examines benefits of well-nourished populations. Analyzes major food and nutritional issues that affect health, survival, and human development in resource-limited settings.

HHPH 518 - THESIS
Hours: 3-6
Thesis. Six semester hours. (Same as HHPK 518).

HHPH 529 - WORKSHOP
Hours: 3-6
Workshop. Three or six semester hours. (Same as HHPK 529). A workshop in kinesiology, health education, recreation or sports studies.

HHPH 531 - Nutrition and Optimal Performance
Hours: 3
Nutrition and Optimal Performance. Three semester hours. A study of nutrition as it relates to optimum performance and health. Nutrient need, sources, functions and interactions are reviewed according to the latest scientific findings. Principles of body conditioning are emphasized with attention to diet and lifestyle practices that promote health and decrease risks of nutrition related diseases.

HHPH 537 - Internship in Health Promotion
Hours: 3
Supervised Internship at selected community, public or private health agencies. Prerequisites: Instructor approval required taken in final semester.

HHPH 544 - Health Prom Adm and Mgmt
Hours: 3
Health Prom Adm and Mgmt. A consideration of managing health/fitness programs at the workplace and in other agencies. Includes budgeting, revenue, personnel, emergency procedures and safety, legal liability, facility management staff development, marketing record keeping, policies and procedures, and various management strategies.

HHPH 547 - GLB/Health Psychology
Hours: 3
An examination of the contributions of psychological research performed to the understanding, prevention, and treatment of a variety of health concerns. The biopsychosocial model of health and illness will be emphasized. Social, emotional, behavioral, biological, and spiritual factors that influence health in a global environment will be explored.

HHPH 550 - Health Prom w/Spec Popula
Hours: 3
Identify study of health care issues relevant to at-risk populations/communities and to facilitate health promotion/disease prevention activities.

HHPH 585 - Prog Design in Health Prom
Hours: 3
A study of necessary skills for the development, delivery, and evaluation of health programs to targeted populations. Courses of study, workshop planning, and special programs will be developed for appropriate target group.

HHPH 587 - ID & UTIL HEALTH RES
Hours: 3
Identification and Utilization of Health Resources. Three semester hours. A study of private practitioners, commercial, voluntary, and government agencies at the local, state, and national levels which provide health services. Emphasis placed upon the utilization of these resources in the health instruction and health service programs.

HHPH 589 - INDEPENDENT STUDY
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.
Higher Education Courses

HHPH 590 - H & PE: TCH DESIGN/STRATG/ASSM
Hours: 3
Health and Kinesiology: Teaching Design, Strategies, and Assessment. Three semester hours (Same as HHPK 590). A comparison, and contrast of various teaching strategies and designs appropriate for the health and kinesiology teaching environment. Additional study will include pedagogical assessment techniques for health and kinesiology.

HHPH 591 - Seminar
Hours: 1-3
Reports and discussions of topics of current interest in health and human performance.

HHPH 595 - CRITIQUING & CONDUCTING RESEAR
Hours: 3
Critiquing & Conducting Research. Three semester hours (Same as HHPK 595). A study of research methods and designs appropriate for proposing, conducting, reading, reporting, and critiquing research in health, kinesiology and sports studies. A major emphasis will be on conducting meta-analysis of research literature. Each student is required to demonstrate systematic research techniques through the investigation and formal reporting of an independent research project using either a meta-analysis, descriptive, or experimental research design.

HHPH 597 - Special Topics
Hours: 0-4
Special Topics

HHPH 660 - GLB/Global Health Issues
Hours: 3
A focus on current health issues facing the world community. An epidemiological approach will be used in studying the causes and distribution of health related states and events in specified populations and the application of this information to the prevention and/or control of health problems.

HHPH 718 - DISSERTATION
Hours: 3-12

Higher Education Courses

HIED 513 - Secondary Sch Curriculum
Hours: 3
The Secondary School Curriculum. Three semester hours. Focuses on descriptions and analyses of models of curriculum theory and curriculum development. Specific emphasis will be placed on philosophical and social forces which affect the design, implementation, and assessment of the curriculum. Particular attention will be given to practical applications of curriculum design and evaluation and leadership efforts necessary for overcoming individual and organizational resistance to change.

HIED 528 - Philosophy of Education
Hours: 3
Includes a study of systematic philosophies of education and their views of the learner, learning process, curriculum, instruction, and leadership. Particular attention will be given to the use of philosophical techniques and concepts for solving problems.

HIED 540 - American Community College
Hours: 3
Provides an overview of the community college with particular emphasis on the history, philosophy, and uniqueness of the institution. State and local governance and finance are also examined. Prerequisites: A 595 course from major or related discipline Min Grade B.

HIED 541 - Community College Curriculum
Hours: 3
Furnishes an examination of trends and issues in the community college, and an evaluation of major community college curriculum areas. Changes in the community college curriculum will be analyzed to suggest future planning strategies. Prerequisites: A 595 course from major or related discipline Min Grade B.

HIED 542 - Analysis of Teaching in High Education
Hours: 3
Provides an analysis, comparison, and contrast of a range of teaching styles and models available to community college and university faculty. Particular emphasis will be directed toward teaching improvement models and assessment skills.

HIED 543 - Issues in Adult & Dev Ed
Hours: 3
Issues in Adult and Developmental Education. Three semester hours. Exploration of adult and developmental education including analysis of nontraditional learners in higher education. Emphasis is placed on history, social impact, current practices, and research in the areas of basic education, developmental education, and customized training.
HIED 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of Program Coordinator.

HIED 595 - Research Methodologies
Hours: 3
Research Methodologies. Three semester hours. Provides a study of research methodologies with appropriate practical application in relevant problem solving. Specific research types, including action research, will be emphasized. The student is required to demonstrate his or her competence in the investigation and formal reporting of a problem.

HIED 597 - Special Topics
Hours: 0-4
Special Topics

HIED 615 - Introduction to Higher Education
Hours: 3
This course provides a foundation for understanding how institutions of higher education in America function. Includes a study of systematic philosophies of education and their influence on instruction and administration in higher education.

HIED 617 - Stat Proc for Edu & Rese
Hours: 3
(Same as HHPK 617). An introduction to statistical methods and their implications for educators and educational researchers. Appropriate computer applications will be integrated with classroom content relating to populations and samples; organizing, displaying, and summarizing data; probability; normal distribution; tests of significance; correlation and simple regression; Z and T tests; and the chi square test. This is an approved Level II doctoral research tools course.

HIED 619 - Advanced Statistical Procedures for Education and Research
Hours: 3
Advanced Statistical Procedures for Education and Research - Three semester hours. Includes a review of introductory statistics, presentation of basic concepts of analyses of variance, advanced correlation methods, and multiple regression, as well as other advanced statistical methods. Focuses on use of the computer for data. Prerequisites: HIED 695 and HIED 617.

HIED 620 - The Adult Learner
Hours: 3
This course examines the unique nature of the adult learner in higher education in contrast with young learners in K-12 classrooms. Emphasis will be placed upon theories of andragogy and practices in adult learning.

HIED 621 - Eff Tch/Learning Higher ED
Hours: 3
Effective Teaching and Learning in Higher Education. Three semester hours. Consists of a study of diverse teaching strategies and the learning paradigms on which they are based. Also included will be an analysis of special problems encountered by the professoriate.

HIED 622 - Internship
Hours: 3
Internship. Three semester hours. Provides supervised experiences in a setting appropriate to the student's projected career aspirations and areas of specialization. Prerequisite: Consent of instructor.

HIED 627 - Hist HIED in US
Hours: 3
History of Higher Education in the United States. Three semester hours. Examines the origin, development, and distinctive features of American higher education. Special emphasis is given to the traditional and contemporary roles of post-secondary institutions, and how political, economic, and social forces have altered the public and private college and university landscape

HIED 628 - Survey of Dev ED
Hours: 3
Survey of Developmental Education - Three semester hours A survey of best practices and current and emerging trends in the administration and delivery of effective developmental education programs.

HIED 637 - Inst Eff & Outcomes Assessmt
Hours: 3
Institutional Effectiveness and Outcomes Assessment. Three semester hours. Examines the application of a variety of institutional assessment processes to the development, or improvement, of the organization and to the measurement of accountability. Special attention will be devoted to strategic planning as a necessary foundation for both assessment and development.
HIED 639 - Seminar in Supervision
Hours: 3
Seminar in Supervision. Three semester hours. Provides a study of various supervisory models utilized in the improvement of instruction. Particular attention will be devoted to identifying and solving on-going problems as they impact the enhancement and delivery of effective programs.

HIED 640 - Policy Making in Higher Edu
Hours: 3
Policymaking in Higher Education. Three semester hours. Examines the development, implementation, and enforcement of policies by institutions of higher education, state higher education agencies, governing boards, and the government. Emphasis is placed on the impacts of policies on institutions and students.

HIED 650 - Doctoral Research Practicum
Hours: 3
Doctoral Research Practicum - Three semester hours This course includes individualized research that culminates with a significant foundation for the dissertation proposal, as demonstrated by an extensive review of the literature related to the student's selected topic.

HIED 651 - Curr Dev High Ed
Hours: 3
Curriculum Development in Higher Education. Three semester hours. Provides a study of the factors and influences which have affected the development of the curriculum in higher education. Procedures for designing, implementing, and evaluating curricula at the senior college level will be examined. In addition, trends, issues, problems, and variations in general education programs in colleges and universities are studied. The objectives of general education in all post-high school curricula are emphasized.

HIED 653 - Com Col Instr Lead
Hours: 3
Fundamental Theories in Community College Instructional Leadership. Three semester hours. Introduces prominent theories of administrative thought, including the theories of change, communication, role, and evaluation of personnel. Practical applications of these theories will be studied; and leadership strategies for the dean, division chair, and department chair will be emphasized.

HIED 654 - Sem Inst Leadersh
Hours: 3
Seminar in Instructional Leadership. Three semester hours. Curriculum development, organizing for instruction, evaluation, and other community college leadership skills will be emphasized, particularly as they apply to strategies for faculty development to enhance teaching and learning.

HIED 655 - GLB/Issues Higher Education
Hours: 3-6
Provides an in-depth analysis of prevalent issues unique to both community colleges and to senior institutions, as illustrated in the higher education literature. Emphasis is placed on the effects of these factors on the total institution.

HIED 656 - Higher Ed & Law
Hours: 3
Higher Education and the Law. Three semester hours. Organic structure of the law, how to use legal resources, and significant issues and trends, past, present, and future, in higher education law.

HIED 657 - Org & Govern in HIED
Hours: 3
Organization and Governance in Higher Education - Three semester hours Examines organizational theories, models, policies, and cultures; external and internal governance and management processes; leadership theories and practices; and critical roles and responsibilities affecting a variety of college and university administrative and instructional units.

HIED 658 - Admin of Stu AFF in HIED
Hours: 3
Administration of Student Affairs in Higher Education - Three semester hours Examines organizational structures and leadership and management processes associated with college and university student affairs administration. Special emphasis is given to institutional policies, planning, and coordination to support enrollment management, housing and dining, recreation services, and career services, and how these key processes contribute to the mission of public and private 2- and 4-year institutions.

HIED 659 - HIED Finance
Hours: 3
Higher Education Finance - Three semester hours Examines the complexities of higher education finance and how political, economic, and social forces impact budgetary decisions. Provides an overview of financial administration in public and private colleges and universities, with special emphasis on funding theories and strategies, governmental and private-sector programs and initiatives, resource allocation concerns, and institutional fund-raising activities.
HIED 670 - Diversity in HIED
Hours: 3
Diversity in Higher Education - Three semester hours Provides historical and modern-day contextual frameworks for studying the presence, promotion, and refinement of diversity programs in American colleges and universities. Examines best practices employed by institutions of higher education to address challenges and opportunities in planning for and implementing diversity programs and related activities.

HIED 689 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of Program Coordinator.

HIED 695 - Research Methodology
Hours: 3
An overview of research methodology including basic concepts employed in quantitative and qualitative research methods. Includes computer applications for research. This is an approved Level I doctoral research tools course. Prerequisites: Admission to the doctoral program.

HIED 696 - Advanced Research Methodology: Interpretive Inquiry
Hours: 3
This is an approved Level IV doctoral research tools course that provides a background and analysis of the interpretive act in all educational research. Designed to provide an in depth study of the process of conducting research in the naturalistic paradigm, the course focuses on an examination of the major methodological traditions of this approach. Also included is terminology and consideration of the distinctions between the naturalistic and rationalistic, or quantitative methods of inquiry. Prerequisites: Completion of HIED 695.

HIED 697 - Special Topic
Hours: 1-4
Special Topics Hours: One to Four Organized class. Prerequisites HIED 595 or HIED 695 Note May be repeated when topics vary.

HIED 698 - Advanced Qualitative Research
Hours: 3
Advanced Qualitative Research - Three semester hours. An intensive analysis of the theory and practice of qualitative research in Higher Education, including a review of primary methods such as grounded theory, case study, and ethnography and an examination of additional methods such as connoisseurship, ethnomethodology, and symbolic interactionism. Emphasis will be placed upon practice in research design, multiple methods of data collection, and exhaustive data analysis. Prerequisite: Completion of HIED 695 and 696 with grade of B or better

HIED 710 - Research Colloquium
Hours: 3
Research Colloquium. One to three semester hours. This course is a forum for the search of knowledge and understanding of contemporary and historical issues concerning education. The student will demonstrate his/her competence in using systematic research procedures through preparation of a doctoral proposal. Prerequisites: Completion of four research tools with grade of B or above.

HIED 718 - Doct Dissertation
Hours: 3-12
Doctoral Dissertation. Twelve semester hours. A candidate must present a dissertation acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of his specialization. To be acceptable the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competence and a significant contribution to knowledge. Graded on a (S) satisfactory or (U) unsatisfactory basis.

History Courses

HIST 518 - Thesis
Hours: 3-6
This course is for students who are on the MA/MS thesis track working toward receiving a master's in history. Prerequisites: HIST 590, HIST 591, and students must pass the History Department Qualifying Examination prior to enrollment.

HIST 520 - GLB/Seminar in World/Comparative History
Hours: 3
This course provides a focused and thorough analysis of a topic in World or Comparative History through reading and discussing the relevant historiography, and through guided student research. Topic will vary from semester to semester. Students may retake the course for credit as the topic changes.
HIST 521 - Readings in Latin American History
Hours: 3
This course will offer in-depth readings in various topics relating to the political, economic, social, cultural and diplomatic history of Mexico, Central and South America from pre-Columbian times to the present. Regional emphasis may vary from semester to semester.

HIST 522 - GLB/World History Theory and Methods
Hours: 3
This course provides an introduction to the theories and methods used in world history, with an emphasis on the period after 1950. Topics may include the development of the field, key debates in world history scholarship, examinations of comparative models, networks and systems, interconnections, methodological approaches, and how world history relates to other fields of historical scholarship.

HIST 524 - GLB/Readings in World History
Hours: 3
This course offers readings on selected themes and issues in World History. May be repeated once as the topic changes.

HIST 526 - Readings in Transatlantic History
Hours: 3
This course introduces students to the broad outlines of Transatlantic History, covering the period from 1492 to the present. It focuses on scholarship that examines the interconnected histories of Europe, Africa, and the Americas, integrating them into a broader discussion of the world and global issues.

HIST 534 - Capstone Project in the History of Christianity
Hours: 3
The capstone project, approved by and completed under the supervision of the certificate program Coordinator/Director, is a significant demonstration of the student's research expertise in the history of Christianity and command of relevant scholarship in the subject.

HIST 535 - Introduction to the History of Religion
Hours: 3
This course introduces graduate students to the history of religion by looking at topics and themes such as doctrine, ritual, scripture, mysticism, pilgrimage, and myth across two or more religions, including Christianity, while also introducing methodological approaches to the comparative study of religion.

HIST 540 - Seminar in European History
Hours: 3
Seminar in European History. Three semester hours. This course provides a focused and thorough analysis of a topic in European History through reading and discussing the relevant historiography, and through guided student research involving primary sources. Topic will vary from semester to semester. Students may retake the course for credit as the topic changes.

HIST 542 - Readings in Medieval European History
Hours: 3
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of Europe from approximately 500 to 1500. Readings will concentrate on the collapse of the Roman Empire, the establishment and nature of medieval Christianity, the Carolingian Renaissance, the characteristics of a "feudal" economy and society, medieval technology, the Italian Renaissance, and the early period of European expansion.

HIST 543 - Readings in Early Modern European History
Hours: 3
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of Europe from approximately 1500 to 1789. Readings will concentrate on the Renaissance, the Reformation, the Scientific Revolution, urbanization and economic change, European expansion and the world economy, the witch craze, the Enlightenment, and the French Revolution.

HIST 544 - Readings in Modern European History
Hours: 3
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of Europe from approximately 1789 to the present. Readings will concentrate on the French Revolution; ideas and movements such as liberalism, socialism, nationalism, imperialism, feminism, and modernism; industrialization; war and society; mass media and popular culture; and the rise and fall of Communism.

HIST 550 - Seminar in American History
Hours: 3
Topics in American History. Three semester hours. This course provides a focused and thorough analysis of a topic in American History through reading and discussing the relevant historiography, and through guided student research involving primary sources. Topic will vary from semester to semester. Students may retake the course for credit as the topic changes.
HIST 551 - Readings in Colonial North American History  
Hours: 3  
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of the United States from the colonial period through 1763. Readings will concentrate on European contact, exploration, and settlement; the emergence of American social, cultural, economic and political institutions; and the origins of the struggle for American independence.

HIST 552 - Readings in Revolutionary American History  
Hours: 3  
This course provides an introduction to the wide range of research questions and historiographical debates which occupy early Americanists specializing in the era of the American Revolution. Readings will concentrate on the origins of the American Revolution; the shaping of American social, economic, and political institutions in the immediate wake of independence and the drafting and ratification of the Constitution.

HIST 553 - Readings in Modern United States History, 1850-1920  
Hours: 3  
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of the United States from 1850 to 1920. Readings will concentrate on the origins and course of the Civil War; Reconstruction; the economic, political, social and cultural changes caused by industrialization; and the rise of the United States to preeminence as a world power.

HIST 554 - Readings in U. S. Post 1920  
Hours: 3  
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of the United States from 1920 to the present. Readings will concentrate on American involvement in the World Wars; the rise of the United States to military, economic, and technological dominance; the social and cultural upheavals which accompanied that rise; and recent challenges to that hegemony.

HIST 556 - Readings in the Early National United States, 1789-1850  
Hours: 3  
This course provides an introduction to the wide range of research questions and historiographical debates which occupy historians of the early republic. Readings will concentrate on the social, economic and political institutions that led to the rise and triumph of Jeffersonian-Jacksonian democracy; religious revivalism and social reform movements; American Indian policy; African-American culture, and the dilemma of slavery in the development of sectional tension and rivalry.

HIST 564 - Introduction to Public History  
Hours: 3  
This course introduces the field of Public History by examining topics that range from historical methods and interpretation, historical analysis, public interactions, and controversies associated with the practice of public history. Crosslisted with: HIST 462.

HIST 566 - Oral History Theory and Methods  
Hours: 3  
This course introduces the theory and practice of oral history. Students will engage with the central theoretical issues of the field, including the construction of memory, narrative, subjectivity, and structures of social power.

HIST 567 - Internship in Public History  
Hours: 3  
This internship and capstone project is designed as a significant demonstration of the student’s ability to combine theory and practice in a project that has to be approved by and under the supervision of the certificate program Director. To register for the internship, the student must complete both HIST 564 and a project proposal. Prerequisites: HIST 564 and submission of project proposal.

HIST 568 - Seminar in History Education  
Hours: 3  
This course provides a variety of investigations, involving primary sources, into World, European, and American histories designed for history and social studies teachers. Students may retake the course for credit as the topic changes. This course will count as PDAS continuing education hours for public school teachers.

HIST 572 - Themes in Gender and Sexuality History  
Hours: 3  
This course engages students in the study of gender and sexuality history, covering a variety of global, regional, chronological and/or theoretical topics. Course may be repeated twice for credit as topics change.

HIST 573 - Themes in Revolution History  
Hours: 3  
In this course, students will examine historical aspects of revolutionary thought, events, actors and outcomes. Specific topics will vary and may include local, global and/or comparative emphases. Course may be repeated twice for credit as topics change.
HIST 574 - Themes in Race and Ethnicity History  
Hours: 3  
This course investigates intersections regarding national and global race and ethnic identity from historical perspectives. Course may be repeated twice for credit as topics change.

HIST 589 - Independent Study  
Hours: 1-3  
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

HIST 590 - Historiography and Historical Theory  
Hours: 3  
The discipline of History has a long history and a diverse set of practitioners. This course samples this variety by discussing selected figures who have shaped the forms of historical writing in the Western tradition from the ancient Greeks to the present day. Students will develop analytic skills in identifying and critiquing the arguments of professional historians, learn and deploy the terminology associated with historical argumentation, and apply such in writing a historiographical essay. Students must successfully complete HIST 590 and HIST 591 or have successfully completed either HIST 590 or HIST 591 and be enrolled in the other before attempting to take their departmental qualifying exams.

HIST 591 - Historical Research and Writing Methods  
Hours: 3  
This course introduces students to the methods of historical research, including the framing of research questions; the location, analysis, and evaluation of sources; the construction of argument and counter-argument; and the presentation of results. The goal of this course is to guide each student through the preparation of a conference-length paper or publishable article as well as the process of proposing that paper to an appropriate conference or scholarly journal. Students must successfully complete HIST 590 and HIST 591 or have successfully completed either HIST 590 or HIST 591 and be enrolled in the other before attempting to take their departmental qualifying exams.

HIST 592 - Graduate History Practicum  
Hours: 3  
New trends in the historical profession increasingly require that graduate students have experience producing research prepared for conference paper delivery or publication. This course will provide students guidance in using their thesis research in the preparation of a conference paper and/or for proposed publication in an academic journal or anthology. Students in the course will be required to propose the paper to an academic conference or submit the article to an academic journal or anthology call for papers for consideration. This course will meet regularly & is for students who are on the MA/MS thesis track or a master's in history. Prerequisites: HIST 590, HIST 591 and students must pass the History Department Qualifying Examination prior to enrollment. Pre or co-requisite: HIST 518.

HIST 595 - Research Literature and Techniques  
Hours: 3  
Required of students in Option II. This course requires an extensive investigation into a topic agreed upon by the student and instructor. The student will produce an historiographical essay and annotated bibliography under the direction of the instructor. Note: “The students is required to demonstrate competence in systematic research procedure.” Prerequisites: HIST 590, HIST 591 and students must pass the History Department Qualifying Examination prior to enrollment.

HIST 597 - Special Topic  
Hours: 3  
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

Library and Info Sci Courses

LIS 512 - Info Ref & Mediographic  
Hours: 3  
Information, Reference, and Mediographic Services. Three semester hours. Includes a detailed study of the basic and most useful reference sources with strong emphasis on new computer technologies applicable to the school library situation.

LIS 515 - Cataloging/Classification  
Hours: 3  
Cataloging and Classification. Three semester hours. Descriptive cataloging of print and non-print materials for the school library. Emphasizes Anglo-America Cataloging Rules, Dewey Decimal Classification, and Sears Subject Heading.

LIS 524 - Dev General/Spec Collectn  
Hours: 3  
Developing General and Specialized Collections. Three semester hours. Examines principles and practices in selecting print and non-print media for school library programs. Evaluates media for children and young adults.
LIS 527 - Books Child/Young Adults
Hours: 3
Books and Related Materials for Children and Young Adults. Three semester hours. In-depth study of leading examples of media as they relate to the curriculum and the role of the school librarian.

LIS 540 - Admin School Libraries
Hours: 3
Administration of School Libraries - Three semester hours Administration of a school library is a complex process that affects the entire school. The librarian must manage a many-faceted operation that involves staff, materials, equipment, facility, and furnishings. Application of management principles and state library competencies will be studied as they relate to the school library program. The course will cover the library in relation to curriculum, selection and acquisition of materials and equipment, scheduling, facility design, cooperative planning with staff members, censorship, and professional standards including laws and regulations.

LIS 550 - Practicum in a School Library
Hours: 3
Open only to graduate students applying for school librarian certification, this course is designed to give the student experiences in organization, administration, selection, classification, cataloging, and reference work in a school library under the supervision of a certified librarian. Prerequisites: LIS 512, LIS 515, LIS 524, LIS 527, LIS 540, ETEC 579, and permission of the instructor.

LIS 557 - Technology Integration for School Librarians
Hours: 3
This courses includes an in-depth study of methods for integrating the emerging technologies into specific content areas, with an emphasis on the role of school librarians. Research, as well as current and future implementation issues, will be investigated, and a program for action will be developed. Prerequisites: ETEC 524 or permission of the instructor.

LIS 560 - ACQ ORG NON PRT MAT
Hours: 3

LIS 589 - Independent Study
Hours: 1-4

LIS 597 - Special Topics
Hours: 0-4

Linguistics Courses

FLL 505 - Oral Skills Int'l Students
Hours: 3
Oral Skills for International Graduate Students/TAs - Three semester hours This is a course of International Students whose native language is not English. Students work on a variety of tasks, skills, and techniques designed to improve their speaking skills. The focus of instruction is on hands on knowledge directly relevant to the performance of the students in the courses or labs they teach.

FLL 506 - Spec Topic Int'l Students
Hours: 3
Special Topics for International Graduate Students/TAs - Three semester hours This is a course of International Students whose native language is not English. Students work on a variety of tasks, skills, and techniques designed to improve their teaching skills. The focus of instruction is on hands on knowledge directly relevant to the performance of the students in the courses or labs they teach.

FLL 511 - Teaching a 2nd Language
Hours: 3
Teaching a Second Language. Three semester hours. An advanced analysis of linguistic structures and cultural patterns important in second language instruction, emphasizing methodology and sociolinguistic applications for bilingual and Spanish instructors. Taught in Spanish.

FLL 512 - Spa Grammar for Teaching
Hours: 3
Spanish Grammar Review and its Teaching This course consists of a survey of Spanish Linguistics (Phonetics, Phonology, Morphology, Syntax and Dialectology) at an advanced level. Students will become acquainted with Linguistic theories through peer-review scholarly articles. Such articles also describe the application of such theories in the classroom. Students are encouraged to reflect on their own learning of the complex grammatical aspects of the language, and on the functions of teachers of second languages, who are responsible for the learning process of potential students. This course will bring to light the difficult task of including accurate and meaningful explanations of the grammatical aspects of learning a second language; a task which is undoubtedly a key to success. Cross list with SPA 512.
FLL 513 - Teaching Heritage Languages  
Hours: 3  
General introduction to current linguistic, sociolinguistic and instructional approaches to the development and teaching of Heritage Languages in the US with emphasis in Spanish. The course focuses on theoretical issues and pedagogical topics, including curriculum and material development, teaching practices and assessment.

FLL 543 - Spanish Sociolinguistics  
Hours: 3  
Teaching Approaches to Spanish Sociolinguistics - Three semester hours This course will help students to gain understanding of the different varieties and dialects of Spanish in the Hispanic world and its implementation in classroom instruction. The foreign language teacher needs to be knowledgeable of external variables (social status, gender, speaking tasks required, regional dialects) which affect speaker’s production. Learners of Spanish as a second language must be properly taught and be made aware of those different social or regional varieties when they are learning a new language. It is the responsibility of the foreign language teacher to put into practical context the grammatical aspect of the courses they teach, so that the learners will achieve success. Cross list with SPA 543

FLL 544 - Spa Curriculum Design  
Hours: 3  
Spanish Language Curriculum Design - Three semester hours This course targets potential teachers of second language. It instructs them how to effectively manage content in order to improve the structure and organization of a syllabus. It also helps in the implementation of appropriate materials for the second language classroom. This course will demand a recycling of knowledge on Linguistics disciplines related to the teaching of Spanish as a second language such as Phonology, Syntax, Sociolinguistics, and Methodology. By implementing the appropriate contents at the right pace and scheduling, potential teachers will work out a reliable curriculum which will assure the success of his/her students. Cross list with SPA 544

FLL 589 - INDEPENDENT STUDY  
Hours: 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department Head.

FLL 597 - Special Topic  
Hours: 3  
Special Topics. Three semester hours. Organized class. May be repeated when topics vary. Prerequisite: Permission of the department Head.

FLL 599 - Bib & Methods of Research  
Hours: 3  
Bibliography and Methods of Research. Three semester hours. For beginning literature and languages graduate students who have not had an equivalent graduate-level course, this course covers manuscript preparation, format; research techniques for literary, linguistics, and composition/rhetoric studies; and research methods for foreign language majors.

Management Courses

MGT 501 - Foundations of Management  
Hours: 3  
This introductory management course focuses on planning, organizing, leading, and controlling in an organizational context. It provides a framework for understanding the factors that influence how organizations evolve, function, and perform. Students will learn about contemporary managerial topics including leadership, motivation, teams, organizational culture, organizational structures, and strategic planning.

MGT 503 - Business Concepts and Tools  
Hours: 3  
A study of administrative processes and policy determination at the general management level through the use of case analysis. Course is open to Business majors only. Course should be taken during first semester.

MGT 510 - Family Business  
Hours: 3  
Students will explore the business, personal and family issues found in managing an established family business on a day-to-day basis, and planning for the future. These issues include values, life cycles, marketing strategies, succession, conflict resolution, communications, legal, and financial aspects, estate planning, governance and philanthropy.

MGT 522 - Electronic Commerce  
Hours: 3  
This course addresses key business and strategic management applications relevant to the use of Internet technologies, including but not limited to Internet business models, customer interface, market communications, and valuation. Some exposure to technical issues will also be provided.
MGT 527 - GLB/Strategic Management
Hours: 3
A study of administrative processes and policy determination at the general management level through the use of case analysis. Course open to business majors only. Should be taken during semester of graduation.

MGT 528 - Current Issues in Strategic Management
Hours: 3
This course addresses current issues in strategic management, including but not limited to such topics as competitive analysis, mergers and acquisitions, managerial ethics, global strategy, and corporate culture. Emphasis is placed on the development of critical thinking skills.

MGT 530 - The Entrepreneur
Hours: 3
This is an advanced course geared towards gaining theoretical and applied understanding of the entrepreneur and entrepreneurial lifestyle. In particular, this course addresses the implications of personality, attitudes, ethical challenges, environmental scanning and opportunity recognition mind-frame, biases and heuristics, decision-making processes, on the life of an entrepreneur.

MGT 537 - Strategic Management of Electronic Commerce
Hours: 0-3
This course emphasizes the application of strategic management concepts to companies predominantly functioning in electronic commerce. It will include coverage of social, political, economic, and technological factors affecting the success or failure of electronic commerce ventures. Students will learn how to strategically analyze such ventures and identify strategic factors associated with their success.

MGT 550 - Corporate Governance & Sustainability
Hours: 3
The class presents an advanced examination of the issues related to corporate governance in an ethical society. General theories of governance provide a foundation for an examination of the role governance decisions play in promoting the long-run sustainability of the community in which the firm operates. Global comparative analysis will help identify best practices in internal and external governance mechanisms.

MGT 555 - Project Management
Hours: 3
This advanced level course is geared towards teaching students the fundamentals of project management based on the Project Management Body of Knowledge developed by the Project Management Institute. In particular, students will learn about scope, time, cost, quality, human resource, communication and procurement management and develop a comprehensive project plan accordingly.

MGT 560 - Organizational Ethics
Hours: 3
This course examines the unique ethical demands of leadership and prepares you to better meet these challenges. Alternative perspectives of leadership and ethics are explored and applied to emergent ethical issues facing organizations. The overall mission of the course is to promote critical thinking in terms of ethical decision-making in organizations. The course seeks to help you recognize and be sensitive to moral issues, to consider such issues from multiple perspectives, to engage in a systematic and transparent analysis of alternatives, and to take individual responsibilities for your decisions and conduct.

MGT 567 - Managing Groups and Teams
Hours: 3
Techniques for managing individuals and groups in a supervisory situation are developed. Specific attention will be given to problems in communications, counseling and morale. Team building, the roles and responsibilities of supervision in a team environment, and the roles and responsibilities of teams will be presented. Nature and use of teams in various forms and activities are emphasized.

MGT 570 - New Venture Management
Hours: 3
The purpose of this advanced course is to teach students about the opportunity recognition, analysis and exploitation process. Students will learn to scan the environment for opportunities and develop a business plan to help assess the opportunity (market research, market segmentation, industry, competition and financial analysis) and to develop comprehensive plans to exploit the identified opportunity (marketing, operation and financial plan).

MGT 571 - Managerial Metrics and Decision Making
Hours: 3
This course is an examination of the conceptual and the practical aspects of managerial decision-making. Emphasis is placed upon ethical grounding and business metrics as the appropriate driving forces in operational and financial business metrics as the appropriate driving forces in operational and financial decisions. Barriers to effective decision-making are explored and strategies to improve the quality and sustainability of decisions are presented. Experiential learning is facilitated through self-assessments and decision-making exercises. Case studies are employed to demonstrate typical managerial decision making in production and service industries.
MGT 574 - Business Law
Hours: 3
A survey and study of the legal and regulatory environments businesses operate within, including international business implications and an overview of doing business with the U.S. Government. The class will encompass interactive lectures, reading and case studies. This course satisfies the business law requirement for the MSM Cohort program.

MGT 575 - Operations Management
Hours: 3
A study of the use of Operations Management concepts, models, methods, and tools to ensure effectiveness and efficiency in for-profit and not-for-profit, private and public organizations. The focus is on the transformation of inputs (e.g., labor, materials, machinery, and methods) into outputs (i.e., goods and services) for customers and other stakeholders.

MGT 576 - Global Supply Chain Management
Hours: 3
Global Supply Chain Management explores the key issues, theories, and tools associated with the design, management and improvement of integrated global supply chain systems. It focuses on the strategic, tactical, and financial aspects of supply chain management. Also, it provides an overview of concepts and decision processes that can be used to effectively and efficiently manage the flow of goods, services, and information in a global environment. Firms are procuring, producing, and selling globally which requires ever increasing amounts of coordination within the firm and with supply chain partners.

MGT 577 - Six Sigma
Hours: 3
This course is an introduction to the concepts, principles, problems, and practices of Six Sigma. Emphasis is on learning the DMAIC process and how it applies to process improvement. Topics include defining the problem, measuring outcomes, analyzing data, improving the process, and controlling the process.

MGT 580 - Internship in Management
Hours: 0-4
The goal of this course is to gain relevant work experience in the student's field of study by developing specific work related skills to improve marketability upon graduation. Students will also build a “network” of professional contacts. Prerequisites: MGT 585 and departmental approval.

MGT 581 - Entrepreneurship
Hours: 3
Starting and running new ventures and small/mid-size entrepreneurial organizations; components of comprehensive business plans and feasibility studies; perceptual processes of opportunity recognition; entrepreneurial innovation and creativity; assessing career interest in intrapreneurship and entrepreneurship; strategic gap analysis.

MGT 583 - Seminar in Leadership
Hours: 3
This course provides an in-depth seminar emphasizing the development of organizational leadership as a discipline. It focuses primarily on the evolution of leadership thought and the application of the major models and theories associated with the various perspectives on leader behavior and subsequent follower outcomes.

MGT 585 - Management & Organizational Behavior
Hours: 3
This course is designed to provide an in-depth understanding of individual, group and organizational dynamics in order to influence and manage behaviors in an organizational context. In particular, the course focuses on topics such as developing self-awareness, managing diversity, understanding people at work, creative problem-solving, supportive communication, groups and teams, the use of power and influence, motivation techniques, effective leadership, managing conflict, and organizational culture.

MGT 586 - Managing at the Edge
Hours: 3
This seminar course provides an investigation companies using participatory management and unique organizational practices. Cases and current readings will provide the background for review of companies' practices which when compared to normal organizational practices may be characterized as radical, revolutionary, nontraditional, maverick, unorthodox, and visionary.

MGT 587 - Executive Development
Hours: 3
An in-depth seminar on the impact of current issues and environmental factors on management and organizations. The primary emphasis of the course is on the development of the skills and knowledge required for successful managerial performance. Prerequisite: Consent of instructor.
MGT 589 - Independent Study
Hours: 0-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

MGT 590 - GLB/Global Competitiveness
Hours: 3
A study of those factors that contribute to the competitiveness of businesses, industries, and societies operating within a world economy. Primary focus is on the interaction of management, labor, and government policies.

MGT 591 - Quality Management Concepts and Tools
Hours: 3
Quality Management is a course in which students learn continuous improvement philosophies and methodologies. The focus is on the continuous improvement of processes, relationships, products and services. Students completing this course will be able to establish and improve process baselines in educational institutions, engineering and manufacturing organizations, healthcare facilities, financial institutions, governmental agencies, and service organizations. Examples of process baselines are safety, customer satisfaction, quality, cycle time, and on-time delivery.

MGT 592 - Current Issues in Human Resource Management
Hours: 3
This course provides an analysis of current human resource management issues emphasizing their impact on an organization's success.

MGT 594 - Transforming Organizations
Hours: 3
This course examines issues related to organizational redesign and specifically to the changes processes used by organizations to respond to changes in internal and/or external environments. Sources of change, change strategies and the analysis of change efforts on environments. Use of case analysis is incorporated into the course to provide an opportunity to apply the concepts and issues studied.

MGT 595 - Management Research Methods
Hours: 3
This course aims to introduce students to a scientific approach to the practice of management. Students will be exposed to the basic collection and dissemination of data techniques for the internal and external customers. Interpretation of the gathered information for decision making among upper echelons is introduced along with basic statistics, survey research, performance evaluation, understanding financials and review of scientific method.

MGT 596 - Small Business Consulting
Hours: 3
Students are provided an opportunity to work with a business on a consulting basis. Problem areas are identified and students, normally in teams, analyze the problem area(s) for the duration of the semester. At the conclusion, a formally written report is prepared and an oral presentation of the findings is made to the business owner. Prerequisite: Consent of the instructor.

MKT 501 - Marketing Environment
Hours: 3
Marketing Environment. Three semester hours. A study of the marketing environment of business with emphasis on major aspects of sociocultural, demographic, technological, global, legal, political, and ethical issues. The study of marketing emphasizes the functional areas of marketing including product and service selection and development, marketing channels, promotion, and pricing. Marketing research, consumer behavior, industrial buying and international implications are also considered.

MKT 521 - GLB/Marketing Management
Hours: 3
A comprehensive study of the effective application of marketing strategies in international and domestic organizations. A case analysis approach and current professional literature are utilized. Prerequisite: MKT 306.
<table>

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 524</td>
<td>Consumer and Buyer Behavior Analytics</td>
<td>3</td>
<td>The course examines how to analyze data that can be used to describe past buying behaviors, predict future ones, and be able to develop new strategies to influence future purchasing decisions. Students are expected to gain knowledge on key marketing problems in customer acquisition, development, and retention. The course introduces data analytics techniques tailored to those problems, including predictive analytics and large-scale testing. Students apply each technique to a large consumer-level database, learning how to target consumers individually, and how to derive customer insights. Prerequisites: MKT 521, ECO 595.</td>
</tr>
<tr>
<td>MKT 529</td>
<td>Marketing Strategy and Decision Making</td>
<td>3</td>
<td>The course focuses on the study of marketing problems. Problem areas to be studied include market and profitability analysis, marketing planning, strategy, and control. The course will also examine the key parts of a business strategy and a marketing strategy. The issues such as conflicting strategic objectives, particularly under risk and uncertainty, will be evaluated and decision making processes will be studied. Prerequisite: MKT 521, MKT 572, MKT 547, MKT 524.</td>
</tr>
<tr>
<td>MKT 545</td>
<td>Small Bus. Brand Mgt</td>
<td>3</td>
<td>This course is a study of the core concepts of marketing as applied to small and medium sized enterprises (SMEs) with emphasis on effectively branding the business. It is designed to prepare students with the skills and requisite knowledge that are necessary to start and run a small business. You also are exposed to important business principles and tools that make the foundation of organizational settings. Pre-requisite: MKT 521</td>
</tr>
<tr>
<td>MKT 547</td>
<td>Product Innovation and Supply Chains</td>
<td>3</td>
<td>The course focuses on how to deal strategically with supply chain issues and challenges. Successful supply chain management requires cross-functional integration of key business processes within the firm and across the network of firms. The challenge is to determine how to successfully accomplish this integration. Other topics covered include, logistics, forecasting, inventory management, supply contracts, strategic alliances, supply chain integration and design, procurement and outsourcing, customer value and value chains, international issues, as well as product innovation and product life cycles. Prerequisites: MKT 521.</td>
</tr>
<tr>
<td>MKT 567</td>
<td>Consumer Marketing</td>
<td>3</td>
<td>This course is designed to provide MBA students with the KNOWLEDGE, UNDERSTANDING and/or APPRECIATION of the mindset of the global consumer. This involves looking into the dynamic environment of the consumer, the consumer buying process and the important psychological as well as sociological variables that influence and motivate today’s global consumer. Prerequisites: MKT 521.</td>
</tr>
<tr>
<td>MKT 568</td>
<td>Integrated Marketing Communication (IMC) and Promotion</td>
<td>3</td>
<td>The course examines various communication modes available to reach out to the target customer as well as planning and execution of promotional programs, strategy development, segmenting and positioning. In addition, the course will examine elements of the marketing communications mix, the latest trends and tools that are used in integrated marketing communications. Students will gain knowledge on how to design promotion campaigns, public relations, cause related marketing, crisis management, social media marketing, and search engine optimization for products and services. Prerequisites: MKT 521.</td>
</tr>
<tr>
<td>MKT 569</td>
<td>Interactive and Digital Marketing</td>
<td>3</td>
<td>This course integrates social media, search marketing, e-commerce, and mobile, other emerging formats of digital Marketing. Students will gain an understanding of how to apply these formats to achieve business objectives and how to assess emerging trends. Contemporary challenges surrounding acquiring customers, generating leads, customer loyalty, brand building, customer relationships, analytics, and analyzing consumer behavior in the digital marketplace will be investigated. Current professional and scholarly literature will be utilized. Prerequisites: MKT 521.</td>
</tr>
<tr>
<td>MKT 570</td>
<td>Marketing Analytics &amp; Intelligence</td>
<td>3</td>
<td>The course emphasizes the processes and technologies necessary for measuring marketing performance. The student will learn to use the processes and tools needed to gather and analyze data from multiple marketing channels over a specific time period to allow for better marketing strategy decisions. Prerequisites: MKT 521.</td>
</tr>
<tr>
<td>MKT 571</td>
<td>Business to Business Marketing</td>
<td>3</td>
<td>This course gives students a thorough understanding of how key marketing concepts apply to institutional markets. Students will learn to develop an appreciation of the way standard marketing approaches can be modified to fit the needs of a customer base comprised of large corporations and entrepreneurial enterprises. The course focuses on the managerial process involved in identifying and evaluating marketing opportunities to effectively serve industrial markets.</td>
</tr>
</tbody>
</table>
MKT 572 - Seminar in Marketing Research
Hours: 3
This course emphasizes the analysis of marketing research information as an aid to decision making. It will provide students with a working knowledge of the analytical tools available to market researchers and managers. Techniques of data collection, evaluation of alternative sources of information, and the methods for evaluating data and presenting results are covered. The course also deals with how to define information needs, the use of test marketing procedures and the role of models in decision making. Prerequisites: ECO 595 or consent of instructor.

MKT 573 - Internet Marketing
Hours: 3
Internet Marketing. Three semester hours. This course exposes students to key marketing applications relevant to the use of Internet technologies. The goal of the course is to give students the necessary background of concepts, technologies, and applications required for marketing-related activities in the rapidly growing electronic commerce industry. Example topic areas: Topics around which discussions may focus include: E-Corporation, Internet technologies, online advertising, online retailing, customer acquisition, customer service, and marketing to e-customers.

MKT 574 - CRM
Hours: 3
Customer Relationship Management - Three semester hours This class will explore the opportunities and challenges presented by a popular business practice - Customer Relationship Management (CRM). CRM is considered the new "mantra" of marketing. It focuses on maximizing customer value. This is accomplished by the development and management of cooperative and collaborative relationships. MKT 521

MKT 580 - Marketing - Internship
Hours: 0-4
The goal of this course is to gain relevant work experience in the student's field of study by developing specific work related skills to improve marketability upon graduation. Students will also build a "network" of professional contacts.

MKT 586 - GLB/International Marketing
Hours: 3
A study of the significance of international trade for imports and exports. Adaptation to different cultures and ethics for global competition in U.S. markets are extensively analyzed. Prerequisite: MKT 521.

MKT 589 - Independent Study
Hours: 0-3
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

MKT 597 - SPECIAL TOPICS
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

MKT 599 - Internship in Elec Commerce
Hours: 3
Internship in Electronic Commerce. Three semester hours. This course provides the student with an opportunity to obtain professional experience in an electronic business under the direction of a university faculty member.

Math Education Courses

MTE 504 - Foundations of Complex Analysis
Hours: 3
This course covers the fundamentals of classical complex analysis: the complex numbers; holomorphic functions; conformal mapping; the representation of holomorphic functions by Cauchy's integral formula and its generalization; the representation of holomorphic functions by power series and Laurent Series, and their applications such as singularities of holomorphic functions, Meromorphic functions, computation of indefinite integrals by residues, the Laplace transform, the inverse Laplace transform, Fourier transform, and inverse Fourier transform; and finally the topic of harmonic functions will be explored. Note: This course will be helpful to secondary teachers by giving them a better understanding of the terms and ideas used in modern mathematics. This is an elective course, eligible for Prerequisites: Admission to MS Math or MATH 2415 Calculus III with grade of "C" or higher. Crosslisted with: MATH 438.
MTE 505 - Foundations of Analysis
Hours: 3
The theory of the real number system, the convergence of sequences and series, the limit, continuity, differentiation, and integration of functions with emphasis on the mathematical ideas, analytic skills and learning the proofs. Some topics like continuity in a metric space or a topological space may be included. This is helpful to secondary teachers by giving them a better understanding of the terms and ideas used in modern mathematics. This is an elective course, eligible for the non-thesis option of the MS degree in math only. The maximum credit hours can be earned towards the MS degree in math among MATH 500, 550, 560 is six. Prerequisites: Admission to MS Math, MATH 332, Methods of Mathematical Proof, with grade of “C” or higher. Crosslisted with: MATH 436.

MTE 540 - Foundations of Topology
Hours: 3
Logic and Proofs, Sets, Functions, indexing sets and Cartesian products, equivalence and order relations, countable and uncountable sets, ordinal and cardinal numbers, sequences, convergence and uniform convergence, topology of the real line, metric spaces, separation axioms. Prerequisites: Admission to MS Math or MATH 332 Methods of Mathematics Proofs with grade of “C” or higher. Crosslisted with: MATH 440.

MTE 551 - Fundamental Math for Tch
Hours: 3
Fundamental Mathematics for Teachers - Three semester hours This course is specifically designed for teachers K-8. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that all mathematical learning is grounded in number and operations: Students should be able to “understand numbers, ways of representing numbers, relationships among numbers and number systems; and understand meanings of operations and how they relate to each other.” This course is designed to prepare the teachers to create learning environments conducive to meeting the national and state standards regarding number and operation.

MTE 552 - Math Modeling Tch
Hours: 3
Mathematical Modeling for Teachers - Three semester hours This course is specifically designed for teachers K-8. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that all mathematical learning should be grounded in problem solving and mathematical reasoning. This course is designed to prepare the teachers to create learning environments conducive to meeting the national and state standards regarding problem solving, mathematical modeling, and the judicious use of technology.

MTE 553 - Geometric Structures for Tch
Hours: 3
Geometric Structures for Teachers - Three semester hours This course is specifically designed for teachers K-8. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that “geometry and spatial sense are fundamental components of mathematics learning.” This course is designed to prepare the teachers to create learning environments conducive to meeting the national and state standards regarding geometry. Topics include characteristics of 2 and 3 dimensional shapes, mathematical proofs, spatial relationships, transformations and symmetry.

MTE 554 - Algebraic Structures for Tch
Hours: 3
Algebraic Structures for Teachers - Three semester hours This course is specifically designed for teachers K-8. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that algebraic reasoning is an important part of mathematical study. This course is designed to prepare the teachers to create learning environments conducive to meeting the national and state standards regarding algebraic reasoning. Topics include understanding patterns, relations, functions; representing and analyzing mathematical situations and structures using algebraic symbols; using mathematical models to represent and understand quantitative relationships; and analyzing change in various contexts.

MTE 555 - Research Techniques for STEM and Education
Hours: 3
This course, Research Techniques for STEM and Education, will focus on Math and Education research topics that are necessary for the person who is pursuing a graduate degree and/or who wishes to work in higher education. Students will explore concepts that are integral to the research process at this level in higher education. Particular areas of study include: Institutional Review Boards (IRBs); topics of Research Conduct (Responsibility and Ethics that are related to research); grant writing for STEM areas; preparation for a MATH 595, thesis, or even a dissertation; writing research articles; and other research areas. This course is a Special Topics course and will offer students a unique opportunity to experience some areas of research, such as IRB proceedings. Prerequisites: Graduate student status.

MTE 556 - Stat Reasoning for Tch
Hours: 3
Statistical Reasoning for Teachers - Three semester hours This course is specifically designed for teachers K-8. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that statistical reasoning is essential to being an informed citizen, employee, and consumer; thus it is essential for all students. This course is designed to prepare the teachers to create learning environments conducive to meeting the national and state standards regarding statistical reasoning. Topics include formulating questions that can be addressed with data; collecting, organizing, and displaying relevant data to answer questions; selecting and using appropriate statistical methods to analyze data; developing and evaluating inferences and predictions based on data; understanding and applying basic concepts of probability.
MTE 557 - Prob Based Lrng Math Sci
Hours: 3
Problem Based Learning in Mathematics and Science - Three semester hours This course is specifically designed for teachers K-12. The National Council of Teachers of Mathematics (NCTM) explains in its Principles and Standards (2000) that all mathematical learning should be grounded in problem solving and mathematical reasoning. This course focuses on project-based and problem-based learning (PBL); conducting PBL and its applications in the classroom.

MTE 589 - Independent Study
Hours: 1-6
Independent Study - Hours: One to Six Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

MTE 597 - Special Topics
Hours: 1-4
Hours: One to four - Organized class Note May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary

Mathematics Courses

MATH 500 - Discrete Mathematics
Hours: 3
Study of formal logic; sets; functions and relations; principle of mathematical induction; recurrence relations; and introductions to elementary number theory and graph theory; counting (basic combinatorics); asymptotic complexity of algorithms; and NP-completeness. This course is useful to those taking graduate classes in computer science. It also helpful to secondary teachers by giving them a better understanding of the terms and ideas used in modern mathematics. This is an elective course, eligible for the non-thesis option of the MS degree in math only. The maximum credit hours can be earned towards the MS degree in math among MATH 500, 550, 560 is six. Prerequisites: A grade of C or better on MATH 2414.

MATH 501 - Mathematical Statistics I
Hours: 3
Probability, distributions, moments, point estimation, maximum likelihood estimators, interval estimators, test of hypothesis. Prerequisites: MATH 2415, or Math 314, with a minimum grade of C.

MATH 502 - Mathematical Statistics II
Hours: 3
Probability, distributions, moments, point estimation, maximum likelihood estimators, interval estimators, test of hypothesis. Prerequisites: MATH 501.

MATH 503 - Introduction to Actuarial Mathematics
Hours: 3
A course in business/financial mathematics designed as an introduction to actuarial science and as preparation for the Exam P/1 and Exam FM actuarial exams. Encounters appropriate topics from analysis, linear algebra, probability and statistics, and financial mathematics. Prerequisites: MATH 401 or MATH 402/403 or equivalent.

MATH 511 - Introduction to Real Analysis I
Hours: 3
Properties of real numbers, continuity, differentiation, integration, sequences and series of functions, differentiation and integration of functions of several variables. Prerequisites: MATH 2415, or Math 314, or Consent of Instructor.

MATH 512 - Introduction to Real Analysis II
Hours: 3
Properties of real numbers, continuity, differentiation, integration, sequences and series of functions, differentiation and integration of functions of several variables. Prerequisites: MATH 511.

MATH 515 - Dynamical Systems
Hours: 3
Topics can be chosen from discrete or/and continuous dynamical systems such as linear systems and linear algebra, local theory for nonlinear systems, local existence-uniqueness theorem, the Hartman-Grobman theorem, Liapunov functions, the stable manifold theorem, limit sets of trajectories, the Poincare-Bendixon theorem, bifurcation theory, center manifold and normal form, chaotic dynamics, iteration of functions, graphical analysis, the linear, quadratic and logistic families, fixed points, symbolic dynamics, topological conjugacy, complex iteration, Julia and Mandelbrot sets. Prerequisites: MATH 2414 and MATH 2318.

MATH 517 - Calculus of Finite Differences
Hours: 3
Finite differences, integration, summation of series, Bernoulli and Euler Polynomials, interpolation, numerical integration, Beta and Gamma functions, difference equations. Prerequisites: MATH 2415 or Math 314 with a minimum grade of C.

</table>
MATH 546 - Numerical Analysis
Hours: 3
The course will include numerical methods for derivatives and integrals approximation, teach Euler's and Runge-Kutta methods for solving ordinary differential equations, and study methods for approximate solution of partial differential equations (PDE), including parabolic PDE. Students will learn also how to program the basic methods in MatLab, improving their skills in working with this software. Prerequisites: Consent of the instructor or MATH 2415 or MATH 314 with min grade of C.

MATH 550 - Foundations of Abstract Algebra
Hours: 3
This course will cover the fundamental properties of algebraic structures such as properties of the real numbers, mapping, groups, rings, and fields. The emphasis will be on how these concepts can be related to the teaching of high school algebra. Note: This course will be helpful to secondary teachers by giving them a better understanding of the terms and ideas used in modern mathematics. This is an elective course, eligible for the non-thesis option only. The maximum credit hours can be earned towards the MS degree in math among MATH 500, 550, 560 is six. Prerequisites: MATH 332 or MATH 500.

MATH 560 - Euclidean and NonEuclidean Geometry
Hours: 3
The National Council of Teachers of Mathematics (NCTM) in its Principles and Standards states the geometric skills that students should be able to use when they finish high school. This course trains students, particularly, middle and high-school teachers for understanding and mastering these geometric skills. This is an elective course, eligible for the non-thesis option of the MS degree in math only. The maximum credit hours can be earned towards the MS degree in math among MATH 500, 550, 560 is six. Prerequisites: MATH 332 or MATH 500.

MATH 561 - Regression Analysis
Hours: 3
A computer oriented statistical methods course which involves concepts and techniques appropriate to design experimental research and the application of the following methods and techniques: methods of estimating parameters and testing hypotheses about them; analysis of variance, multiple regression methods, orthogonal comparisons, experimental designs with applications. Prerequisites: MATH 401 or 502, or 402 and 403.

MATH 563 - Image Processing with Elements of Learning
Hours: 3
Introduction to image processing, with applications to images from medicine, agriculture, satellite imagery, physics, etc. Students will learn techniques such as edge detection, 2D image enhancement using laplacian and gradient operators, fourier transforms and the FFT, filtering, and wavelets, as time allows. Students will acquire practical skills in image manipulation by implementing the above mentioned algorithms. Prerequisites: MATH 2414 with a grade of C or better.

MATH 564 - Image Analysis and Recognition with Learning
Hours: 3
Description: This class will start with an introduction to color image processing using vector functions. The basics of Wavelets theory will be developed in order to expand a function for the purpose of multisolution imaging. The following step is the objects representation and description. Then, basic Mathematical Morphology operations will be formulated. Two different set of methods will be taught from the field of Objects/Pattern Recognition: Decision theoretic methods- build up a decision function on the base of a metric; structural methods- based on correlation; and templates with radial and circular lines. The course will end with teaching methods for image segmentation to objects and background. The students program image analysis methods or their components in Java/C++/Matlab. Prerequisites: MATH 2414 with a grade of C or better.

MATH 572 - Modern Applications of Mathematics
Hours: 3
This course, specifically designed for teachers, covers a range of applications of mathematics. Topics may include classical encryption, data compression ideas, coding theory, private and public key cryptography, data compression including wavelets, difference equations, GPS systems, computer tomography, polynomial interpolation/Belier curves, construction and use of mathematical models, probability theory, Markov chains, network analysis, linear programming, differentiation and integration, linear algebra, complex variables, Fourier-series, Fourier and Laplace transforms and their applications, differential equations, integral equations, calculus of variations, and topics from student presentations. Prerequisites: MATH 2414 or MATH 192 with a minimum grade of C.

MATH 580 - Topics in the History of Mathematics
Hours: 3
A chronological presentation of historical mathematics. The course presents historically important problems and procedures. Prerequisites: MATH 332 or MATH 500.

MATH 589 - Independent Study
Hours: 1-4
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Note: May be repeated when the topic varies. Prerequisites: Consent of department head.
MATH 595 - Research Literature & Techniques  
Hours: 3  
This course provides a review of the research literature pertinent to the field of mathematics. The student is required to demonstrate competence in research techniques through literature investigation and formal reporting of a problem. Graded on a (S) satisfactory or (U) unsatisfactory basis. Prerequisites: Consent of instructor.

MATH 597 - Special Topics  
Hours: 3  
Organized class. May be repeated when topics vary. Prerequisites: Consent of instructor.

Music Courses

MUS 505 - Advanced Theory  
Hours: 2  
A study of advanced ideas of theoretical thinking. May be repeated for credit when topics vary.

MUS 513 - Adv Choral Conducting  
Hours: 2-3  
Advanced Choral Conducting. Two or three semester hours. Advanced application of techniques developed in MUS 413. Prerequisite: MUS 413.

MUS 514 - Adv Instrumental Conduct  
Hours: 2-3  
Advanced Instrumental Conducting. Two or three semester hours. Advanced application of techniques developed in MUS 414. Prerequisite: MUS 414.

MUS 518 - Thesis  
Hours: 3-6  
Thesis. Six semester hours. Required of all graduate students who wish to write a thesis in the field of music or music education regardless of the individual's particular area of academic concentration. This course exploits bibliography and techniques fundamental to music research. Prerequisite: Approval of the department chairman.

MUS 520 - Intro to Graduate Music  
Hours: 2  
Introduction to Graduate Study in Music - Two semester hours Description: The purpose of the course is to prepare students for advanced, in-depth study of music history and theory. The student learning objectives are, "Upon the conclusion of the course, the student will a. List and explain the dates, important geo-political events, aesthetic philosophies, and critical attributes of each stylistic period, from the Middle Ages to the present; b. List and define major genre of music literature and cite significant composers and compositions in each; c. Analyze and describe the structure of music in terms of form, harmony, rhythm, etc. during the Common Practice Period and subsequent 20th Century techniques of composition (i.e. octatonics, pitch-sets, serialism, etc.)."

MUS 522 - Music of the Baroque Era  
Hours: 2  
Music of the Baroque Era. Two semester hours. Music from 1600 to the death of Bach; styles, forms, and principal composers.

MUS 523 - Music of the Classic Era  
Hours: 2  
Music of the Classic Era. Two semester hours. Styles, forms, and composers from the pre-classic school to the death of Beethoven.

MUS 524 - Music of Romantic Era  
Hours: 2  
Music of the Romantic Era. Two semester hours. Early romantic elements in music. The development of the art song, piano music, opera, and instrumental music during the Nineteenth Century.

MUS 525 - Music of the 20th Century  
Hours: 2  
Music of the Twentieth Century. Two semester hours. Representative music literature from Debussy to the present.

MUS 526 - Music Literature and Repertoire  
Hours: 1-3  
Approved subtitles will include Levels I and II of the following areas: brass, woodwinds, double reeds, percussion, piano, voice, choral, wind ensemble, elementary (i.e. childrens' choir; textbook series, etc.). May be repeated for credit when subtitles vary.

MUS 529 - Workshop  
Hours: 1-6  
Workshop. One to six semester hours. Workshops in elementary music, vocal, instrumental, keyboard, and other selected areas of music.
MUS 531 - Pedagogy  
Hours: 1-3  
Pedagogy. One to three semester hours. Approved subtitles will include Levels I and II in each of the following areas: low brass, high brass, woodwinds, double reeds, percussion, piano, voice, elementary (i.e. Orff, Kodaly, etc.). May be repeated for credit when subtitles vary.

MUS 532 - Seminar in Theory  
Hours: 2  
Analysis of 20th Century music by major composers including Bartok, Copland, Britten, Barber, Prokofief, Shostakovich, Schoenberg, Schumann and Ives. Prerequisites: Satisfactory completion of Theory portion of the Graduate Diagnostic Exam.

MUS 535 - Internship in Piano Pedagogy  
Hours: 1-3  
Supervised intern experiences in the instruction of piano in individual and group settings.

MUS 536 - Architecture-Music-Philosophy  
Hours: 3  
The purpose of this course will be to study the relationship between architecture, music, and philosophy in several selected historical periods from Greek civilization to the 20th century. In addition to studying specific content areas of each discipline, the influence of each area on the other will be investigated and students will be expected to develop maxims and to synthesize the information into broader contexts.

MUS 537 - Internship in Piano Pedagogy  
Hours: 1-3  
1-3 semester hours. Supervised intern experiences in the instruction of piano in individual and group settings. Prerequisites: Permission of instructor.

MUS 550 - Seminar in Music Education  
Hours: 3  
Approved subtitles will include Philosophy and Psychology of Music Teaching, Source and Research Techniques, Historical Studies, Theoretical Studies, and Experimental Studies. May be repeated for credit when subtitles vary.

MUS 551 - Minor Applied Music  
Hours: 1-4  
Applied Music. (Minor applied) One to four semester hours. Private instruction for graduate performance majors. Prerequisites: Satisfactory level assessed in the applied music performance audition.

MUS 552 - Principal Applied  
Hours: 1-4  
Applied Music. (Principal applied) One to four semester hours. Private instruction for music majors in keyboard, vocal instrumental, conducting, or composition. May be repeated for credit.

MUS 589 - Independent Study  
Hours: 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

MUS 595 - Research Lit & Techniques  
Hours: 3  
Research Literature and Techniques. Three semester hours. Bibliographical material, library resources, and research techniques applicable to graduate study in music will be surveyed.

MUS 597 - Special Topics  
Hours: 1-4

**Nursing Courses**

NURS 5209 - Issues in Advanced Practice  
Hours: 2  
This course focuses on social, economic, political, cultural, ethicolegal, and historical factors affecting nursing. It provides a forum for exploration of issues and concerns, enabling the critical analysis and evaluation of their effect on advanced practice nursing. Prerequisites: Instructor permission.

NURS 5220 - Nurse Practitioner Role  
Hours: 2  
This course focuses on the role of the nurse practitioner in advanced practice. Concepts of professional development, scope of practice, peer review, legal and ethical parameters of practice, business management, and models of practice are included. Theoretical concepts related to role theory, change theory, empowerment, and socialization are emphasized. Prerequisites: Instructor permission.
NURS 5301 - Theoretical Foundations in Nursing
Hours: 3
This course focuses on the philosophical and theoretical bases, underlying concepts and operations inherent to nursing. Synthesis of theories from behavioral, natural, social, and applied sciences is emphasized as it relates to nursing and practice. There is an investigation of the intersections between system science and organizational science. Nursing, ethical, and scientific theories are used in the analysis of clinical problems, illness prevention, and health promotion. Prerequisites: Consent of Instructor.

NURS 5302 - Advanced Pathophysiology
Hours: 3
This course focuses on pathophysiology and disruptions in normal body functioning for individuals across the lifespan. In depth theoretical and clinical principles of diseases encountered in primary care setting as well as health disparities resulting from genetic, environmental, and stress related causes are included. Assessment findings, diagnostic testing and interventions specific to selected health problems are explored to begin development of critical thinking skills for pathophysiologic causes and treatments of given disease processes. Prerequisites: Instructor permission.

NURS 5303 - Pharmacology for Advanced Practice
Hours: 3
This course focuses on general principles of pharmacology including pharmacokinetics, pharmacodynamics as they relate to the treatment and management of common illnesses and conditions across the lifespan. Attention is given to the physiologic basis and clinical characteristics of disease states relative to pharmacotherapy. Clinical decision-making and review of laws governing prescriptive authority for advance practice nursing are also emphasized. Prerequisites: Instructor Permission.

NURS 5304 - Health Promotion and Population Health
Hours: 3
This course focuses on the assessment and management of healthy children and adults in a variety of settings. The concepts of health, health promotion, and disease prevention related to age and cultural values are explored. Health promotion for vulnerable populations is explored through epidemiologic methods. Age appropriate primary and secondary prevention and risk reduction strategies and their research base are examined. Prerequisites: Instructor Permission.

NURS 5305 - Advanced Health Assessment
Hours: 3
This course focuses on theoretical and clinical principles for health assessment in advanced practice nursing. Physical, psychosocial, and cultural assessment skills necessary to develop a comprehensive health database, clinical decision making, and diagnostic reasoning skills are emphasized. Advanced health assessment principles and skills necessary for performing a comprehensive physical examination across the lifespan are applied in the primary care clinical setting. Integration of theory is tested in the laboratory setting with a comprehensive physical assessment and development of a plan of care based on the formulation of differential medical diagnoses. Prerequisites: Instructor Permission.

NURS 5306 - Translational Research in Nursing
Hours: 3
This course focuses on the logic, methods, and techniques of the research process as they apply to the nursing profession. Evidence-based practice, research utilization, and knowledge transformation processes are emphasized. The research-oriented approach is explored from problem formulation to analysis and interpretation in both quantitative and qualitative methodologies. The opportunity to recognize a researchable problem in nursing and to develop a plan for its study is provided. This course meets 595 research requirement. Prerequisites: Instructor permission.

NURS 5307 - Primary Care Procedures
Hours: 3
This course focuses on clinical procedures commonly needed in primary care practices as well as urgent care and fast track practices. It provides an opportunity to learn the skills needed to manage frequently encountered problems. Electrocardiograph interpretation, ordering and interpretation of diagnostic imaging will be included. The clinical component will consist of practice of skills in the skills lab and time spent with a clinical preceptor. An urgent care setting or emergency care setting is preferred for this course. Prerequisites: Instructor Permission.

NURS 5308 - Informatics in Health Care
Hours: 3
This course focuses on the application of computer technology to healthcare management of individuals and groups, with recognition of the social, ethical, and legal issues involved. Available resources useful in patient care and educational settings are emphasized. The opportunity for application of specific concepts is provided. Prerequisites: Instructor permission.

NURS 5310 - Health Care Policy, Organization, and Financing
Hours: 3
This course focuses on the effect of politics, organizations, and resources on the delivery of high-quality, cost-effective health care. The leadership role of the advanced practice nurse in the design, implementation, and management of human fiscal and physical health care resources is emphasized. Prerequisites: Instructor permission.
NURS 5315 - Theoretical Foundations for Psychiatric-Mental Health Nursing across the Lifespan
Hours: 3
This course focuses on the theoretical foundations of psychiatric and mental health care across the lifespan and the role of the psychiatric mental health nurse practitioner in providing care in multiple settings. The theories will be examined for usefulness in caring for various age and diverse population groups. This course has 3 hours credit for didactic learning. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner. Permission of instructor.

NURS 5316 - Neurobiology
Hours: 3
This course provides the scientific foundations of neurobiology for various psychiatric disorders and mental health problems across the lifespan. An analysis of the relationships between neurobiology, psychopharmacology and genetic factors for various psychiatric disorders and mental health problems will be provided. Three hours credit for didactic learning. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner. Permission of course instructor to register.

NURS 5317 - Psychopharmacology
Hours: 3
This course builds on the student's knowledge of pharmacokinetics, pharmacodynamics, pharmacotherapeutics and neuroscience in the use of pharmacological and complementary therapies in the targeted management of psychiatric symptoms across the lifespan. Monitoring physiologic and psychiatric treatment response, the use of genetic testing and prevention of comorbid health conditions are addressed. This course has a 3 SCH lecture component. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner.

NURS 5331 - Psychiatric Mental-Health Advanced Practice Nursing I
Hours: 3
This course provides the scientific foundations and evidence based practice principles necessary for managing adults with or at risk for commonly occurring and complex psychiatric disorders and mental health problems. This course has a 1 SCH lecture component and 2 SCH clinical component equivalent to 90 hours clinical practice. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner.

NURS 5621 - Primary Care I
Hours: 6
This course focuses on assessment, diagnosis, and management of common episodic and chronic conditions across the lifespan. Included is the application of epidemiologic, pathophysiologic, symptom complexes, and research-based treatments as well as appropriate patient education resources and protocols. Attention is given to the integration and application of advanced health assessment and critical-thinking skills, developmental and family theories, and health promotion strategies in the diagnostic and clinical management processes of the advanced nurse practitioner role. Prerequisites: NURS 5302, NURS 5303, and NURS 5305.

NURS 5622 - Primary Care II
Hours: 6
This course provides the opportunity to continue developing clinical expertise as a nurse practitioner. Assessment and management of additional selected health problems frequently seen in primary health care are explored. Increasing responsibility for the diagnostic and clinical management processes of the nurse practitioner is emphasized. Prerequisites: NURS 5621 Primary Care I.

NURS 5632 - Psychiatric-Mental Health Nursing II
Hours: 6
This course provides the scientific foundations and evidenced based practice principles necessary for managing children, adolescent, and geriatric populations with or at risk for various commonly occurring and complex psychiatric disorders, mental health disorders, and comorbid medical illness. This course is comprised of 1 didactic hour of credit and 5 hours of clinical practice equivalent to 225 clinical hours. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner.

NURS 5633 - Psychiatric-Mental Health Nursing Preceptorship
Hours: 6
This course provides the opportunity to apply knowledge, skills and concepts in a guided, progressive context of advanced psychiatric-mental health nursing. Students will provide psychiatric mental health care for children, adolescent, adult, and geriatric populations with or at risk for various commonly occurring and complex psychiatric disorders, mental health disorders, and comorbid medical illness. This course is comprised of 6 hours of clinical practice equivalent to 270 clinical hours. Prerequisites: Admission to the Post Master's Certificate in Psychiatric/Mental Health Nurse Practitioner.

NURS 6300 - Practice Intervention Project
Hours: 3
This course focuses on the delineation of a problem/issue/project related to the clinical or functional area, review of pertinent literature, and development of a proposed solution with steps in implementation and evaluation methodology. A written document and an oral presentation of the project to a selected audience are required.
NURS 597 - Special Topics in Nursing  
Hours: 1-6  
Note: May be repeated when the topic varies. Prerequisites: Permission of the instructor.

**Organization, Learning, & Technology Courses**

OLT 510 - Utilizing Effective Instructional Technologies  
Hours: 3  
Provides teachers and business/industrial trainers with knowledge and skills for selecting, applying, and evaluating basic instructional techniques and learning principles. Students will demonstrate competencies in presentations utilizing various instructional technologies and techniques.

OLT 514 - Generational Issues in the Workplace  
Hours: 3  
This course provides an introduction to generational issues in the workplace. Topics include distinctive characteristics of different generations, challenges and strategies for effective collaboration and cooperation among different generations, and effective instructional and developmental approaches to creating an effective workforce.

OLT 515 - Cultural Issues in Organizations  
Hours: 3  
This course covers major frameworks for analyzing and characterizing types and levels of culture that matter to organizations. Examples include types of national, regional, and organizational culture. Diversity and conflict resolution will also be covered. Students will design an effective training or learning solution by applying learned concepts and frameworks.

OLT 516 - Fundamentals of Work Engagement  
Hours: 3  
The course explores current training and development policies and practices in today’s organizations. The focus will be on work engagement, an increasing area of interest that has implications for organizational culture, performance, work-life balance, and a host of employees’ well-being and behaviors.

OLT 528 - Introduction to Presentation Design  
Hours: 3  
This course will cover how to design a professional presentation for commonly performed tasks by learning and development professionals, such as call to actions, task explanation, or career development. Students will develop and deliver a recorded or live presentation addressing needs for clarity, structure, and audience attention.

OLT 553 - Organizational Leadership  
Hours: 3  
This course includes topics related to the role of leadership in employee development and organizational changes. Included are major theories and principles of organizational leadership and skills to identify, measure, and evaluate leadership effectiveness.

OLT 554 - Principles of Adult Learning  
Hours: 3  
This course explores adult development to promote an expanded understanding of issues and practices in adult education. The course focuses on three core areas of concern in adult education: acknowledgment of learner experience, promotion of autonomy and self-direction, and establishment of teacher-learner relationships in the adult environment.

OLT 560 - Workplace Learning, Development, and Performance  
Hours: 3  
This course provides workplace learning and performance professionals with knowledge and skills for identifying and combining organizational learning, development, and performance improvement solutions. Topics also cover how to evaluate a good balance or mix of various learning and performance solutions.

OLT 563 - Talent Development  
Hours: 3  
Survey of major talent development approaches to align human resources with organizational goals and workforce planning. Students will diagnose the current talent development or management strategies, analyze organizational and individual competencies, assess the current people development practices, and create a plan that aligns learning, leadership, and career solutions.

OLT 570 - Seminar in Human Resource Development  
Hours: 3  
One topic will be selected in consideration of workforce trends and demands. Exemplary topics include diffusion of innovation, people analytics, smart work, digital workplace, meaning of work, organization development, and leading changes.
OLT 575 - Performance Analysis and Improvement
Hours: 3
Survey of human performance technology approaches and tools to improve the performance of individuals, work groups, work processes, and an organization. Students will collaboratively identify organizational performance problems, suggest instructional and non-instructional interventions based upon data-driven performance analysis, and design or evaluate programmatic solutions in cooperation with the clients throughout the entire process.

OLT 578 - Instructional Design and Development
Hours: 3
Same as ETEC 578. Students will utilize a systems approach to design and develop instruction. The five phases of instructional design: analysis, design, development, implementation, and evaluation are examined.

OLT 590 - Evaluation
Hours: 3
Methods of inquiry and analysis to evaluate the effectiveness of training, development, and performance improvement programs. Topics include various evaluation models, ways to assess satisfaction, learning, behavioral changes, and impacts, and how to integrate evaluation with planning or continuous improvements.

OLT 595 - Research Methodologies
Hours: 3
This course provides an overview of research methodology to include core concepts and common procedures employed in quantitative and qualitative research methods.

OLT 597 - Special Topics
Hours: 3
Organized class. May be repeated when topics vary.

Physics Courses

PHYS 501 - Graduate Seminar
Hours: 1
This course may be taken each of four semesters for credit.

PHYS 511 - Advanced Classical Mechanics
Hours: 3
An advanced course in classical mechanics including the methods of Lagrange, Hamilton, matrices, tensors, and Hamilton-Jacobi theory.

PHYS 512 - Classical Electromagnetic Theory
Hours: 3
Electrostatics, magneto-statics, multiple expansions, solution of boundary value problems, slowly varying currents, electromagnetic energy and momentum, Maxwell's equations and applications.

PHYS 513 - Computational Physics
Hours: 3
Numerical experimentation has supplemented laboratory experimentation and theory as a viable approach to studying the laws of nature. Students will learn techniques and traps of programming, and then learn to write computer code to solve applications including: finite difference methods; realistic classical mechanics problems including friction or N mutually-interacting bodies; Laplace's equation in electrostatics; wave motion; random processes including diffusion, cluster growth models, and the Monte Carlo method; Fourier transforms and Fourier filtering.

PHYS 514 - Statistical Physics
Hours: 3
General principles of statistical thermodynamics, equilibrium statistics of special systems, kinetic theory, diffusion and transport phenomena, and classical and quantum statistical mechanics.

PHYS 515 - General Relativity
Hours: 3
Einstein’s principle of equivalence between physics in accelerating frames of reference and in local gravitational fields is the starting point; we demonstrate the relationship between the problem of getting rid of fictitious forces in accelerating frames by coordinate transformations and doing the same for gravitational forces. We then develop basic tensor algebra and calculus within the framework of special relativity, before introducing general coordinate transformations, the curvature tensor and the Einstein field equations. Tests and applications of the theory will include the effect on the GPS, the precession of the perihelion of Mercury, gravitational lensing, gravitational waves, black holes and neutron stars, and the Friedmann equations describing the expansion of the universe.
PHYS 517 - Mathematical Methods in Physics
Hours: 3
Covers mathematical methods used in classical and modern physics and in the engineering sciences. Topics include vectors and curvilinear coordinates, matrices and linear algebra, operators and eigenvalues, boundary value problems, Fourier and Laplace transforms, partial differential equations of physics, Green's functions, and variational methods. Emphasis is placed on problem solving.

PHYS 518 - Thesis
Hours: 3, 6
Research leading to the master's thesis. Three or six semester hours.

PHYS 520 - Quantum Mechanics
Hours: 3
Schroedinger equation, discrete and continuous eigenfunctions and eigenvalues, collision theory, matrix mechanics, angular momentum perturbation and other approximation methods, identical particles and spin, theory of radiation, and atomic structure.

PHYS 521 - Solid State Physics
Hours: 3
Includes a study of crystal structure, crystal diffraction and the reciprocal lattice, crystal binding, lattice vibrations, phonons, Brillouin zones, energy bands in metals and Fermi surfaces.

PHYS 522 - Advanced Atomic Physics
Hours: 3
A study of theoretical and applied aspects of atomic structure. Topics include atomic models, ionization phenomena, X-ray, X-ray diffraction, and atomic collisions. Experimental investigations of atomic phenomena will be stressed. Prerequisites: PHYS 520 or equivalent or consent of instructor.

PHYS 524 - Surface Physics
Hours: 3
Theory, principles and applications of surface characterization techniques to modern technological problems. Topics covered include ultra-high vacuum techniques, X-ray, ion and electron spectrosopes. Prerequisites: Consent of instructor.

PHYS 526 - The Quantum Universe for Educators
Hours: 3
The history of quantum mechanics including the experimental results that required a new theory of the interaction between light and matter at microscopic level. The uncertainty principle, wave-particle duality and wave mechanics. Applications (including simple calculations) to atomic physics, nuclear physics, semiconductors, lasers; how quantum mechanics has shaped the modern world. The impact of quantum mechanics in our culture; its uses and misuses. Prerequisites: University physics and calculus up to partial differential equations.

PHYS 529 - WORKSHOP
Hours: 3-6
Topics will be selected with reference to the needs of teachers. Prerequisites: Consent of the instructor.

PHYS 530 - Physics Mathematical Methods for Educators
Hours: 3

PHYS 531 - Classical Mechanics for Educators
Hours: 3
Basic topics in motion, forces, properties of matter, energy, and related topics will be explored in the framework of Hamiltonian and Langragian mechanics. The elegant derivation of basic conservation laws will be demonstrated using Noether's theorem. Modern topics such as Chaotic systems and special relativity will be introduced. Emphasis will be placed on conceptual understanding. Prerequisites: University physics and calculus up to partial differential equations.

PHYS 532 - Electricity and Magnetism for Educators
Hours: 3
Topics include vector analysis, electrostatics, magnetostatics, Maxwell's Equations, and electrodynamics. Connections to modern applications will be explored. Emphasis will be placed on conceptual understanding. Prerequisites: University physics and calculus up to partial differential equations.

PHYS 535 - Thermodynamics for Educators
Hours: 3
The principles and applications of statistical thermodynamics, thermal and general interactions of macroscopic systems and parameter measurement. Also includes the basic description of statistical mechanics and kinetic theory. Emphasis will be placed on conceptual understanding.
PHYS 541 - Nuclear Physics
Hours: 3
The study of nuclear phenomena as well as properties of nuclei including mass, stability, magnetic moment, radioactive decay processes and nuclear reactions. The application of nuclear physics principles to other fields such as astronomy, engineering, manufacturing, and medicine.

PHYS 542 - Advanced Instrumentation and Control
Hours: 3
Instrumentation and control principles for real-time systems. Topics include physics of sensors and actuators, sensor signal conditioning, real-time data acquisition, signal processing, motion control, and software for modern instrumentation.

PHYS 550 - Nuclear Astrophysics
Hours: 3
Nuclear astrophysics describes the elemental and energy production in stars via nuclear reactions. It explains the occurrence of all the naturally occurring chemical elements in the universe from the simplest elements to the most complex. It also explains how astrophysical neutrinos (from the sun, cosmic rays and supernovae) are produced and detected and what they have to say about both neutrinos and the universe. Nuclear astrophysics also describes how the structure of compact stars (e.g. neutron stars) arises due to the interactions of protons, neutrons, electrons, and quarks and gluons. The course will also explain how the Universe evolved from a primordial state to the present epoch. Prerequisites: PHYS 517 or consent of instructor.

PHYS 552 - Advanced Micro-Controller Electronics
Hours: 3
Embedded logic design and programming. Topics include micro-controller selection, peripheral interfacing, low and high-level programming languages, and microcontroller development tools. Prerequisites: Consent of the instructor.

PHYS 561 - Astronomy & Astrophysics for Educators
Hours: 3
Topics in solar system dynamics, stellar structure and evolution, galactic evolution and dynamics and cosmology will be studied, making use of projects based on citizen science initiatives such as the Zooniverse that open up astronomical research participation to the public. Prerequisites: University physics and calculus up to partial differential equations.

PHYS 572 - Parallel Computing
Hours: 3
Parallel Computing. Three semester hours. (Same as CSCI 572) Computer topologies and networks, programming techniques, and parallel algorithms for multiprocessor and multi-computer systems including microcomputer clusters. Prerequisites: Physics 319 or CSci 322. Cross-listed with CSCI 572.

PHYS 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

PHYS 595 - Research Literature and Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. A course designed to acquaint the student with the role of research in the initiation, development, and modification of concepts and theories in physics. Articles in professional journals in the field will be assigned for review, especially in areas in which theories are in a state of flux. The student will be encouraged to devise experiments through which clarification of concepts may result.

PHYS 597 - Special Topics
Hours: 1-4
Special Topics. One to Four semester hours. Organized class. May be repeated when topics vary. Some sections are graded on a Satisfactory (S) or Unsatisfactory (U) basis.

Plant & Soil Science Courses

PLS 500 - Soil Fertility
Hours: 3
Soil Fertility. Three semester hours. The essential elements in the soil will be discussed, and soil samples will be analyzed to determine the level of elements that are contained. Prerequisites: PLS 309, 320 and CHEM 111, 112, 211.

PLS 501 - Ag & Bio & Instrumentation
Hours: 3
Principles, equipment, and techniques for measuring variables in plant, soil, and environmental sciences. Spectrophotometry, chromatography, atomic absorption, weather sensors and data loggers, and tissue culture are covered.
Political Science Courses

PSCI 502 - Res., Con, Appr Pol Sci
Hours: 3
Research, Concepts and Approaches in Political Science - Three semester hours The formulation and justification of research questions and the research design. An examination of the major qualitative research approaches such as case studies, comparative historical, institutional, etc. The course aims to teach students the basic methods and reasoning procedures for conducting advanced research in political science.

PSCI 503 - GLB/Proseminar in Comp Pol
Hours: 3
This course is an introduction to some of the dominant issues in contemporary comparative politics. The emphasis will be on important concepts, theories, and debates in the field. Topics to be covered include: modernization and political development, state/society relations, regime theory, rebellion and revolution, comparative political economy and development and the politics of institution design

PSCI 504 - GLB/Sem in Area Studies
Hours: 3
This course examines the institutions and processes of the major regions of the world: Middle East, Africa, Asia, Europe, the former Soviet Union, and Latin America May be repeated for credit as topics vary.

PSCI 505 - GLB/Topics Comp Pol
Hours: 3
This course is a focused and thorough analysis of a number of topics on global issues with a particular emphasis on the problems and challenges facing the developing world. Topics can include such issues as trade and political development, emerging economies, democracy and democratic theory, political socialization, refugees and IDPs, women and development, human rights, environmental challenges, and political violence. Some topics will be approached generally or regionally while others will utilize case studies. e.g., Grameen Bank. It may be repeated as topics change.

PSCI 506 - GLB/Proseminar in IR
Hours: 3
This course provides students with a critical assessment of the major theories and concepts which define international relations as a field of study. It has two goals. The first is an in-depth analysis of explanatory theories such as realism, idealism, structuralism, neo-liberalism, interdependence, functionalism and of core concepts such as sovereignty, national interest, collective security, and balance of power. The second goal is an examination of the historical evolution of international systems, with focus on the modern state system and the Cold War period. Special attention is given to the processes and institutions (e.g., international law, United Nations, NGOs, international civil society) that contribute to conflict resolution and international cooperation. The objective of this course is to provide the foundations (conceptual, historical, theoretical) that graduate students in International Relations need as a preparation for the curriculum's more specialized and advanced courses. Pre-requisites : PSCI 502
PSCI 507 - GLB/Selected Topics in IR
Hours: 3
This course is a focused and thorough analysis of a number of topics broadly addressing international security, international political economy, and international organizations. Topics can include such issues as causes of war, the balance of power, alliances, humanitarian intervention and peacekeeping, states and markets, power and wealth, the nature of conflict and cooperation, and the role of international institutions and organizations. May be repeated as topics vary.

PSCI 508 - GLB/Foreign Policy
Hours: 3
This course is an introduction to foreign policy analysis in comparative perspective. It is a survey and critique of the theoretical approaches to understanding foreign policy including the determinants of foreign policy and decision making models along with empirical analysis of selected country case studies in foreign policy.

PSCI 509 - Prosem in Am Gov Pol
Hours: 3
Proseminar in American Government and Politics - Three semester hours This graduate seminar provides an introduction to, and overview of, some of the most important research in the various sub-fields of American government and politics. It is designed to be the first graduate course on American politics that students take. It is intended to be broad in scope and to provide a theoretical, methodological, and substantive foundation for further study of American politics.

PSCI 510 - Sem in Am Pol Beh
Hours: 3
Seminar in American Political Behavior - Three semester hours This seminar focuses on current research on American political behavior. It examines topics such as public opinion, and political participation, and may give particular attention to electoral politics and voting behavior. The antecedents of opinions and participation are analyzed along with the consequences and implications of people’s opinions and behavioral patterns. Methods of studying these phenomena are critically assessed. May be repeated as topics vary.

PSCI 511 - Sem in Am Pol Inst
Hours: 3
Seminar in American Political Institutions - Three semester hours This seminar focuses on current research on American political institutions. It examines topics including legislatures, elected executives, bureaucracies, and judicial institutions. Among the subjects that may receive consideration are methods of election or appointment, decision-making processes, and policy outcomes. Methods of studying these topics are critically assessed. May be repeated as topics vary.

PSCI 512 - Qual Res Methods
Hours: 3
Qualitative Research Methods - Three semester hours This course is designed to introduce students to the principles and methods of qualitative research. It examines some of the main methods used by qualitative researchers in the social sciences such as participant observation, interviewing, archival research, and historical analysis.

PSCI 513 - Prosem in Pol Theory
Hours: 3
Proseminar in Political Theory - Three semester hours The pro-seminar in political theory studies and contributes to the ever-evolving dialogue about the ultimate realities that shape political life and the ultimate principles that should guide it. Animated by the Socratic spirit, this dialogue has been carried on by secular and religious thinkers, non-Western as well as Western. Central to political theory is a sustained inquiry into the nature of justice, and into the fundamental needs, both spiritual and material, of humanity in general and of particular groups. Political theory seeks to evaluate the contrasting conceptions of justice and of the good life that have been advanced by different thinkers and societies, critically examining the most important rival regimes or constitutional structures that have been promoted as best fulfilling humanity’s truest political needs and goals. At the same time, political theory wrestles with urgent issues confronting contemporary society. Political theory draws on, contributes to, interrogates, and sometimes criticizes the research agendas of social scientists employing contemporary empirical research methods.

PSCI 514 - GLB/Ideology of Third Reich
Hours: 3
This course is an in-depth examination of the origins and dynamics of the ideology of the Third Reich. Among these dynamics the course examines religious secularization alongside the “sacralization of politics” during the Third Reich. Readings and discussion uncover how concepts such as race, blood, soil, state, nation and Führer were incorporated into the sphere of faith, salvation, sacredness and myth which led these notions to acquire absolute meaning within the German ideological realm. Within this ideology, Jews came to be characterized as the enemy of all that this ideology sought to achieve and negate.
PSCI 515 - GLB/Select Topics Holocaust
Hours: 3
This course takes a more in-depth look at selected topics on the Holocaust. Selected topics courses will vary and each will explore in detail topics and themes among the following: Holocaust Perpetrators; Jewish Life in the Ghettos; Concentration/Extermination Camps; Jewish Resistance; Women and the Holocaust; Bystanders and Rescuers; The Holocaust through Diaries/Memoirs/Letters; The Nuremberg Tribunals and Holocaust Accountability. May be repeated as topics vary.

PSCI 516 - GLB/The Holocaust
Hours: 3
This course is an extensive overview of the destruction of European Jewry from 1933 to 1945. It examines political, economic, and social conditions in Germany following World War I leading to the rise of the National Socialist Party and their consolidation of power paving the way for the Holocaust. It also examines the rise of anti-Semitism in Germany first by understanding traditional forms of anti-Judaism and its evolution into modern anti-Semitism. This course also focuses on Nazi propaganda and the persecution of German Jews between 1933 and 1938 and fate of all European Jews beginning in 1939 until 1944. It studies the “Final Solution” and concludes with an examination of the persecution of non-Jews in the Third Reich.

PSCI 518 - Thesis
Hours: 3-6
Thesis The student will work on the thesis under the supervision of an adviser in the department of Political Science and an advisory committee. The Thesis will include the development of a prospectus, collection, analysis and interpretation of data and the final writing of the thesis. To be scheduled only with the consent of the department and no credit will be assigned until the thesis has been completed and filed with the graduate dean. Prerequisites: Successful completion of the department's oral examination

PSCI 522 - GLB/Holocaust and Genocide
Hours: 3
This course places the Holocaust and other cases of genocide in the 20th century in a comparative and cultural context. The course examines the various factors that cause genocide, the theoretical and legal debates over labeling genocides, the importance of survivor testimony in documenting genocide along with the role of the international community in responding to acts of genocide.

PSCI 523 - Holocaust Genocide Educ
Hours: 3
The Holocaust and Genocide Education - Three semester hours This course begins with an examination of the development of Holocaust education and early Holocaust educators in the United States. It also is designed to provide political and historical context of the Holocaust to facilitate instructional strategies. It also is an in depth examination of the various pedagogical methods and curriculum materials available for teaching the Holocaust and genocide. It also examines the numerous resources available for teachers to facilitate the development of curriculum materials for middle, secondary, and post-secondary education on the Holocaust and genocide. Pre-requisites: PSCI 516

PSCI 540 - Applied Data Analysis for Political Science
Hours: 3
This course introduces students to three important and related topics of political methodology: research design, data analysis, and statistical inference. Students will be exposed to a number of important topics from these three categories so that they can become informed consumers as well as producers of quantitative political science research.

PSCI 541 - Contemporary Issues in American Public Policy
Hours: 3
This course considers the various theoretical and empirical explanations for federal public policy making in the United States. The course focuses on two important components: introducing students to the important scholarly theories of how public policy is defined, constructed, implemented, and evaluated; and then studying the applications of these theories to specific roles of important political actors and institutions in the policy-making process.

PSCI 589 - Independent Study
Hours: 3
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

PSCI 595 - Research Project
Hours: 3
Research Project - Three semester hours Required of students in Option II. This course requires the preparation of a research design on a topic agreed upon by the student and instructor.

PSCI 597 - Special Topics
Hours: 3
Special Topics - Three semester hours May be repeated as topics vary.
Psychology Courses

**PSY 500 - Psychology in Education**
Hours: 3
Psychology in Education Contexts. Three semester hours. A course designed for teacher education students to provide a thorough understanding of the dynamic relationship between cognition, learning, and development for school-aged children and adolescents. Formative and summative assessment and evaluation procedures will also be presented. This course is required as a part of the initial certification program in teacher education.

**PSY 502 - Theories of Personality**
Hours: 3
Theories of Personality for Psychotherapy and for Psychological Counseling. This is a study of the historically influential personality theories as they relate to contemporary psychology.

**PSY 503 - Psychopathology and Diagnosis**
Hours: 3
The course is oriented to the social-biological origins and dynamics of psychopathology in adults and children including developmental disorders.

**PSY 505 - Intro to Educational Psychol**
Hours: 3
Introduction to Educational Psychology. Three semester hours. This class is designed to introduce the student to the basic principles of educational psychology with an emphasis on the cognitive aspects of modern pedagogy. Topics that will be covered include a historical introduction to theory, research, and issues in educational psychology through both classic and contemporary readings in the areas of instructional psychology, motivation, measurement, learning, technology, and socialization.

**PSY 506 - Professional School Psy**
Hours: 3
Professional School Psychology. Three semester hours. This course deals with pertinent issues in school psychology, such as ethics, emergent technologies, history and foundations of school psychology, legal issues, professional issues and standards, alternative models for the delivery of school psychological services, as well as roles and functions of the school psychologist. Prerequisites: Consent of instructor.

**PSY 507 - Pharmaco-therapy**
Hours: 3
Pharmaco-therapy. Three semester hours. This course provides an examination of psychoactive medications and their use in the treatment of mental and behavioral disorders. The efficacy and safety of medications will be discussed. The course presents basic principles of pharmaco-therapy that are the rationales behind the pharmacological treatment of psychological disorders. Applied components will relate to the aspects of the course material to mental health service delivery. The class also examines the historical psychopharmacological perspective, basic pharmacology underlying the use of medication, and recent research in the field. Prerequisite: Admission to a Psychology Graduate program.

**PSY 508 - Theory/Technique Applied Psy**
Hours: 3
Theory and Techniques of Applied Psychology. Three semester hours. An introduction to theoretical models and their applications which are useful across a range of practical human situations. These include educational contexts, individual and group consultation, and organizations. Both assessment and intervention models will be presented, with an emphasis on their relationship. Active practitioners will discuss and demonstrate selected intervention techniques. Prerequisite: Graduate standing.

**PSY 509 - History & Systems of Psychology**
Hours: 3
A comparative and critical study is made of a number of viewpoints in psychology from early experimental psychology to the contemporary field and organismic theories.

**PSY 511 - Cognitive Science**
Hours: 3
Cognitive Science. Three semester hours. Cognitive Science concerns the nature of human cognition from an interdisciplinary perspective, including insights from philosophy, psychology, linguistics, artificial intelligence, anthropology, and neuroscience. Selected topics include mental representation, cognitive processing mechanisms, language, and computational modeling.

**PSY 514 - Theories of Human Learnng**
Hours: 3
Theories of Human Learning - Three semester hours. This is a course that is taken primarily by doctoral students, not master's students, as part of their electives on their degree plan.
PSY 515 - Neuro/Bio Bases of Behavi
Hours: 3
Neuromechanisms/Biological Bases of Behavior. Three semester hours. Designed for psychology or counseling students, this course is concerned with biological bases of developmental neuropsychology, peripheral nervous systems, psychophysiology, behavioral pharmacology, and their relations to central nervous system arousal, motivational, emotional, and memory structures. Prerequisite: PSY 315 or consent of instructor.

PSY 517 - Intro to Hum-Comp Inter Design
Hours: 3
Introduction to Human-Computer Interaction Design. Three semester hours. Students will learn the fundamental concepts of human-computer interaction and user-center design thinking, through working in teams on an interaction design project, supported by lectures, readings, and discussions. They will learn to evaluate and design usable and appropriate software based on psychological, social and technical analysis. They will become familiar with the variety of design and evaluation methods used in interaction design, and will get experience with these methods in their project. Graduate student team projects will involve more advanced HCI design issues. Topics will include usability and affordances, direct manipulation, systematic design methods, user conceptual models and interface meta

PSY 518 - Thesis
Hours: 3-6
Thesis. Three semester hours. This conference course introduces the candidate for the Master of Arts or Master of Science Option I degree to the theories and techniques of educational and psychological research and leads to the completion and acceptance of the thesis. Course is repeated for at least two three-credit hour courses. Graded on a (S) satisfactory or (U) unsatisfactory basis.

PSY 520 - Cognitive Behavior Therapy in Clinical Practice
Hours: 3
Students will develop knowledge of various cognitive-behavioral models of common psychological disorders. Students will learn to develop a comprehensive cognitive-behavioral case conceptualization, which will inform treatment monitoring and planning. Additionally, students will review evidence and efficacy data available for implementation of various cognitive-behavioral psychotherapies for specific disorders. Students will have the opportunity to implement specific individual and group cognitive-behavioral interventions within the context of the course. Throughout, this course will emphasize the integration of clinical expertise, knowledge of patient preferences, and evidence-based strategies to facilitate development of evidence-based practice approach to psychotherapy.

PSY 527 - GLB/Social/Cltural Bases Behav
Hours: 3
This course is designed to cover principles and research related to social and cultural bases of behavior, motivation, attitude, value, leadership, propaganda, groups, morale, industrial conflict, roles, ethnic attitudes, and status.

PSY 535 - Applied Behavior Analysis
Hours: 3
PSY 535 provides a focus on the basic principles of applied behavior analysis (ABA). While wide application of ABA principles will be discussed, the application of ABA to the field of education is highlighted. The overarching goal of this course is to provide advanced training in proactive and scientific-based approaches to behavioral assessment, behavioral management, and behavioral aspects of education. In order to meet this overarching goal, students must be able to demonstrate mastery of the course objectives, or learner outcomes. Issues related to the importance of professional ethics as related to the use of behavior change programs and working with vulnerable populations will be reviewed at length. (Same as SPED 535)

PSY 536 - Hypnosis Applications
Hours: 3
Hypnosis Applications This course introduces the advanced student to hypnosis and trance as they may be used in counseling and psychotherapy, as well as in behavior therapy, habit management, and behavioral medicine. Traditional induction and trance management techniques, indirect hypnosis, and a number of related therapeutic techniques drawn from a variety of therapeutic models are taught and practiced. Prerequisites: Consent of instructor.

PSY 537 - Advanced Therapeutic Intervention
Hours: 3
A study of selected current specific techniques used in the practice of psychotherapy. Students will study a set of clinical procedures based on different theoretical models, including cognitive behavioral therapy, psychodynamic psychotherapy, solution-focused psychotherapy, and others. Emphasis will be on technique with evidence-based effectiveness and practical value in producing therapeutic movement, and students will practice the procedures in controlled clinical settings. They will also be encouraged to develop an articulated practice model of their own. Prerequisites: PSY 508 or consent of program advisor.

PSY 538 - Ethics in Clinical Practice
Hours: 3
The course will provide a review of the basics of ethical philosophy and the current code of ethics of the American Psychological Association, with emphasis on clinical practice. It will also provide a review of the statutory and common law bases for conducting an ethical practice while minimizing risk to clients and the professional integrity of the psychologist. Prerequisites: Admission to the applied psychology program.
PSY 539 - Forensic Psychology
Hours: 3
Forensic Psychology - Three semester hours This course introduces students to the field of forensic psychology, its history, and the relationship between law and psychology, the mental health system, mental illness and criminal conduct. An introduction to the legal system is also included. As an introduction the course will highlight the following topics: ethics in forensic psychology, violence and risk assessment evaluation, treatment of the juvenile and adult offender, mental health law, psychology of law enforcement, forensic psychology in correctional settings, forensic documentation and report writing.

PSY 545 - Developmental Psychology
Hours: 3
Study of the lifespan of humans. Emphasizes both experimental and theoretical approaches to the study of cognitive, personality, social, perceptual and physical development from conception to death.

PSY 572 - Psychological Assessment and Measurement
Hours: 3
This course is the first required course in the sequence of assessment courses and is planned to provide a framework for the development of assessment practices. Attention will be given to issues of measurement, identifying appropriate sources of diagnostic information, reliability, validity, identifying and selecting test instruments, conducting the assessment process in an ethical and considerate manner, and interpreting norm referenced and criterion-referenced test scores. In addition, this course will introduce students to the concept of Cross Battery Assessment which offers practitioners the means to make systematic, valid, and up-to-date interpretations of intelligence batteries and to augment them with other tests in a way that is consistent with the CHC theory. (Same as SPED 572) Prerequisite: Graduate standing.

PSY 573 - Intellectual Assessment I
Hours: 3
(Same as SPED 573) The purpose of this course is to attain knowledge of cognitive functioning and develop skills in the cognitive assessment of children and adolescents. This course integrates the skills of administration, scoring, and interpretation of major cognitive assessment instruments (e.g., WJ-III COG, KABC-II, & WISC-IV) in the context of recent cognitive theories and research. The Cattell-Horn-Carroll (CHC) Theory of Cognitive Abilities will be the primary underlying framework for interpreting test data. Also, an emphasis will be placed on utilizing the Cross-Battery Assessment approach when utilizing the CHC theory of cognitive abilities. Issues of assessing culturally and linguistically diverse children and adolescents are integrated throughout the course in addition to specific

PSY 575 - Personality Assessment II
Hours: 3
Personality Assessment II. Three semester hours. The course will examine the socio-emotional, behavioral and cultural aspects of personality and informal assessments for children and adults as part of the diagnostic process. Psychometric and ethical considerations with the use of these techniques will be considered. Computerized testing and scoring of personality tests and techniques will also be covered. Prerequisites: Concurrent or prior enrollment in PSY 572 and 503.

PSY 576 - Psychological Assessment of Children & Adolescents
Hours: 3
This course will focus on assessment and diagnostic/eligibility considerations pertaining to children and adolescents (ages 3-21) exhibiting characteristics of various disabilities as defined by IDEA (Individuals with Disabilities Education Act) and the DSM-V. Students will develop knowledge and skills related to multiple assessment techniques frequently used in determining diagnostic/eligibility criteria. Such techniques include interviewing, behavior rating scales, behavior observations, and specific standardized instruments designed to aid in the identification of disabilities in children and adolescents. Additional topics addressed in this course include: working with multi-disciplinary assessment teams, intervention strategies. Prerequisites: PSY 572 or SPED 572.

PSY 577 - Cognitive Assessment in Clinical Psychology
Hours: 3
A study of theory and practice in assessing adults’ and children’s cognitive abilities and their impairment, for students in applied or clinical psychology. Students will become familiar with current theoretical models of intelligence and its scaling. They will become acquainted with, and practice using, contemporary measures of general intelligence, metarepresentation, and related processes. Students will learn how to evaluate the use of specific cognitive assessment procedures in relation to a clinical referral question, and to interpret findings accurately in relationship to such questions and other available data. Students will also learn how and when to use cross-battery assessment strategies. Writing meaningful reports including cognitive data is also a feature of the course. Prerequisites: PSY 572 and Admission to the Applied Psychology Program.
PSY 579 - Introduction to Neuropsychological Screening
Hours: 3
This course will introduce students to the theory and practice of Clinical Neuropsychology. This specialized subfield of Clinical Psychology assesses and interprets the relationship between brain function, cognition, emotion and behavior. In this course, the emphasis will be on recognition and screening for neuropsychological dysfunction. Students will develop an understanding of the field through review of adult and pediatric cognitive and neurological disorders as well as strategies of neuropsychological screening, including measure selection, appreciation of psychometric strengths/limitations, administration, and report writing. Besides reviewing cases and research, students will demonstrate development through screening administration. Prerequisites: PSY 515, PSY 572, PSY 573.

PSY 589 - Independent Study
Hours: 1-4
Independent Study. One to three semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

PSY 592 - Group Psychotherapy
Hours: 3
Group Psychotherapy - Three semester hours Techniques and ethical considerations in group therapy. Topics will include psychological theories as they apply to group therapy. Techniques in group therapy and ethical considerations of group therapists.

PSY 593 - Health Psychology
Hours: 3
Health Psychology - This class is designed to introduce the basic concepts of Health Psychology. Students will be introduced to different medical disorders and diseases and the implications for the psychological health and impact on psychological functioning of individuals with these disorders. Students will study physical limitations and adaptations. They will understand basic ADA law and how to make buildings accessible. Psychological treatments for persons with disorders and physical limitations will be introduced. Topics covered will include depression and illness, traumatic injuries, neuromuscular diseases, cancer, and chronic pain. Also covered will be the use of psychological techniques to improve behaviors for wellness including smoking cessation, proper nu

PSY 594 - Ethical Issues in Organization
Hours: 3
Ethical Issues in Organizations. Three semester hours. Ethical issues applied to individuals in an organizational setting. Included are theories of moral philosophy and the development and application of professional and business codes.

PSY 595 - Research Literature & Techniques
Hours: 3
This course will provide a study of the research literature in the students' field of major interest and develop an understanding of research techniques used in this field. Crosslisted with: COUN 595, SPED 595

PSY 597 - Special Topics
Hours: 3
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

PSY 598 - Psychology of Gerontology
Hours: 3
Psychology of Gerontology - This course will cover topics in gerontology including physical and mental changes in older adults, transitions such as retirement, mental health issues for the older adult, and health issues. The course will provide needed information to help the older adult adjust to changes in life. The course will focus on positive sides of aging which are often neglected.

PSY 602 - Applied Regression Analysis
Hours: 3
This course covers the theory and application of regression analysis and serves as a solid foundation for more advanced topics in quantitative methodology. The course will provide the opportunity to build regression models and interpret the results of a variety of regression modeling techniques. Approved Level IV doctoral research tool. Prerequisites: PSY 612 and PSY 695; or equivalent or instructor's consent.

PSY 605 - Single Subject Designs
Hours: 3
This is an introductory level course concentrating on single subject data designs, visual inspection and inference of data and statistical analysis for educational and behaviorally therapeutic interventions and data collection processes. (Same as SPED 605)

PSY 610 - Nonparametric Statistics
Hours: 3
This course, an approved Level IV doctoral research tools course, concentrates on the logic and application of distribution-free statistics with emphasis on psychological and educational data and research. Prerequisites: Level I-III research tool courses or equivalent or permission of instructor.
PSY 612 - Psy Ed Statistics
Hours: 3
This course, an approved Level II doctoral research tools course, is an introductory level course that concentrates on statistical methods applicable to educational and psychological research procedures and interpretations.

PSY 615 - Psychological Principles of Consultation & Supervision
Hours: 3
This course will examine the psychological principles and knowledge base underlying the major models and theories of individual, organizational consultation, and supervision. Scientific information derived from the study of learning, cognition, development, and personality theory will be examined in relation to the common consultative and supervision practices and models employed in business, government, and education. Instruction and practice in the supervision of psychological services conducted in appropriate laboratories and agencies is also provided.

PSY 618 - Group Dynamics
Hours: 3
Group Dynamics: Understanding and Working in Groups. Three semester hours. This course will provide both a theoretical background and practical knowledge for understanding and working in a group environment. Basic principles of group membership, identity, and interaction will be identified. The ultimate goal of the class is to make the student a more productive group member. To achieve this goal, some topics that will be discussed include leadership, communication skills and patterns, conflict styles and resolutions, viewing diversity as a strength, needs for and uses of power, and team development and training. The student will develop these skills through active participation in numerous group activities and environments.

PSY 620 - Intro to Human Cognition
Hours: 3
Introduction to Human Cognition - This course provides an overview of cognitive psychology. We will investigate topics of perception, attention, consciousness, memory, imagery, knowledge representation, language, problem solving, decision making, and other selected aspects. Emphasis also will be placed on the relationship between mental processes and the brain. In addition, students will learn to appreciate the scientific methods that are developed to investigate these topics.

PSY 621 - Advanced Cognition
Hours: 3
This seminar course will examine the disciplines of cognitive science and cognitive psychology, with primary attention to the three predominant metaphors and models of the mind: the mind as a computer, the mind as a neural network, and the mind as a brain. This course is repeatable for up to six semester hours.

PSY 622 - Research Design: Introduction to Theses and Dissertations
Hours: 3
In this course, students will learn the principles of developing a research idea that can ultimately be developed into an actual research proposal. Students will be expected to abstract research articles and based on these summaries, identify and operationalize a research question, prepare a potential method section, and prepare and submit a research proposal draft.

PSY 625 - Cognition & Instruction I
Hours: 3
Cognition and Instruction I. Three semester hours. This course will examine the psychological principles and scientific knowledge base underlying the major instructional theories. Content will include an evaluation of how current theories and knowledge of human cognition relate to the principles and practices of instructional design and development.

PSY 626 - Cognition/Instruction II
Hours: 3
Cognition and Instruction II. Three semester hours. This course will require students to apply knowledge and theory derived from cognitive psychology to the design and development of instructional systems and products. Students will be expected to integrate cognitive models and knowledge of human cognition within the process of developing and designing instructional systems and products. Prerequisite: PSY 625 or consent of instructor.

PSY 627 - Social Cognition
Hours: 3
Social Cognition - This course will investigate the research on the cognitive mediators of interpersonal behavior. This course is predicated on the belief that our social interactions are determined by what we believe we know about ourselves, other people, and the situations in which we encounter them. Topics to be covered include: Attribution, person perception, stereotyping, attitudes, the self, and social memory.

PSY 630 - Rorschach and Projectives
Hours: 3
Rorschach and Projectives - Students learn to administer and interpret the Rorschach, using the Comprehensive System Projective procedures involving drawing, storytelling, sentence completion, etc., are also reviewed.
PSY 635 - School Based Interventions
Hours: 3
Founded on a decision-making and accountability model, this course provides training in the investigation of theoretical and applied issues relevant to the design, implementation, and evaluation of academic, behavioral, and social-emotional interventions for students in schools. Emphasis will be placed on the linking of assessment to intervention design for the purpose of identifying interventions that are functionally relevant and fit the context in which they are implemented. Students will review various empirically validated intervention procedures to address student needs at the school-wide, small group/classroom, and individual levels and determine the effectiveness and efficacy of those interventions. Prerequisites: PSY/SPED 535.

PSY 640 - Evolutionary Psychology
Hours: 3
This is a relatively new branch of psychology that has arisen from the confluence of psychology and evolutionary biology. This course will address how human minds and behavior have been shaped by evolution.

PSY 645 - Introduction to Learning Technology
Hours: 3
This course will present an overview of the trends in applying technology to learning, focus on how different educational theories lead to the design and developments of technology-based learning, and discuss the research process of a few successful learning technology examples.

PSY 661 - Org Change and Improvement
Hours: 3
Organizational Change and Improvement. Three semester hours. (Cross-listed with MGT 594) This course will examine the principles of organizational change and the scientific knowledge base underlying the major models and theories of organizational change and improvement. Particular attention will be given to models and practices of continuous organizational improvement and how such models relate to current knowledge and theory.

PSY 670 - Multivariate Analysis
Hours: 3
This course, an approved Level IV doctoral research tools course, provides a conceptual introduction, as well as computational and computer competence, in modern multivariate procedures. Topics include multiple regression, discriminant function analysis, analysis of covariance, multiple analysis of variance, item analysis, cluster analysis, factor analysis, and canonical correlation. Applications to measurement and test construction are emphasized. Prerequisites: Level I-III research tools courses or equivalent or permission of instructor.

PSY 671 - Advanced Tests & Measurements
Hours: 3
This course is designed to: (1) introduce students to modern and classical test theories, the concepts and the techniques, including test construct, scaling, modern and classical reliability theories, validity, modern and classical item analysis techniques, equating and test score interpretation; (2) provide students with knowledge about how a psychological or educational test is developed; (3) provide students with knowledge about strengths and limitations of psychological and educational tests; (4) provide students opportunities to discuss technical issues in test development and to practice their knowledge through projects. Prerequisites: PSY 612.

PSY 672 - Cultural Iss & Diversity
Hours: 3
Multicultural Issues and Diversity in Assessment and Therapy This course is an examination of cultural and diversity issues present in educational and psychological assessment and therapeutic treatment. Students will develop sensitization to personal and societal attitudes and values, as well as an increase of their awareness of current models of multicultural assessment and therapy/intervention. Topical areas addressed in the course are: culture, ethnicity, religion, socio-economic status, worldview, gender, age, disability, and sexual orientation. The course additionally identifies models for developing competency in assessing and providing therapeutic services to diverse clients.

PSY 674 - Spec Topics in Clin Psy
Hours: 3
Special Topics in Clinical Psychology - Course will enhance the clinical skills of students planning to work as practicing psychological associates and LSSPs and other clinical fields. Topic might include Crisis Intervention, Therapeutic Interventions for Older Adults, or Behavioral Health, for example. This course may be taken a total of 3 times for credit.

PSY 675 - Advanced Topics in Educational Psychology
Hours: 3
The topic for this course is determined by the instructor, but will typically involve some aspect of cognitive, social, physiological, or quantitative psychology. Can be repeated when topic varies.

PSY 679 - Program Evaluation
Hours: 3
This course will emphasize both the practical and theoretical issues involved in the planning, execution, and interpretation of program evaluations. Prerequisites: PSY 612 or 572 or equivalent or permission of instructor. Crosslisted with: COUN 621.
PSY 680 - Professional Development
Hours: 3-6
This course is designed to offer practical advice and direction to graduate students, particularly doctoral students. This advice will focus on teaching, research, writing, and/or generally preparing the student for a career in academic or non-academic positions. Cross listed with: COUN 650.

PSY 681 - Intermediate Statistics
Hours: 3
This course is an approved Level III doctoral research tools course that will emphasize the understanding of intermediate level statistical concepts and their application to the social sciences and education. Content will include one-way, factorial, and repeated measures analysis of variance, simple analysis of covariance, and advanced correlational methods, bivariate regression and an introduction to multiple regression, selected nonparametric methods, and introduction to multivariate analysis of variance. Students will be required to use computational software to assist in the analysis and interruption of data. Prerequisites: Level I and Level II research tools or equivalent or permission of instructor. Crosslisted with: COUN 613.

PSY 689 - Independent Study
Hours: 1-4
Independent Study. One to three semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

PSY 691 - Clinical Practicum Psychology
Hours: 3
This course consists of supervised experience in psychological settings under the supervision of a licensed psychologist. Course is repeated for at least two three-credit hour courses, each requiring at least 150 weekly hours of clinical experience. Prerequisite: Consent of instructor. Repeatable

PSY 695 - Research Methodology
Hours: 3
(Same as COUN/EDAD/EDCI/HIED 695) An overview of research methodology including basic concepts employed in quantitative and qualitative research methods. Includes computer applications for research. This is an approved Level I doctoral research tools course. Prerequisite: Doctoral status or consent of the instructor.

PSY 696 - Supplementary Practicum in Clinical Psychology
Hours: 1
This course consists of supervised experience in psychological settings under the supervision of a licensed psychologist, specifically designed for the student has completed 9 hours of 691, but who requires additional practicum time to complete direct hour requirements. Prerequisites: Completion of 9 semester hours of PSY 691.

PSY 697 - Special Topic
Hours: 1-9
Special Topic

PSY 699 - Internship in Clinical Psychology
Hours: 3
Advanced practice in clinical psychology, with placement in either the on-campus clinic or another site approved by the course instructor and the applied program coordinator. Emphasis will be on greater autonomy in practice and will focus on delivery of psychotherapy services and related assessments. The instructor of record will provide campus-based supervision, and, for field-site placements, the student clinician will secure a face-to-face supervisor at the field site. Prerequisites: Six semester hours PSY 691 passed with a grade of B or better and consent of instructor or applied program coordinator.

PSY 718 - Doctoral Dissertation
Hours: 3-12
Doctoral Dissertation. Twelve semester hours. Doctoral dissertations must be acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of his specialization. To be acceptable, the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competency and significant contribution to knowledge. Graded on a (S) satisfactory or (U) unsatisfactory basis.

PSY 790 - Internship in School Psychology
Hours: 3-6
This course consists of supervised experience in psychological settings under the supervision of a Licensed Specialist in School Psychologist. Graded on a (S) satisfactory or (U) unsatisfactory basis. Prerequisites: Consent of instructor. Course is repeated for at least two but no more than four, three-credit hour courses, each requiring approximately 20 weekly hours of field experience, to meet master's degree requirement for internship.
Reading Courses

RDG 515 - Read/Learn Content Area
Hours: 3
Reading and Learning in Content Areas. Three semester hours. This course is designed for graduate students in the emergency permit program seeking initial teacher certification. The focus is on reading comprehension, concept development and strategies for interacting with expository materials. The role of the teacher, the text, and the student are examined in the learning process. Text analysis methods, teacher directed strategies, reader-based strategies, and literature are discussed as appropriate for all elementary and secondary grade levels. Enrollment is limited to teachers on emergency certification.

RDG 516 - Foundations of Reading
Hours: 3
Foundations of Reading Instruction. Three semester hours. This course is designed for graduate students in the emergency permit or alternative certification program seeking initial teacher certification. The focus is on the reading process and the factors that condition its development. The importance of reading in school and in life serves as a background for critical evaluation of the methods and materials of reading instruction. Special consideration is given to the essential components of research-based programs and the features of classrooms that support effective beginning reading instruction.

RDG 520 - Literacy and Instruction I
Hours: 3
Literacy and Instruction I. Three semester hours. This course focuses on the application of knowledge of the interrelated components of reading across all developmental stages, including oral language, phonological and phonemic awareness, the alphabet principle, word analysis, fluency, comprehension, vocabulary, written language, concepts of print, and expertise in reading instruction at the primary, intermediate/middle, and high school levels.

RDG 521 - Literacy & Instruction II
Hours: 3
Literacy and Instruction II. Three semester hours. This course explores research proven classroom strategies for student comprehension development and expression through writing, with a focus on the reader, the writer, texts, and the transaction. In addition, this course examines assessment of reading comprehension and writing, with attention on profiling class needs and individual needs and abilities, the selection of appropriate books and materials for grouping, and the teacher as a reading professional.

RDG 523 - Promoting Literacy Through Language Acquisition and Development
Hours: 3
Promoting Literacy Through Language Acquisition and Development. Students in this course will gain knowledge and skills in primary and secondary language acquisition, including the relationship of these languages, to facilitate and promote literacy. Other skills include: conducting appropriate reading assessments on an ongoing basis; designing and implementing effective reading instruction that reflects state content and performance standards addressing the needs of all learners; applying knowledge of reading difficulties, dyslexia, and reading disabilities to facilitate and promote literacy; and using research-based reading instruction that is collaborative and consultative with colleagues, mentoring, coaching, and providing professional development.

RDG 528 - Integrating Writing
Hours: 3
Integrating Writing in the literacy program. Three semester hours This course is designed to increase awareness and understanding of writing within the context of literacy attainment. This course will study various components of writing that enhance classroom instruction.

RDG 529 - Workshop
Hours: 3
Workshop in Reading. Three to six semester hours. May be graded on a satisfactory (S) or unsatisfactory (U) basis.

RDG 540 - Content Area Reading
Hours: 3
Diagnostic and perscriptive teaching and learning strategies based on needs assessment. Instructional strategies discussed are appropriate for all grade levels and all content areas.

RDG 560 - Literacy Assessment
Hours: 3
Diagnosis and Treatment of Reading Problems. Three semester hours. Designed to refine the diagnostic and remedial skills of the student through the study of clinical instruments, formal and informal measurements, and study of clinical cases.
RDG 562 - Critical Issues in Lit Edu  
Hours: 3  
Critical Issues in Literacy Education. Three semester hours. This course is designed to increase awareness and understanding of critical issues surrounding the evolving concept of literacy. This course will study selected issues affecting educational thought and schooling practices emphasizing critical analysis of the cultural, political and sociological contexts of school-societal problems.

RDG 567 - Practicum in Organizing for Effective Literacy Instruction in Elementary, Middle, and High School  
Hours: 3  
The graduate reading course provides opportunities through practicum component to apply substantive, research-based instruction that effectively prepares reading specialist and MRT candidates to deliver a balanced, comprehensive program of instruction in reading, writing, and related language arts.

RDG 589 - Independent Study  
Hours: 1-4  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

RDG 597 - Special Topics  
Hours: 3  
Special Topics. One to four semester hours. Organized class. May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary.

RDG 640 - Seminar in Research  
Hours: 3  
Seminar in Research. Three semester hours. A study of significant research in literacy and related areas. May be repeated once. Prerequisite: Doctoral level standing or consent of the instructor.

RDG 650 - Child, YA, & Multicult Lit  
Hours: 3  
Child, Young Adult, & Multicultural Lit: History, Pedagogy, and Technology This course will address four major literature issues related to elementary and secondary school students: 1) explore children's, young adult literature, and multicultural literature genres, 2) research current and historical trends and issues, 3) investigate integration and cross curricular pedagogical issues, and 4) probe the expanding definition of texts in a technological medium. Prerequisite: Doctoral level standing or consent of instructor.

RDG 667 - Reading Proc:Theor & Impl  
Hours: 3  
The Reading Process: Theories and Implications. Three semester hours. An in-depth analysis of varied definitions and theories of reading including examination of implication for reading instruction. Prerequisite: Doctoral level standing or consent of the instructor.

RDG 689 - Independent Study  
Hours: 1-4  
Independent Study in Reading. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

RDG 690 - Seminar in Rdg Ed  
Hours: 3  
Seminar in Reading Education. Three semester hours. In depth analysis of major topics of critical concern to the profession. Nine semester hours may be applied to a doctoral degree when topics vary. Prerequisite: Doctoral level standing or consent of the instructor.

RDG 692 - Learning to Read  
Hours: 3  
Learning to Read: From Research to Best Practice. Three semester hours. The 21st century began with a renewed call to “leave no child behind” in learning to read. But how can this be accomplished? This course is designed to examine the major approaches to beginning reading that have been advocated and practiced over the past 50 years. Participants will answer the questions “Can all children learn to read?” and “What does the research say about beginning reading instruction?” Prerequisite: Doctoral level.

RDG 697 - Special Topics  
Hours: 1-4  
Special Topics. Three semester hours. (Same as ElEd 697) Organized class. May be repeated when topics vary. Prerequisite: Doctoral level standing or consent of the instructor.
Social Work Courses

SWK 501 - Generalist Practice with Individuals, Families, and Small Groups
Hours: 3
Generalist Practice with Individuals, Families and Small Groups. Three semester hours. This foundation practice course provides an overview of social work values, skills, and knowledge from an empowerment and strengths perspective to mezzo and macro systems (i.e., organizations and communities). The relationships between communities, organizations, human diversity and at-risk populations are infused throughout the course. Prerequisites: Students must have been admitted to the MSW program.

SWK 503 - Generalist Practice with Groups, Organizations, and Communities
Hours: 3
Generalist Practice with Groups, Organizations and Communities. Three semester hours. This foundation practice course provides an overview of social work values, skills, and knowledge from an empowerment and strengths perspective to mezzo and macro systems (i.e., organizations and communities). The relationships between communities, organizations, human diversity and at-risk populations are infused throughout the course. Prerequisite: Students must have been admitted to the MSW program.

SWK 505 - Advanced Generalist Practice with Individuals
Hours: 3
Advanced Generalist Practice with Individuals. Three semester hours. This advanced practice course provides students with theories and skills for working with individuals from an advanced generalist perspective. By the end of the course, students will be expected to demonstrate critical thinking, integration of theory with practice, and knowledge, values and skills appropriate for autonomous practice. Prerequisites: Students must have been admitted to the MSW program; completed all MSW foundation curriculum requirements; and be in good standing in the MSW program.

SWK 506 - Advanced Generalist Practice with Families
Hours: 3
Advanced Generalist Practice with Families. Three semester hours. This advanced practice course provides students with theories and skills for working with families which includes an advanced generalist approach. Students will be expected to demonstrate critical thinking and the use of evidence-based practices in working effectively with family systems. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.

SWK 507 - Organizations, Communities, and Social Policy
Hours: 3
Organizations, Communities and Social Policy. Three semester hours. This advanced practice course provides students with theories and skills for working with organizations and communities. Students will learn how to engage in policy practice and intervene with macro-level systems. This course emphasizes advanced generalist practice with policies and political systems, organizations, and communities. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.

SWK 508 - Social Work Supervision and Administration
Hours: 3
Social Work Supervision and Administration. Three semester hours. This advanced practice course provides students with theories and skills needed for supervision of direct service staff and management skills in human service organizations. The course addresses relevant theories and models of supervision and administration. Key skills are identified which will enable students to effectively manage and create resources, develop and impact organizational policies, and serve as effective administrators and supervisors. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.

SWK 509 - Advanced Generalist Practice with Small Groups
Hours: 3
Advanced Generalist Practice with Small Groups. Three semester hours. This advanced practice course provides students with theory and skills necessary for advanced generalist practice with groups. Students will apply critical thinking and evidence-based practice to work with groups. Students are expected to integrate theory and knowledge with skills to effectively lead and intervene with group systems. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.

SWK 510 - Clinical Practice in Mental Health
Hours: 3
Clinical Practice in Mental Health - Three semester hours. This advanced course presents the Diagnostic and Statistical Manual (DSM) of mental disorders as a resource for understanding individual psychosocial functioning. Students will develop the ability to understand and apply the DSM in advanced generalist social work practice. Students will be expected to use critical thinking and evidence-based practice approaches with clients experiencing mental health issues. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.
SWK 511 - Human Behavior in the Social Environment I  
Hours: 3  
Human Behavior in the Social Environment I. Three semester hours. This foundation course is designed to provide foundation students with an understanding of the biological, psychological, and social systems aspects of human development. Content in this course overviews interactions between individuals, families, and their environments. It provides theories of development from conception through adolescence. Systems theory provides a foundation for exploring other major theories of individual and family development. The course addresses issues of diversity including ethnocentrism, racism, and physical/intellectual ability. Prerequisites: Students must have been admitted to the MSW program and be in good standing in the MSW program.

SWK 513 - Human Behavior in the Social Environment II  
Hours: 3  
Human Behavior in the Social Environment II. Three semester hours. This foundation course provides foundation students with an understanding of the biological, psychological, and social aspects of human development from young adulthood through the end of life. Content addresses issues of diversity such as gender roles, sexism and social orientation. Systems theory provides a foundation for exploring other theories of individual and family development within and among larger social systems. Prerequisites: Students must have been admitted to the MSW program and be in good standing in the MSW program.

SWK 521 - Foundation of Social Welfare Policy  
Hours: 3  
Foundation of Social Welfare Policy. Three semester hours. This foundation course in social welfare policy introduces students to social policy development, social welfare institutions, and the historical and existing policies underpinning the development of social policy. Course content is designed to emphasize the effect of social policies on client systems at the micro, mezzo, and macro levels. Specific attention will be given to the interaction between social welfare policies and at risk populations. Prerequisites: Students must have been admitted to the MSW program and be in good standing in the MSW program.

SWK 531 - Research for Practice  
Hours: 3  
Research for Practice. Three semester hours. The scientific method in social work practice is presented. The methods of empirical research for knowledge building, the role of research in theory construction, research designs and data analysis, and methods of practice and program evaluation are introduced. Students learn to apply qualitative and quantitative research methods to the problems of social work practice. Prerequisites: Students must have been admitted to the MSW program and be in good standing in the MSW program.

SWK 541 - Social Justice For Oppressed Populations  
Hours: 3  
Social Justice for Oppressed Populations. Three semester hours. This foundation course provides students with knowledge about social work with diverse populations. The emphasis of this course is on developing an understanding about client groups who are oppressed in our society based on factors such as race, ethnicity, gender, sexual orientation, and disability. Attention will also focus on systems which perpetuate oppression and exploring mechanisms for achieving social justice. Course content will include strategies for empowering diverse groups. Prerequisites: Students must have been admitted to the MSW program and be in good standing in the MSW program.

SWK 553 - Field Foundations Practicum  
Hours: 3  
Field Foundations Practicum. Three semester hours. This field practicum provides students with experiential opportunities designed to develop foundation level social work skills and knowledge in an agency setting. Students are required to complete a minimum of 260 clock hours. Prerequisites: Students must have been admitted to the MSW program, completed all foundation courses or be concurrently enrolled in remaining foundation courses to enroll in SWK 553 and be in good standing with the MSW program. Students must complete this course and all foundation coursework before enrolling in advanced classes. Must receive grade of ‘B’ or above.

SWK 554 - Advanced Generalist Practice Field Practicum  
Hours: 3-6  
Advanced Generalist Practice Field Practicum. (3 to 6 semester hours). This field practicum provides students with experiential opportunities designed to integrate theory and advanced generalist practice with client systems in an agency setting. Note: Students are required to complete a minimum of 640 clock hours, 9 semester hours of Field Practicum (typically over 3 semesters), and attend a weekly field seminar. May be repeated for a maximum of 9 semester hours. Must receive grade of ‘B’ or better. Prerequisites: Students must have been admitted to the MSW program, completed all MSW foundation curriculum requirements, and be in good standing in the MSW program.

SWK 570 - Treatment of Children and Adolescents  
Hours: 3  
Treatment of Children and Adolescents. Three semester hours. This course is designed to teach the background knowledge and skills needed for advanced generalist practice with children and adolescents.
SWK 589 - Independent Study  
Hours: 3  
Independent Study. One to three semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites: Consent of department curriculum committee and department head.

SWK 590 - Research Methods in Advanced Social Work Practice  
Hours: 3  
This course provides students with information on advanced techniques of practice and program evaluation. Both qualitative and quantitative research designs are taught. All steps in the research process are examined. Ethical and behavioral issues in evaluation research are presented. Prerequisites: SWK 531 or admission to the advanced standing program. Must be successfully completed in preparation for enrollment in SWK 595.

SWK 592 - Study Abroad  
Hours: 3  
The course explores the evolution and current development of social work practice in other countries through building knowledge links between political processes, economic constraints and the actual implementation of public policies. Focusing on how modern and evolving bureaucracies along with cultural and institutional frameworks of a given political system dictate the way in which governments work and interact with the public/private sector. As a requirement of this course students engage in an organized travel abroad opportunity with faculty instructors. In addition students may be required to engage in online activities including discussion groups and/or assignment preparation before and after the study abroad component. Prerequisites: Admission to the School of Social Work. Crosslisted with: SWK 492.

SWK 595 - Research Literature and Techniques  
Hours: 3  
This course integrates research design, instrument selection and development and techniques of data collection and analysis for application in a field setting. Development of a research project is required. Prerequisites: Successful completion of SWK 590.

SWK 597 - Special Topics  
Hours: 3  

Secondary Education Courses

SED 500 - Issues in Education  
Hours: 3  
Issues in Education. Three semester hours. Focuses on major philosophical and ideological beliefs and their impact on the organization and structure of American education. Specific issues may involve classroom management and discipline, parent involvement, the nature of learning, human development, current brain research, multiple intelligences, learning styles, curriculum design and evaluation, teaching strategies, alternative assessment, legal issues, educational technology, crisis management and conflict management.

SED 501 - Induc Yr Sem for Sec Schl Teac  
Hours: 3-6  
Induction Year Seminar for Secondary School Teachers. Three to six semester hours. This course is designed to support the transition of new teachers during their induction year. Students actively work with the instructor to develop the content of the course through analysis of needs assessment conducted during first class meeting. Support group discussions enable students to become reflective practitioners while exploration, modeling, and implementation of effective teaching strategies encourage professional growth. Co-requisite: SED 523

SED 505 - Teacher Leader  
Hours: 3  
This course provides a study of leadership skills and trends in collaborating to improve teaching and learning in the secondary school setting. The course is designed for teacher leaders serving as the Department Head, Team Leader, Literacy Coach, dean of instruction, content facilitators, and other specialists.

SED 510 - Assessment in Teaching and Learning  
Hours: 3  
Focuses on formal and informal assessment strategies to be used by teachers of secondary students. Topics will include reliability, validity, bias, performance assessment, portfolios, affective assessment, standardized test score interpretation, and formative assessment. Particular attention will be given to practical applications of the assessment of learners within a particular classroom setting and curricular context.

SED 511 - Adolescent Growth and Development  
Hours: 3  
This course will focus on the physical, cognitive, socio-emotional, and moral stages of human development of adolescents between the ages of 11 and 19. Emphasis will be placed on individual differences and how educators can employ principles of curriculum and instruction to address the needs of adolescents. The impact of social and environmental factors on adolescents will be a key component of this course.
SED 512 - The Secondary School: Teaching and Learning in the 21st Century
Hours: 3
This course explores contemporary trends and issues influencing the secondary school (middle, jr. high, and high school) and the impact of those trends on the adolescent learner. The course shall address teaching and learning in the twenty-first century such as how to design instruction to support critical thinking, problem solving, creative thinking, best uses of technology and the student's awareness of the impact of globalization in an interconnected world.

SED 513 - Secondary Schl Curriculum
Hours: 3
The Secondary School Curriculum. Three semester hours. Focuses on descriptions and analyses of models of curriculum theory and curriculum development. Specific emphasis will be placed on philosophical and social forces which affect the design, implementation, and assessment of the curriculum. Particular attention will be given to practical applications of curriculum design and evaluation and leadership efforts necessary for overcoming individual and organizational resistance to change.

SED 516 - Educ Rsch for Eff Tchng
Hours: 3
Educational Research for Effective Teaching. Three semester hours. Contains the professional body of knowledge necessary for effective teaching. This course emphasizes theories and issues of education that are directly related to teacher professional growth. The content of the course will include site based management, professional ethics, school environment issues. Communication issues, educational research, and political influences. Students will exhibit an understanding of the Texas teacher competencies as outlined on the Professional Development portion of the TExES test. Enrollment is limited to students accepted into the Alternative Certification Program (ACP). Prerequisites: SED 514, 515.

SED 521 - Models of Tchng Sec Schl
Hours: 3
Models of Teaching in the Secondary School. Three semester hours. Includes a study of the research, philosophy, and learning theory underlying current models of instruction. Practical alternative teaching strategies effective in accommodating students with diverse learning styles will be discussed as well as classroom management and the implications of whole-brain research and multiple intelligences for secondary/middle school teaching. Particular attention will be given to the teacher as an agent and manager of change.

SED 523 - Internship
Hours: 3
Internship. Three semester hours. Provides experiences in various environments which will be supervised by mentors and university liaisons. Regular seminar sessions may be held which will focus on concerns related to education and/or the workplace.

SED 528 - Learning Theories and Philosophy
Hours: 3
This course shall examine the concepts, ideologies, and research of human learning, with particular attention to the learner as a constructor of knowledge. The pragmatic application of learning theories to the development of the adolescent learner shall be emphasized.

SED 529 - Workshop
Hours: 3
Workshop. Three semester hours. Topics will be selected with reference to the needs of learners. Graded as A-F or (S) satisfactory or (U) unsatisfactory.

SED 559 - Diversity & Equity in Edu
Hours: 3
Diversity & Equity in Edu. Three semester hours. Focuses on sociocultural issues which influence learning and work environments. The cultural dynamics of racism, ethnicity, ageism, sexism, elitism, bilingualism, disabilities, and other cultural diversities are emphasized.

SED 589 - Independent Studies
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisites: Consent of department head.

SED 597 - Special Topics
Hours: 1-4
Special Topics

SED 613 - Problems and Trends in Secondary Education
Hours: 3
This course shall explore contemporary challenges and trends associated with secondary schools within local, national, and global settings. Political, economic, socio-cultural, and historical influences on secondary education will constitute the framework for understanding the high school experience. Prerequisites: NA. Crosslisted with: SED 513.
SED 614 - Research in Teacher Leadership  
Hours: 3  
This course provides a study of research addressing leadership skills and trends in collaborating to improve teaching and learning in the secondary school setting. The course is designed for teacher leaders serving as the department head, team leader, literacy coach, dean of instruction, and/or content facilitator. Prerequisites: There are no prerequisites for this course. Crosslisted with: SED 505.

SED 632 - Sec Curr Problems and Trends  
Hours: 3  
Secondary Curriculum Problems and Trends. Three semester hours. Includes a study of the problems facing the nation’s schools and efforts made to resolve them. Programs and curricula necessary for preparing students to function optimally in the 21st century will be discussed.

SED 640 - Research in Adolescent Growth and Development  
Hours: 3  
This course is devoted to an exploration of current research and practices addressing the physical, cognitive, socio-emotional, and moral stages of human development of adolescents between the ages of 11 and 19. Emphasis will be placed on individual differences and how educators can employ principles of curriculum and instruction to address the needs of adolescents. The impact of social and environmental factors on adolescents will be a key component of this course. Prerequisites: There are no prerequisites for this course. Crosslisted with: SED 511.

SED 641 - Curriculum Studies in Secondary Education  
Hours: 3  
This course explores the ideologies of curriculum as germane to the practical implementation of curricular practices in secondary schools and society. The scope of curriculum shall include local, national, and global contexts, with considerations for foundational, contemporary, and future landscapes of curricular practice. Crosslisted with: SED 512.

SED 642 - Pedagogy and Philosophy of Education  
Hours: 3  
This course shall examine traditional and contemporary philosophies associated with the pedagogy of secondary education. Best research-based practices shall be emphasized as well as how these pedagogical practices are grounded in theories and philosophies for secondary education classroom and school settings. Specific and explicit theoretical and philosophical applications will be made to the growth and development of the adolescent learner. Progressive approaches to curriculum and instruction in the secondary school will be explored with a particular focus on issues of school choice, restorative justice, resilience, grit, growth mindset, and problem-based learning. Crosslisted with: SED 528.

SED 643 - Assessment: Practices and Policies in the Secondary Schools  
Hours: 3  
Examines classroom, campus, district, state, and national approaches and policies related to assessment of secondary school students. High stakes testing, data analysis, landmark legislation, and authentic assessment strategies will be addressed. A major emphasis will be placed on preparing teachers to be leaders beyond the classroom on assessment issues. Prerequisites: There are no prerequisites for this course. Crosslisted with: SED 510.

Sociology Courses

SOC 500 - Orientation  
Hours: 0  
This course provides an orientation to the university and to the online degree program. It will consist of a series of tutorials and other pertinent information that will prove invaluable for students as they navigate the graduate sociology online program.

SOC 502 - GLB / Comparative Sociology  
Hours: 3  
GLB/Comparative Sociology - An overview of social, cultural, political, economic and other institutional differences in two or more settings. This seminar introduces students to cross-national differences through a study abroad experience. Prerequisites: None.

SOC 504 - Stu Contemporary Sociolog  
Hours: 3  
Studies in Contemporary Sociology. Three semester hours. An in-depth study of contemporary theoretical and methodological issues in an area of study within sociology. Topics to be covered may include: suicide terrorism; teaching sociology; applied sociology; qualitative methodology; and the state of sociology. May be repeated when topics vary.

SOC 512 - Soc Perspcts Marr/Family  
Hours: 3  
Sociological Perspectives on Marriage and the Family. Three semester hours. A critical sociological analysis of the origin, structure, and functioning of the institutions of marriage and family in human society. Four theoretical perspectives in sociology (namely: functionalism, conflict theory, exchange theory and symbolic interactionism) will be employed for discussing and evaluating various problems and issues in marriage and family, particularly in the contemporary American society.
SOC 514 - Family Violence
Hours: 3
A thorough and critical examination of family violence from a sociological perspective. Topics include the meaning, nature, and types of family violence; biological, psychological, anthropological, and sociological theories which attempt to explain hostility, aggression, and violence among intimate people; the philosophy of non-violence; the consequences of violence; and preventive measures and strategies for dealing with violence in the family. Although the course focuses on the American family, illustrations of family violence from other cultures are provided.

SOC 515 - Medical Sociology
Hours: 3
Medical Sociology. Three semester hours. This course will examine research and theory on the changing concepts of health, illness and medical practice as well as place these understandings in socio-historical and comparative context. Topics will include: social epidemiology, the social construction of health/illness, the experience of illness, health professions, alternative medicine and the health care system. Emphasis on how social factors such as gender, race, social class and sexual preference affect both illness and health care. The course will be applicable for students in sociology, criminal justice, social work, and psychology. This course contributes 3 credit hours toward students' fulfillment of degree requirements. There is no lab or prerequisite for this course.

SOC 516 - Sociology of Education
Hours: 0-3
Sociology of Education. Three semester hours. A study of the structure of the social organization of the school and the social and cultural forces which influence the school and those who teach and learn in it. The classroom is analyzed as a social system with special emphasis on the role of teachers. The relationships of education to other social institutions such as the family, economy and political system are examined.

SOC 517 - Teaching Sociology and Criminal Justice
Hours: 3
This course will assist students in developing and formulating ideas, gaining practice and critically assessing information concerning community college and university teaching. In addition to the coverage of teaching literature within the field of sociology and criminal justice, the course will emphasize the development of teaching pedagogy, syllabus and test construction, teaching philosophy, and allow the student to obtain "hands-on" experience in the college classroom.

SOC 518 - Thesis
Hours: 3-6
The student will work on the thesis under the supervision of an advisory committee. Major work will include the development of a prospectus, collection, analysis and interpretation of data and the final writing of the thesis. No credit will be given until the thesis is completed and approved. Graded on a (S) satisfactory or (U) unsatisfactory basis. Prerequisites: Sociology 572, 573, 575, and 576 or permission of Department Head.

SOC 535 - Readings in Sociology
Hours: 3
Readings in Sociology. Three semester hours. This graduate seminar explores advanced sociological principles through the use of selected classic and contemporary readings. Students will be expected to read, synthesize, and integrate a wide variety of sociological materials and to analyze and discuss them from divergent theoretical perspectives.

SOC 553 - Amer Subculture Groups
Hours: 3
American Subcultural Groups. Three semester hours. An examination of cultural diversity in American life, focusing particularly on Black Americans, Mexican Americans, Native American Indians, and Anglo Americans. Describes dynamics of intergroup relations; the impact of ethnicity and social class on cultural patterns; the causes and effects of racism and prejudice. Special emphasis is placed on problems and strengths of multicultural education.

SOC 572 - Classical Sociological Theory
Hours: 3
This course will study the classical foundation of sociology, focusing on the writings of Durkheim, Weber, Marx and Mead. Attention will be given to how these theories have given rise to the major theoretical perspectives in sociology, particularly functionalism, conflict theory and symbolic interactionism.

SOC 573 - Contemporary Sociological Theory
Hours: 3
This course will build on the foundation of classical theory to focus on the construction and application of contemporary theories used in current sociological research. The major theoretical perspectives to be studied include: neofunctionalism, neomarxism, critical theory, feminist theory, post-modernism, as well as significant theorists dating from Parsons to the more recent theorists. Emphasis will be placed on the basic assumptions of the various theories, and the relevance of these ideas for understanding contemporary society.
SOC 575 - Advanced Research Methods  
**Hours: 3**  
The coverage of the basic techniques and procedures used in social research process. Special attention given to defining research problems, selecting and measuring variables, stating hypotheses, developing sampling designs and gathering data. Students are exposed to methodological designs such as experimentation, observation, content analysis, evaluation research and survey research.

SOC 576 - Data Analysis in Social Research  
**Hours: 3**  
Students are exposed to basic techniques of data analysis in social research, particularly by use of computers. Special attention is given to tabulation, statistical testing, and interpretation of data. Analysis of variance, multiple regression, dummy variable regression, path analysis and related topics will be covered with computer application for problem solving. This course is an approved Level II doctoral research tools course.

SOC 577 - Qualitative Methodology  
**Hours: 3**  
This course provides an introduction to the use of qualitative methods such as ethnographic research, focus groups, historical/comparative research, content analysis and grounded theory. In addition to addressing philosophical foundations, this course provides hands-on practice in the common strategies to access and collect data (e.g. observation, interviewing, archival data); methods of organizing and representing different forms/genres of data for analysis (e.g. transcripts, electronic texts, images, hand-written notes); and strategies to analyze and represent your analyses for academic audiences.

SOC 589 - Independent Study  
**Hours: 1-4**  
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of Department Head.

SOC 595 - Research Literature and Techniques  
**Hours: 3**  
Students will write a formal research report based upon primary or secondary data. Emphasis will be given to methods of interpretation and writing a formal paper in sociology. Prerequisites: SOC 572, 573, 575 and 576 or permission of the Department Head.

SOC 597 - Special Topic  
**Hours: 3**  
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

**Spanish Courses**

**SPA 503 - GLB/Literary Theory and Criticism**  
**Hours: 3**  
Students will explore the development of Spanish Literature and Literary Studies. Major contemporary theoretical approaches will be presented with emphasis in theoretical principles, methodologies and justifications for discourse interpretation. Students will learn how to contextualize and apply various theoretical approaches such as Formalism and New Criticism; Estructuralist and Post-structuralist theories such Deconstruction, Marxism, Feminism, Psychoanalysis, New Historicism, Post-Colonialism; and more current ones such as Ecocriticism, Animal Studies, etc.

**SPA 505 - GLB/Childn’s/Adolesnt Lit Spa**  
**Hours: 3**  
GLB/Children’s and Adolescent Literature in Spanish - Three semester hours A comparative, analytical and theoretical approach of canonical children’s and adolescent literature (Little Red Riding Hood, Cinderella, Sleeping Beauty and others) and the Spanish versions of these works and its presentation in the classroom.

**SPA 512 - Spa Grammar for Tchg**  
**Hours: 3**  
Spanish Grammar Review and its Teaching This course consists of a survey of Spanish Linguistics (Phonetics, Phonology, Morphology, Syntax and Dialectology) at an advanced level. Students will become acquainted with Linguistic theories through peer-review scholarly articles. Such articles also describe the application of such theories in the classroom. Students are encouraged to reflect on their own learning of the complex grammatical aspects of the language, and on the functions of teachers of second languages, who are responsible for the learning process of potential students. This course will bring to light the difficult task of including accurate and meaningful explanations of the grammatical aspects of learning a second language; a task which is undoubtedly a key to success. This is a 3 hour, lecture course with no prerequisites.

**SPA 516 - GLB/Boom/Post-Boom Latin American Literature and Film**  
**Hours: 3**  
A study of Latin American Literary Boom and Post-Boom as represented in narrative discourse (written and cinematic) from a global perspective. The class intersects these and other artistic movements in dialog with various narratives and cultures from around the world. May be repeated for credit when the emphasis changes.
Texas A&M University - Commerce

SPA 518 - Thesis
Hours: 3-6
Thesis. Six semester hours. Graded on a satisfactory (S) or unsatisfactory (U) basis.

SPA 543 - GLB/Spanish Sociolinguistics
Hours: 3
This course will help students to gain understanding of the different varieties and dialects of Spanish in the Hispanic world and its implementation in classroom instruction. The foreign language teacher needs to be knowledgeable of external variables (social status, gender, speaking tasks required, regional dialects) which affect speaker’s production. Learners of Spanish as a second language must be properly taught and be made aware of those different social or regional varieties when they are learning a new language. It is the responsibility of the foreign language teacher to put into practical context the grammatical aspect of the courses they teach, so that the learners will achieve success. This is a 3 hour, lecture course with no prerequisites. Cross list with FLL 543

SPA 544 - Spa Curriculum Design
Hours: 3
Spanish Language Curriculum Design This course targets potential teachers of second language. It instructs them how to effectively manage content in order to improve the structure and organization of a syllabus. It also helps in the implementation of appropriate materials for the second language classroom. This course will demand a recycling of knowledge on Linguistics disciplines related to the teaching of Spanish as a second language such as Phonology, Syntax, Sociolinguistics, and Methodology. By implementing the appropriate contents at the right pace and scheduling, potential teachers will work out a reliable curriculum which will assure the success of his/her students. Cross listed with FLL 544

SPA 545 - GLB/Teaching Spanish Thru Literature and Film
Hours: 3
A practical approach to the use of Hispanic films and literary texts for Spanish language instruction. The course prepares secondary teachers as well as college instructors to integrate film and literature as relevant tools in the Spanish classroom. Main goals include: 1) to expose students to the histories and cultures of the Spanish-speaking world, 2) to make use of film and literary texts as tools for practicing essential skills related to learning a foreign language, 3) to instruct students in the pedagogical principles and research that guide the use of film and literary texts as tools for learning a foreign language.

SPA 549 - Spanish Phonetics
Hours: 3
Spanish Phonetics in the Classroom This course will help students gain understanding of the field of Phonetics. The course surveys the Spanish phonological system so that the SLA teacher can implement it in his/her work in the classroom. Usually overlooked, or not consistently treated, second language phonology is a key to mastering native-like pronunciation. Thus, the course focuses on the importance of well-designed, long term work on the learning of pronunciation and intonation; and on how future teachers of Spanish as a Second Language may implement this work day to day in the classroom. This is a 3 hour, lecture course with no prerequisites. Cross list with FLL 549

SPA 550 - From Multiculturalism to Nationalism: Early Spanish Literature and Culture
Hours: 3
This course represents a survey of major works of literature and art of the Spanish Medieval and Golden Age periods within the context of politics, religion, gender, and society. In this course we explore, through an examination of representative art and literature, the transition from colonization to loss of empire; from a multicultural society to a nationalistic one. Major authors and their work will be studied, such as Arcipreste de Hita, Fernando de Rojas, Garcilaso de la Vega, Miguel de Cervantes, Lope de Vega, Teresa de Jesús, María de Zayas, Catalina de Erauso, etc.

SPA 560 - GLB/Colonization and Independence in Latin American Literature and Film
Hours: 3
A study through literature and film of colonization and independence. The class analyzes European colonization around the world and how it is represented in literature and film. The course spectrum is global. It analyzes the concept of colonization, independence and freedom from various axes: geographical, political, social and sexual as spaces from a global perspective. May be repeated for credit if the emphasis changes.

SPA 575 - Spanish Literature and Film of the 20th and 21st Centuries
Hours: 3
An exploration of the modern and postmodern thought that has shaped Spanish culture in the 20th century, and those that continue to affect Spanish culture and the production of art in the 21st century. The exploration will be conducted through the study of significant literary texts, film, and cultural artifacts, as representatives of a variety of aesthetic perspectives that echo the transformation of historical, social, and political concerns. Topics may include the literature of the Generation of 98; the Spanish Avant-Garde in Art and Literature; Literature, Art, and Film of the Civil War and the Dictatorship; Literature, Art and Film of the Democracy; and issues of gender, immigration, etc. in the 20th and 21st centuries. May be repeated for credit when emphasis changes.
SPA 576 - In Search of Spanish Identity: Spanish 18th and 19th Ct. Literature and Art
Hours: 3
In this course, and through a multidisciplinary approach, we will examine the historical period of 18th and 19th century Spain, which proved crucial for the development of dramatic events and transformations in contemporary Spanish culture and society. From different theoretical perspectives, we will read selected works and/or chapters by representative authors, and will explore a number of artistic and cultural artifacts as echoes of progressive and traditional ideologies competing for hegemonic control. Authors studied may include Benito Feijoo, Ignacio de Luzán, Moratín, Rosalía de Castro, Bécquer, Emilia Pardo Bazán, and Galdós. Other artists such as Goya, Fortuny, Rosales may also be examined. May be repeated for credit when the topic changes.

SPA 589 - INDEPENDENT STUDY
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

SPA 595 - RESEARCH LIT TECH
Hours: 3
[Print Course] SPA 595 - Research Literature and Techniques Hours: Three Note Required for the students who opt for the 36-hour Master's. This course requires an extensive investigation into a topic agreed upon by the student and the advisory committee. Graded on a satisfactory (S) or unsatisfactory (U) basis.

SPA 597 - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated for credit when the emphasis changes.

SPA 597A - Special Topics
Hours: 1-4
Special Topics. One to four semester hours. Organized class. May be repeated for credit when the emphasis changes

Special Education Courses

SPED 518 - Thesis
Hours: 3-6
Thesis. Six semester hours. This conference course introduces the candidate for the Master of Arts or Master of Science (Option I) degree to the theories and techniques of educational and psychological research and leads to the completion and acceptance of the thesis.

SPED 520 - Introduction to Exceptionalities
Hours: 3
The purpose of SPED 520 is to familiarize teachers with characteristics and learning differences of pupils with exceptionalities. It includes training in informal assessment and a survey of research-based instructional strategies. Emphasis will be given to state and federal legislation guiding eligibility determination, services provided, placement decision-making, and development of individualized education programs in the least restrictive environment.

SPED 524 - Characteristics of Students with Mild Disabilities
Hours: 3
SPED 524 examines the characteristics of students with mild disabilities. Emphasis is placed on etiology, ethics, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations, assistive technology, and support.

SPED 526 - Characteristics of Students with Moderate to Severe Disabilities
Hours: 3
SPED 526 examines the characteristics of students with moderate to severe disabilities. Emphasis is placed on etiology, ethics, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations, assistive technology, and support.

SPED 528 - Special Education Law
Hours: 3
SPED 528 provides students with a history of special education litigation and legislation. Specifically, students will gain a deep understanding of the Individuals with Disabilities Education Improvement Act, the major legislation governing the provision of special education services. Students will be exposed to issues of diversity and become familiar with how such factors have shaped federal statutes and regulations concerning assessment and evaluation procedures, due process and mediation, discipline, individual education plans (IEPs), free appropriate education (FAPE), and least restrictive environment (LRE).
SPED 535 - Applied Behavior Analysis
Hours: 3
SPED 535 provides a focus on the basic principles of applied behavior analysis (ABA). While wide application of ABA principles will be discussed, the application of ABA to the field of education is highlighted. The overarching goal of this course is to provide advanced training in proactive and scientific-based approaches to behavioral assessment, behavioral management, and behavioral aspects of education. In order to meet this overarching goal, students must be able to demonstrate mastery of the course objectives, or learner outcomes. Issues related to the importance of professional ethics as related to the use of behavior change programs and working with vulnerable populations will be reviewed at length. (Same as PSY 535)

SPED 540 - Assessment and Interventions for Social Communication Impairments
Hours: 3
SPED 540 addresses the (a) process of verbal, non-verbal, and paralinguistic communication skills; (b) assessment of communication competence, including social skills; and (c) research-based intervention strategies and effective practices for promoting effective communication for learners with social communication impairments, including Autism Spectrum Disorders. Language development, communication and language-based assessments, social skills training, alternative/augmentative modes of communication, assistive technology devices, and the impact of contextual factors affecting communication competence will be discussed and investigated.

SPED 553 - Cognition, Learning, and Development
Hours: 3
SPED 553 is designed for professionals providing learning and transition services to students with special needs. Consideration is given to cognitive abilities and styles, information processing, memory, and development. Prerequisites: SPED 520.

SPED 563 - Secondary Instructional Methods To Support Students with Disabilities
Hours: 3
SPED 563 presents evidence-based strategies and interventions for students with disabilities. A focus on quality reading, mathematics, writing, and behavioral assessment, strategies, and interventions to support students with disabilities is provided.

SPED 572 - Principles of Assessment and Measurement
Hours: 3
(Same as PSY 572) SPED 572 is the first required course in the sequence of assessment courses and is planned to provide a framework for the development of assessment practices. Attention will be given to issues of measurement, identifying appropriate sources of diagnostic information, reliability, validity, identifying and selecting test instruments, conducting the assessment process in an ethical and considerate manner, interpreting norm references and criterion-referenced test scores. Prerequisite: Graduate standing. Prerequisites: Graduate standing.

SPED 573 - Principles of Cognitive Assessment
Hours: 3
The purpose of SPED 573 is to introduce students to principles of cognitive assessment. This course integrates the skills of administration, scoring, and interpretation of major cognitive assessments in the context of recent cognitive theories and research. (Same as: PSY 573) Prerequisites: SPED 572.

SPED 574 - Principles of Psycho-Educational Assessment
Hours: 3
SPED 574 explores a variety of methods to assess students' academic and behavioral achievement. Test administration, scoring, and interpretation of evaluation results are emphasized. Prerequisites: PSY/SPED 572, SPED 520, SPED 528 and Psy/SPED 573.

SPED 580 - Current Topics in Special Education
Hours: 3
This course addresses current topics and issues in the special education field. The student will develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Emphasis will be placed on the use of research to support practitioner decision-making. Prerequisites: SPED 520. Depending on program selected ONE or BOTH from 524 and 526.

SPED 583 - Elementary Instructional Methods To Support Students with Disabilities
Hours: 3
SPED 583 provides students with an understanding of effective reading, writing, and math instruction, with emphasis on the challenges faced by children (K-6) with a wide array of disabilities. Major approaches to informal assessment and remediation in reading and math will be reviewed, enabling students to develop diagnostic-prescriptive programs. In addition, this course will provide students with methods of remediation in handwriting, spelling, and conceptual writing. Prerequisites: SPED 524.

SPED 586 - Collaboration, Transition, and Diversity
Hours: 3
SPED 586 explores models of inclusion and transition practices to support students with disabilities. Models of consultation and collaboration are presented for effective inclusion and transition practices. Accommodation strategies for supporting the academic/behavioral and social/emotional needs of students with disabilities in inclusive classrooms will be presented. Culturally competent and responsive practices will be emphasized. Home/school/community collaboration to prepare exceptional students for post-secondary environments through transition programming is emphasized.
SPED 589 - Independent Study  
Hours: 3  
Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Note: May be repeated when the topic varies. Prerequisites: Consent of department head.

SPED 595 - Research Literature & Techniques  
Hours: 3  
SPED 595 introduces students to fundamental research concepts, methods, and practices to address problems in the students’ field of interest. Emphasis is placed on review and critique of the literature and the role of research in applied settings. Crosslisted with: COUN 595, PSY 595.

SPED 597 - Special Topic  
Hours: 3  
Organized class. May be repeated when topics vary.

SPED 605 - Single Subject Designs  
Hours: 3  
SPED 605 is an introductory level course concentrating on single subject data designs, visual inspection and inference of data and statistical analysis for educational and behaviorally therapeutic interventions and data collection processes. (Same as: PSY 605) Prerequisites: SpEd or PSY 535.

Studio Arts Courses

ARTS 502 - Design Teaching Methods  
Hours: 3  
Design Teaching Methods - Three semester hours Pedagogy Classroom. Understanding the classroom through teaching method exploration, role-play and curriculum development. Prerequisites: ARTS 540, ARTS 541, ARTS 542.

ARTS 503 - Graduate Seminar  
Hours: 3  
Graduate Seminar primarily emphasizes research, readings, and writing as a means of understanding historical and contemporary trends in the visual arts and how a student’s work fits within them. Continuing to learn about studio practices and the art profession, students will work to refine their own artist statement, continue to digitally document their work, and maintain updated websites. Note: Students may repeat this course, up to a maximum of twelve hours.

ARTS 505 - The Creative Process  
Hours: 3  
Taken in the first year of the Master’s degree, this class considers what it means to be an artist. Students will experiment with both proven and experimental methods of art-making in a team based environment. Other topics include practical aspects of the art profession including grant writing, web site construction, professionally photographing their art, preparing and submitting work for exhibitions, and business practices.

ARTS 506 - Design Teaching Environment  
Hours: 3  
Three semester hours Pedagogy Campus. This course will deal with job-seeking skills and the creation and application of Vita materials needed as well as tenure, grant writing, committees and academic life through lecture, discussion, mock interviews, and outside panel feedback. Prerequisites: ARTS 540, ARTS 541, ARTS 542.

ARTS 507 - History of Graphic Design  
Hours: 3  
This course focuses on the evolution of Graphic Design from the invention of writing and alphabets to the computer revolution. Topics include: Medieval manuscripts, the origins of printing and typography, the Arts and Crafts movement, Victorian & Art Nouveau Graphics, the influence of Modern Art on design and visual identity and conceptual imagery. Prerequisites: Admission into the graduate program leading to the MFA in Art with Emphasis in Visual Communication or permission of the instructor.

ARTS 508 - History of Advertising and Consumerism  
Hours: 3  
This course is designed to give a broad overview of the nature of a consumerist society and how it drives and is driven by advertising. Lectures will explore the types and causes of consumerism, commodities consumed by the public, and the promise of the "good life." Advertising’s impact will be discussed from the aspect of target markets and positioning of goods and services, and the pros and cons of consumerism. Prerequisites: Admission into the graduate program leading to the MFA in Art with Emphasis in Visual Communication or permission of the instructor.

ARTS 509 - Practices and Techniques in Studio Art  
Hours: 3  
This course expands upon the techniques and best practices of art-making acquired at the undergraduate level. Students will work with members of the graduate faculty to improve the ways in which techniques and materials can strengthen the conceptual premises of their work.
ARTS 515 - Master of Fine Art Exhibition in Studio Art
Hours: 3-6
Upon the approval of the major advisor and admission to candidacy for the MFA degree, students will mount an exhibition that demonstrates a unified theme and is supported by a written statement and visual documentation. Permission of instructor required.

ARTS 518 - Thesis
Hours: 3-6
For students in the M.F.A. program: experimentation with a central, individually derived visual focus, culminating in an exhibition with accompanying written statement and visual documentation (five slides of works and the written statement to be submitted with the creative thesis). The M.F.A. Creative Thesis may be completed and presented only during a regular term of study. For students in the M.A. program: research on a selected art topic culminating in a written thesis.

ARTS 519 - First Year Studio Problems
Hours: 4
This course focuses on individual problems and experimentation in the selected area of studio emphasis. The student enrolled in this course will explore individual problems and experimentation in selected areas of study leading to either a body of work with a central focus or a varied body of work with a consistent high quality. Students may register for up to eight concurrent semester hours in a given term, with a maximum of twelve semester hours overall. Permission of Instructor required. Students enrolled in MA or MFA programs only.

ARTS 524 - 1st Year Studio Prob 2nd Area
Hours: 4
First Year Studio Problems Second Area - Four Semester Hours This course focuses on individual problems and experimentation in the student’s second studio area. For students in MA or MFA program: topic or media may vary each term. Note Students may register for up to eight concurrent semester hours in a given term, with a maximum of twelve hours overall. Permission of instructor required.

ARTS 525 - Studio Hours I
Hours: 3-12
This course focuses on unique student-driven solutions to artistic problems. Normally taken after the successful completion of 18 semester hours of graduate study, Studio Hours I allows students to work independently, albeit under the supervision of an instructor or an advisory committee. Students enrolled in this course will be expected both to participate and exhibit in the Graduate Reviews. Topics, media and objectives may vary each term. Note: Students may register for up to eight concurrent semester hours in a given term, with a maximum of twelve hours overall. Permission of instructor required.

ARTS 526 - Studio Hours II
Hours: 3-12
Normally taken after the completion of 30 semester hours of graduate work, this course allows students to pursue advanced projects under the broad supervision of an instructor or advisory committee. Students enrolled in this course will be expected both to participate and exhibit in the Graduate Reviews. Topics, media and objectives may vary each term. Note: Students may register for up to eight concurrent semester hours in a given term, with a maximum of twelve hours overall. Permission of instructor required.

ARTS 527 - Advanced Studio Problems
Hours: 4
Advanced Studio Problems - Four Semester Hours (6 Lab) This course focuses on individual problems and experimentation in the selected area of studio emphasis. The student enrolled in this course will explore individual problems and experimentation in selected areas of study leading to either a body of work with a central focus or a varied body of work with a consistent high quality. Students may register for up to eight concurrent semester hours in a given term, with a maximum of twelve semester hours overall. Permission of Instructor Required, Students enrolled in MA or MFA Programs only.

ARTS 528 - Studio Project
Hours: 3-4
Focused on a singular theme that is realized in a unified body of work, this course allows for students to create a body of work in a concentrated period of time. With at least two major critiques and a final review, the student works largely on their own to fulfill the project. However, regular meetings with fellow students and the professor oversee development. Note: May be repeatable up to eight hours. Permission of instructor required.

ARTS 529 - ARTS WORKSHOP
Hours: 3-6
ARTS 529 - Workshop Hours: Three to Six A practical workshop on various topics in studio art, includes developing projects and subject matter to be used in the classroom. Prerequisites Permission of the instructor.
ARTS 530 - Pedagogy in the Arts
Hours: 3-4
Students work with members of the graduate faculty to consider and implement various methods and approaches to teaching in the field of visual arts. In practice and theory, students will focus on teaching methods in their chosen area of concentration, but will also engage in broader examinations of pedagogical strategies. Assignments will include teaching by critiques, developing a teaching philosophy, and effective classroom and studio practices. Permission of instructor required.

ARTS 531 - History of Photography
Hours: 3
An examination of the scientific and aesthetic history of photography from its origins to the present. Emphasis is placed on early processes, the pioneers of photography, photography as a visual art and developments in modern photography. Media, trends, and the work of photographers are analyzed. This class will develop reading, writing, and appropriate analytic and critical thinking skills appropriate for graduate work. Crosslisted with: ART 333.

ARTS 532 - Gender, Art, and Popular Culture
Hours: 3
Through the careful study of artworks and popular culture, students will be engaged in an extended, historically-based examination of issues concerning gender. In this course, we will pay particular attention to societal constructions of gender, exploring the way that art, television, film, graphic novels and other media shape the way that we understand what it means to be “male” and “female.” Students will read challenging, sophisticated and seminal texts while demonstrating their command of such texts in short responses and online discussions. At the end of the course, the student should not only have a better understanding of gender, but should be able to evaluate its place in society while gaining the tools to be able to better explain gender to others.

ARTS 533 - Public Art
Hours: 3
Through the careful study of artworks and art historical texts, students will be engaged in an extended, historically-based examination of the development of contemporary public art across the United States and abroad. Students will read seminal and important works that have shaped public art history and project the construction of a piece of public art on the campus of Texas A&M–Commerce. Students will also research public art organizations and spaces to consider various opportunities to pursue public projects. The course will culminate in each student's proposal for a public piece of art, following existing submission guidelines.

ARTS 539 - History of Contemporary Art
Hours: 3
This course considers criticism, theory, styles, processes and other issues relevant to an understanding of art since 1960. Crosslisted with: ART 404.

ARTS 540 - Studio 1 Creative Method
Hours: 4
Studio 1. Creative Methodologies - Four semester hours Experimenting with both proven and experimental creative methodologies in a team based environment. An overview of innovative collaborative creative thinking processes. Pushing beyond one's knowledge base through innovative role-play in self-problem solving techniques.

ARTS 541 - Stud 2 Design Educatio
Hours: 4
Studio 2. Design Education, Theory & Practice - Four semester hours Research and analysis through group discussion of design education theory, philosophy and methods. Examination and creation of teaching tools, assignments, and evaluation rubrics. Pre-requisites : ARTS 540

ARTS 542 - Studio 3 Winning Audiences
Hours: 4
Studio 3. Winning Audiences - Four semester hours This course introduces students to basic skills surrounding persuasion and consensus-building. Students will learn to hone their oral and written presentations, and incorporate proven techniques for sharing ideas in a more coherent and compelling manner -- effectively luring others (even skeptics) to listen, believe, and embrace a new vision Pre-requisites : ARTS 540

ARTS 543 - Studio 4 Cross-Cultural
Hours: 4
Studio 4. Cross-Cultural Marketing - Four semester hours This course teaches advanced oral and written presentation skills within the context of a multicultural audience. Students will examine the forces at work in today's global marketplace and fine-tune their ability to bridge the cultural divide in order to connect with audiences whose history, customs, and beliefs they do not share. Pre-requisites : ARTS 540, ARTS 541, ARTS 542

ARTS 545 - Studio 6 Thesis Topic
Hours: 4
Studio 6. Thesis Topics - Four semester hours Exploration and development of thesis topic pilots through research, abstracts, ideation, creative process and feasibility analysis. This course is designed to provide you with enlightenment, direction, feedback and focus as you embark your thesis discovery process. This class will function primarily as a think-tank dedicated to defining, examining, discussing and furthering the ideas that you bring to the table–or wall. Each person will develop three viable, worthwhile abstracts to be reviewed by a outside guest panel resulting in feedback that will help validate your final thesis direction. Pre-requisites : ARTS 540, ARTS 541, ARTS 542, ARTS 543, ARTS 544
ARTS 546 - Studio 7 Design Grant
Hours: 4
Studio 7. Design Grant Writing - Four semester hours. Applying for a grant can seem like an overwhelming task. This grant writing class is designed to provide a foundation in the fundamentals of design centric grant writing so that the task is easy and enjoyable. The class includes key components of a grant proposal, problem statements, developing goals and objectives, and writing a sample grant proposal. Prerequisites: ARTS 540, ARTS 541, ARTS 542, ARTS 543, ARTS 544, ARTS 545

ARTS 547 - Studio 8 Design Tchng
Hours: 4
Studio 8. Design Teaching Mentorship - Four semester hours. Pedagogy in-classroom undergraduate training experience. This course focuses on in-classroom observation and experience through the shadowing of a faculty member, and the creation and application of classroom assignments for one semester. Prerequisites: ARTS 540, ARTS 541, ARTS 542, ARTS 543, ARTS 544, ARTS 545, ARTS 546

ARTS 548 - Exhibition Development
Hours: 4
Study and development of an exhibition and research paper.

ARTS 549 - Studio 9. User-centered Design Experience
Hours: 3
An introduction to the understanding, development and implementation of user-centered design thinking and problem solving. Emphasis will be placed on user personas, ethnography and other observational approaches, along with rapid prototyping methods towards building insights into product and service development.

ARTS 550 - Studio 10. Ideation, Process and Product
Hours: 3
This 16 week course will be centered around innovation focused on creating value through ethnography, research, ideation and strategy in a marketing frameset. Students will explore radical ways of design thinking to create new business models or harness compelling value for products or services that do not currently exist in the marketplace. Projects will be collaborative and centered around the application of innovation through segmenting, brand positioning, target marketing, and the 4Ps (Product, Pricing, Promotion and Place).

ARTS 551 - Studio 11. Creative Promotion and Innovation 1
Hours: 3
This 16-week course will empower students to take their innovations and marketing plans to the next level and implement them into a viable and fundable enterprise. Students will create a prototype to be presented as a proof-of-concept with a compelling presentation to an angel investor. In addition students will be introduced to issues related to the patent process and angel investment process as it relates to their innovations.

ARTS 552 - Master of Fine Arts Exhibition in Visual Communication
Hours: 4
Upon the approval of the Exhibition Topics Panel, students pursuing the MFA degree will mount a culminating exhibition that demonstrates the design-and-build phases of visual communication and includes design-centric strategy, design schematics, overall space planning, budget, invitation, marketing, presentation, and final construction. The exhibition will be supported by a research paper addressing the format of the exhibition and its underlying content.

ARTS 589 - Independent Study
Hours: 1-4
Independent Study - Hours: One to four. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. Prerequisites Consent of department head. Note May be repeated when the topic varies.

ARTS 595 - Research Literature & Techniques
Hours: 3
This class prepares the student for writing their exhibition statements and proposals, through a thorough examination of writing, research practices, and exposure to important theoretical issues and significant texts in the field. Permission of instructor required.

ARTS 597 - SPECIAL TOPICS
Hours: 1-4
Hours: One to four - Organized class. Note May be graded on a satisfactory (S) or unsatisfactory (U) basis. May be repeated when topics vary
Technology Management Courses

TMGT 510 - Management of Technology in Organizations
Hours: 3
Examination of cutting-edge engineering and technology concepts, tools and technologies that apply to contemporary technology-intensive organizations. Includes study of organizational structures, effective technical management processes and controls, ethical practices, project evaluation, technology-oriented teams, innovation and environmental quality. Extensive reading, researching the body of knowledge related to the course content and original writing assignments/projects required. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 511 - Emerging Technologies
Hours: 3
Study of emerging technologies and the management, ethical, and societal challenges they pose to engineering and technology organizations. Emphasis on how managers assess emerging technologies, share organizational strategies, make investment decisions, and create organizational structures that can effectively compete in the global market. Extensive research and writing assignments are required. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 512 - Leadership in Engineering and Technology
Hours: 3
Advanced study of the leadership attributes, theories, and concepts found within the contemporary fields of engineering and commercial construction, and within technology-intensive enterprises. Student will be required to conduct extensive reading, research and writing during this course of study. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 513 - Knowledge Management in Engineering & Technology Organizations
Hours: 3
Study of knowledge management and its organizational impact. Students will be required to conduct extensive research into how knowledge management affects the contemporary organization. Emphasis on how organizational knowledge is captured, retained, accessed, and used to provide a competitive edge in the global environment. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 514 - Engineering and Technology Project Management
Hours: 3
Techniques and application of managing projects with emphasis on project management planning, scheduling, graphics, quantitative tools, pricing and estimating, cost controls, trade-offs, risk management, contracts, procurement, quality, and other related topics. Prerequisites: TMGT 595 and TMGT 510 (or corequisite), or permission of Department Head.

TMGT 516 - Group Leadership in the Diverse Enterprise
Hours: 3
Advanced study of interactive management in diverse organizations. Topics to be researched may include: performance ethics, workplace diversity, workplace behavior, decision making, effective communication, employee motivation, project/work teams, conflict resolution, problem-solving and change management. Students will be required to conduct extensive reading, research and writing during the course of study. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 590 - Technology Management Seminar
Hours: 3
Students will conduct an in-depth case study on a topic selected by the program faculty. Topics will vary each semester and will be selected from relevant and timely subjects/technologies. Prerequisites: TMGT 595 (or corequisite), or permission of Department Head.

TMGT 595 - Applied Research in Engineering & Technology
Hours: 3
Study of research methodologies, analysis and processes utilized in contemporary engineering and technology intensive disciplines.

TMGT 597 - Special Topics in Engineering & Technology
Hours: 0-3
Special Topics in Engineering & Technology. Organized class. May be repeated when topics vary.
TMGT 599 - Technology Management Practicum
Hours: 3
This capstone course experience serves as the opportunity for students to demonstrate and document their program learning experience and mastery of expected/required program of study competencies, goals, and learning outcomes within the Master of Science degree in Technology Management. Additionally, administered through this course will be the Master's Comprehensive Examination that will assess the student’s mastery of concepts taught in the required major core courses. This course is to be taken during the final semester of coursework in the TMGT program following the completion of all, or all but one, of the other core courses. Prerequisites: Enrolled in final semester for MS-TMGT degree and within one course of core-complete.

Theatre Courses

THE 511 - Dramatic Theory
Hours: 3
Dramatic Theory. Three semester hours. Studies of the major documents in the evolution of dramatic theory, from classical foundations through major movements to contemporary criticism.

THE 512 - Theatre Management
Hours: 3
Theatre Management. Three semester hours. Study of the practical problems of operating educational and community theatres. Problems of organization, business, and audience development are explored.

THE 513 - Survey of Marginalized Theatre
Hours: 3
A historical survey of influential theatre practitioners – playwrights, designers, directors, producers, theorists, and performers – whose work falls outside of the canon. Particular attention will be given to issues of visibility and accessibility of the diversification of theatre in a contemporary context. Prerequisites: None.

THE 514 - Theatre Pedagogy in Higher Education
Hours: 3
A seminar to aid in preparing students to teach theatre at the college and university levels. The course will explore the art, science, and profession of the collegiate theatre professor. Prerequisites: None.

THE 515 - Scenic Design
Hours: 3
An in depth look at the history, designers, and practical application of scenic design as it applies to theatre. Prerequisites: None.

THE 516 - Costume Design
Hours: 3
A graduate level in-depth examination of the principles, elements, theories, and practicalities of costume design and their relation to overall design considerations in the theatre.

THE 518 - Thesis
Hours: 3-6
Thesis. Six semester hours.

THE 520 - Film Production Elements
Hours: 3
Film Production Elements - Three semester hours This course provides an understanding of the digital world of moviemaking and an overview of major production areas of film making: sound design, production design, and lighting for cinematography. The digital moviemaking segment shows the impact of digital and networked technology on cinematic narrative. Sound design involves identifying sound elements in film, acquiring sounds through external sources or self-creation, and manipulating sounds in coordination with visual elements. Production design helps students understand the artistic look of a film. The lighting component gives students experience with the technical use and aesthetic applications of lighting for digital film making.

THE 525 - Film-Style Production
Hours: 3
Film-Style Production - Three semester hours The course is intended to give students the ability to translate the written screenplay into a narrative film using digital filmmaking techniques, while incorporating an understanding of film theory. An intensive workshop in narrative directing and film production techniques. Students apply skills and knowledge covered in other courses to implement script material into production of a short digital film using techniques of visual storytelling, production design, sound design, lighting design, basic cinematography, and the related issues of casting and rehearsals.

THE 529 - Workshop
Hours: 3
Workshop. Three or six semester hours.
THE 530 - Documentary Production
Hours: 3
Documentary Production - Three semester hours This course focuses on directing and producing documentaries. Beginning with a historical review of significant documentaries and types, the course helps students use this history and theory to be able to produce a semester-long, professional quality documentary project. A combination of workshops and screenings will supplement discussions and analysis to help students understand the difference in storytelling techniques of documentaries compared to narrative films, while also appreciating aspects of film structure that pertain to both documentary and narrative.

THE 541 - Seminar Stage Direct
Hours: 3
Seminar in Stage Direction. Three semester hours. A study of theories and techniques of producing the play: style, genre, movement, business, and visual components.

THE 542 - Dev Mod Theatre
Hours: 3
Development of Modern Theatre. Three semester hours. A survey of the modern theatre from the rise of Naturalism to the present day, with attention being given to the theatrical conditions and changing intellectual climate of the Twentieth Century.

THE 543 - Dev Amer Theatre
Hours: 3
Development of American Theatre. Three semester hours. A study of the theatre as it reflects the social, artistic, and literary interests in America from the colonial period to the contemporary scene.

THE 544 - Playwriting
Hours: 3
Playwriting. Three semester hours. An individual study of dramatic theory, development of the script, and analysis of original scenes and plays. Prerequisite: Consent of the instructor.

THE 545 - Stage Lighting
Hours: 3
Stage Lighting. Three semester hours. Theory of color, optics, electrical instruments, and control for stage production and television.

THE 550 - Theatrical Design
Hours: 3
Theatrical Design - Three semester hours Advanced work that examines theatrical design styles and their place in the collaborative process. Students study the technologies, theories, history, and individual designers essential to the understanding of the theatrical design process.

THE 560 - Acting
Hours: 3
Acting. Three semester hours. Intensive approach to acting styles to help the advanced student (1) sharpen technical skills; (2) gain experience in problem-solving situations for the actor; and (3) increase awareness of the complexities of the actor's craft. Memorized scene work; exercises in language, movement and characterization.

THE 561 - Meisner Acting I
Hours: 3
Through exercises, performance activities, presentations, and written reflection, this course provides the graduate student with a practical introduction to Sanford Meisner’s approach to actor training.

THE 562 - Meisner Acting II
Hours: 3
For the student-actor who has previously acquired a working knowledge of the foundational principles of Sanford Meisner’s approach to actor training, this course provides more advanced instruction in the following concepts: emotional preparation, interpretation, the personalization of text, the deeper wish and spine, personalizing the deeper wish, doings and personalizing the doings, provocative statements, and key facts.

THE 589 - Independent Study
Hours: 1-4
Independent Study. One to four semester hours. Individualized instruction/research at an advanced level in a specialized content area under the direction of a faculty member. May be repeated when the topic varies. Prerequisite: Consent of department head.

THE 595 - Research Lit & Techniques
Hours: 3
Research Literature and Techniques. Three semester hours. A review of current research publications in theatre with emphasis on methodologies used. The student is required to research and write a formal paper using current research methodologies.
THE 597 - Special Topics
Hours: 3
Special Topics. One to four semester hours. Organized class. May be repeated when topics vary.

THE 599 - Rehearsal and Performance
Hours: 3
Rehearsal and Performance. Three semester hours. Preparation and performance, with laboratory, of Summer Theatre, touring, indoor and outdoor productions. Techniques, practices, problems, and processes in lighting, costume, scenic, sound, management, and acting for the graduate student.

Graduate Council

The Graduate Council consists of four elected members from each of the four colleges: Science and Engineering, Humanities, Social Sciences and Arts, Business, Education and Human Services, and one elected member from the College of Agricultural Sciences & Natural Resources. In addition, two graduate students are elected by the graduate student body.

The Dean of Graduate School is an ex officio member and serves as chairman of the Graduate Council.

The Graduate Council formulates procedures related to all graduate programs subject to the policies, rules and regulations of the Texas A&M University System.

Faculty

Amir Abbassi
Professor
B.A., M.A., Ph.D., University of North Texas.

Tiffany Anderson
Assistant Professor
B.A., M.A., Southern Methodist University; Ph.D., The Ohio State University

Stuart Anderson
Regents Professor
B.A., M.S., University of North Texas; Ph.D., University of Oklahoma.

Laurence Angel
Professor
B.S., Ph.D., University of Sussex.

Juan Araujo
Associate Professor and Assistant Department Head
B.S., New Jersey Institute of Technology; M.B.E., Southern Methodist University; Ph.D., University of North Texas

Augustine C. Arize
Regents Professor
B.S., M.B.A., University of Central Arkansas; Ph.D., North Texas State University.

Stephen Armstrong
Professor
B.S., M.Ed., Ph.D., University of North Texas.

Ramya Aroul
Assistant Professor
M.S., BITS, Pilani, India; M.B.A., ICFAI University, India; M.S., Ph.D, University of Texas at Arlington

Melissa Arrambide
Associate Professor
B.A., Baylor University; M.S., Ed.D., Texas A&M Univeristy-Commerce

Abdullah Arslan
Associate Professor
B.S. Middle East Technical University; M.S. University of North Texas; Ph.D. University of California, Santa Barbara.

Guclu Atinc
Associate Professor
B.S., M.B.A., Troy State University; M.B.A.,D.B.A., Louisiana Tech University

Yasemin Atinc
Assistant Professor
B.S., M.B.A., Troy State University; D.B.A., Louisiana Tech University

Salvatore Attardo
Professor
Ph.D., Purdue University.

B

Alexandra Babino
Assistant Professor
B.A., M.Ed., Ph.D., University of North Texas.

Andrew C. Baker
Assistant Professor
B.A., Grove City College; M.A., James Madison University; Ph.D., Rice University

Jeffrey Baker
Associate Professor
B.M., University of Oklahoma; M.M., D.M.A., University of North Texas

Rafael Bakhtavoryan
Assistant Professor
B.S., Armenian Agricultural Academy, M.S., Ph.D., Texas A&M University

Linda Ball
Assistant Professor
B.S., M.S., Ed.D., East Texas State University.

Steven E. Ball
Associate Professor
B.A., Ph.D., Texas Technological University.

Julia Ballenger
Professor
B.S., M.Ed., East Texas State University; Ph.D., University of Texas-Austin

Lloyd Basham
Instructor
B.B.A., M.B.A., Texas AM University-Commerce; M.A., University of Texas at Dallas; Ed.D. Texas AM University-Commerce.

Chris Beaty
Associate Professor
B.S., Austin Peay State University, MA., University of Cincinnati, DMA., University of Memphis

Flavia L. Belpoliti
Associate Professor
B.A., USAL University, M.S., Universidadad de Buenos Aires, Ph.D., University of Houston.

Adolfo Benavides
Professor
B.B.A., Universidad de Puerto Pico, Rio Piedras, Puerto Rico; M.A., Ph.D., Washington State University;

Vipa Bernhardt
Associate Professor
B.A., B.S., Ph.D., University of Florida

Carlos Bertulani
Professor
B.S., M.S., University of Rio de Janeiro; Ph.D., University of Bonn.

Betty Block
Professor
B.S., M.S., Ed.D., Texas AM University-Commerce.

William Bolin
Associate Professor
B.A., Southwest Texas State University; M.A., Texas AM University, Kingsville; Ph.D., Texas Christian University.

Samuel Bore
Associate Professor
B.E.D., Kenyatta University, Kenya; M.E.D., University of North Texas-Denton; Ph.D., Texas A&M University-Commerce

Arthur Borgemenke
Associate Professor
B.S., New Mexico State University; M.Ed., Texas Tech University; Ed.D., University of Texas at El Paso

Thomas Boucher
Associate Professor
B.S., University of Massachusetts, M.S., University of Massachusetts, and Ph.D. Texas A&M University

Jessica Brannon-Wranosky
Distinguished Professor of Digital Humanities and History
David L. Brown
Professor
B.S., M.Ed., Ed.D., East Texas State University.

Son Bui
Assistant Professor
B.S., M.I.S.M., Brigham Young University; Ph.D., The University of Memphis

Gerald Burch
Assistant Professor
B.A., University of Texas; M.S. Naval Postgraduate School; Ph.D., Virginia Commonwealth University

Megan Burke
Assistant Professor
C.P.A., (Virginia); B.S., Virginia Polytechnic Institute and State University; M.S., The College of William and Mary in Virginia; Ph.D., Virginia Polytechnic Institute and State University

Mylynka Cardona
Assistant Professor
B.A., M.A., Ph.D., University of Texas at Arlington

Curt Carlson
Associate Professor
B.A., University of Nebraska; M.S., Ph.D., University of Oklahoma

Maria Carlson
Associate Professor
BA., Marietta College, MS., University of Oklahoma, Ph.D., University of Oklahoma

Kelly Carrero
Associate Professor
B.A., University of Texas at Dallas; M.Ed., University of North Texas; Ph.D., University of North Texas

Shannon Carter
Professor
B.A., Texas AM University-Corpus Christi; M.Ed., University of North Texas; Ph.D., Texas Woman’s University.

Mehmet Celik
Associate Professor
B.A., Marmara University; Ph.D., Texas A&M University-College Station

Hsun-Yu Chan
Assistant Professor
B.Ed., National Changhua University of Education; M.S., Ph.D., University of Wisconsin-Madison

Chu Chen
Assistant Professor
B.S., South China University of Technology; M.S., University of Florida; M.A.cc, Ph.D., University of Texas at El Paso

Dongmei Cheng
Assistant Professor
B.A., Hebei University of Technology, Tianjin, China; M.A., Winona State University; Ph.D., Northern Arizona University

Venugopalan Cheriyath
Associate Professor
B.S., Kerala Agricultural University, India, MS., Indian Agricultural Research Institute, India, Ph.D., Indian Agricultural Research Institute, India, Postdoctoral Fellow Research Associate, Tufts University School of Medicine

Jangsup Choi
Associate Professor
BA., MA., Dankook University, Korea; Ph.D., Texas Tech University
DongWon Choi
Associate Professor (Interim Department Head)
B.E., Taegu University; M.S., Ball State University; Ph.D., Iowa State University

Anil Chourasia
Professor
B.S., M.S., Ph.D., Nagpur University.

Jim W. Clark
Assistant Professor
B.M., University of North Texas; M.M. East Texas State University.

Sherri Colby
Associate Professor
B.A., M.Ed., Ph.D., University of North Texas

Hasan Coskun
Associate Professor
B.S., Middle East Technical University; M.S., Stevens Institute of Technology; Ph.D., Texas A&M University

Dean Culpepper
Assistant Professor
B.S., Berry College; M.S., Ph.D., University of Houston

Quynh Dao Dang
Associate Professor Professional Track
B.S., University of Oklahoma; M.S., Texas A&M University; Ph.D., Texas Woman’s University.

Joseph Daun
Professor
B.F.A., Florida State University; M.F.A., University of Texas at San Antonio

David Davies
Associate Professor
B.M., Houghton College; M.M., D.M.A., University of Miami

Jason Davis
Associate Professor
B.S., M.S., East Texas State University; Ph.D., Colorado State University.

Tony DeMars
Professor
B.S., Texas A&M - Texarkana; M.A., Stephen F. Austin State University; Ph.D., University of Southern Mississippi

Johanna Delgado-Acevedo
Assistant Professor
B.S., M.S., University of Puerto Rico; Ph.D. Texas A & M University - Kingsville

Rebecca Dibbs
Assistant Professor
B.A., M.A., Eastern Michigan University; M.S. Western Michigan University, M.S., Ph.D., University of Northern Colorado

Mary J. Dondlinger
Associate Professor
B.A., M.A., Arizona State University-Tempe; Ph.D., The University of North Texas-Denton

Brent Donham
Professor and Dean
B.S., New Mexico State University; M.S., Stanford University; Ed.D, Texas A&M University-Commerce

Vivian Dorsett
Assistant Professor
B.S., M.S., Texas A&M University-Commerce; Ph.D., Texas A&M University-Prairie View
Mary Druhan  
Professor  
B.M., Louisiana State University; M.M., University of Cincinnati; D.M.A., Louisiana State University.

Jennifer Dryer  
Professor and Department Head  
B.A., University of North Texas; M.E.D., Texas AM University-Commerce; Ph.D., Ohio State University.

Gerald Duchovnay  
Professor  
B.A., University of Pennsylvania; M.A., Ph.D., Indiana University.

Josephine Durkin  
Associate Professor  
B.F.A., Virginia Commonwealth University; M.F.A., Yale University.

E  
Douglas Eborn  
Assistant Professor  
B.S., Utah State University; M.S., Ph.D., Kansas State University

Gregory Eckerle  
Assistant Professor  
B.S., M.S., Colorado State University; Ph.D., Kansas State University

Willie J. Edwards  
Associate Professor  
B.A., M.A., East Texas State University; Ph.D., University of Minnesota.

Josh Ege  
Associate Professor  
B.F.A., University of North Texas; M.F.A. Texas A&M University-Commerce

Omar El Ariss  
Assistant Professor  
B.S., M.S., Lebabese American University; Ph.D., North Dakota State University

William Blake Erickson  
Ad Interim Assistant Professor  
B.S., Henderson State University; M.A., Ph.D., University of Arkansas, Fayetteville

F  
Nicole Farris  
Associate Professor  
B.A., Ph.D, Texas A&M-College Station, M.S. Texas State

Maria Fernandez-Lamarque  
Professor  
B.S., I.G.V. University; M.A., Louisana State University; Ph.D., Tulane University

Martha Foote  
Professor  
B. S., M.Ed., East Texas State University; Ed.D., University of North Texas.

Judy Ford  
Professor  
B.A., St. John’s University; M.A., Ph.D., Fordham University.

Haydn A. Fox  
Assistant Professor and Associate Dean of Science & Engineering  
B.A., Ambassador College; B.S., M.S., Southeast Missouri State University; Ph.D., University of South Carolina.

David Frank  
Assistant Professor
B.A., Kent State University; M.A., Ph.D., University of North Carolina at Greensboro

Stephen Freeman
Professor
B.S., M.Ed., West Texas State University; Ph.D., North Texas State University.

Dale Funderburk
Professor
B.A., East Texas State University; M.S., Ph.D., Oklahoma State University.

G

Isaac Gang
Assistant Professor
B.S., M.S., Ph.D., University of Southern Mississippi

Sandra Gates
Associate Professor
B.A., University of Houston-Downtown, MBA., University of Houston, Ph.D., Arizona State University, C.P.A., Texas

Shanan Gibson
Professor and Dean
B.A., Armstrong Atlantic State University; M.S., Ph.D., Virginia Polytechnic Institute and State University

Jennifer E. Glidden
Assistant Professor
B.M., Southern Methodist University; M.M., University of Cincinnati; D.M.A., University of North Texas

Assistant Professor
B.A., M.A., Korea University, Soul, Korea; Ph.D., The Pennsylvania State University

Douglas D. LaVergne
Associate Professor and Assistant Dean
B.S., Southern University A&M College; M.S., University of Arkansas; Ph.D., Texas A&M University

Sean Lauderdale
Assistant Professor
B.S., University of Texas at Dallas; M.A., Ph.D., Texas Tech University

Dongeun Lee
Assistant Professor
B.S., Ph.D., Seoul National University, Seoul, Korea

Larry Lemanski
Regents Professor
B.S University of Wisconsin, Platteville; M.S., Ph.D., Arizona State University

Timothy Letzring
Professor and Dean
B.S. Louisiana College; Juris Doctor, Stetson University; EDD, The University of Georgia

Shiyou Li
Associate Professor
C.P.A., Texas; C.M.A.; B.A., Renmin University of China; M.S., University of Houston – Clear Lake; M.S., University of Houston; Ph.D., University of Texas at San Antonio

Mimi Li
Assistant Professor
B.A., M.S., Sichuan University, Chengdu, China; Ph.D., University of South Florida

Bao-An Li
Regents Professor
B.S., Lanzhou University; Ph.D., Michigan State University.

Lirong Liu
Associate Professor
B.A., Jilin University; M.A., Kent State University; M.S., Ph.D., University of Tennessee

Robynne Lock
Assistant Professor
B.S., University of Texas at Austin; Ph.D., University of Colorado at Boulder

Jose A. Lopez
Associate Professor
B.B.A., Ave Maria College; M.S., Ph.D., Texas Tech University.

Shulan Lu
Professor
B.S., Nanjiang Broadcasting University, China; M.A., Zhejiang University, China; Ph.D., The University of Memphis.

Gregory Lubiani
Assistant Professor
B.B.A., M.A., Ph.D., University of Memphis

Lani Lyman-Henley
Assistant Professional Track Faculty
B.A., University of California; M.S., Ph.D., University of Tennessee.

Inmaculada Cивico Lyons
Associate Professor
B.A., University of Seville; M.A., Texas AM University-Commerce; Ph.D., The University of Texas at Austin.

M

Debra Mahoney
MSN Program Coordinator & Assistant Professor
B.S.N., M.S.N., University of Texas at Austin; Ph.D., Texas Woman's University
Zaki Malik
Associate Professor
B.S., Wichita State University; M.S., Ph.D., Virginia Tech

William G. Masten
Associate Professor
B.S., M.A., Michigan State University; M.S., Emporia State University; Ph.D., Mississippi State University.

Benjamin May
Assistant Professor
B.S., University of Houston Clear-Lake; M.S.W., Washington University Graduate College of Social Work; Ph.D., The University of Houston Graduate College of Social Work

Donna McCrary
Associate Professor
B.S., Texas Tech University; M.S., Southwestern Baptist Theological Seminary; Ph.D., University of North Texas.

Mitchell McGarr
Associate Professor
B.F.A., Texas Tech University; M.F.A., Texas A&M University-Commerce

Carole McKenzie
Associate Professor
B.S., Texas Women's University, Nursing; M.S.N., Yale University College of Nurse Midwives; Ph.D., Texas A&M University College Station

Derrick D. McKissick
Associate Professor
B.A. University of Arkansas at Little Rock, M.A., Ph.D. University of Arkansas

Marta Mercado-Sierra
Assistant Professor
B.A., M.S.W., Ph.D., University of Puerto Rico, San Juan, PR

Leigh Merrill
Associate Professor
B.F.A. University of New Mexico; M.F.A., Mills College

Julia Meszaros
Assistant Professor
B.A., University of Wisconsin, M.A., San Diego State University, Ph.D., Florida International University

Mutlu Mete
Associate Professor
B.S. Dokuz Eylül University; Ph.D. University of Arkansas at Little Rock.

Mary Francis Miller
Assistant Professor
B.S., M.S., New Mexico State University; Ph.D., University of Texas-Dallas

Joyce E. Miller
Associate Professor
B.A., M.Ed., Ph.D., University of North Texas.

Alma T. Mintu-Wimsatt
Professor and Interim Department Head
B.S., University of the Philippines; M.B.A., Ph.D., University of Kentucky.

Zaidy Mohdzain
Professor and Department Head
B.B.A., Western Michigan State University; M.P.A., M.A., University of Illinois; Ph.D, Kent State University

Kent Montgomery
Associate Professor and Department Head
B.S., Montana State University; M.S., San Diego State University; Ph.D., Boston University

Brenda Moore
Associate Professor
B.S.W., Texas Christian University; M.S.S.W., Ph.D., University of Texas at Arlington.

E. Mark Moreno
Assistant Professor
B.S., Montana State University; M.S., San Diego State University; Ph.D., Boston University

Michael H. Morrow
Associate Professor
B.S., Indiana State University; M.M., Morehead State University.

Tami Morton
Associate Professor
BA., University of Virginia, Master of Teaching, University of Virginia, Ph.D., University of North Texas

Ava Munoz
Associate Professor
BA., M.Ed., and Ed.D., from University of Texas-Pan American

Chris Myers
Professor
B.S., United States Air Force Academy; M.S., Ph.D., University of Texas at Dallas.

N

Gilbert L. Naizer
Professor
B.S., M.Ed., Ph.D., Texas AM University.

Anjum Najmi
Assistant Professor
B.A., The University of Texas at Dallas; M.S., Ph.D., University of North Texas

Emily Newman
Associate Professor
BA., Carleton College, MA., The Pennsylvania State University, Ph.D., The Graduate Center, City University of New York

William Newton
Associate Professor
M.Phys., University of Oxford; M.Sc. in Phys., University of Tennessee; Ph.D. in Physics, University of Oxford

Bukuo Ni
Associate Professor
BS., Zhejiang University, China, Ph.D., Chinese Academy of Sciences

Srinivas Nippani
Regents Professor
B.C., M.C., Osmania University; M.S., Indian Institute of Technology; Ph.D., University of Arkansas.

O

Asli K. Ogunc
Associate Professor
B.B.A., Marmara University; M.B.A., Western Michigan University; M.S., Ph.D., Louisiana State University.

Linda Openshaw
Professor and MSW Program Director
B.S.W., M.S.W., D.S.W., University of Utah.
Texas A&M University System Graduate Faculty Member.

Warren Ortloff
Assistant Professor
B.A., M.Ed., Southeastern Louisiana University; Ed.D., Oklahoma State University

Ye-Lin Ou
Professor
B.S., Guangxi Inst.; M.S., Ph.D., The University of Oklahoma.

**Megan P. T. Owen**
Assistant Professor
B.S., M.S., New Mexico State University; Ph.D, Mississippi State University

**P**

**Stephanie Pane**
Associate Professor
B.S., Texas A&M University; M.S., Ph.D., Rensselaer Polytechnic Institute.

**Kodeeswaran Parameshwaran**
Assistant Professor
B.S., University of Jaffna, M. Phil., University Peradeniya; Ph.D., Auburn University

**Heungman Park**
Assistant Professor
B.S., Hanyang University; M.S., Oregon State University; Ph.D., Vanderbilt University

**Dror Parnes**
Associate Professor
B.Sc., Tel Aviv University; M.S., Baruch College-CUNY; Ph.D.; The Graduate Center of the City University of New York

**Jessica Pauszek**
Assistant Professor and Director of Writing
B.A., Stetson University; M.A., Northeastern University; Ph.D., Syracuse University

**Kristan N. Pearce**
Assistant Professor
B.S., M.A.T., The University of Arkansas at Fayetteville; Ph.D., The University of Oklahoma at Tulsa

**Zhi Pei**
Assistant Professor
B.S., Shandong University; M.B.A., Indiana University Northwest; Ph.D., University of North Texas

**Lucy Pickering**
Professor
B.A., West Sussex Institute of Higher Education; M.A., Ph.D., University of Florida.

**Benton Pierce**
Associate Professor
B.A., M.B.A., M.S., Ph.D., Texas AM University.

**April Pitts**
Assistant Professor and Academic Program Director for Paralegal Studies
B.S., Texas A&M University-Commerce; J.D., Texas Wesleyan University.

**Steven Prawitt**
Assistant Professor
B.S., George Fox University; M.S., University of Oregon; Ph.D., University of Utah

**Mildred Pryor**
Professor
B.B.A., M.B.A., Memphis State University; Ph.D., The University of Mississippi

**R**

**Robert Rankin**
Assistant Professional Track Faculty
C.M.A.; B.B.A., University Wisconsin; M.B.A., Texas Tech University; D.B.A, Northcentral University

**Robert Rankin**
Assistant Professor
B.B.A., University of Wisconsin; M.B.A., Texas Tech University; D.B.A., Northcentral University
Mark Reid  
Associate Professor  
B.S., Texas A&M University-Commerce; M.S., Washington State University; Ph.D., University of Texas.

Robin A Reid  
Professor  
B.A., M.A., Western Washington University; M.A., Middlebury College; Ph.D., University of Washington.  
Texas A&M University System Graduate Faculty Member.

Kelly Reyna  
Assistant Professor and Director of Sustainable Agriculture  
B.S., Tarleton State University; M.S., Texas A&M University; Ph.D., University of North Texas

Stephen Reysen  
Associate Professor  
B.A., University of California Santa Cruz; M.A., California State University; Ph.D., University of Kansas.

Jacqueline Riley  
Associate Professor  
B.A., University of Colorado-Boulder; M.A., University of Colorado-Colorado Springs; Ed.D., Texas A&M-Kingsville

Samantha Roberts  
Assistant Professor  
B.A., M.A., University of Wolverhampton, U.K.; Ph.D. Coventry University, U.K.

Chester Robinson  
Associate Professor  
B.A., Bluefield College; M.S., Radford University; M.A., Appalachian State University; Ph.D., University North Carolina.

Robert Rodriguez  
Associate Professor  
B.A., University of California; M.A., Ph.D., University of Kansas.

Karen Roggenkamp  
Professor and Assistant Department Head  
B.A., University of Michigan; Ph.D., University of Minnesota.

Anthony Rosselli  
Associate Professor  
A.S., Blinn College; B.S., M.S., Ph.D., Texas A&M University

Sam Saffer  
Professor  
BA, University of Texas-Austin; MAS, PhD, Southern Methodist University.

Carmen Salazar  
Professor  
B.A., College of Santa Fe; M.A., Ph.D., University of New Mexico.

Luis Sanchez  
Professor  
M.M., D.A., Ball State University.

Erika Schmit  
Assistant Professor  
B.S., University of Louisiana Lafayette; M.S. University of Louisiana at Monroe; Ph.D., Texas A&M University-Corpus Christi

Michael Schmit  
Assistant Professor  
B.S., University of Texas at San Antonio; M.A., University of Louisiana at Monroe; Ph.D., Texas A&M University-Corpus Christi

Jennifer L. Schroeder  
Professor
B.S., M.S., Ph.D., University of Wisconsin-Madison.

**Virgil Scott**  
Professor  

**David Scott**  
Professor and Department Head  
B.M.E., Baylor University, B.M., Baylor University, M.M., The Ohio State University, Ph.D., The Ohio State University

**Padmapani Seneviratne**  
Associate Professor  
B.S., University of Peradeniya, Sri Lanka; M.S., Ph.D., Clemson University

**Yuying Shi**  
Assistant Professor  
B.A., Shanghai Finance and Economics University; M.S., Kent State University; M.S., Ph.D., University of Florida

**Amny Shuraydi**  
Assistant Professor  
B.A., University of Michigan, M.A., University of Windsor; Ph.D., University of Texas at Dallas

**Steven S. Shwiff**  
Professor  
B.A., University of Texas; M.A., St. Mary’s University; Ph.D., Texas AM University.

**Chris Simpson**  
Professor  
B.S., M.Ed., Ph.D., University of North Texas.

**Becky Sinclair**  
Associate Professor  
B.S., Texas AM University; MAT, University of Texas at Dallas; Ph.D., Curtin University of Technology.

**Nikolay Sirakov**  
Professor  
M.S., Sofia University; Ph.D., Bulgarian Academy of Sciences.

**Dimitra Smith**  
Associate Professor  
B.S., University of Arkansas; M.Ed., Ph.D., Iowa State University

**Chad Smith**  
Associate Professor  
M.S., East Texas State University; M.A., Texas AM University-Commerce.

**John H. Smith**  
Professor  
B.A., M.A., University of North Carolina; Ph.D., University of Albany.

**Marcus Smith**  
Assistant Professor  
B.S., M.S., Missouri University of Science & Technology; D.B.A., University of the Incarnate Word

**Kevin Snow**  
Assistant Professor  
B.A., M.S., Shippensburg University of Pennsylvania; M.A., Pennsylvania State University; Ph.D. Old Dominion University

**Stephen Starnes**  
Associate Professor  
B.S., Ph.D., Texas Tech University.

**Susan Louise Stewart**  
Associate Professor  
B.A., M.A., Southwest Missouri State University; Ph.D., Illinois State University.
Sang C. Suh
Regents Professor
M.S., University of Hawaii; Ph.D., Southern Methodist University.

Jiaming Sun
Professor
B.A., Shanghai University; M.A., Fudan University; M.A., Ph.D., University of Illinois at Chicago.

Susan Szabo
Professor
B.S., Western Michigan University; M.S., Ed.D., Oklahoma State University.

David Tan
Professor and Department Head
B.A., Mansfield University of PA; M.Ed., Ph.D., University of Arizona

Sonia Taneja
Associate Professor
B.S., M.S., University of Delhi; M.S., Texas A&M University-Commerce; Ph.D., Kurukshetra University

Urcun John Tanik
Assistant Professor
B.S., The University of Texas at Austin; M.S., Ph.D., University of Alabama at Birmingham

Paul Tapper
Assistant Professor
B.A., Dordt College; M.Ed., Ph.D., Texas A&M University-Commerce

Nathaniel Templeton
Associate Professor
B.M., M.E.D., Stephen F. Austin State University; Ed.D., Liberty University

Monica Tenhunen
Assistant Professor
B.S.N., San Diego State University; MS., University of California; D.N.P., Johns Hopkins University

Josh Thompson
Associate Professor
B.M., Trinity University; M.Ed., Dallas Baptist University; Ph.D., University of Texas-Arlington.

William E. Thompson
Professor
B.A., Northeastern State University; M.S.Ed., Southwest Missouri State University; Ph.D., Oklahoma State University.

Tara Tietjen-Smith
Professor and Department Head
B.S., M.Ed.; Northwestern State University (Louisiana); D.A., Middle Tennessee State University.

Karin Tochkov
Associate Professor
B.A., M.A., University of Heidelberg; M.A., Ph.D., State University of New York at Albany.

Yvonne Villanueva-Russell
Associate Professor, Dean, University College
B.A., M.A., Western Illinois University; Ph.D., University of Missouri-Columbia.

Elizabeth Wachira
Assistant Professor
B.S.N., University of Mary Hardin-Baylor; M.P.H., University of North Texas-Health Science Center; Ph.D. Texas Woman's University
Julee Walker
Associate Professor
B.M., The University of Texas at Austin; M.M., San Francisco Conservatory of Music; D.M.A., University of North Texas

Zhe (Richard) Wang
Assistant Professor
B.C.A., Ph.D., Victoria University of Wellington, New Zealand;

Yuehua Wang
Assistant Professor
B.S., North University of China, Taiyuan, China; M.S., North University of China, Taiyuan, China; Ph.D., Beihang University, Beijing, China

Tingixu Wang
Professor and Department Head
B.S., Shandong University; M.S., Ph.D., Southern Illinois University

Vaughn Wascovich
Professor
B.F.A., Youngstown State University; M.F.A., Columbia College.

Lillian Casey Watkins
Assistant Professor
B.A., North Carolina State University; M.F.A., Southern Illinois University-Carbondale

Brian Weaver
Assistant Professor
B.F.A., University of Pennsylvania; M.F.A., University of Florida

Mary Ann Webb
Assistant Professor
B.S., M.S., Ed.D, Arkansas State University-

Pamela Webster
Assistant Professor-Professional Track
B.S., M.S., Ed.D., Texas A&M University-Commerce.

Thomas P. West
Professor/Department Head
B.S., Purdue University; M.S., Ph.D., Texas A&M University-College Station

Elvira White-Lewis
Associate Professor, Department Head
BS., North Carolina A&T State University, M.A., University of Maryland, J.D., University of Maryland School of Law, Ph.D., Prairie View A&M University.

Cynthia Ross Wiecko
Assistant Professional Track Faculty
B.A., University of Nevada; M.A., Ph.D, Washington State University

Wallace Williams
Assistant Professor
BA., Morehouse College, Ph.D., University of Mississippi

Robert L. Williams
Professor
M.S., Texas A&M University-Commerce; Ph.D., Texas Tech University

Kurtis Williams
Associate Professor
B.S., The Pennsylvania State University; M.S., Ph.D., University of California Santa Cruz.

Tim Wilson
Assistant Professor
C.F.E., B.S., University of Southern Mississippi; J.D., Ph.D., University of Mississippi

Mary (Pam) Winn
Professor and Department Head
Matthew A. Wood
Professor
B.S., Iowa State University; M.A., The University of Texas at Austin; Ph.D., The University of Texas at Austin

Rebecca Worley
Assistant Professor
B.F.A., M.F.A., Texas Tech University

Ruiliang Yan
Associate Professor
B.A., Southwest Agricultural University; M.S., Sichuan University, China; Ph.D., University of Wisconsin

Seung Won Yoon
Professor
B.A., Sung Kyun Kwan University; M.A., Ph.D., University of Illinois at Urbana-Champaign

Brian Zator
Associate Professor
B.M.E., Baylor University; M.M., University of Michigan; D.M.A., University of North Texas

Zengshan Zhao
Associate Professor
B.M.S., Norman Bethune Medical University, Jilin, China; M.D., Ph.D., Yonsei University College of Medicine, Seoul, Korea
