

Supply Chain Management B.B.A.

Have you ever considered the amount of coordination it takes between companies in order to develop and deliver a product to an end user? Supply Chain Management (SCM) is a diverse field that encapsulates the company's ability to link processes, practices, and people in a timely manner. The Bachelor of Business Administration in Supply Chain Management equips its students to meet this growing demand. The program aims to provide the knowledge base necessary to excel in critical SCM areas to ensure the company's success in design, assembly, and delivery of their product.
